high seas American commerce. That | thought it high time to out it down is a heavy bill of indictment against in 1872-sixteen years ago? As we the Republican party - a party of have got farther and farther off from pirates who believe in plundering the the war period how is it that a higher 58,000,000 of people for the benefit and higher Tariff is needed, accord. of some 2,000,000.

Protection is immoral because it is based upon a system of robbery. That is the very brand fixed upon

by a Republican Supreme Court. Burrows is like the others of his piratical craft. He pretends that the present High Protective Tariff was necessary "to encourage American industry and protect American labor." Here again we have deception, rank and offensive.

Why is it necessary to levy a tax of 47 per cent. average to foster industries that are fifty or almost a hundred years old ? Mr. Clay, the father of the boasted "American System," believed that 20 per cent. average was ample for 1842. But fortysix years afterwards, Burrows and the Rob Roy band insist that 47 per cent, is not too high.

It is known positively that a Tariff of ten per cent. (10) would be ample to put the American workingmen on an equal footing with the foreign workingmen. This being so, all duty above 10 per cent. is intended for the already rich employer or capitalist. Every cent above 10 per cent. average tax goes into the pockets of the mill owners and mine owners. So it is a lie and a fraud to pretend that a great War Tariff of 47 per cent. is necessary "to protect American labor." It has been ascertained beyond all doubt or peradventure that 8 or 10 per cent. is ample "to protect American labor" against foreign labor, and it is deception and falsehood to pretend that even 20 per cent., much less the enormous 47 per cent., is necessary "to protect American labor." American labor will get along excellently with the 10 per cent. bounty. Beyond that the tax is all for the benefit of the Monopolists and Money

ing to the wisdom of the Kelleys and Barrowses of the House? The New York Times -ablest Republican paper in America-says this:

The Springfield Republican calls atten-tion to the tariff reduction bill of 1873, passed by a Republican Congress, when Gen. Grant was President and Mr. Blaine was Speaker of the House. It points out that the need and the demand for such a bill were much less than they are now-for much of the reduction then made was after-ward frestored-and says that the present refusal to consider the question fairly is such a 'striking illustration of stupid, par-tisan blindness to the signs of the times' that it would be hard to find one more striking in the whole recent history of the Democratic party."

If there was anything of honesty or wisdom in the Republican party in 1872, there is nothing of those ingredients to be found in the men now representing it in the Federal Congress. It was not a lovely party in 1872. Now it is a whited sepulchre-filled with rottenness and dead men's bones. The great men of the party-the men who gave it life, character, force-are all gone: Lincoln, Samner, Morton, Conkling, Davis and a score or two others. Now it is made up of political sbysters, tricksters and planderers-men of the Blaine, Sherman, Foraker sort.

THE PERIODICALS.

The Century Magazine for April is of course beautifully illustrated and well filled written matter of the kind that this popular monthly furnishes its readers with. Among the contributors are Edward L. Wilson, Edward Eggleston, Theodore Roosevelt, Henry James, Julia Dorr, Edith M. Thomas, T. T. Munger, T. N. Page, Emma Lazarus, E. S Nadal, Leonard Woolsey Bacon, &c. The usual war literature is supplied, in which we have lost all interest, and we believe the South has. Terms \$4 a year.

The Cosmopolitan has improved. It presents another profusely illustrated paper, partly in color, of "A Revival of Shukespeare's Midsummer Night's Dream. Among the contributors to the April number are E. P. Roe, Max. O'Rell, John Bur-

THE LATEST NEWS. ed upon so-called preferences, furnished not by one but by two. of the most sotive and well informed | FROM ALL PARTS OF THE WORLD Democrats in each county and cov-ering the entire State. Their answers as fornished place the vote as between Stedman and Fowle at 543 for Stedman and 390 for Fowle, giving Stedman a clear majority in the whole Convention of 153 votes over Fowle.

The estimate as between Alexander and Fowle as furnished would not be preculiarly gratifying to the friends of Judge Fowle. It must not be forgotten, however, that the ualculation is based upon estimates furnished from overy county in the State, many of them being far off from our Capital City. We suppose, however, this would be considered legitimate by Democrass from the State at large. Now, we ask our good friends to place our figures with their straws and keep them until the 30th day of May and see if we are not very near the mark, if the race should be between Stedman and Fowle.

