thered at the Post Office at Wilmington, N. C as Second Class Matter.

REDUCTION IN PRICE.

Attention is invited to the following reduced rates of subscription:

DAILY STAR, By Mail:

.,ne Year \$6.00 Three Months 1.50 One Month..... 50 To City Subscribers: Parce Months \$1.56

One Week..... 12 WEEKLY STAR, By Mail: One Year \$1.00 Six Months 60

Three Months 30

The reduction in price will, we are confident, add materially to our already large circulation, thus making the paper more valuable than ever to advertisors.

Our telegraphic news service has recently been largely increased, and it is our determination to keep the STAR up to the highest standard of newspaper excellence.

OUTLINES.

Gen. F. C. Latrobe, present incumbent, has been unani mously nominated as the Democratic candidate for the Mayoralty of Baltimore. - St. Louis is drenched with rain, which has greatly interfered with the Grand Army parade; despairing of good weather, many thousands of veterans have left for their homes. - A Berlin dispatch states that the Frenchhot on Saturday on the border, were trespassing on German soil. -The offerings of bonds at the Treasury yesterday amounted to only \$55,900, which the Secretary regards as a very good sign, as showing a feeling of greater confidence and security. - The Chicago wheat market yesterday was weak under heavy receipts, corn higher, and provisions stronger and more active. - The New York Democracy, in State Convention at Saratoga, yesterday nominated State officers, and adopted a lengthy platform, embodying the car-

dinal principles of the Democratic party; the endorsement of the President was greeted with tumultuous applause. — The Manchester markets are quiet in all departments, while prices were steady, and occasionally a slight weakness. - The Grand Army parade in St. Louis yesteday was a huge affair, notwithstanding the drenching rain which prevailed during its progress; the men were nearly all equipped with umbrellas and rubber coats, and had their trousers rolled up. - Gen. Edward Hopkins, collector at St. John's, Fla., died in Jacksonville yesterday. — The Massachusetts Republicans met in State Convention yesterday at Boston, adopted a platform of principles, and nominated candidates for State officers, headed with Oliver Ames for Governor. —

One additional death from cholera at New York quarantine; no new cases reported, and no danger is apprehended of a spread of the plague. - The cutter Thistle will not be ready for to-day's race. -New York markets: Money easy at 465 per cent., closing offered at 5 per cent.; cotton quiet at 9 9-16@9 11-16c; southern flour quiet; wheat-options closed steady; No. 2 red October 803 @81%c; corn-No. 2 October 51@51%c; spirits turpentine steady at 324c; rosin steady at \$1 071@1 121.

THE MORNING STAR.

VOL. XLI.--NO. 6.

WILMINGTON, N. C., THURSDAY, SEPTEMBER 29, 1887.

WHOLE NO. 6557

the truth of any public matter. Now it is emphatically denied that the President called a conference at Oak View for the purpose of framing a Tariff measure. All that was discussed was how far he might go in his message to Congress. The Baltimore Sun is our authority for this. It says farther:

"The President holds that the function of devising tariff legislation does not belong to the Executive but to Congress, and that all he can do is to urge upon that body the performance of its obvious duty in affording the people some relief from their burdens. In the meantime, for the information of Congress, the Treasury Department is preparing a comparative statement showing the duties on every article under the last three tariff acts, the amount of revenue produced, the cost of collection and the classes of citizens to be benefited by retention of the present rate."

To show that the STAR is read, let us mention two recent facts: First. we recently commended Theo. H Hill's poems. A letter to the poet runs: "The STAR speaks so highly of your poems I will be glad if you will send me a copy, etc." Second, we mentioned receiving a letter from a New York merchant thanking us for what we said of ex-President Davis. Yesterday's mail brought us a letter from a North Carolina mercantile firm, asking for his address. They are pleased to say:

"We also desire to add our sincere thanks for your noble defence of one of our oldest, purest and best men and statesmen. We rejoice to know that North Carolina possesses men who have too much true manliness to fall into line with the 'News and Courier order,' and with best wishes and high regards, we are, etc."

