Canvassers who have been active in favor of subscription express the opinion that the affirmative vote will be much larger than the required number. The opponents of the subscriptions are very quiet in their work, but they profess to believe that both will be defeated.

Two young white boys were arraigned in the Mayor's Court of Charlotte, Saturday, charged with removing signs, carrying off gates, lowering electric lights, &c. The Mayor fined them \$25 each for their deviltry. A similar fate awits those Wilmington boys who carry sling-shots and make targets of the windows in churches and dwellings. They need not doubt but that they will be severely dealt with if caught, and they stand a good chance of being caught.

Sunday School Mass meeting.

The Sunday School mass meeting to hear Mr. Reynolds, of Illinois, will be held in the First Baptist Church to-morrow, (Wednesday) night, at 8 o'clock. A number of the ministers of the city have consented to dispense with their regular church services on that night, and thus give opportunity for all to attend the meeting. Great enthusiasm has attended Mr. Reynolds' meetings at other places and everybody should go to hear him.

Outrageous Assault and Robbery.

An outrageous assault and robbery, that for coolness and audacity surpasses anything of the kind ever heard of in this city, was perpetrated yesterday by three negro boys. The victim was Master Swift Boatwright, a boy of about twelve years of age, son of Mr. Hal Boatwright and a pupil at Miss Hart's school, on Third street, not a hundred yards from police headquarters. Between 1 and 2 the Representatives 108 attended o'clock in the afternoon Master Boatcollege, and 225 only have English wright went into the cellar or base. ment under the school-house, when the three negroes-any one of whom was more than a match for the little lad-seized him. One of them clapped his hand over the boy's mouth and another with a long rope, bound him fast to one of the brick pillars of the house, while the third took a handkerchief from the boy's pocket, went into an adjoining lot and wet it thoroughly, and returning, tied it over the boy's mouth so as to gag him completely. The three negroes then emptied his pockets, robbed him, and treated him with great indignity, even that of spitting in his face. The robbers then produced three sacks, which they filled with coal, and took their departure. Some twenty minutes after they had gone, another of the pupils of the school came into the basement and found the lad bound and gagged and re-

> Efforts were at once made for the detection of the guilty parties. The negro boys had disguised themselves with paper bags worn over their faces, but in resisting their assault young Boatwright tore one of these away. He recognized the negro and later in the afternoon pointed the boy out to the police in the crowd that had gathered around the City Hall steps to hear the address of the Chief of Police to a colored fire company. The negro was arrested, and after being taken into the City Hall, admitted his complicity in the crime. Other arrests were made on suspicion by the police and altogether seven half-grown negroes were captured and locked up. They will probably be brought before the Mayor this morning.

For the past two or three months the coal-house at Miss Hart's school has been robbed frequently, not only by night but in broad daylight, and it is estimated that altogether two or three cartloads have been stolen by these negro thieves.

The registration books in the vari ous wards of the city up to 4 p. m. yesterday, (as ascertained by STAR reporters) showed the following as the number of voters registered: First Ward, 991; Second Ward, 293; Third Ward, 411; Fourth Ward, 342; Fifth Ward, 715. Total, 2,752. With two days left for registration it is probable that the total will reach 2,800, by the day of election and it | tions. will thus be necessary for the friends of subscription to poll over 1,400

The President and Party A delayed telegram to the STAR from Teisnot, N. C., says that President Cleveland and party stopped there twenty minutes Saturday night, and were greeted by a large and enthusiastic crowd with a big bonfire and cannon firing.

At Farmers Turnout, in Brunswick, before reaching Wilmington, the train bearing the Presidential party stopped ten or more minutes. A large arch of holly and cedar had been placed over the track bearing the words, "Our honored President is welcome to North Carolina," and a large gathering of ladies and gentlemen were present. Major Reilly did the honors of the occasion, and after shaking hands with the President introduced him to the crowd. The President seemed well pleased with the attentions he received, and said that he would be back again in North Carolina next year. Mrs. Cleveland was welcomed, and hearty cheers followed the party as the train moved

The Hush to Fiorida.

The unprecedented rush of visitors to Florida has forced the railroad companies to provide additional accommodations. A third vestibuled train will be put in operation between New York and Jacksonville today. There are now two vestibuled trains on this route making three trips a week. The additional train will make it possible to run five trips a week each way. After to-day the leaving days from New York and Jacksonville will be Monday, Tuesday, Wednesday, Friday and Saturday of each week.

