Manitoba is reported to be arming. At Ottawa there is said to be much alarm over the situation.

Not having space for a biography of the dead Kaiser to be copied from cyclopædias, we give only a few dates and brief comment.

Take the STAR. It is actively promaking the true interests of Wilmington and North Carolina, and is a Democrat from head to foot.

The Atlanta Constitution praises Randall. It ought to, for it is as much of a Protectionist as Randall is and as little of a Democrat.

Russia is reported as bent on war. We wish three or four peaceably inclined nations would unite, and give it a drubbing, as was the case in the Crimean war.

Mayor Hewitt, of New York, says he does not desire to be Mayor, Governor or President. He ought to be sent to the U. S. Senate. He is one of the ablest of New York State politiciane.

Of the one hundred and forty four names mentioned by "Many Citizens" In connection with the Governorship, how many of them can poll the full strength of the Democracy and meet "my son Oliver" "on the hustings ?"

Under Arthur it cost 3.77 per cent. to collect the taxes at the custom houses. Under Cleveland for the year ending 30th June, 1887, it cost 3.16 to collect. Arthur was an 1mprovement on his Republican predecessors, we believe.

Thus far over ten thousand bills have been introduced in the Con-

Fanny Davenport has a play called "La Torca." It is bad, wicked, unclean. She pretends it is not. But the papers are telling her better. Nym Crinkle analyses it in the World. He tells her:

"I challenge Miss Davenport to a public discussion of the character, the motives, the manner of the arch-villain she has presented to us. Surely the actress who thought this libidinous rascal, sick with his own tottenness, was good enough to exhibit to the men and women of New York, is good enough to be dissected. I should like to see her discuss Scarpis in print, excure his lingering bestiality, explain his ravening desire to inflict pain, rehearse his proposition to La Tosca, paint the infernal relish with which he tells the woman that he wishes to see her lips writhe in pain

them.' The House Committee on Commerce has reported favorably a bad bill. It proposes to expend \$8,000,-000 to start a Government telegraph. The men who vote for that bill ought to be held to a strict account. Of course it will increase the number of appointments by some thousands. The army of office-holders is big enough now-between one and two

hundred thousand strong. There was a fire in the Springfield

(Mass.) Union's office, resulting in the loss of six lives. In the fifth story the paper was printed. The frenzied gemployes, rather than be burned alive, jumped from the fifth story and were crushed to death on the pavement. Two women jumped and were killed. Three had arms and legs broken.

Another missing bank officer has returned home to die. Charles Downer, of Castleton, New York, left and it was reported his accounts were all wrong. But they were all right. The poor fellow was deranged and wandered off, and upon returning to Castleton he went into the basement of a church and shot himself to death.

-- We understand that memorial services will be held by the pastor and people of St. Paul's Evangelical Lutheran Church, in view of the death of the Emperor of Germany. The Emperor and his entire family are members of the Lutheran Church, and there are twenty-six million

Lutherans in Germany. escios indicestata The following are the indication

for to-day, received at 1 a. m.: For Virginia, light to fresh easterly winds, warmer fair weather.

For North Carolina, South Caroina, Georgia and Eastern Florida, light to fresh easterly winds, warmer

fair weather. The Races Vesterday.

About two hundred people, including a number of ladies, were present yesterday at Capt. Southerland's race

track to see the races The weather was pleasant and the ground in good condition.

The first race-Mr. Orrell's bay gelding "Strider," trotting against time-brought out numerous bets from the boys. The first heat (one mile) was made in three minutes and fifteen seconds, the second in two minutes and fifty-six seconds. After this another trotting race took place between "May Woolvin" and "Katie;" one mile. Time-"May

Woolvin" 3:30; "Katie" 3:32. After this a scrub running race followed, quarter of a mile dash. Two horses were entered. The horse rid-

den by Mr. Charles Cutts won the race. The last affair was a trotting race between Mr. Simon Sander's mare and Mr. Andrew Flanner's horse. The latter won the race.

### Killed on the Rall.

A white man, supposed to be Mr. Thomas Southerland, of Duplin Roads, Duplin county, was killed on the W. & W. railroad track at Smith's Creek bridge, about a mile from the city, yesterday afternoon. He was walking on the track at the time. The body was brought to the city by the railroad authorities and Coroner Miller notified, who took charge of the remains and removed them to a vacant store on Market street, where

an inquest will be held to-day at 12 o'clock. Nothing was found upon the body that would give a clue to identification. In the pockets of the man's clothing was twenty-five cents

have lain waste-breeding ground for reptiles, malaria and death. The gentlemen interested in these projects say that the work will be pushed steadily, and that a vast amount of excellent timber in these swamps will be utilized which here

tofore was worthless because it could not be handled. A force of hands is now at work

digging wide canals, eight feet deep, in order to drain the swamps, and the companies are most sanguine of success. The enterprise is one of importance, and will undoubtedly attract great attention.

Mayor's Court. Samuel Sandford, colored, a West Indian sailor, was arraigned before the Mayor yesterday on two charges -disorderly conduct and larceny. He was proven guilty of smashing furniture, belonging to Harriet Davis, with whom he lived, and confessed to the larceny of coal from the gas house and clothing, rope and other articles from a vessel in port. Sandford was sent to jail in default of bond for his appearance at the next term of the Criminal Court.

Harriet Davis, who made complaint against Sandford, was also committed to jail on the charge of receiving stolen goods.

Willie Davis, colored, charged with disorderly conduct, was sentenced to pay a fine of ten dollars or be impri-

soned twenty days. Ellis Dyer, a colored tramp, was held upon suspicion of being an escaped criminal lunatic from the Goldsboro Insane Asylum.

#### The German Mass Meeting

The committee having in charge the arrangements for celebrating the ninety-first birthday of his majesty Emperor William of Germany, which would have occurred on the 29nd of March, are earnestly requested to meet at the Lutheran parsonage at 8 o'clock this evening so as to properly arrange the holding of the German mass meeting, which in view of the Emperor's death will take the form and character of memorial services. The committee consists of Messrs. A. Adrian, Jno. Haar, Jr., F. W. Kerchner, Dr. F. C. Miller, Messrs. Sol. Bear, M. M. Katz, and F. Rheinstein, Rev. Dr. S. Mendelsohn and Rev. F. W. E. The Democratic Executive Committee of the Sixth Congressional District met at Wadesboro, Thursday. It was decided to hold the next Convention in this city on the 27th of June. This will be a source of gratification to the Wilmington people; and everything will be done to make the time pass pleasantly for the delegates. The attractions here this summer will be many, and there is no doubt that a large crowd will avail themselves of this opportunity of visiting our city.

At the meeting Thursday, Mr. J. A. Lockhart, of Anson, was elected Chairman, and Mr. H. B. Adams, of Union, Secretary. It was also decided at this meeting to choose the delegates and alternates from this District, to the National Convention, at Raleigh on the 30th of May, at which time the State Convention will be held.
