WHOLE NO 6702

MORNING EDITION.

OUTLINES.

But little business of importance was transacted in Congress yesterday; the Senate was not in session, and the House was principally occupied in the discussion of a resolution assigning certain days for the consideration of labor bills: bills were passed increasing to fifty dollars per month the pensions of the widows of Rear Admirals Wyman and Welles. Receipts of cotton at all of the ports since September 1st, 5,035,643 bales; visible supply for the world 2,841,311 bales; crop in sight 6,400,053 bales. The engineers on the Santa Fe system are daily leaving their camps, but there has been no refusal to take out mail trains. A dispatch from Lynchburg, Va., reports that a heavy snow storm prevails throughout that section. A terrible accident happened to the fast mail train from New York to Jacksonville, yesterday morning, at Blackshear, Ga., on the Atlantic & Gulf Railroad; the entire train, except the engine, went through a bridge, and nineteen people are reported killed and between thirty and forty injured, ten of whom are expected to die; among the injured are President Wilbur, of the Lehigh Valley Road, who is expected to die, and George Gould and his wife. A fraudulent election judge in Baltimore was yesterday sentenced to two years in jail, and another is awaiting sentence. A shipyard in Alexandria, Va., was destroyed by an incendiary fire yesterday morning. A Kansas City dispatch says the striking engineers are in a desperate strait, and large defections are taking place; many of them have declared their intention of going to work, and there is a great stir among the entire number. The Mills tariff bill was considered yesterday by the Ways and Means Committee, when the two internal revenue sections encountered vigorous opposition from the Republican members; nightly sessions will be held until the bill is disposed of and reported. Railroad communication in the recent blizzard section is now open in all directions. New York markets: Money easy at 2 1/2 per cent., closing at 3 per cent.; cotton steady at 10 1/2 @ 10 3/4; wheat—No. 2 red April 90c; corn—No. 2 March and April 60c; rosin firm at \$1.20 @ 1.23; spirits turpentine nominal at 38c. Indian troubles are threatening the peace of the Northwest. Representative Howard, of Kentucky, has been sued for \$100,000. Sir George Chitwynd has sued Lord Durham for libel, putting the damage at \$100,000. Many Republican papers in the North are giving the Kansas Jay-Hawker a sound rasping. Three thousand painters in Chicago will strike on next Monday. They demand better wages. Senator Jo Brown, after the prevailing style of the Senate, read his speech against the Democratic Tariff bill. There is very bitter hostility to the bill in the south of France. Attempts to lynch them have been made. In spite of the blizzard, Baroum gave two performances of "the only greatest show on earth" in New York. The impudent and treacherous New York Sun is still advising the Democrats how to act in the coming campaign. Gen. Boulanger has fallen into disgrace. He has been relieved of his command, and is accused of breaches of discipline. Trouble is feared in Paris, whither he has been summoned. The spice man of the Baltimore American is cruel enough to say: "For four entire days the rest of the world was shut off from Boston, and it still survives. This will surprise the Hubbers, but it will do them good to ponder the lessons."

Ingalls has been interviewed by the New York World. He is preparing an open letter based upon his recent bitter speech. He will be more "brutal" still. He is reported as saying: "Yes, I may apologize, but it will be one of the very last acts of my life, and if you wait to see it you will see that he is grayer than the Emperor William's were when he took his last look from the window of his palace in Berlin."

"I have always been dreamy and contemplative, living in a subjective realm and pondering on the meaning of life," said Senator Ingalls in a recent conversation. — Pittsburg Times.

He is wide awake now. Jo Blackburn's cyclone first struck him, and then the blizzards from the Grand Army Posts followed; and now he has a realizing sense of life and has found out the objective point.

There is quite a little romance connected with Prince Oscar of Sweden. He fell desperately in love with Miss Ebba Manck, the daughter of a dead Colonel in the Swedish army, and to marry her has abandoned his royal rank and titles. That is a lover worth having. He is twenty-eight and is the son of the King of Norway and Sweden.

It gratifies us to see it announced that it is all false about Senator Vest's retirement from the Senate. He is a sound and able statesman—one of the few left—and the country cannot afford to lose his services. The South needs him in Washington. He is an active thorn in the sides of ribald and roaring Radicals.

The Nebraska State Journal, an admirer of Ingalls, pays him this tribute of praise: "He can say things no human being ever thought of before. He can shoot more adjectives at a man in a minute than could be found in Webster's dictionary in a month. He is a volcano, and an eruption is to be dreaded and deplored by the victims. He is a cyclone, and he leaves a ruin and disaster in his rhetorical track."

"Pig iron Kelly" got badly fooled. He moved in the Committee on Ways and Means to abolish all internal taxes, and to his great surprise his own party divided upon it. This shows that the Republicans are by no means united on the Tariff question.

A man out in Ohio wants to fight a duel with the husband of his divorced wife. He is now in jail.

