The Show Last Night.

Prof. Lonanda concluded his engagement in this city last night and made his triumphant exit amid the plaudits of the multitude.

The house was again crowded and the performance was as amusing as heretofore. There was the usual juvenile slugging watch, and in which Master Tom McNurmery was declared the victor.

The most exciting part of the en tertainment to a large majority of the audience was the distribution of prizes. There were quite a number of these and some were valuable. Ticket No. 563, held by Mr. S. H. Fishlate, drew a horse—a real live animal with four legs and a head and tail, and warranted to eat his fill of oats, and go a mile in less than no time. Mr. Fishblate being well supplied with horseflesh, will put his new acqusition up for raffle. Among the other prizes was a watch drawn by Ed. Boston, colored; an ice-pitcher by Mr. J. D. Gardner, and a cake-stand by Mr. M.

The News from Chicago.

Yesterday's issue of the STAR, containing full accounts of the final proseedings in the case of the condemned Chicago Anarchists was in great, demand, and hundreds of extra copies of the paper were sold. Later in the day the announcement that the death penalty had been executed upon four of the condemned, was bruited abroad, and considerable anxiety was manifested to learn if the execution had been accompanied with demonstrations of violence by friends and sympathizers of the prisoners. There was but one expression of opinion among the people-black and white and that was that the culprits richly merited their doom.

Our press dispatches this morning give a graphic account of the execution and attending incidents. The last dispatch, received at one o'clock this morning, seems to indicate that the Anarchists are bent on mischief, and may yet seek a bloody reprisal.

Government Buoy. A large iron buoy, supposed to be the whistling buoy ordered by the Lighthouse Board to be placed in position near Frying Pan Shoals, arrived on the steamer Benefactor yesterday from New York. The Government-buoy-tender Wisteria was here the early part of the week in search of this buoy, which it was expected would be brought by the Gulf Stream on her last trip.

The Naval Court held at Savan nah, Ga., has rendered a decision which settles the so-called wet cot-

ton question, so far as British steamships are concerned. The decision is as follows:

"Finding and order of a Naval Court held at Savannah, on the 7th, 8th and 9th days of November 1887, to investigate and inquire into the result of a protest made by the crew of the British steamship Naples of Lon-don, official Number 70.728, and to determine whether the wet cotton late--Cotton moved up to 10 cents for ly discharged from the said British steamship is in such a condition, or is likely to become so through deterioration during a voyage to England, as to be a source of danger to the health of the said crew if the said

wet cotton is re-shipped, and carried

under the hatches of the said steam-

ship Naples; That after hearing and carefully considering the evidence presented to this Court, which evidence included the testimony of nine physicians, seven of whom were decidedly opposed on sanitary grounds to the hipment of the said wet cotton beow the decks of the said steamship Naples, and after a personal examination of the said wet cotton, and also the quarters occupied by the sailors and firemen on board the said ship, The Court is of the opinion, and so

decides, that the protest made by the aforesaid crew has been fully sustained, and therefore it decrees that the said wet cotton be not re-shipped ander the hatches of the steamship

The Savannah News says that this decision is important, inasmuch as it establishes a precedent by which, no

doubt, the captains of steamers suffering similar losses will in the future be guided. The decision enables them to refuse to take over the cotton which is damaged in their own ships, though vessels sailing under the same laws take that same cotton and carry it to Liverpool under hatches, while the vessel in which it was damaged col-

lects freight. It is stated that the owners of the British steamship Resolute cabled -John Walker, colored, who fell | Capt Reaveley, at Savannah, to put

Naples and others carry the wet cotton. There are 10,000 bales of cotton, which, it is said, have deteriorated \$10 a bale since taken from the ships. The doctors' bills are coming now, and some of them are charging \$100 for their expert testimony.

A Terribie Crime.

An outrageous assault was perpetrated last Wednesday night by two negro ruffians on Mrs. Ada Sellers, a respectable white woman living on Thirteenth between Market and Meadow streets. Mrs. Sellers lives alone-her husband being in Savannah, Ga. She was aroused late in the night by the negroes, who demanded with oaths and threats that the door should be opened. The frightened woman ordered them to leave and threatened to shoot them if they did not go, but the men laughed at her threats, and finally broke the door down, dragged Mrs. Sellers out of the house and assaulted her. She fought her assailants and cried out for assistance but her cries were soon hushed by one of the black brutes who choked her until she was nearly unconscious. As soon as she escapted from their clutches she made her way to a neighbor's house where she remained until daylight. When she returned to her home in the early dawn, Mrs. Sellers found that the place had been plundered and what little money she had was stolen. Mrs. Sellers was severely bruised in her struggle with the two negroes. Her neck and throat were swollen and livid with the imprints of their fingers. The men were strangers to her and there is no clue to their identity.

Cotton Comment.

There was a reaction in cotton futures yesterday. The New York market was feverish and unsettled, but the tendency was weaker and showed a pretty general decline throughout the day until the last call, when a somewhat steadier feeling prevailed, with a partial recovery of the de cline. The market closed with a net loss of 15 to 18 points from the close of the day before. The transactions were enormous, reaching an aggregate of 299,100 bales.

Opinions here are nearly equally divided as to the probable course of the market to-day; but unless something not now in sight should appear, it is not likely that there will be either a bulge or a break. The bulls still ring the changes on the shortcrop estimates; while the bears are en conraged by the excess of receipts over last year, aided by the convic tion that the recent estimates of the crop will ultimately prove to have been very much too low.

-The office of the Western Union Telegraph Company in this city has been in a rush for the past two days. The excitement in the cotton market has been a bonanza to that corporation, Manager Brown being equally accommodating to bulls and bears.

Aileged Violation of the Insurance

About a month ago a communicaion was received by Sheriff Manning from Col. W. L. Saunders, Secretary of State, enclosing a letter from Mr. W. H. Roach, general agent of the Life Insurance Company of Virginia, which stated that a party was soliciting insurance in this city for the Imperial Insurance Co., of Detroit, Mich., without license, and asking that steps be taken to stop the "underground business." Upon this information, a warrant was issued for the arrest of the party, but it was found that he had left town. Yesterday the person referred to-Mr. W. H. Ryan-came into Justice Millis' office and surrendered himself, asking an investigation. The witnesses

named in the papers received from the Secretary of State were summoned and an examination was had, but as no testimony was given tending to criminate the defendant, the Magistrate ordered his discharge. Mr. Ryan said that he had not been

acting for the Imperial Company, but was agent for the Presbyterian Mutual. He admitted that he had commended the Imperial as a good company and one worthy of confidence. The order for his arrest was issued under section 3061 of the Code of North Carolina, which makes it unlawful to contract or solicit insurance with a resident of the State without a license.

Handsome Display Notwithstanding the Bad Weather.

TARBORO, Nov. 10.—This is the big day. Thursday opened very unpropitiously, being cloudy, indicating rainy day. Notwithstanding the ugly appearance of the morning, by noon the crowd could be safely estimated at 2,000 to 2,500. The fine racing which was to take place was prevented by the rain, which commenced after dinner and continued till about one
