STATE OF ADVERTISING: One square One Day, Two Days, Three Days, Five Days, One Week, Two Weeks, Three Weeks, One Month, Two Months, Six Months, One Year.

OUTLINES. The total visible supply of cotton for the world is 1,929,353 bales. Twenty-three persons were killed and sixty injured by the railway accident in England.

James Barron Hope was born on the 23d of March, 1829. He had done his day's work, gone home, taken a meal, laid down and slept. His paper, the Norfolk Landmark, says: "At that time, 8 o'clock, he rose to get off the bed, and had put one foot to the floor, when he suddenly drew his hand to his heart, his face became deathlike in its pallor, he leaned back on the bed and his spirit was in the presence of his God."

The Landmark announces his death editorially in a few touching words. Then follow the last editorials the gifted hand ever penned. How pathetic! How full of warning! In the account of his death it is said: "Of a lofty courage, which knew no fear, he was as gentle and winning in his manner as a woman, and to his friends as true as steel."

Local Notes. Four marriage licenses were issued the past week—one to whites and three to negroes. The Criminal Court for this county will convene at 10 o'clock tomorrow morning.

Services in St. John's church today by the rector, Dr. Carmichael, at 7.30 a. m., 11 a. m., and 5.30 p. m. The British steamship Everest, Capt. Douglas, arrived here yesterday, to load cotton for Liverpool, at the Champion Compress.

Rev. C. L. Arnold will officiate at St. Paul's church this morning at 11 o'clock and on the three Sundays following. Sunday school at 4 o'clock. Carpenters are placing in position rafters for the roof to the Lecture room of the new Methodist church at the corner of Fourth and Mulberry streets.

Grace Methodist Sabbath School has changed its hour of meeting from five o'clock to three o'clock, commencing this afternoon and continuing until further notice.

To-morrow being the Hebrew New Year will be celebrated by our Jewish fellow citizens with the usual observances. Their stores and other places of business will be closed.

There were eight interments in the cemeteries of this city the past week—one in Bellevue, two in Oakdale, and five in Pine Forest (colored) cemetery. Five of the eight were children.

English services will be held in St. Paul's Evangelical Lutheran church at 11 a. m. to-day. No services at night, as the pastor, Rev. F. W. E. Peschau, will preach in the Jewish Temple.

There was a lifting match yesterday morning on Dock street. Capt. John Zellar lifted three double sacks of shot weighing three hundred pounds and Capt. Virginius Hall lifted two hundred pounds.

The question is asked, "Would it not be a good idea for all our churches to have services at the same hours? Then one who could not hear the bell of his own church could go by the bell of some other church."

Grace Methodist church at the Temple of Israel—There will be no services this morning. Rev. F. W. E. Peschau, of the Lutheran church, will fill the pulpit at 8 o'clock p. m. Sabbath school at 8 o'clock p. m.

At the Fifth Street Methodist church to-day, Rev. D. H. Tuttle will preach at 11 a. m. on "The Kingdom of Christ; Its Final Triumph." At 8 p. m. on "Instantaneous Conversion and How the Converts Hold Out." All are invited.

U. S. Marshal Richardson writes to the STAR to correct the misstatement that he had received funds sufficient to pay jurors and witnesses for the last term of the U. S. Court. He says: "I have funds for the present fiscal year but none yet for the last. That will be provided for when Congress meets."

There was no rain in the Wilmington cotton belt yesterday. The temperature was from three to twelve degrees lower. The lowest maximum recorded was at Charlotte, 71 degrees. Wilmington and Lumberton 74, Weldon 75, Cheraw 76, Salisbury and Wadesboro 77, Goldsboro 78, Newbern 80 and Florence 81.

The warehouse on the steamer Hurt's wharf, at the foot of Chesnut street, was broken open Friday night, but so far as known nothing was stolen—not even Mr. Madden's umbrella, which stood conveniently behind the door, and was about the only article that could have been conveniently carried off.

Personal. Sheriff Manning has gone to Heidelberg, Pa., on a brief visit. Mr. Morrison Divise, of the Atlantic Coast Line, is in the city. Mr. F. A. McArthur, of Grand Rapids, Mich., is in the city, representing the Sheffield Railroad Velocipede Company.

Maj. Foster, city editor of the Review, who has been sick for some time, is recovering, and hopes to resume his position on the paper in a few days.

Infants. Some of the police were engaged Friday in investigating an alleged murder of a newly born infant by its unnatural mother, somewhere on the northern outskirts of the city. It was learned that the woman was colored, and shortly after she had made way with the child, through her own imprudence was taken sick and died a day or two ago. What disposition the woman had made of the body of the murdered child, could not be learned.

The Equinox. The following was included in our press dispatches last night, relative to the cyclone reported southwest of Cuba in yesterday morning's STAR: "The morning reports to Signal office in Washington from Havana, Cuba, indicate the cyclonic disturbance, referred to yesterday, as being to the westward of Cuba, and as probably now curving to the northward."

