WHOLE NO. 6625

A telegram to the Richmond Dispatch gives the following horrible details of a tragedy in Alabama, of which later particulars are given in our press dispatch:

MONTGOMERY, ALA., December 16—A special to the Advertiser from Eufaula tells of a horrible murder in Henry county, Ala. Bradley Johnson, ex-sheriff of that county, is one of the oldest and most respected citizens. Thursday two of his sons got drunk, and at night in cold blood butchered an older brother named Charles, aged twency seven years. The murderers are aged eighteen and twenty years respectively. The old father, when he went to his mur-dered son's rescue, was made by the two younger sons to kneel on the floor and beg for mercy. Their old mother came into the room and tried to separate them. She was knocked on the head by the sons and horribly bruised. Their brother-in-law and another brother, Ben, also drunk, were made to leave the louse. A neighbor came and discovered what had happened and spread the news abroad. When the two murderers found that their brother was dead one whistled and the other danced in his blood. The surrounding country is greatly excited, and the latest news is that lynching is almost certain. The victim was asleep when his brothers, Robert and John, began their murderous work.

Weather, All Kinds." The weather yesterday was very March-like in its blustery transition from warm, southerly rains, to decidedly colder, northwesterly winds. An area of low barometric pressure,

W. H. RICHARDSON-Administrator's sale

with a very wet accompaniment, crept in from the eastward and was anything but a pleasant greeting to early risers yesterday morning.

At 7 o'clock a. m., the barometer at the Signal office registered 29.58 inches pressure, and a warm southerly wind prevailed. At noon the pressure had diminished to 29.30 inches. The wind shifted to west, and increased in force, until at 12.45 p. m. it was blowing 36 miles per hour. But fortunately the barometer soon began to rise, and in a short while the wind moderated and shifted to the northwest, showing that the storm centre had passed this section, and the 3 p. m. report from Norfolk indicated that the disturbance had moved

in that direction. Judging from the unusual high tides yesterday, it is supposed that the storm was more violent off-shore, as quite a heavy sea was reported on the bar at Southport.

High Tide.

The tide in the Cape Fear river yesterday afternoon was "the highest ever known" by some of our longresident citizens. Everything on Eagle Island, opposite the city, was flooded, and work on that side of the river was generally suspended. The water was five inches deep on the floor of the office of the keeper of the ferry. The cause way was under water from one end to the other, and all the bridges were reported to be affoat. So far as could be ascertained none of them was carried away, nor was any damage caused by the flood other than resulted from the stoppage of travel and the interruption to work at distilleries and in naval stores yards.

At the Sounds the tide was very high. It was reported that the bridge on the road between Wrightsville and Summer Rest was carried away.

Mayor's Court. Morris McFarlane, colored, was arraigned before the Mayor yesterday charged with the larceny of a bag of coal from Mr. E. G. Barker. After the hearing the defendant was committed to jail in default of \$100 bail, for his appearance at the Criminal

Court. Clem Atkins, colored, arrested on suspicion, was discharged. Geo. Sadgwar, colored, found drunk and down, was fined twenty dollars, with the alternative of twenty days

in the city prison. Mary Ann Barnes, colored, charged with embezzlement, was required to give a bond in the sum of \$100 for her appearance at the Criminal Court, and in default was sent to jail.

The firemen were out in double-quick time, and the flames were soon under control, the Chemi-

cal engine bearing off the honors. -- During the holidays there will be a tremendous rush of business at the Express office in Wilmington, as elsewhere, and it will be a relief to all concerned if packages for shipment are taken to the office in good time. -- Two of the County Commissioners from Charleston, S. C., arrived here yesterday, for the purpose of inspecting the jail of this county. They were accompanied by an agent of the firm who constructed the jail here. The party were shown through the building by Capt. Elder, and made a minute inspection of every part. The Commissioners expressed themselves as well pleased with what they saw. The jail at Charleston was destroyed by the earthquake and the authorities of that place contemplate building a new one. They were invited to look at the jail here by the agent of the contractors.

Patti Rosa. Patti Rosa, the supremely charming little actress, appears at the Opera House here to morrow night in "Zip." The Chicago Times says she is even a better Zip than its original impersonator, musically especially. She is piquant and graceful, and sings her songs brightly and dances very nicely, with not less humor in her feet than in her voice, while the way in which she plays the banjo is a distinet accomplishment.

FIFTH AVENUE.

The Proposed Boulevard-An Auspiclous Beginning-Shade Treer, a Driveway and a Park.

