The Morning Star THE QUEST. FROM THE GREMAN OF HEINRICH HEINE,

BY LEE PHILLIPS. Up ! Saddle thy steed, my doughty Squire, This do and thou lovest me, Ride fast through burn and brake and brier

Till Duncan's castle thou see. And when thou in the King's stronghold To the stables thee has hied, Straight to the groom thy quest unfold, "Which Princess is the bride ?"

Saith he. "'Tis the one with the nut-brown hair."

Ride for thy life to me; But is 't my love, the maiden fair, Such haste there need not Le.

Then buy for me a hempen cord. So I my weurd shall dree, And ride thou slow, speak never a word, The rope bring back to me. OUR STATE CONTEMPORABIES.

Before one word is said in Congressions debate, the Democratic members should meet in caucus and decide upon the action of the party. In that caucus every member of Congress representing a Democratic constituency in the States of Kentucky, Virginia and North Carolina, should stand up manfully for his people, but when the question is decided, every man of them should draw his battle blade and swear eternal fidelity to the National Democracy .-Wadesboro Messenger.

Race peculiarities are no less marked and influential in their tendencies and results than those of individuals. If there are potent reasons why a certain individual should not be forced into a certain sphere of life, and why it would be cruel to place him under the conditions of such a sphere, why does not the same thing hold good in relation to races? If it is wrong to spoil a good blacksmith to make a starveling attorney, why is it right to ruin a race of successful cotton choppers and cooks in a vaia attempt to transform them into scientists and Senators? It seems to us that along this line there is food for much sober reflection. -Goldsboro Advance. The Republican party makes a great hue and cry on account of the solid South, and

questions our loyalty, impugns our motives on all occasions, and in every Republican convention their resolutions are bitter and full of hate. The hate is with them, not with us. We are for the Government. to be administered for the good of the people, they are for the spoils. Ever since the war the people of the South have by every act manifested a desire to let bygones be bygones. It has endeavored to work only for the good of the country; to place men-men of character and brains-in all places of trust, and to do this, it was and is, a necessity that Democrats fill the offices. The country holds the white people of the South responsible for every act, and especially for a just and equitable administration of her affairs. Experience has proved that to ensure this the

most important lines in the State and is in good condition. — Last night closed the third week of Mr. Pearson's meetings at the First Baptist Church. Never in the memory of any citizen of Raleigh has there been such a general and wide-spread awakening on the subject of religion as has been witnessed in this city during the past three weeks. It is not confined to any class or condition of society but is felt in every circle, from the most dissipated man who has for years plunged into every excess to the

wealthiest and most respected of our citizens. During the meeting there have been about three hundred and fifty conversions and about as many backsliders have been reclaimed, and the enquiry room is crowded nightly with penitents. - Raleigh News Observer : It is estimated that the State Treasury will begin the new fiscal year with something like \$95,000 in the treasury. The State Treasurer's estimate of resources for the year 1883 was based upon a total tax valuation of property of \$262,000,000 at 23 cents on

the \$100. This, with the various special taxes, would, according to the estimate made, make the total resources for the year \$792,997.06. It was supposed at the time the estimate was made that the legislature would reduce the State tax from 25 cents to 23 cents on the \$100; but the tax was reduced to 20 cents, and on the basis of \$202, 000,000 worth of property the resources would fall short of the estimate. It appears, however, that the valuation of property in the State will be \$209,000,000. upon which a tax of 20 cents on the \$100 will be collected. From this source will be derived a revenue of \$422,000 which will be increased by the various special taxes to \$773,627.06, thus making the actual resources \$19,370 less than the estimated resources. The estimated expenses for all purposes including all appropriations for 1888 are \$697,650. This includes everything for which the State will be liable during the year. Then it appears that there will be a balance in the treasury of \$75. 877 06 at the close of the fiscal year of 1888 Add to this the smount in the treasury at the commencement of the fiscal year December 1st, 1887, which amount is \$95,-000 and there will be a total balance at the close of the year 1888 of \$170,977.06. Now if the drummer's license tax, amounting to

\$80,000, about which there is so much talk and which unscrupulous and ignorant persons are making an excuse for crying down the price of State bouds, he lost to the State, there will be still a balance in the treasury of \$90,077.06 at the close of the year 1888 after every liability has been met. which includes the interest on all four and six per cent. bonds out-standing. Besides this, the State has recently bought in nearly \$300,000 of her bonds. - Raleigh News Observer: Dr. Burkhead was born in Davidson county and was the son of William Burkhead, a staunch supporter of the Methodist faith. At the time of his death he was in the 64th year of his age. He enjoyed few advan-

well as by the N. C. Conference. The re-

tages in youth. He was but a year or so at college, He was reared on a farm and taught school for a while. His life was insured for \$1,500 No member of the Methodist church in North Carolina was more widely known and highly revered by people of all classes and denominations, and his loss will be vividly realized and deeply Democrats, or white people of the South felt by the people of the State generally as must rule.-Fayetteville Observer.

How a Dying Child Was Saved !

CICEBO, HAMILTON CO., IND., Sept, 19, 1887 .-The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her licel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became factor all the time, seeming to lose the use of her leg, and finally quit walk-ing entirely. The middle finger and thumb of either hand became enlarged, the fiesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1986 We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hus of her checks has changed to a rosy tint. She is able to walk anywhere, her languor and . melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to you, should you wish to use them. Kindly yours, BEN. F. SWIFT. GERTRUDE E. SWIFT. P. O. Box 66. Treatise on Blood and Skin Diseases mailed THE SWIFT SPECIFIC CO., Drawer 8, Atlanta, Ga. nov 17 1y th ch w MOLLETS,

Chapel Hill dots : Mr. Weeks's report of "Famous North Carolina Duels" was a subject well thought of and very entertaining. He gave a summary of the law against duelling and the history of each case. First notable duel fought near Wilmington-1766 -in the days of Gov. Tryon-between a relative of Mrs Tryon and "one of the people"-Whitehurst and Simpson. Twenty-two is all and eleven men killed. Washington Cor. Baltimore Sup. WASHINGTON, Dec. 3 .- Senator Ransom arrived here last night from his plantation North Carolina, and has taken posses-

sion of his old apartments at the Metropolitan Hetel. He says the people of North Carolina are considerably worked up over the internal revenue question, and would rejoice to see the system wiped out of existence. In spite of their large interests, however, he says they are willing to make certain concessions in order to reduce the surplus in the treasury. He does not anti-cipate any serious difficulty in passing a reform tariff bill through the Senate. CRISP AND SHORT.