Nineteen people are reported killed, and between thirty and forty injured, ten of whom are expected to die. Young Gould and wife were in the special car. Mrs. Gould was slightly hurt.

The Doctrine of the New Testament. This will be the subject of the seventh sermon on the doctrine of Eternal Punishment to be preached at St. Mark's church to-night. We hear of a man in Pender county who has the first dollar that he ever earned and also has the first horse that he ever owned. The man is forty-two years old and the horse is twenty-six years of age. The man was not twenty years old when he bought the animal. He believes in keeping things.

Only a part of the windows for St. Paul's Episcopal Church came during the past week, and so the consecration services have been postponed. The glass, so far as received, is highly satisfactory, and pleases everybody. Services to-day at the Library Hall at 11 a. m. and 7.30 p. m. Sunday School at 3 p. m.

The relatives and friends in this city will regret to learn of the death of Mr. David Moore, at his home near Point Caswell, N. C. Mr. Moore was a very promising young man and a good Confederate soldier. During and since the war he has been totally blind from a wound received in battle.

Mrs. Sarah E. Taylor, wife of Sheriff E. W. Taylor, of Brunswick county, died last Friday night at 12 o'clock. At the time her husband's house was destroyed by fire a few days ago, Mrs. Taylor was sick in bed, and it is thought the removal and shock hastened her death. Mrs. Taylor was an estimable lady and greatly beloved.

The movement in naval stores at this port shows receipts for the crop year beginning April 1st, 1887, up to March 17, 1888, as compared with receipts during the same dates last season, as follows: Spirits turpentine, 69,333 casks, against 63,932; rosin, 335,007 barrels, against 342,157; tar, 57,576 barrels, against 63,370; crude turpentine, 33,582 barrels, against 28,698.

"Harry Brock" and his Driver. Wilmington Steam Fire Engine Company take great pride in the handsome white horse that they have owned for eight years past, and have had his photograph taken, with that of his faithful driver, Dave Moore, who has had charge of "Harry" for about six years and takes as great pride in him as deep interest in his charge and all matters pertaining to the company as any of its members. The company claim that he is the fastest horse cart horse in the State, and that through him the company has achieved the honor of recording more "first streams" at fires each year than any other company in the Fire Department. "Harry Brock" is fourteen years old this spring, is about sixteen hands high, weighs some 1,300 pounds, and is as sound as a dollar and without blemish or defect. He makes a pretty picture, as photographed by Capt. Orr, of Yates' gallery.

St. Patrick's Day Celebration.

The officers and members of the Hibernian Benevolent Association assembled at their Hall on Third street yesterday to celebrate St. Patrick's Day. The association, in full regalia, and bearing the green flag and the stars and stripes, marched to St. Thomas' church, where Rev. Father Moore delivered an appropriate address from the Epistle and Lesson of the day, dwelling principally upon the benefits that God bestoweth upon the Irish people through St. Patrick, and the gratitude of that people who have never failed to celebrate the day set apart by the Church to be observed in his honor, the world over.

After the services the society reformed under the marshaling of Mr. John W. Reilly, and marched down Dock to Front, up Front to Princess, and up Princess street to their hall. The society then proceeded to the election of officers for the ensuing year, and the following were chosen: President—D. O'Connor. Vice President—T. Donlan. Secretary—Wm. Flanagan. Assistant Secretary—Wm. Sheehan. Treasurer—L. Brown. The association is in a very prosperous condition, both numerically and financially, and it is gratifying alike to its members and their friends to know that it now owns the building in which its meetings are held. The hall is being put in thorough order, and it is proposed to celebrate its completion by a ball, to be given by the association Easter Monday night, the 2nd of April.

Mayor's Court.

There was rather a large docket for the Mayor's consideration yesterday morning.

Sim Garrason, charged with being drunk and down, was fined \$10 for the offence, with the alternative of 20 days in the guard house.

Ned Broadhurst, one of a gang of colored boys who congregate nights in the vicinity of Seventh and Mulberry streets, was charged with disorderly conduct. Judgment in his case was \$10 fine or 20 days in the city prison.

Charles Galloway, colored, disorderly conduct, \$10 or 20 days. Charles Faust was disorderly and was fined \$20 for the offence with the alternative of 30 days in the city prison.

James Capehart, a colored boy, was found guilty of being a wholesale chicken thief and was bound over to the next term of the Criminal Court in the sum of \$100.

George Lewis, colored, disorderly conduct, had the hearing of his case continued until Monday.

James Collins, a tramp from Boston, was ordered out of the city under the escort of an officer.

Jurors for the U. S. Court.

