THE MORNING STAR.

VOL. XXXIX,--NO. 32.

WILMINGTON, N. C., FRIDAY, OCTOBER 29, 1886.

Mr. J. Raudolph Tucker, of Virginia, a statesman of a very high grade both as to character and ability, made a speech recently in Richmond that the State says "is conceded on all sides to be one of the most powerful efforts ever heard in this city from any public speaker. The setting forth of the citizen's relations to this Government, both State and Federal, was one of the ablest expositions of Democratic principles ever made by any American statesman, But no part of this great speech was listened to with greater attention or left a deeper impression than that in which the tariff question was clearly and frankly presented." At the request of Mr. Beirne, editor of the State, Mr. Tucker has prepared an elaborate article on that subject which appears in the issue of Tuesday last. We shall file it away

The Philadelphia News, Rep., defends Mrs. Cleveland for her failure to go to Richmond. It says:

is now so near at hand.

for future reference, as the election

"The story that she had declined because Miss Davis was to be present at a reception the expected to attend was absurd, and reflected no credit either on the author's ingenuity or heart. As has been said, her reasons relate to herself alone, and every sensible woman would have acted precisely as Mrs. Cleveland did under similar circumstances, and every sensible man understanding the matter would have ap-

What the "circumstances" were it fails to state.

Mr. Wind is a candidate for Congress, and now it is announced that Mr. Hurry is. It is an ill Wind that blows nobody any good, and the last man out ought to remember that Augustus Cæsar held to the maxim, festina lente, which means make haste slowly; and that John C. Calhoun had a borrowed phrase that embodied political wisdom-"masterly inac-

Mrs. Stewart is receiving more space in the Northern papers than any dozen Southerners would receive if they were to all perish at once. Having said all they could and covered as many columns as was possible with stuff concerning her, they are now telling by the column the same old story of old man Stewart's bones, how they were stolen, &c.

Massachusetts has a politician of considerable literary ability by the name of Lodge. He is just now chief fugleman and in a recent speech said that although a Protectionist he favored "a revision and reform of the Tariff." He evidently has some political sense.

According to the New York Sun the President's eccentric phrase "innocuous desuetude" was taken from a novel of Bulwer's, where the words occur in separate sentences. Miss Cleveland has shown that she is quite capable of manufacturing such phrases without aid from any one.

At New Frankfort, Ky., a lad named John Baxton became maddened with jealousy because Alex. Hoard, another boy, kissed his hand to a school girl, and he broke the latter's skull and stamped his face to a jelly. Hoard will die but his sweet-heart sits by his bedside.

It is said to be true that some of Michigan's scoundrels are figuring as managers of the Republican machine. They are allowed to range outside of the penitentiary and set up the political pins. Very natural, "Birds of a feather, &c."

The Wilmington STAR has closed another volume. Age does not dim its lustre. We have many good papers in the State, but the STAR is facile princeps.

- Asheville has now the electri lights in a full blaze.

- Asheville Citizen: The Buncombe Savings Bank was duly organized, with \$20,000 paid up capital yesterday, with C. M. McLoud as President.

- Washington Progress: The report from Maj. Latham's canvass of the district makes the prospects for a victory next week exceedingly bright.

Salem Press: Joseph Yokely, of Davidson county, sheared 49 pounds of wool from 14 sheep. Considering the small cost of wintering sheep this shows that farmers could make good profit by keeping sheep of improved grade. Mr. Yokely has four of Marino stock, that rielded fifteen pounds of wool slone.

- Shelby New Era: At their monthly meeting on the first Saturday in the month, the Boiling Springs Baptist Church resolved to raise the sum of \$9,000 within the next three years, for the purpose of erecting a fine brick church. The church now has about 300 members and will have services every Sunday for the next year. Rev. G. P. Hamrick is the pas tor in charge.

- We neglected to notice the change made in our esteemed contemporary the Wilson Mirror. It is now an eight-page paper, and has 40 columns. It is to appear in new attire. Under Messrs. Blount and Brown it will take a new leas upon life and widen its circulation and influence. We are very partial to the editor personally, and he says many witty, true and handsome things.

- Concord Times: Col. Jim Long in his speech here Friday night, said: The truth is, fellers citerzens, nary one of us are fit to go to the Legislatur; but I am more fitter." —— "I'm not a Democrat— I'm a 'Publican," said a darkey in our hearing the other day; "but the Democrats are the best friends I've got. If I wanted a favor to-day, I'd go to some good Demo-crat to get it 'fore I'd go to a 'Publican."

- Durham Recorder: Col. W C. Blackwell a few days ago commenced building more dwellings. He has com oleted sixty-four and they are all rented. He will continue to build until he erects 58 more in that part of town. - The graded school continues to boom. The interest in the school is very great. The pupils in attendance number over 400. — This morning while Mr. C. C. - New Bern Journal: Died, in Onslow county, on the 18th inst., of dropsy of the heart, at the home of her parents, Mr. and Mrs. E. W. Freeman, Mrs. Maggie Fulcher, beloved wife of Lee W. Ful cher, of Carteret county. — We have had the pleasure of examining some of the final proof sheets of this book (of New Bern), written by our fellow-townsman, Rev. L. C. Vass, and now passing through the press. in examining these sheets we find the book will be of far more interest to all classes in New Bern and elsewhere than we at first anticipated. The information it contains of the early history of this section of North Carolina is worth several times the price of the book.