The city of Wilmington is to be congratulated upon the bright prospects of having a boulevard and drive upon Fifth street, from the southern limits of the city to its northern end. Our active, progressive and philanthropic Mayor sees the necessity for a breathing place for the tired and worn-out people . who spend their days of labor in the counting-room or at the workshop, and at last has determined that there shall be a place where people, after work, can go and lounging at the different corners in the business portion of the city, obstructing the streets. Mayor Fowler has awarded, with the sanction of the Board of Audit and Finance, a contract to a reliable person to furnish a large number of trees for the park. As we understand it, his plan is to the street, thirty feet apart, and a nice grass plot arranged between them, properly ornamented, with nice seats at convenient distances, which shall be a rendezvous for the people, and nurses and children. On either side of this grass plot is to be a hard road, or driveway, twenty-two feet wide, which, in course of time will be macadamized, and on either side of the roadways the sidewalks are to be eleven feet wide, with a row of trees at the edge of the curbing. making four rows of trees on the street. The sidewalks, in course of time, are to be paved with good brick or stone, and will be a treat to pedes-

With this park and boulevard, an ornament to the city, who will gainname of our worthy and enterprising

The feasibility of this undertaking is manifest to any observer and any "doubting Thomas" has but to walk over this street, cast his eve along the level sweep that runs for several miles and the topography of the surface will show its special adaptation to this purpose.

Let the good work go on and may t never stop, until the Mayor real izes his fondest dream.

The Late Capt. Parker.

The following, from the Fayetteville Observer, shows the high estimate placed upon the character of the late Capt. Wm. M. Parker by a community in which he lived eleven years, and we are sure it will be read with interest by the people of Wilmington, who always classed him among her most useful and honorable citizens:

Capt. Parker was a Northern man but resided here from 1850 to 1861, and during that time had made many warm and true friends. In 1861 he went with the LaFayette Light Infantry, of which he was a member, to the seat of war, and there as here, he was one upon whom perfect trust might be conferred. His close associations with the young men a that time, and with the citizens here previously, had gained for him the respect of all, and he was looked up on, as really a Fayetteville man, who though residing elsewhere, always this place where he knew he had many friends, and the honor paid his memory by his old comrades, bore full and ample testimony that he was right, for they by their every act showed that they keenly felt his untimely death and sympathized deeply with his afflicted wife. The remains were escorted to the depot by a numerous band of his old comrades, neaded by Col. J. B. Starr and Ma Wright Huske, and preceded by the following pall-bearers: Judge Jas. C. McRae, Col. J. A. Pemberton, Capt. J. B. Smith, H. R. Horne, J. N. Prior, B. R. Taylor, E. J. Lilly, Jr. G. H. Haigh, W. W. Cole and Rev. J H. Hall.

urors for the Criminal Court.

The following were drawn vesterday as jurors for the January term of the Criminal Court, which will convene on the first Monday in January next: W. H. Sneeden, J. E. A. Grissom, John A. Everett, J. H. Hewett, Wm. Watters, J. W. Barnes, John A. Wilson, J. M. Donlan, Charles M. Bonham, W. W. Campen, J. W. Fulcher, A. J. Johnson, T. B. Henderson, Archie L. Freeman, C. J. Elwell, R. B. T. Hancock, J. T. McIver, John Dyer, D. J. Fergus, H. H. Woebse, W. A. Cornish, Frank Meier.

The Gleaners' Harvest. The "Young Gleaners" of the First Presbyterian church will have their annual Christmas festival at the City Hall on Tuesday and Wednesday evenings next. They have been busy iu preparations for weeks past for the event, and expect to eclipse all their former efforts. The society is composed of young ladies and children who have accomplished wonders in the past. The object they have now in view is to send a young lady of their number, as a missionary to Ja-

CHURCH IMPROVEMENT.

Important Improvement to be Made in St. Paul's Episcopal Church-Work to be Begun at Once.