The following have been drawn as jurors for the next term of the U. S. District Court, which will meet in Wilmington Tuesday, May 1st:

New Hanover—Harding Johnson, F. J. Lord, B. T. French, John Moore, R. M. Fowler, Joseph H. Hanby, D. O'Connor, E. G. Barker, F. W. Foster, Samuel Northrop, Wm. Johnson, Wm. McLaurin, John F. Garrett, R. B. Freeman, Jr., George R. French Jr., J. A. Sharpless, M. G. Chadwick.

Pender—Jos. Newton, A. H. Williams, John R. Bannerman, R. F. Williams, J. W. Murray, J. H. Moore, R. H. Murphy, G. W. B. Lee, R. M. Moore, James L. Mills. Sampson—Jas. H. Stevens, Allen Royall, D. T. Best, E. E. Johnson. Bladen—H. H. Barahill, A. F. White, W. B. Hester.

Duplin—A. G. Moseley. Robeson—W. F. Buie, P. P. McRae, John A. Brown, S. E. Carlisle, M. K. Sellers.

The Recent Storm.

From a private letter from New York we extract the following: "Was dug out to-day, for the first time since Saturday, and it has been a hard experience. Our papers do not exaggerate it in their accounts. Snow drifts were thirty feet deep at home, and we were completely cut off. No wire to York; no trains, and provisions short. No papers for three days—so we might have been one thousand miles away for all we could learn of what was happening. The first train got through to-day (15th) and I find it flat in the city and no trade—some streets impassible. There was nothing doing in the city for three days, and no mail for four days; but we trust it will soon be over."

Cotton Movement.

The receipts of cotton at this port for the crop year—up to yesterday—are 165,662 bales, as against receipts of 131,817 for the same time last year, showing an increase of 33,845 bales. Receipts for the week are 190 bales against 636 the same week last year. The stock at this port is 5,464 bales, against 2,725 at the same date last year.

Weather Indications.

The following are the indications for to-day, received at 1 a. m.: For North Carolina and South Carolina, colder, light to fresh northerly veering to warmer westerly winds, fair weather.

The Tabernacle Meetings.

The programme for services at the Tabernacle is as follows: Services will be at 11 a. m. and 7.30 p. m. Beginning at 7.30, a preliminary meeting will be conducted for half an hour by one of the pastors. Precisely at 8 p. m. Mr. Pearson will enter the Tabernacle and after a brief prayer, will begin to preach. Immediately after preaching, the inquirers and those who are willing to work in the inquiry room will repair to the large warehouse, directly west of the Tabernacle, which is being fitted up as an inquiry room. A platform five feet square, is in the centre, and the seats radiate from it in all directions. The choir will be expected to sing during the after-meeting, and a small organ will be used. Rev. Mr. Hoge will lead the preliminary meeting to-night.

Col. Roger Moore has been appointed Chief Usher. He has selected five assistants and these will select others from each of the churches until a sufficient number has been secured to seat the congregations promptly and decorously. The Chief and his five assistants have been sworn in as special policemen by the Mayor, and a detail of police will be on guard on the streets near the building during the continuance of the services.

A Burglar Captured in Halifax.

A correspondent of the STAR, writing from Halifax, N. C., gives an account of a daring burglary perpetrated in that place last Thursday night at the dwelling house of Sheriff R. J. Lewis. The burglar entered the front door, went up stairs and robbed two or three trunks. When he came down stairs he was seen by some young gentlemen visiting at the house. The fellow would have made his escape, probably, but for Dr. Ferguson, who was returning from a visit to a patient, and who stopped the man and prevented his escape: from the party pursuing him. The man gave his name as George Brooks; he is a negro, five feet and a half high, weighs about 125 pounds, and has a slight moustache and thin beard. He says he is from Burgaw.

The morning after the capture of Brooks, a quantity of stolen goods was found near the W. & W. Railroad warehouse, consisting of shirts, overcoats, hats, handkerchiefs, card cases, satchels, a rubber-handle pistol and other articles, packed in two bags. Brooks waived an examination before a magistrate and was committed to jail.

The Weather.

It was a genuine March day yesterday, with a clear sky, a genial sun and a cool brisk wind, but the barometer fell rapidly all day, making the atmospheric condition favorable for a local storm, which came up after midnight, when the wind shifted to the north and blew with increased force—from eighteen to twenty miles an hour.

The barometer was below the normal all over the country in the early morning, the lowest prevailed in Maine. No decidedly developed low area was apparent yesterday and no general storm is imminent unless coming from off the ocean. Rain and generally threatening weather are likely to occur to-day with no prospect of any change for the better. The uniformity of the pressure, which is low all over the country, will render the weather uncertain—generally inclining to rain and high winds.

Foreign Exports Yesterday.

Messrs. Paterson, Downing & Co. cleared the German barque Ferdinand for Hamburg, with 3,700 barrels of rosin, valued at \$4,024. Mr. C. B. Mallet cleared the schooner Annie W. Barker, for Basse Terre, Gaudaloupe, with 161,685 feet of lumber and 22,700 shingles, valued at \$2,150.
