The effect of the ailantus tree upon health is very bad. Capt. C. Curtis, of New York, is suffering from the effects of poison from this tree. In July and August the pollen is particularly poisonous. The following we find in the New York Star is instructive. It savs:

"Capt. Curtis is a friend of ex-President Arthur, and when he read in the papers. how, after beneficial trips in the park, he always had relapses after returning home, he went to his house to see if there was an ailantus handy. There was. On the ave-nue in front of his house there were rows of them and three in the back yard. The captain diagnosed the case at once, and told General Arthur that he was breathing poison. He quoted lots of cases of that kind until the ex-President was at last impressed, and promised to go away. He went to New London and began to mend at once. Captain Curtis said that he knew of lots of such cases in this city. In Brooklyn the health authorities have made war upon them long ago."

Here is a description of Senator Batler, of South Carolina, that may or may not be complimentary according to the political standing point from which it is viewed. The Springfield (Mass.) Republican says:

"Gen. Butler, of South Carolina, so famous ten years ago for his reputed connection with the Hamburg massacre, is one of the handsomest, smoothest voiced, and mildest mannered men in the Senate, and

BBS,

Let an active campaign be pressed in September and October. The Republicans are powerless only as they hope for help from disappointed and badly regulated Democratic kickers. When a fellow flops put your foot upon him politically.

Prince Alexander was spirited away by a regiment of Russian cavalry that surrounded his palace at midnight. He was aroused from his sleep, completely taken by surprise, was a prisoner before he knew it and was taken away at a gallop.

It is the duty of every Democrat to frown indignantly upon all kickers. Their aim is to break up the Democratic party. Remember Reconstruction and the Kirk War! Remember Canby's bayonets and Carpet-bag rule! Remember you are men and North Carolinicns.

Mr. Gladstone has prepared pamphlet, which will be published simultaneously in this country and in England. It discusses Home Rule and defends his own course in connection with it. It will be read with avidity by thousands who will wish to see what the great English Liberal has to say.

Morgan is now in Carthage jail, undergoing sentence. — Some days ago mention was made of the fact that Mrs. Paul C. Elder, of Richmond, Va. It represents Chief Justice Ruffin standing near a table. The accuracy of the portrait is remarkable, Gov. Scales says, as do others who have seen it. The great picture, in size about 74x44 feet, is handsomely framed. On the lower part of the frame is the following inscription: "Thomas Ruffin, Sr., who sat as Justice of the Supreme Court of North Carolina for twenty-four years, of which time he presided more than nineteen years as its Chief Justice.
