#### OUTLINES.

The Knights of Labor at Richmond, Va., have not concluded consideration of the report of the Credentials Committee. -Lynchburg, Va., celebrates its hundredth anniversary Monday next. - Secretary Manning expects to be in Washington next week. - Mrs. Cleveland and her mother have returned to Washington. - The General Convention of the Protestant Episcopal Church of the United States assembled in Chicago yesterday. - The Philadelphia Manufacturers' Association have ordered the mills at Frankford, Pa., to shut down; a strike in one of the mills caused the trouble; over a thousand workmen are thrown out of employment. An old woman and two children (colored) were burned to death near Chester, S. C., Sunday night. - Four men killed by an explosion of giant powder near Deadwood, Da. - Hanlon accepted Ross'

challenge to row on the Thames for £1,000. - The election in Georgia took place yesterday; the Democratic State ticket was elected without opposition; the regular Democratic nominees beat the Knights of Labor candidates for the Legislature. No shocks were felt at Charleston yesterday; the situation there is steadily improving. - Chicago pork packers have determined to teturn to the ten-hour system Monday. - The Mississippi river steamer La Mascotte burned; a number of lives lost; eleven of the crew were badly scalded; the disaster was caused by a boiler explosion. - New York markets: Money 8@5 per cent; cotton quiet and easy at 97 16@9#c: wheat a trifle better. No. 2 October 82#@834c; southern flour quiet; corn heavy, No. 2 October 45#@45#c; rosin quiet at \$1 00@1 071; spirits turpentine

the Boston Baptists do not like Sam Jones.

The progress in rebuilding and rehabiliating Charleston is said to be most marked.

General Miles seems to be in trouble and all because of that old scamp Geronimo. A court martial is talked of.

The papers in the South are united in the opinion that old "Cump" Sherman is the most stupendous liar of his times and country.

Mr. Gladstone is reported as expecting to return to power in the course of three or four months. God grant it. He thinks that Tory coercion will make this a necessity.

Some of the visiting Knights of Labor at Richmond, Va., have stirred up a hornet's nest by their social rights ideas and practices. Richmond is disgusted.

The New Orleans States has changed its form and put on a new dress. It now appears as an eightpage daily. We like the States because it is staunchly, unwaveringly Democratic. So far as we know this cannot be said of any other daily in that city.

Justin McCarthy, the eloquent Irish politician and author, lectured to a great audience in New York in behalf of Charleston. Mayor Grace introduced him. He arraigned England for her tyranny. He said the Tories must either propose some Home Rule scheme or leave power.

Our erudite friend of the Danbury Reporter-Post copies what the STAR said of Knights Templars, and says:

"We consider the use of the word Kuights in the expression of Knights Tem-plar to be redundant. The word Templars of itself means a religious military order. The correct pronunciation is 'Templars' or else 'Knights of the Temple.''

Doubtloss well taken.

Miss Fortescue, the English actress who sued a young lord for breach of promise and received \$50,000 damages, is in New York. The Times says of her:

Those who expect to see in this newest visitor a beautiful woman may be disap-pointed. She has fine regular features and a profile that shows well. In dress she displays taste and elegance."

WILMINGTON, N. C., THURSDAY, OCTOBER 7, 1886.

Hugh Shields is his name. He is an Ohio lark. He is a Democratic so-called candidate in the Ohio Second. It is interesting to know what sort of a politician he is. Well, he is for Blaine, voted for him in 1884, and favors the present High fastened oath against extravagance, judging from the past. — The colored people of this place are moving towards having a cent in the campaign and is the high school. eternal friend of the workingman. Heaven shield the Ohio Democrats

from that Shields! Prof. Proctor, the English man of science who lectured in Wilmington on astronomy, says of the earthquake trouble that "as long a time of comparative quiescence may be expected to follow the present earthquake as we know preceded it." This is comforting. If true Charleston and the coast towns will have a

Beaconfield's autobiography is said to be full of bitter reflections on Mr. Gladstone. The great Liberal leader is so utterly unlike his able antagonist, now dead, and moves upon a plane so very far above that once occupied by his dead reviler that it was impossible for the latter to fairly appreciate the man he animadverts

The difference in the death rate of the two races in Wilmington for September was remarkable-12 whites, 41 colored. The population is 8,000 whites, 12,000 colored. There was only one white death that could be attributed to the climate-death from a congestive chill, and yet September is one of the sickliest months

The Whole of Barnum's Great Show Coming.

