In the Senate, yesterday; a unanimous report was presented in favor of seating Mr. Faulkner, of West Virginia, and by a vive voce vote the renort was agreed to and the oath of office administered; a number of bills were referred, after which the Senate took up the bill introduced by Mr. Morrill to regulate immigration, and was addressed by that Senator in explanation and advocacy of the bill: the House was not in session. - Many English Catholics decline to sign the address to Mng'r Persico, in favor of home rule for Ireland.

-The condition of the German Crown Prince's throat has suddenly become worse, and a special medical consultation has been called. -Balfour, Chief Secretary for Ireland, addressed an immense assemblage at Manchester last night against home rale: threats had been made to assassinate him, and police guarded all the approaches to the platform, and his sleeping apartments are also under guard. - Gen. Boulanger declines a seat in the Chamber of Deputies; he expects war, and thinks France is in greater need of generals than of deputies. There was free selling in the Chicago market yesterday, and lower prices in grain and provisions. -The trial of Hopkins, the assistant cashier of the Fidelity Bank, Cincinnati, was yesterday postponed until Tuesday, on account of the extreme The meetings of representatives of the Northern and Southern Presbyterian assemblies at Louisville are held in secret, and not a word has been given for publication. - Mr.

illness of Judge Sage's wife. -Powderly's physicians say his case is not now serious, and that he only needs rest. - A caucus of the Republican members of the Virginia Legislature has nominated Mahone to succeed Riddleberger in the Senate. — The citizens' ticket was successful in Jacksonville, Fla., yesterday. - Sir Thomas Henry Grattan and Hon. Arthur O'Connor, leaders of the Irish home rule cause in the English Parliament, reached Washington city yesterday afternoon and were accorded a magnificent reception. - A fire in Marietta, Ga., destroyed \$25,000 worth of property.

It is now known that the Crown Prince's disease is cancerous.

Booth and Barrett are playing in Boston. Nym Crinkle, one of the brightest and best of theatrical critics in our country, writes to the World:

"Booth appeared to be stimulated to his best endeavors by the brilliancy and enthu siasm of the audience, and in several of the scenes exhibited all of his old fire, while he retained all of his old grace and lacisiveness of utterance.

"Lawrence Barrett, who is probably the best living Cassius, recalled his old triumphs at Booth's Theatre, and Ned Buckley, the Marc Antony, succeeded in sharing the honors in the forum scene.

"Probably no finer elocutionary effort has been made than was jointly made by these players in the dignified declamatory work of this play, and it was a genuine treat to find at this hour of star exclusiveness and æsthetic flippery a Shakespearean drama with something like an equality of excellence in the cast and the whole burden of success resting on the actors. I found the enormous and intelligent audience following every word of the text with intense

Mrs. Oliphant, the eminent nevelist, tells of the death of the famous author of "John Halifax." She died very suddenly while lying on a sofa. Mrs. O. says her husband returned in the afternoon:

"He found her in her room, lying on her sofa, with an awe-stricken group standing round-dead She had entertained various visitors in the afternoon. Some time after they were gone, she had rung her bell, saying she felt ill; the servants, alarmed, called for assistance and she was laid upon the sofa. McGowan's, S. C., brigade has been celebrating the anniversary of Gen. Gregg's death. They also propose to aid in the erection of the monument to be erected at Richmond, Va., in bonor of A. P. There is not a negro in the Fiftieth Congress. The Republicans who love "the colored man and brother" with such tenderness have not elected a solitary colored man from a Northern District. O'Hara of the North Carolina Second, and Smalls, of the South Carolina Black District, have disappeared from the Halls of Congress and the places that knew them will know them no more forever.

The great statesman, Bob Lincoln, is of the opinion that Cleveland's message will ruin the country if adopted. Bob is built on an immense scale. He is the tapering spire to the great building. What Bob does not know of political science is not known to the greatest economic writers. Adam Smith and Ricardo were fools to the wonderful economist of Illinois.

Mayor's Court. The Mayor had only one case to try yesterday morning-John Brown, a colored boy about 18 years of age. charged with stealing ten dollars in money from David Robinson, also colored. The prisoner admitted the theft, and was committed to jail to await the assembling of the Criminal Court in January next. Robinson deposited twenty-five dollars as security for his appearance at the same time. Both Moore and Robinson are strangers in the city. The former came here several days ago, was arrested as a tramp and sent out of the city, but afterwards returned. Robinson was on his way home from a turpentine farm in Georgia, and stopped in the city to spend a night. He slept at the home of a colored man in the eastern part of the city in the same room with Brown, who during the night robbed Robinson of his pocket

book and the ten dollars.

charged with Larceny. Nancy Davis, a colored girl charged with stealing a gold watch and other articles from Mr. A. D. Wessell, while she was employed as a servant in hi family in October last, was arraigned before Justice Millis yesterday, but on account of the absence of an important witness for the State the investigation of the case was postponed until the 29th of December at ten o'clock. There were a dozen or more witness in attendance at the magistrate's court, nearly all of whom had come from Pender county, a distance of twenty miles, to attend the trial, The mother of the girl, Abbie Davis, was also present, under arrest, charged with receiving the stolen goods. They were both committed to jail to await examination.

Next Years' Weather.

The STAR has received Mansill's Almanac and Weather Forecasts for 1888, published by the Illinois weather prophet, at Rock Island. The spring he says will arrive early. The winter months are summed up thus: January is expected to average equal to or above the mean of the season; February and March should be about similar in temperature, and April will in this way see the spring well advanced.

