The Boston Post praises very highly Mrs. Burnett's story just completed in St. Nicholas called "Little Lord Fauntleroy." It is said to be perfect work of its kind. Mrs. Burnett is English but came to Tennessee when about 15 years old. Hence the South has some pride in her.

There was a great consolidation of iron companies effected at Nashville and a dispatch says:

The old double standard is good gates, and some thirty-four others by perenough for the people of this State.

Capt. Leo Vogel, of the steamship City of Palatka, reports that the earthquake went, under his vessel at the rate of 600 miles an hour. He runs between Charleston and Palatka, Fla. He thus describes the earthquake off shore:

"We sailed in the evening, and were about firty miles out of Charleston and eight miles off shore when we felt the earthquake. The wind was southwest and a considerable sea was running. Suddenly I experienced a sensation as though the ves-sel was aground. I knew this could not be. I looked out and the sea had become flat. It was not my first experience with earthquakes, and I knew at once that it was an earthquake. My first thought was of my family in Charleston. Judging by pre-vious experiences, I knew that if the shock at Charleston was as severe as where my vessel was there would hardly be one brick left on another in that city. I expected to hear that Charleston had been knocked into

"The shock lasted may be half a minute, and was accompanied by a rumbling sound. Afted it passed the sea gradually came up again and ran from the southeast as before. believe that what saved Charleston from utter destruction was the sea acting as a water cushion and moderating the shock."

Mark Twain has turned prophet. He has made a careful observation and foretells the doom of Wiggins. A meteoric storm one-eighth the size of the world will appear, and as it 'approaches Canada it will make a majestic downward sweep in the direction of Ottawa, affording a spectacle resembling a million inverted rainbows woven together, and will take the prophet Wiggins right in the seat of his inspiration and lift him straight up into the back yard of the planet Mars and leave him permanently there in an inconceivably mashed and unpleasant condition. This can be depended on.

Sir Michael Beach admits that the evictions in Ireland for three months foot up 1,000 families, comprising 5,311 persons. That is to say, this number of immortals have been rendered shelterless and landless and are turned out to perish in the fields or the highways. But it is the winterthat witnesses the regular work of eviction. Probably by April three or four thousand families will be driven from their homes. It is said that between 1849 and 1881, 42,000 families were evicted. Is it wonderful that the Irish are restive, dissatisfied and ready for a change?

The poet-editor of the Augusta Chronicle says happily of the knightly and versatile man of letters who so recently died in Virginia:

'We trust that his bright spirit has met in the wonderland of eternity the heroes he knew and wrote about in this material sphere. How would the old commanders welcome him, and what a greeting the Chevalier of the Lost Cause, the peerless Stuart, would accord him! The idiom and jargon fushions of composition are having a temporary run, in these times, but another generation will return to the writings of John Esten Cooke."

The Circus Libel Case. Mr. H J. Ellis, agent for Doris' Circus, appeared in Justice Millis' Court yesterday morning to answer to the charge of criminal libel. He was accompanied by his coupsel, Messrs. Russell & Ricaud. The only witness present in behalf of the State was Balaam Fuller, the bill poster, and it was found that he knew nothing of the matter in question, whereupon the Magistrate ordered Mr. Ellis to be discharged. The warrant upon which Ellis was arrested was made on affidavit of the Solicitor of the Criminal Court. It recites that H. J. Ellis, as he is informed and believes, did on or about the 30th day of September, 1886, in New Hanover county, "publish a libel against one P. T. Barnum, by posting and otherwise circulating a printed paper, in which paper the said P. T. Barnum is accused of being the utterer of a foul and phrenetic phillipic against the South and of being a predaceous popinjay, contrary to the form of the statute in such case made and provided, and against the peace and dignity of the State."

The Coming Circus,

Doris' circus, which exhibits in Wilmington on the 6th inst., has received strong endorsements from the press wherever it has appeared. It is said that no show in the country can surpass it in the extent and variety of its features. There are just fifty acts to be seen in the ring and on the elevated theatre stage. These and dozens of other features go to make up a show that eclipses anything in extent and merit that the people of this or any other section have ever observed. In addition to the foregoing, there is to be seen in the great interocean megatherian menagerie almost unceasing numbers of beasts, birds, reptiles and marine monsters. Open dens of wild animals will be exhibited free of charge on the public streets. The grand street parade takes place at 10 a. m. Six different kinds of bands will discourse the popular music of the day.

Superior Court. The continuation of the case of Isaiah Carroll, guardian for Lott Croom, vs. W. C. Murphy and the State of North Carolina, occupied the attention of the Court Re-renting Market Stalls. In accordance with advertisement ma-

by the Market Committee of the Board of Aldermen a number of stalls in Front street and Fourth street market houses were rented by auction yesterday; the parties renting them on the 20th of September last having failed to comply with the terms of rental which required notes with security to be given for the payment of rent monthly in advance. Mayor Hall was present with the auctioneer, Mr. McGirt, and stated that parties renting the stalls in question might rest assured that the city authorities would put them in possession. There were fifteen stalls in the Front street market house and five in Fourth street market, the occupants of which were in default. The bidding was not as spirited as on the last occasion, but the prices realized appeared to be satisfactory to the Market Committee.

The stalls in Fourth street market were rented as follows: Stall No. 2, F. D. Capps, \$10; No. 4, F. D. Capps, \$8.25; No. 1, R. A. Fennell, \$10; No. 5, Joel Douglas, \$8.25; No. 3, T. B. Sikes, \$5.25 per month.

Mr. F. W. Clark, so long a popular resident of this city, has removed to Raleigh much to the regret of "the boys." The duties of his position as General Freight and Passenger Agent of the Seaboard and Air Line require a more central location. Hence the change.

Hon, A. M. Waddell has left for a canvassing tour. He speaks first in Asheville He has appointments also in the Fourth and Sixth Districts, and will probably speak in the First.

W., O. & R. C. Raliroad. Three hundred more signatures have been added to the petition sent to the Board of County Commissioners asking that an election may be held on the question of a subscription of \$100,000 to the capital stock of the Wilmington, Onslow & East Carolina Railroad Company. This swells the total number of signatures to about fourteen hundred. The regular meeting of the Board takes place on Monday next, when they will probably take action in the Public Schools.

The examination of pupils preparatory to their admission to the public schools took place yesterday. In School District No. 2 there were eighty new applicants. The schools open Monday next, and from indications it will be a difficult matter to provide accommodations for all who are seeking admission. The new school building on Ann street would furnish all the facilities desired but it cannot be completed for a month or two yet.

Excursion to Charleston. The excursion to be given to day to Charleston by the Atlantic Coast Line, for the benefit of the earthquake sufferers in that city, has been extensively advertised, from Florida to Washington City, and in all probability will cause the greatest influx of visitors that that place has ever seen. The rates have been placed at very low figures-from Wilmington, four dollars to go and return.

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homosopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands sleep well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet falled to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 26 cents a bottle. schooner Lina C. Kaminsky arrived safely
