The Senate Addressed by Mr. Dolph on his Proposed Constitutional Amendment on the Subject of Marriage and Divorce-Death of Mr. Moffatt, of Michigan, Announced in the House -Both Houses Adjourn to January

By Telegraph to the Morning Star. SENATE.

WASHINGTON, Dec. 22.-Mr. Eustis, from the Committee on Epidemic Diseases, reported a bill authorizing the removal of the quarantine station from Ship Island, Miss., to some other island in the Gulf of Mexico or to some pass in the Mississippi delta. Calendar.

The Senate then took up the joint resolution introduced by Mr. Dolph on the 12th inst., proposing a constitutional amendment on the subject of marriage and divorce, and prohibiting bigamy and polygamy. The proposed amendment is in the following words:

"Congress shall have power to legislate on the subject of marriage and divorce by general laws applicable alike to all States and Territories, and neither bigamy nor polygamy shall exist or be permitted within the United States or any place subject to their jurisdiction.

Mr. Dolph addressed the Senate in support of the joint resolution. joint resolution was ordered to lie on the table-Mr. Cullom saying that he proposed to submit some remarks upon it after the

reassembling of the Senate. A bill for the removal of the political disabilities of Abram C. Myers was taken up and passed.

Mr. Butler presented a letter from the Secretary of the Mexican VeteralnAssociation, accompanying a gavel wrought out of 350 separate pieces of wood, tastefully inlaid, the work of a veteran of the Mexican war, Chas. Ufferhuster, formerly of the Third U. S. Artillery, now residing in Charleston, S. C. The letter suggested the presentation of the gavel to the presiding officer of the Senate. The matter was referred to the Committee on Rules.

The presiding officer announced the appointment of a special committee to investigate the condition of the five civilized tribes of Indians, as follows: Butler, Morgan, Dawes, Cameron and Teller. Mr. Teller introduced a bill to provide for compulsory education of Indian chil-

dren. Referred. After half an hour's Executive session the Senate adjourned to January 4th. HOUSE OF REPRESENTATIVES.

When the House met to-day the deak recently occupied by Mr. Moffatt, of Michigan, who died in Providence Hospital this morning, was draped in emblems of mourning and decked with flowers. The chaplain offered the following

'Almighty God, in the midst of this gay and festive season we are startled by the sudden death of a member of the House. It impresses upon us all the solemn sense that there is but a step between 'us and death, and so may every man order his that he may likewise be when the summons shall Comfort and cheer the widow, uphold and provide for the children thus made fatherless, and may they and all that were dear to him find in Thee that consolation which alone can be had at such a time. We commend to Thy almighty care and protection the members and officers and all connected with the service of this House. Go with those who journey, abide with those that remain; and in all our homes may there be a merry Christmas and

happy New Year. Mr. Adams, of Illinois, offered a resolution for the payment of a month's salary to the House employes who were on the rolls December 5th, but who have since been discharged, or who may be discharged prior to January 1st. This is similar in substance to the joint resolution passed some days since, except that under the joint resolution payment must be made from the Treasury, while under the pending resolution payment is made from the contingent fund of the House.

In speaking to the resolution Mr. Herbert, of Ala., remarked upon the action of certain Senators in criticizing the House for passing the joint resolution—an action which he thought was uncalled for, in view of the fact that the Senators voted themselves each a clerk and insisted upon paying their employes 25 per cent. more than was received by the employes of the

Mr. Bland moved to refer the resolution to the Committee on Accounts. Agreed tc-yeas 93, nays 91. Mr. Burrows, of Mich., then announced the death this morning of his colleague, Mr. Moffett, and the House at 1.15 adjourned to January 4th.

New York's Bogus Countertelters-"Sucker No. \$2," a Tennessee Deacon, Tells his Story in Court. My Telegraph to the Morning Star.

NEW YORK, Dec. 22 .- Anthony Nelson. one of the "green goods" men recently arrested, was put on trial in the General Bessions to-day. Allen Gilliland, a deacon of the church at his home in Tennessee, or "Sucker No. 82," as the "green goods" gang termed him, identified letters he had received inviting him to come here where he could purchase \$10,000 for \$650. Counsel for the prisoner asked to have the case taken from the jury and his client discharged on the ground that there was no proof that the "goods" mentioned in the circular and letters was counterfeit oney. After considerable argument, Judge Cowing held that the point was well taken, and discharged the prisoner. Before letting him go, he warned him that if brought before him again and convicted, he would receive every minute the statute would allow. 'If you are engaged in the business of sending counterfeit money through this country," added the Judge, 'no punishment can be too severe; hanging would be a righteous punishment for such a crime." Turning to the deacon, Detention as a witness since he made complaint, Judge Cowing rebuked him severely. "The best thing you can do," he said,
"is to hurry back to Tennessee, and don't
come here again. Go back and leave the
church, and tell your congregation how
you feel."

Gilliand said he was going to-night. TENNESSEE.

A Lightship at False Cape-A Lighthouse for Cape Hatterns Shoals-Confirmations, &c. — Government Receipts—Estimates for Deficiencies -New Year's at the White House. By Telegraph to the Morning Star.

Washington, Dec. 22—Senator Gor-man introduced a bill to-day appropria-ting \$60,000 for a lightship at False Cape entrance to Chesapeake Bay.

The Light-house Board is now considering the feasibility of erecting a light-house, of first-class order, on the outer shoals at Cape Hatteras, N. C. These waters, which are regarded as the most dangerous on the Atlantic coast, are now insufficiently protected. Engineering difficulties in the way of the construction of a light-house on the shoals are so many that recent developments in constructive engineering were needed to ensure success in the undertaking. Pians for the work are now being prepared in accordance with the views of

eminent experts. Senator Dolph reported from the Senate Committee on Foreign Relations, and the Senate adopted in secret session, a resolu-tion calling upon the Secretary of State for the correspondence and records of the State Department relating to the German occupation of the Samoan Islands and

A Train Hun at Pull Speed Through a Crowd of People in Chicago-Attempt to Lynch the Engineer-The Indictments for Comptracy in the McGarigle Cases.

By Telegraph to the Morning Star. Снісаєр, Dec. 22.—An incoming B. & O. train flowed at full speed through a crowd boarding the Illinois Central suburban train, at Van Buren station, last evening. Fully 200 people were thronging the tracks at the time, and without a whistle or note of warning the train was upon them. In an instant Miss Lottle Launderville was thrown fifteen or twenty feet, and fatally injured. Immediately after the accident the B. & O. train backed up and had barely stopped when the cab was boarded by an infuriated crowd of persons who had narrowly escaped death. The engineer was roughly seized and cries of "lynch him," "kill him," were shouted from hundreds of throats. Just in time to prevent the crowd from executing its threats, two Central detail officers arrived and rescued the cowering man from the throng of avengers. The engineer was quickly spirited away and his name could not be learned. There seems to be no excuse for the accident. The B & O. train was going at full speed when it should have been at a stand. There was no sound of bell or whistle to warn the crowd of the

approaching danger. CHICAGO, Dec. 23.-The trial of Dr. St. John, Levi Dell and Capt. Freer, indicted for conspiracy in aiding in the escape of warden W. J. Irwin, master of the barque, who has kept himself to Canada since the escape, still stands

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn: A BENERACTERS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A bleasing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething slege. Mrs. Winslow's Scothing Syrup relieves the child from pain, and cures dysentery and diarrhose. It softens the gums, reduces inflammation, cures wind collo, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Scothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical power we would make her, as she is, a physica saviour to the infant race. Sold by all druggists