CUKRENT COMMEN'I.

---- He (Conkling) was an upright man and a brilliant man. He carried himself with a lordliness that impressed the service; but to the artifices of the poseur, he joined a ready gift of speech and a captivating personality. He was very fine, indeed, upon his feet; handsome, graceful, resonant, assured, a born orator. Rarely so much as civil to his equals, he was gracious to his inferiors, and

sort. To the multitude he sat up for a god, and often had his claim allowed. He was nowise a thinker, but an actor, and one of commanding talents. The close of his eight hour speech on the electoral tribunal bill in the winter of 1877; his acounciation of the men-milliners in the New York State Convention of 1879, and his address before the Chicago Convention of 1880, nominating Grant, were master-pieces of a very high and varied order of oratorical display. He originated no legislation; advanced no original ideas; led no forlorn hopes; and, as often as he lost his grip upon the machine, lost his power to direct and affirm. -Louisville Courier-Journal, Dem.

----- The tariff discussion is somewhat like the time-bonored fable of the dog in the manger. When any one suggests tariff revision he is branded by the Republican press as a free trader; but a clear-headed and far-seeing man, whether Republican or Democrat, who does not recognize that some reform is expedient, has yet to be found. The Republicans are afraid to take active steps to solve the riddle, but will not permit of the other party's doing what they dare not themselves attempt. All tariff reformere are free traders in the eyes of Republicans, but all but the more bigoted, even among Republicans, admit that reform of some kind is advisable, not to say neces eary. - America.

Negro Troubles at Bessemer-Fears that the Town will be Burned-Armed Militia of Birmingham Ordered to the Scene.

By Telegraph to the Morning Star. Brannsonan, April 24.-- A freight train

left Bessemer at 9.50 this evening. One of the gentlemen who came on it for arms and troops, says about fifty negroes got off a dummy at Bessemer, about 7 p. m., armed with abot-guna. They went to the woods, and the town negroes disappeared from the streets. A car loaded with shingles, at the end of a long jumber train, was fired and burned.

The sheriff has the city militia under arms, walting for a train to get ready, and will go down directly. The sheriff has just called for one hundred a med deputies. There is great excitement, and fears prevail that the town will be burned to-night. A later dispatch from Bessemer to sheriff Trues says: ""Everything quiet; no damage

Wednesday, April 25, 6 P.M. BUNCOMBE AND IGNORANCE IN

CONGRESS.

We suppose our readers generally will follow up the abstract of the discussion on the Tariff as reported from day to day in our telegraphic columns. We do not deem it necessary to consider the points raised by the various speakers, even to point out the absurdities and humbuggery and positive mistatements of Republican speakers who seem to be talking literally for buncombe. The speakers for Protection are certainly not careful in confining themselves to the strict line of truth. We copy from the speech of Representative Burrows, of Michigan. He is reported as follows:

"The eras of protection had been eras of prosperity. Eras of free trade had been eras of depression and disaster."

Here are three lines that contain two errors that must result from ignorance or intention. The precise opposite of the above is true. The most prosperous time the United States have ever known, was under the Low Tariff. The whole country flourished and manufactures and farming interests increased at an unexampled ratio. Judge Lamar, when in the Senate, made an elaborate and masterly speech in which he copied from the Government statistics and showed precisely what we have stated. No man iu the Senate dared to question his figures. He showed that the "era of depression and disaster" was under the palsying hand of Protection.

Look at the country now. What is the real condition and what has been its condition for years? What do we see? Protection has created -absolutely created an army of tramps. They were never heard of before the paralyzing era of Protection.

Protection has fostered all manner of strikes. They abound and the losses by strikes are simply enormous. You rarely hear of a strike in so-called free trade England.

Protection has created and fosters

The National Builder has recently given some prices in different cities of laborers. It appears from these statistics that brick masons, for example, receive \$6.50 a day in Kansas City, \$6 in Portland, Oregon, \$5 in Boston, \$4.80 in Chicago, \$4.50 in Cincinnati, \$3.75 in Jacksonville, and \$3.50 in Richmond. Carpenters get

\$3.50 a day in New York, \$3 in Boston, \$2.50 in Richmond, \$2.25 in Buffalo, and \$2 in Detroit. Similar variances are found in all branches of the building trade.