St. Paul's Episcopal Church has had an awakening since Rev. C. L. Arnold, the new rector, took charge, and all her people manifest great interest in the proposed enlargement of the church edifice. At the last meeting of the Vestry it was decided to add about twenty-four feet to the length of the nave by extending the building both front and rear. A chancel will be built running back to the eastern line of the lot. The roof will be entirely new, will be made steeper rest and enjoy themselves, instead of | than at present, will be open and finished in native pine. The trusses are of beautiful design. The windows will all be of stained glass. The chancel window, a memorial to the late Bishop Atkinson, will be handsome and appropriate. A rose window will adorn the front gable, which will be further beautified with varnished have a double row of shade trees in | pine and ornamental shingles. The vestibule will extend across the entire front, the summit of its roof reaching the plate. A tower of beautiful and unique design will be placed at the southwest corner diagonally. There will be two entrances; one through the tower, the other through a large door in the middle of the vestibule. The internal arrangement of the new building (for such, in effect, it will be,) will be made with all deference to the views and feelings of those honored persons who were the founders of the Parish, and it will be distinctively an Episcopal church. There will be a recess chancel. The chancel rail will be ornamental and appropriate. A lectern and pulpit will occupy the platform outside the rail. The choir will be say the assertion that generations yet on the left of the chancel, the sacristy unborn will rise up and bless the or vestry room on the right. The seats will be of native pine, of handsome and churchly design, and will be so placed as to afford a broad central aisle and an aisle on each side. If the plans are fully and carefully carried out, St. Paul's church will be

> an ornament to the beautiful corner on which it stands. This good work is one of the indications of vigorous life in St. Paul's. The rapid increase in the congregations at Sunday services has necessitated an extension, and this improvement is undertaken. It has been decided not to do this work by contract, but to have it done under the supervision of a committee of the Vestry. Mr. Joseph Ransley, a talented young architect of this city, furnished the plans and will superintend the work, which will be entered upon without delay. It is expected that the new building will be completed by the first of March, and that a suspension of services will only be

necessary on two Sundays. I he Customs Reductions.

Inquiry at the Custom House here reveals the fact that no orders or directions have yet been received conoerning the proposed reduction foreshadowed in the item published in the STAR yesterday morning. Since 1885, the expenses of the office have been cut down from \$13,508 to \$11,-217. A further reduction, as proposed, of \$2,800, would make the expenses \$8,417. It is true the receipts from imports have fallen off from \$28.054 in 1885 to \$24,869, but the cost of collecting in 1885 was 48 cents on the dollar, and in 1887 44 cents, and for the six months ending January 1st 1888-all expenses added and no account taken of further probable receipts from imports before that date-

the cost of collections in this district will amount to less than seventeen cents on the dollar, or in the same ratio not more than thirty-four cents for the fiscal year. It is hardly possible that a further reduction can be made without impairing the efficiency of the service. The injustice of the treatment of Wilmington is apparent when one notes the fact that no change or reduction is proposed either at Charleston or Savannah, al though the cost of collections at the former place in 1887 is 47 cents on the dollar, and at Savannah 44 centsthree cents more at one port and the same at the other. There is no reason why Wilmington and through her North Carolina, should be selected for this rigorous treatment by the Treasury Department of the government, and we trust that our representatives in Congress will see to it that such, unfair treatment is not meted out to us.

Cotton Movement.

The receipts of cotton at this port, from September 1st to December 17th, were 141,570 bales, against 106,099 the same time last year; an increase of 35,471 bales. Receipts the past week were 7,231 bales-only four bales less than the same week last year, when the receipts were 7,235 bales.

The stock at this port is 20,331 bales; last year at same date, 24,049 bales.
Total exports since September 1st,
121,894 bales; at same time last year, 82,211 bales.

Religious Notice. All the pastors of the city who are willing to unite in observing the Week of Prayer are requested to meet in the Library at 3 p. m. to-morrow.

weather Indications.

The following are the indications for to-day, received at 1 a. m .: For Virginia, slightly warmer fair weather, light to fresh westerly winds.

For North Carolina and South Carolina, slightly warmer, fair weather, light to fresh northwesterly winds veering to northerly.

Change of Schedule. Beginning to-morrow, the 19th, there will be a change of schedule on the Cape Fear and Yadkin Valley Railroad. The passenger and mail train from Bennettsville and Maxton will arrive at Fayetteville at 11:50 a. m. instead of 1:80 p. m., as heretofore: and the train for Maxton and Bennettsville will leave Favetteville at 4:30 p. m., instead of 8:30 p. m., as heretofore. With the present schedule on the Carolina Central, this change will add somewhat to our mail facilities, the Wilmington mail reaching fayetteville one hour and forty minutes earlier than at present, while the business men of Fayetteville will have one hour more in which to close up their correspondence for this city.

Auction Sale of Horses, An opportunity seldom offered to secure good horses at moderate outlay will be presented in Wilmington, Friday, December 23d, when the McCafferty Bros., of Fort Worth, Texas, will sell at anction, without reserve, two car-loads fine western borses, fifteen hands high, good riders and in perfect condition. Place of sale will be here-after appeured. A free exhibition of lassoing and riding wild horses will be given on the sale grounds, by expert Cow Boys, Friday morning at 10 o'clock.