The inevitable Pat Donan has been writing up Saratoga. The New Orleans States goes for the most excessive ink slinger of the age. We copy s sentence or two:

"Donan's fustian pen-pictures may be amusing to readers of a western paper, and may for aught we know be taken by them as veracious; but to us, who are neither of the East or the West, his frothy flights of rhetoric are to be received not alone cum grano, but, as he himself would say, toto cum sacco salis-with an entire sack of saline dubiety.'

Whenever Pat mounts his rhetorical coach he drives at least twenty steeds, and they run away with him. His adjectives are awful enemies.

Mr. J. H. Campbell is to have charge of the Macon Telegraph. He

'I regard the present tariff rates as unnecessarily high and shall support the President and the great body of the Democratic party in their efforts to reduce the same. A gradual reduction that will not seriously interfere with manufacturing interests seems to be the reasonable course. I shall not forget that the great agricultural interests of the country must be considered in reaching a just conclusion '

Other Protection papers in the South would do well "to draw in their horns."

Bronson Howard's new comedy, entitled "Henrietta," was played at Union Square Theatre, New York city, and was a hit. A large audience were delighted. Howard is probably the best American playwright living.

A letter from Mr. M. J. Battle, a leading farmer and man of education near Whitaker's, in a recent letter says: "Let me say that no one enjoys the fruits of your well stored brain and prolific pen more than I."

The new class at Princeton numbers 140. We would like to see that number entering Chapel Hill.

Weather in the Cotton Belt,

There was more or less rain yester day at all the stations in the Wilmington cotton belt. Wilmington Station reported a "trace," and Salisbury one and two-hundredths inches -the highest. At Cheraw, Florence. Lumberton and Wadesboro, there was less than half an inch. The highest temperature reported was at Florence and Goldsboro-82 degrees. Wilmington registered 81, as did Lumberton, and Cheraw. The maximum at Salisbury was 73 degrees and the minimum 45-the lowest recorded for the twenty-four hours ended at 7 p. m. last night.

The Clyde Line-Additional Facilities. The management of the Clyde steamers have put an additional steamer on the line from New York to this city. This will give two steamers next week-the Gulf Stream sailing from Wilmington Wednesday, October 5th, and the Regulator Saturday, October 8th. The new arrangement will afford ample facilities to shippers at this port, at whose request, no doubt, the additional steamer was put on the line, the demand for freight room here being very great.

Mayor's Court.

There were only three delinquents before the Mayor yesterday morning. The cases were soon disposed of.

Anna Smith, colored, arrested on the charge of disorderly conduct, was dismissed, the testimony against her being insufficient.

Minerva Williams, colored, charged with permitting hogs to run the

streets, was fined five dollars. Samuel Smith, colored, charged with doing business as stevedore without license, had his case continued until to-day.

Mr. J. L. Croom has rented the stores Nos. 24 and 26 North Water street, corner of Princess, where he will conduct a wholesale and retail dry goods and grocery business. Mr. Croom has gone North to select his stock, and in the meantime the building is being put in order for its new occupant.

Sad News. A telegram received here last night from Fayetteville brought the painful intelligence that Mr. Nathan A. Stedman was so seriously sick that it was feared he might not live through the night. His two sons, Lieut.-Gov. Stedman and Mr. Frank H. Stedman,

-The warm spell has given the yster traffic a set-back.

-There is considerable sickness among children in the city.

-The steamer Benacre will load cotton at the Wilmington Compress. -Building operations are brisk

and promise to continue so throughout the winter. -There is a heavy crop of mast this year, indicating, some people

say, a hard winter. -The fourth annual exhibition of the Eastern Carolina Fair and Stock Association will be held in Goldsboro October 26, 27 and 28.

-Two steamers will leave New York for Wilmington this week-the Gulf Stream to-morrow (Friday), and the Regulator on Saturday.

