VOL. XXXIX,-NO. 39.

WILMINGTON, N. C., SATURDAY, NOVEMBER 6, 1886.

Change them when you get up. We | maries last summer scratched their tickets suggest additional covering on the foot of the bed as a good substitute. In cold weather lay the bolster across.

The Democrats have lost heavily in the Congressional elections, but not enough to lose control of the House. It is impossible as yet to give the exact figures, but at the time we write the returns indicate a majority of ten to fifteen. Later intelligence may modify these figures either way; but it seems almost certain that the Democrats will have control. The election of Mr. Carlisle, though not absolutely certain, is almost assured.

P. S.-A special to the STAR, received late last night, announces the election of Simmons, in the Second District, by a plurality of 1,853.

"Cotton Movement and Fluctuations, 1881-1886, by Latham, Alexander & Co., Bankers and Commission Merchants, New York," has been received. Like all its predecessors, this edition is gotten up in very handsome style, and is replete with information of the highest value to all who are interested in cotton. The statistics cover every point of importance, and the book, at \$2.00, is dirt cheap to every dealer in cotton. As a specimen of typography it is almost worth the money.

The North Carolina Legislature is in doubt, at least so far as the House of Representatives is concerned. It is probable that the Republicans and Independents may control that body. The Senate, however, we consider safely Democratic; and we feel con-it. The land has since been cut up into town lots and sold at \$1.25 a square foot. fident the Democrats will have a small majority on joint ballot. In any event, we do not believe that all the Independents will vote with the Republicans.

To show how very criminally apathetic the Democrats are look at Savannah. Only 488 Democratic votes polled. Then look at Carlisle's own county. It gives him 3,500 majority ordinarily. This year his majority is but 500. The Democrats did not vote, not knowing there was any opposition. The Tariff had nothing to

ELECTION NOTES IN NORTH CAROLINA

-- Raleigh Visitor: The status of the Legislature has evidently been much changed, and it would seem that in the House of Representatives there is a clear majority of all combinations over the regu. lar Democracy. There are also many changes in the Senatorial districts, and the strength of the parties in the Senate will be very close. The reversion of political opinion in the State since the last general election is anomalous and seems to have been a surprise to politicians of all shades.

—Oxford Torchlight: Not a single Democrat is elected. Many old Democrats refused to go to the polls, and others went over to the enemy in revenge for the no-fence legislation. Things are in a bad fix

-- Asheville Citizen: We give it up; we are beaten, but not dismayed. "Boodle," not brains, has carried the good old Democratic county of Buncombe. We have fought the good fight, but the world, the flesh and Mr. Pearson (with his "boodle") were against us. Several hundred Democrate, of Asheville township alone, failed to

- Pittsboro Record: It will be seen that the Democratic Legislative nominees are defeated but the nominess for the county offices are all elected. The total vote of the county is unusually small, nearly 1,000 less than at the last election. Hence the Democratic loss. Had there been a full vote, all the Democratic nomi-nees would have been elected by large ma-

- Charlotte Chronicle: The latest news from Shoe Heel is to the effect that Col. Rowland's majority will be something over 1,000. Jones received four votes at that precinct for constable. — A leading Independent, on learning that Griffith was beaten, said: "I never felt so mean in my life He was a good man and I voted for him, yet helped to accomplish his defeat, by bringing out Cooper. I only wanted to defeat the candidates for the Legislature who had been prohibitionists,

- Charlotte Democrat: A wellinformed gentleman in the mountains writes us that the influence of the Cleveland administration did the Democratic party no good in that section in the late elections.

- Raleigh News Observer: The The Administration neglected to a good working majority—or rather we have no cause to think otherwise. The from. - In this county the falling off from. — In this county the falling off in the Democratic vote cast for Maj. Graham, compared with that cast for Gov. Scales, will probably be fully 1,400; while Mr. Nichols will increase the vote given to York by about 800. — Charles R. says he will accept the result with equanimity. This is well. He will need all the equanimity he can command henceforth. That article is not so handy as the salary of Congressman, but it is very necessary to one who has been beaten as Charles R has been clean out of his boots. — We cannot believe that any Democrat who has voted

against his party this year means to adhere to the Republicans, - Durham Recorder: Civil ser-D. T. R. Allison says the way to prevent cold feet in bed is to wear lamb's wool socks or use a hot bottle.