A GEOWING INDUSTRY.

The Pore & Poster Mill and Pactory. The Planing Mill and Sash and Blind Factory of Messrs. Fore & Foster is one of the leading industries of Wilmington, and is an enterprise that the proprietors may well be proud of It was incorporated Oct. 1st, 1886 The company purchased the old Cape Fear tobacco works building and grounds, for the purpose of dressing and manufacturing all kinds of wood work, such as sash, doors, blinds, mouldings, turned work of all descriptions, flooring, ceiling, wainscoting, siding weather boarding, &c., in connection with their manufactured material.

The company, in a short time, met with such success in their undertaking that it was found necessary to increase their plant, and they have now in operation thirty-seven of the latest improved wood working machines, and are still increasing their facilities as their thriving business demands. They constantly keep in stock, on their large and conveniently arranged yard, dimension stuff, laths, shingles, &c., and can furnish all material necessary in their line for erecting houses complete at short notice.

The works manipulated from five to fifteen car-loads of pine lumber each week, obtained from different points in the two Carolinas. The company has a railway train running from their yard which connects with all the railroads entering the city, and have besides good facilities for receiving and shipping by witer.

The Carolina pine is found to be especially adapted for factory work, but besides this the factory consumes large quantities of white pine, which comes from Michigan, and ash, cyress, walnut, poplar, cherry, redwood from California, and last but by no means least, our own "curly pine," from which they manufacture church and office furniture, and in which they are said to excel every other woodworking establishment in the State.

Increasing business has compelled the company to enlarge their already extensive works, and their lumber yards have been extended to Campbell street, and a building thirty feet wide by one hundred long has been erected, which enables them to carry a large stock of dry lumber. They also propose to build a two-story warehouse covering the entire width of their lot on Campbell street. These improvements will enable the company to supply all demands that may be made upon them requiring dry and seasoned lumber.

Mayor's Court. The following cases were disposed

of in this court yesterday: Oliver Williams, a colored boy accused of embezzling a lot of clothing,

was dismissed for want of evidence. Nelson Jackson, colored, charged with the larceny of a ham from Jack Davis, colored, was committed for trial at the Criminal Court. Carl Schmidt, a white tramp, was

sent out of the city. George Bradley, a colored tramp, who had been arrested before, was sent up for five days.

Eliza Richardson, Mary Houston, Gertrude Bradshaw and Martia Smith, colored; disorderly conduct. Richardson, Houston and Bradshaw were sentenced to thirty days work on the chain gang. Martha Smith was discharged.

The Dredge Boat Pugh. Captain George Lord, who has

charge of the dredge boat Pugh returned yesterday from New River. He reports that the weather was too rough for the tug Alexander Jones to cross the bar with the dredge, but that she would probably get out to-day. Upon arrival here the machinery of the dredge will be taken out and shipped to Galveston, Texas.

Railroad Hally. There will be a grand ral'y to-night in behalf of the railroad subscriptions. Citizens of the different wards will meet in mass meeting at 8 o'clock in front of the City Hall, or, if the weather is unpleasant, in the Opera House. Col. A. M. Waddell, Col. Roger Moore, and Mr. J. H. Curris are expected to speak.

Piremen's Parade.

Dread-Not Bucket Company, one of the colored fire organizations of the city, celebrated its anniversary yesterday with a parade in the afternoon and an "entertainment" at Meginney's Hall at night. The company marched to the City Hall about 4 o'clock in the afternoon, with their truck decorated with festoons of moss and flowers. Col. Hall, Chief of Police, delivered a short address to the colored firemen, applauding the spirit they manifested and commending their behavior and was heartily

For the National Cemetery. Ex Mayor Fishblate expects to go North the latter part of this week. He will stop in Washington, to appear before the appropriate committee of Congress to urge the necessity of macadamizing or paving Market street from Fourth street to the National Cemetery. Mr. Fishblate says that he has every reason to believe that by proper efforts an appropriation of at least ten thousand dollars can be obtained at the present time, and he will urge that it be made twenty thousand.

On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homosopathy. That night the child passed favor of Homosopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said anothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was felighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying bables and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggista. Scients a bottle.