No information regarding the storm could be obtained at the Signal Office in this city—the disturbance having made no visible impression on the Gulf coast as yet. In conversation yesterday, relative to cyclones and the equinoctial storm a STAR reporter was asked as to the probability of one for this section this year. The reporter not being posted concluded to investigate for his own as well as the benefit of others interested. During a short interview with one who knows, the following facts were in substance elicited: Cyclones vary in diameter, from 100 to 1,000 miles. Storms of extensive area are generally accompanied by moderate winds, the severity of which usually increases in proportion to the decrease of the storm's centre.

The width of the tract traversed by these storms, extends from the foot of the Rockies to some distance into the ocean, and it can thus readily be seen that all equinoctial storms need not necessarily strike the same place every year. They apparently all originate at the same place, but their course is regulated by certain atmospheric conditions, and their diameter being but a fractional part of the territory traversed, greatly reduces the chances of striking any particular point. Some atmospheric disturbance usually occurs during the earth's equinox, and it cannot be said that it has not occurred if it fails to reach any particular locality. Last year's equinoctial storm, it will be remembered, visited the eastern coast of Texas with sad havoc, and passed up the Mississippi Valley into the lakes, thence up the St. Lawrence Valley, across the ocean, and was severely felt in England.

The Board of Audit and Finance will meet in regular session tomorrow afternoon, at 3 o'clock.

See fourth page for other local news. Our Minister to Japan. AUSTIN, TEXAS, March 3, 1882. Mr. A. K. HAWKES: Dear Sir—I am much pleased with the pantoscopic glasses you so perfectly adapted to my eyes; with them I am enabled to read, as in my youth, the finest print with the greatest ease. I cheerfully recommend them to the public.

THE FLORENCE NIGHTINGALE OF THE NURSERY. The following is an extract from a letter written to the German Reform Magazine, at Chambersburg, Penn.: A Bazaar was given for the purpose of raising funds for the American Florence Nightingale of the Nursery. It was a success. We will teach our children to say, a blessing on Mrs. Winslow for helping her to survive and escape the griping, colicking, and teething aches. And the griping, colicking, and teething aches. And the griping, colicking, and teething aches. And the griping, colicking, and teething aches.

Reduction of Fare. With the approach of the winter season, Capt. J. W. Harper, general manager, announces a reduction in the fare to Carolina Beach, and a change of schedule, to take place on Wednesday the 21st inst. The fare to the beach and return will be only twenty-five cents. The Passport, on and after the date mentioned, will leave her wharf at 9.30 a. m. and 12.30 p. m. The Sunday schedule will be the same as heretofore.

The River. There has been a rise in the upper Cape Fear and steamboats are encouraged in the belief that the "low stage" season is over. Capt. Smith, of the steamer D. Murkison, arrived yesterday at 10.30 a. m., reports that the Cape Fear river at Fayetteville had risen three feet up to 12.30 p. m. Friday, and was still rising. There were about five and a half feet of water on the shoals. The Murkison brought down 273 bales of cotton, besides naval stores.

The skilled optician, Horace L. Cason representing Hawkes' Crystallized Spectacles, can be seen for a few days at R. R. Bellamy's drug store. Do not fail to see him about your eyes. Consultation free. sep 18 11

There are now 27 prisoners in Wake county jail and still crime is decreasing, say the Judges.

The prospect of hanging the Anarchists in Chicago gives universal satisfaction except to the fellows to be hanged.

We fear the great inventor and genius Thos. Edison, is not far from his death. He is reported as in a very bad condition.

Five ocean steamers are homeward bound, freighted with sight seeing Americans. And still they never saw Round Knob or Waccamaw Lake.

The World sent six reporters to Saratoga to interview the Republican delegates as to their choice for President. Of 372 delegates who answered, 201 were for Blaine, 23 for Depew, 19 for Lincoln, Sherman got but 4. The non committal were 100.

Henry George says his campaign will cost \$50,000. He is counting on the Anti-Poverty Society raising the "spendulies." That is a new way to get rich by spending your money. That is on a par with the Protection idea of taxing a country to death to make it prosper.

John Sherman has opened the campaign in Ohio with a red hot speech of the most sulphurous and lurid kind. He gave the American eagle a few flips, wrung the tail of the Ohio mule, uttered a war whoop, danced a war dance, painted his face black and then pulled on the old bloody shirt. John is now ready for scalps.

We thought that Dean Scott, of "Liddell and Scott" Greek Dictionary fame, had been gathered to his fathers long ago. His book was in use more than forty years ago. The New York Churchman says:

"Dean Scott has intimated his intention of resigning the Danery of Rochester on account of continued ill-health. He was appointed Dean in 1870, having been Master of Balliol for sixteen years, and will receive a pension of \$1,000 a year."

"The STAR don't seem to know much about Ohio. They are humane, civilized, and Christian people in Ohio."—Chicago Fair Echo.

But "humane and Christian people" never slander their fellows, bear false-witness and indorse mouthing demagogues in their ferocious vituperation. Such people pull at the beam in their own eyes before digging at the mote in the eyes of their neighbors.

Col. W. F. Beaseley, of Oxford, calls a meeting of the Confederate Home Association at Raleigh 20th Oct. 1887. He says:

"The meeting will be held at the fair grounds and will be addressed by distinguished survivors of 'The North Carolina Troops.' The principal object of the meeting will be to decide whether North Carolina shall or shall not provide a Home for her indigent old soldiers."