Some people seem to have got the impression that only a part of the Great Barnum and London Show is to visit the South. This involves a great injustice to Mesers. P. T. Barnum & Co, which is calculated to do them an undeserved injury, and we are pleased to be able to say, most positively, that the report has no foundation in fact, and should be both discredited and contradicted. We have seen telegrams from high railroad officials, conclusively showing that the great show brings exactly the same number of cars South with which it started from New York city, and that of course, it would not do had it been, in any way, curtailed. It should be borne in mind that this trip South is an experimental one, and the management of the show have every reason to put forth their whole undivided strength to please, for they are most anxious to succeed, and to establish a reputation, which will largely increase their territory, and enable them to pay us continuous visits. The whole show will be here, exactly as advertised, and the South has never seen anything of the kind re-

motely approaching it in magnitude, va-

riety and tone.

People were not altogether pleased with the parade and performance of Doris' circus, which pitched its tents in this city yesterday at the usual place of exhibition. The grand street parade, announced to take place at 10 o'clock, was delayed at least an hour, and the expectant multitude that thronged the streets grew impatient and disgusted. There were twenty-seven cages, three elephants, two dromedaries, a camel, three bands, a steam calliope and equestrians in the parade; but there was a shopworn air about the whole turn-out that detracted greatly from the "grandeur" of the display. Two performances were given, one in the afternoon and the other at night. Neither of them was well attended. There were some features of the exhibition which were extremely interesting and exciting, particularly the contortionists, the trapeze acting. the knife throwing and the Chinese juggler, while other parts of the performance were not so good. The menagerie, however, was above the average.

Superior Court. In this Court yesterday, in the case of P. Cumming & Co. vs. D. D. Barber, in which the jury found the main issues for the plaintiff, Judge Clark reserved his decision on the points raised. In the case of Wm. Campbell vs. B F.

White, a verdict for plaintiff was given on the issues submitted. McRae & Strange for plaintiff; J. D. Bellamy, Jr., for defend-Isaiah Carroll, guardian for Lott Croom,

Sprunt & Son cleared the British steamer Carbis Bay yesterday for Liverpool, Eng., with a cargo of 4,465 bales of cotton, weighing 2,131,267 pounds, and valued at \$200,000. This is the first foreign shipment of cotton from this port this season. It will be followed quickly by others, however, as two more steamersthe Benacre and the Wylo-are lying at the Compress Companies' wharves taking in

Storm on the Gulf. An area of low atmospheric pressure is making its appearance at Key West, Fla. At 10 o'clock last night the Signal Office reports showed that the barometer there had fallen to 29.96 inches, and that the wind was blowing from the northeast at the rate of thirty miles an hour. A storm is apparently off that point on the Gulf. but owing to its present location, nothing definite can be prognosticated as to its future course and energy.

Mev. Mr. Chichester. Rev. Mr. Chichester will preach to night, at 8 o'clock, in the First Baptist church. His subject will be, "Christ Knocking at the Door." His sermon last night at the Second Presbyterian church is spoken of very highly. Mr. Chichester is laboring earnestly in behalf of the wrecked Mariners Home and Chapel in Charleston, 3. C., and it is gratifying to learn that he is meeting with substantial encouragement.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTERS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, collecting, and teething siege. Mrs. Winslow's Soothing Syruf relieves the chilld from pain, and cures dysentery and diarrhosa. It softens the gums, reduces inflammation, cureswind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists.