-- Rockingham Rocket: The Democratic candidates are making a vigorous canvass of the county, and it is as gratifying as it is encouraging to note that, at every precinct, even larger crowds turn out to greet them than did during the heated campaign of two years ago. — Capt. M. D. McNeill, the Democratic candidate for the House of Representatives, made a splendid mpression by his little talk here Saturday. -Who are the Republican nominees for Supreme and Superior Court Judges? We have asked and been asked the question time and again, but nobody seems to know. Even the members of our bar don't know them, personally or by reputation. Four persons who had recently joined the Baptist Church were immersed in the Pee Dee pond last Sunday afternoon, Rev. N.

Mr. Clark, of the Episcopal Church, died very suddenly in that place on Monday morning about 9 o'clock, He dropped dead. Mr. Clark was about 80 years of age, and has spent a long life in faithful works. — The air was full of farewells about the Air Line depot last night—colored people bidding goodbye to home, kindred and friends. A large number of these people, old men, women and children, numbering between sixty and a hundred, took their departure on the north-bound train on their way to Liberia. More victims. This cropped out at a speaking in Sharon township. — The bazsar by the ladies of the Lutheran church congregation opened last night,

The election law makes it the duty of the registrars and judges (the poll-holders) to attend on Saturday-to-morrow-at the polling place of their township or precinct with the registration books, from the hour of nine o'clock a. m. till the hour of five o'clock p. m., when and where the said books shall be open to the inspection of the electors of the precinct or township, and any of said electors shall be allowed to object to the name of any person appearing on said books. In case of any such objection the registrar shall enter upon his books, opposite to the name of the person so objected to, the word "challenged," and shall appoint a time and place, on or before the election day, when he, together with said judges of election, shall hear and decide said objection, giving due notice to the voter so objected to; provided, that nothing in this section shall prohibit the right of any elector to challenge or object to the name of any person registered or offering to register at any time other than that above specified. If any person challenged or objected to shall be found not duly qualified, the registrar shall erase his name from the books.

Got Away Again. Anthony Howe, Jr., (colored), whose arrest in Boston, Mass., was mentioned in the STAR a few days ago, made his escape from the officer sent to bring him back to this city. No particulars of the escape were given beyond the statement that Howe had been brought from Boston to New York by boat, and soon after his arrival there managed to get away from the officer who had him in custody.

Howe, it will be remembered, was con victed of perjury at the last term of the Criminal Court for New Hanover county. but escaped before he was sentenced. Detectives were put upon his track and he was arrested in Boston, Mass., and last week an officer was sent from this city to Boston to bring Howe back to receive sen-

The Light Infantry Parade.

The parade of the Wilmington Light Infantry yesterday afternoon proved almost as great an attraction as a circus procession. Crowds of people were on the streets, and apparently very much interested. The special feature of the parade was the skirmish drill. The "rally by fours," "rally by company," the firings, the wheelings and flank movements were excellently executed. The marching in echelon was also well done and elicited favorable comment from many of the spectators The company turned out some thirty or more in number, and made a handsome appear-

The "skirmish drill" is evidently popular with the people and the company should practice it often.

Fell in a Well. An old man named Samuel Atkiuson, patient at the City Hospital, fe'l headforemost into a well on the premises last Wednesday night. Dr. Lane heard the old
man's cries and groans shortly after the
accident happened, however, and soon had him taken out. It was found that Atkin son had sustained no severe injuries; a sprained ankle, and a cut on his head and on one leg being the extent of the damage. The well is twenty-five feet deep, and contained about three feet of water.

U. S. Court. Mr. F. H. Busbee, U. S. Attorney for the Eastern District of North Carolina, writes to request that notice be given that no witness or defendant need attend the U 8. District Court at Wilmington until the day after the election-Wednesday, Novem ber 23d.

U. S. Marshal Richardson has already given notice to jurors that they will no be required to attend until that day.

OPERA HOUSE.

The Bohemian Girl. The large crowd which greeted the Bijou Opera Company last night was most enthusiastic and the reception "The Bohemian

Girl" met with was most cordial. That the audience were pleased was very evident and that the company were cogni-

zant of this fact was most patent.

The opera is moral, chaste and beautiful, and has many good points, which were appreciated and applauded by all those present.

The choruses were excellent and the blending of the different voices showed a thorough training which was recognized and received most flattering testimonials from those present.

Miss Adelaide Randall, as Arline, won the admiration and plaudits of every one, and that her sweet, clear soprano voice was acknowledged and enjoyed none could doubt, from the repeated encores she received. When Miss Randall sang "The Silver Line" the house was carried away and demanded its repetition again and

The quartette composed of Misses Randall and Hoyt and Messrs. Travener and Peakes, in the first part of scene third, second act, was admirable and was demand ed repeatedly.

The house was enthused and so was the company and there was nothing to counteract this feeling throughout the whole performance.

The Cold Wave. The cold wave reported in the Northwest several days ago prevailed with considerable intensity in the Gulf States early yesterday morning. Light frosts occurred in the northern part of Florida and southern part of Georgia and Alabama, killing frosts in the northern part of Georgia and through the Mississippi and Ohio valleys, The lowest temperatures reported from the Gulf States yesterday were 34 at Atlanta, 37 at Montgomery, 38 at Mobile and 42 at Pensacola.

The minimum recorded at the Signal Office in this city was 49 during early yesterday morning. At 10 o'clock last night the temperature in this city was 52-fourteen degrees lower than at the corresponding hour of the previous night.

Charged with a Deadly Assault. Wm. Myers, colored, was arrested yes terday and gave bond for his appearance

to-day in Justice Millis' court to answer to a charge of forcible trespass and assault with a deadly weapon on Fanny Mallett, colored. Myers, it is alleged, went to the woman's house, in the neighborhood of the cotton factory, Wednesday night, and was refused admittance, when he broke the door into splinters, and after he had effected an entrance struck at her with an axe, just as she was escaping from the

Coroner's Inquest.