- Receipts of cotton yesterday 1,674 bales. Total receipts for the crop year 32,854 bales; to same time last year 9,021 bales. Increase, 23,883

-Don't forget the meeting at the Produce Exchange to-day at 12 m., to consider the Cape Fear & Yadkin Valley Railroad extension to Wilmington.

-The new storm signals which were ordered to be used on and after September 1st, 1887, have not yet been received at the Signal office in this city.

-The seven prisoners sentenced to the State penitentiary at the last term of the Criminal Court, will leave for Raleigh this morning in charge of two of Sheriff Manning's deputies

-The Wilmington Light Infantry have decided to equip themselves with new uniforms, each member agreeing to an individual monthly assessment until the amount required

-The meeting of colored people at the City Hall Tuesday night to hear the address of John H. Williamson of Raleigh, Secretary of the State Colored Industrial Fair, was poorly attended. The fair will be held on the 25th of October.

-The police were on the track yesterday of a colored boy who struck a white girl a severe blow in the face a day or two ago, while she was trundling a baby carriage on the streets. If the fellow is caught he will no doubt get his deserts.

Superior Court. In the case of A. D. Puffer vs. A. P. Lucas, concerning the use of a soda water machine, judgment for \$66 was rendered against the defendant. A motion for a new trial was made by defendant's counsel. MacRae & Strange for plaintiff; J. D. Bellamy

for defendant. The case of Rose Carter vs. W. A.

Stedman & Weill for defendants.

Shell-Fish Advertising.

In its issue of the 24th, our esteemed contemporary the Messenger mentions that it had been selected as one of the two "leading newspapers" of the State in which to print the advertisement of the Shell-Fish Commission. And in its issue of the 28th it again refers to the matter and says: "The Raleigh News-Observer and the Wilmington Messenger are the two papers designated to do the official advertising." Very well.

We refer to this matter with no object whatever except to do simple justice to ourselves. The advertising of the Shell-Fish Commission was offered to the STAR before it was offered to the Messenger; but the letter of the Commissioner stated that no appropriation had been made to pay expenses of advertising, and was so discouraging throughout as to future payment, that we decided not to accept the offer.

The Anticipated Storm.

The storm which occasioned copious rains in the Gulf States on Tuesday has changed its direction and is now moving up the Mississippi Valley. Owing to its anticipated approach to this section the signals were displayed at the Signal Office in this city by order of the chief officer in Washington; but as soon as the change in its course became apparent they were ordered down-signifying that this coast was apparently free from its visitation.

Rains of an inch and more were reported from the Western part of this State, Virginia, South Carolina and various points in the Gulf States and Mississippi Valley. The atmosphere still seems unsettled in this district and rain may yet be occasioned by the storm's passage north of this point.

The approach of the storm towards the area of high pressure has largely reduced the energy and greatly retarded the progress of the cool wave, so nothing definite can be stated in regard to it.

mali Steam Yachts.

A recent ruling of the Treasury Department in regard to small steam yachts, says:

The hull and boiler of every yacht, or other small craft of like character. propelled by steam, without regard to size of vessel, provided it can be used in navigation, must be inspected, the boiler being subjected to the hydrostatic test required by law. The pi lot and engineer must also be licensed, and such other provisions of the law complied with as may be applicable to the particular vesse under examination.

A license as "special engineer" for small steam yachts or pleasure vessels will be granted to any person of good character who has sufficient experience to manage the boiler and machinery safely. A similar "spe-cial license" as pilot for such vessels will be granted to any person of like good character who is familiar with be employed, understands the pilot rules, and has had sufficient expe rience in handling this or other similar vessels. The master of a vessel in this class does not require license.

The Graded Schools.

The superintendent of our graded schools wishes us to announce that he will be at the Hemenway school to-morrow from 10 a. m. to 12 m., for the purpose of examining new pupils. He will examine new pupils at the Union school to morrow from 3 p. m. to 5 p. m. Children living north of Market street attend the Hemenway those living south of that street at the Union school. The schools open for work next Monday and all should be prompt in attendance.

New pupils for the colored schools will be examined next Monday when the schools open.