It is anticipated by Mansill that May and June will be moderately cool, even if the temperature is not a little lower than the average. The weather for July is to be about the same, while August is rated to be lower than the mean of the season. This is to continue through September and three weeks in October, when it will become elevated, and range as high as the mean of the season, and continue during the month, and probably this temperature will be kept up to the average of the season during November and part of December. To sum this up, we would have by this calculation an unusua'ly, early and long spring, with the usual storms, followed by a moderately cool summer and autumn.

Funeral of the Late Mrs. Huske. The funeral of the late Mrs. Kate

Huske, wife of Mr. Norwood Huske, will take place at eleven o'clock this morning from St. John's Church. The remains did not arrive here yesterday morning, as expected, being detained at Jessup, Ga., on account of an ordinance of the city of Savannah, prohibiting the passage through that place of the remains of persons dying in Florida.

Mr. Huske remained at Jessup with the body of his wife, and Mrs. Snowden, wife of Dr. P. G. Snowden, of Ocala, an intimate friend of the deceased lady, came on to this city with Mr. Huske's two young children.

Mrs. Huske died suddenly from an attack of heart disease. Her husband was not with her at the time, having left for his orange grove a few hours before.

Grand Trunk Line to the West. The Fayetteville News, speaking of the travel and business on the Cape Fear & Yadkin Valley Railway says: Already great, the possibilities of its near future develop rapidly day after day-until its completion shall give us a grand trunk line, setting forth from the fairest city and finest sea-port of North Carolina, to place us, with a few hours of rapid riding, in communication with Cincinnati, Cleveland, St. Louis, Chicago and other flourishing cities of the West, which in years gone by have seemed set far away from our reach by an immeasurable distance which could not

be bridged."

Opera House. Miss Rose Osborne will appear at the Opera House to-night as Coralie Loriot in "Fortune's Fool." Miss Osborne is represented to be a cultivated actress of classic school, and as original and creative. Her support is said to be very good. The Lynchburg (Va.) News says:

Miss Rose Osborne is without doubt the best emotional actress who ever appeared here. Mr. and Mrs. Whiting rendered a cornet duet which showed great musical talent. The music in the orchestra was simply

about the 1st of January.

The 'finest railway trains in the world," as they are described, will begin running on the Atlantic Coast Line between New York and Florida,

These trains are composed exclusively of drawing-room cars, containing library; reading and smoking rooms, dining cars in which meals will be served en route, and sleeping ears fitted with all comforts, conveniences and luxuries, and so connected by means of vestibules that each train constitutes one continuous car forming a series of apartments, so that the traveller may pass from one end of it to the other, precisely as he

passes from one room to another in

The vestibules are formed by enclosing the platforms-they are as elegantly finished as any part of the car-carpeted so as to entirely conceal the points of connection between the joined cars, and illuminated by means of electric lights depending from the ceilings whose rays fall through cut-glass panelled doors, full upon the steps.

Many of the advantages of the vestibuled train are obvious. It relieves the traveller in passing from one part of the train to another from the annoyance of the whirlwind on the platform, caused by the rapid motion of the train, as also from the cold of open air in winter, from the dust in summer, and from the storms at all seasons. It forms an easy connection with the dining-room, the smokingroom, and the library. The schedules for these trains will be so arranged as to leave New York after breakfast, say about 9.30, and reach Florida the following day in time for dinner, being but one night on the

This announcement will be received with profound regret, not only by the friends of Col. Rowland in the Sixth Congressional District, but throughout the State of North Carolina, where he is known and esteemed for his many good qualities. With the devotion to duty characteristic of the man, he went to Washington to serve the people who elected him, but the feeble condition of his health compels him to abandon that cherished hope. The STAR trusts that the attention of kind friends and the comforts of home may soon restore him to health.

onference in Louisville, Ky., of Com mistees.

EDITOR STAR:-The committee of the Southern Presbyterian Church, which, according to yesterday's telegram met a similar committee of the Northern Church, in Louisville, Ky. on the 14th instant, is as follows: M. D. Hoge, D. D., Richmond, Va.; Jos. R. Wilson, D. D., Clarksville, Tenn.; T. D. Witherspoon, D. D., Louisville, Ky.; W. F. Jenkins, D. D., Charleston, S. C.; W. M. McPheeters, M. D., St. Louis, Mo.; P. H. Carter, Abilene, Texas; R. T. Simpson, Florence, Ala.; W. S Primrose, Raleigh, N. C. The business of the committee is

'solely to inquire into and ascertain the facts as to the point above mentioned" (the position of the Northern Church as to the spirituality of the Church, non-interference with i matters political) "and as to the position the Northern Assembly proposes to maintain as to colored churches, ec-clesiastical boards, and any other sub-jects now regarded as obstacles in the way of united effort for the propagation of the Gospel, and report these facts to the next General Assembly for such action as they may warrant."

As usual, telegrams as to church matters are in error. From the above it appears that it is not the business of the committee to recommend some action in regard to a union of the two bodies, but simply to ascertain and report facts. The Associated Press dispatches never do justice to the Southern church.

Westber Indications. The following are the indications

for to-day, received at 1 a. m.: For Virginia, slightly warmer and threatening weather, with rain, light to fresh easterly winds.

North Carolina and South Carolina, slightly warmer, with rain, light to fresh variable winds, becoming fresh to brisk northerly, followed by cooler clearing weather.

Georgia and eastern Florida, rain, followed by cooler, clearing weather, winds becoming fresh to brisk north-

Cautionary Signals.

The following telegram was received at the Signal Office westerday morning:

"WASHINGTON, D. C., Dec. 14 .-Cautionary signals are ordered at Charleston. Storm centre south of Mobile, moving eastward. North-GREELY. easterly Winds.

'The signals were ordered down at midnight last night, indicating that the storm was not of sufficient energy to be considered dangerous. The depression evidently is decreasing and will be entirely dissipated after several days of unsettled weather.