- Charlotte Observer: The Fair Grounds were yesterday visited by good growds, and all found that the Observer was correct in saying that the exhibition is the best that has been made here for a long time past. The race opened with a half-mile dash, the entries being Vaucluse, by Wright, and Drake by Medinger; and although Drake passed Vaucluse when half around the track and was coming in on the home stretch in fine style, Vaucluse won the race, coming in at the close alone. When within about 200 yards of the finish Drake, who had the outside, flew the track and hurled his jockey through the air. Drake broke through the railing enclosing the track, while the jockey went ploughing through the dust and landed on

was picked up in an insensible condition. - Capt. O. Smith in Baltimore Manufacturers' Record: When I came to Durham in 1876 there was not a pair of kid gloves or a pleasure vehicle in town. Every man's pocket was his bank. All were North Carolinians. Land in the suburbs was worth but \$2.50 an acre. Everything was done in open market. Tobacco, wagons and land were sold at auction to the highest bidder. One piece of land that I saw sold then for \$75 has since changed hands for \$700, next for \$7,500, and it is now worth \$17,000. An acre was sold to an old man, who erected a cheap frame house on it. It was blown down, and while he was preparing to build again he was offered \$700 for the property. He accepted the bid and moved away from Durham, saying

he would not live in a place where land was

When we called at Duke's factory yesterday morning we saw an order for 300,000 cigarettes from Stockholm, Sweden. Duke, Sons & Co. shipped during the month of October 30,111,450 cigarettes from

their Durham factory alnne. — Blackwell Durham Tobacco Co. yesterday re-ceived two large orders from Hamburg and - Monroe Enquirer Express: The potato crop-sweet and Irish-made excelent yields this year, and they are about the only ones we can report as having done so.

— At 2 o'clock this morning Capt. J. J. C. Steele, one of the most estimable citizens of Jackson township or the county, sustained a heavy loss by the burning o his cotton gin, grist mill and three bales of cotton. Seven other bales of cotton be longing to neighbors were also burned. Incendiary work. - Rev. J. A. Wright, who has been pastor of the colored Presbyterian Church in Monroe for the past three years, has received and accepted a call to the pastorate of a church at Amelia C. H., Virginia. Mr. Wright, during his residence in Monroe, has conducted himself in a quiet, respectful and gentlemanly manner. — Wilson Laney, a young man about 25 years of age, who has lived with Mr. Doc Moore, of Chesterfield counfor several years, met with a sad death on last Saturday night. He went to Mr. Joe Knight's, from whom he procured a quart of wine and drank it He next went o a wagon which was returning home from Monroe, and strange (1) to say this wagon had a jug of liquor procured (it is supposed) in our prohibition town. He was given a drink of liquor, and afterwards got possession of the jug and drank, it is thought, about a quart. He died im-

Another Earthquake Shock. A decided shock of earthquake was experienced in Wilmington yesterday afternoon, about 12.25 o'clock. It was felt by people indoors in all parts of the city, causing many persons to run from their dwellings into the streets. The duration of the shock is variously estimated at from five to fifteen seconds; the movement being from northeast to southwest. It is said by some to have been the most severe shock experienced since the heavy one on the night of the 31st of August. A faint rumbling noise preceded the tremor, but was not observed by people generally. At Tileston Academy the shock caused such fright among the children that the principal dismissed the school for the day. It was reported that plastering was shaken down in one of the rooms. The violence of the shock was also said to have cracked the walls of several brick buildings about town, but it was ascertained upon inquiry that the cracks referred to were in existence before the shake. A crack in the front wall of the building on the northeast corner of Market and Water streets, however, was considerably widened and lengthened by the shock.

At the gas house a colored man came near being buried alive by an avalanche of coal that was shaken down from a pile

near which he was working. At Smithville, the shock was quite severe. The Signal Service observer reported that nearly all the people ran out of their houses iu great alarm Crockery and glassware on their tables rattled, and buildings were shaken. The colored population of the place have resumed their religious exercises which had been suspended since the last

Scarcity of Steam Tonnage. The Roseville is the only steamship now loading cotton at this port, and but one -the Everest-is reported on the way hither. All the Southern ports complain of the lack of steam tonnage, which fact explains the large stocks of cotton on hand at Savannah and other ports awaiting shipment. Freight rates at Savannah, in consequence, are now 20 per cent. higher than they were in the middle of September. The cause of this scarcity of steam tonnage is said to be the advance in grain rates from the Black Sea and India. This carrying trade is very brisk now and all the best steamships are busy. The insurance and premium on vessels are less from the Black Sea than from America, and they can carry much larger cargoes out of the Black Sea. - Fish dealers are making large | The coaling stations in the Black Sea aud shipments to interior points. The supply Mediterranean are close together, and the coal bunkers that would have to be filled with fuel on this side are filled with cargo on the other.

OPERA HOUSE.

Patti-Rosa as Zip. Patti Rosa is certainly a bewitching sizen and on her appearance last evening at the Opera House she completely captured the arge audience in attendance. She is Patti-Rosa and yet an old theatre-goer is constantly reminded of Lotta, Katie Putnam and Maggie Mitchell. The play "Zip" affords her an excellent vehicle for the display of her peculiar talents and brings out the strength of her supporting company in

an admirable manner, Judging from the fact that Lotta has given her permission to produce her favorte plays, she, too, must deem the young lady her legitimate and most worthy successors. She is a graceful dancer, a de lightful vocalist and altogether a charming actress. She was often applauded last night and frequently called before the curtain.

This afternoon a matinee will be given by Miss Rosa and company when "Zip" will be repeated, and to-night the company make their last appearance in Lotta's great success, "Bob."

MRS. WINSLOW'S SOOTHING. SYRUP.—REV. SYLVANUS CORE thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any considefinished with the teething slege, on any consideration whatever.