Now in our own country we see that prices vary in the cities and towns and vary very much. And yet a High Protective Tariff is over all. Does not this show conclusively that Protection does not fix the price of labor or in any way regulate it? Free Trade England pays much higher wages that Protection Germany, or Protection Italy, or Protection France. Wages are not fixed by a Tariff. It is false to say otherwise.

YELLOW FEVER.

The alarm from Florida comes very soon this year relative to the fatal scourge. It is an alarm that betokens evil and that says to Wilmington-"Pat your house in order." Are the authorities doing this? What is the sanitary condition of the city? Health officers, Mayor, physicians, look to this. The public health demands it. The health of your own families demands this.

Three or four years ago there was an alarm over yellow fever. Then the authorities were on the alert. The Water Works Company was not allowed to dig up the streets after a fixed time-in April or early May, if we remember aright. It was salutary precaution.

What is the condition now? Are any of the streets being dug up now? Are any plans of extensive digging going on around the city? Is it a good time to be excavating and exposing the inhabitants to such influences that may prove hurtful and cause the spread of an epidemic? Let the physicians, Mayor and the most gigantic combination for health officers see to this. The pubevil the world has known. We re- lie health requires scrutiny and all

RALEIGH POLITICAL MATH-EMATICS.

Wilmington Daily Review.

The methods by which the Raleigh politicians arrive at the conclusion that their candidate, Judge Fowle, is in the lead for the nomination for Governor, whilst entirely innocent, and to them most pleasant temporarily, can only end in dis-aster. The News and Observer has recently published a list of what it calls preferences, as expressed by counties, and this political learning, also called "Some Straws," is published for the information of provincial Democrats. It seems that the News and Observer sent an inquiry to the Chairmen of the Board of Commissioners of the different counties, asking them what they believed to be the preference of the people in their respective counties for Governor and Lieutenant Governor; and received answers from

about fifty counties, as stated by that paper, and from these answers it places the vote of Fowle at 157, and Stedman at 117. Be it remembered that there will be 933 votes, or thereabouts, in the next State Convention, and the estimate furnished by the News Observer, even if entirely correct, as far as it went, would be a very poor index from which to arrive at a probable conclusion as to who would be nominated, Stedman or Fowle, if the race should be entirely between them, which at the present time is far from being a fact. But just to show how dismal a failure these "straws" will prove, let the News-Observer add to its list the following counties, which are entirely omitted as not heard from, viz: Third District-Wayne, Duplin, Sampson and Cumberland: Sixth District-Brunewick, Anson and Union, and then calculate, if by any process known even to the far reaching calculations of those who manage politics in our modest capital, it can figure Fowle anywhere ahead of Stedman in the race. If these eight counties do not suffice we can furnish a great many more, which we think will at least satisfy our friends that they are making a sad mistake in attempting to reach a proper result from the article headed "Some

Straws" from the News Observer.

OUR STATE CONTEMPORARIES.

Every true patriot must note with joy the vast improvement under Democratic rule. Even the Republican party feels the good influence of our example and bids fair to become quite a decent organization. That party like some church members, does very well while excluded but when restored they backslide.-Clinton Caucas.

To a lay reader Mr. Argo's position seems impregnable. He announces his purpose to proceed against Cross and White in such a manner as his duttes as Solicitor may require, regardless of the stipulation entered into between Mr. Busbee and the prisoners. These men have outraged public confidence and violated the laws, and justice and protection to the innocent demand that they suffer for it.-Pittsboro Home.

Mr White was said to have remarked yesterday morning soon after he had ar-rived that after all the vicissitudes through which he had been he had not lost all his religion.-News-Observer. We should say a religion that sticks to a man while he steals and carries to Canada the funds of his widowed sister, and there spends his time and her money drinking toddles to the excess reported by the negro he lied to and deceived into going with him, is of a de-cidedly adhesive character. If it saves as well as it sticks, Heaven will be full of thieves and robbers. -Hickory Press.

The matter of reduction should be above sentiment and favoritism, and eught to carry with it the principle that the few should not be served at the expense of the many. The Mills bill, therefore should be adopted. It is a Democratic measure and should receive the unanimous support of Democrats. It aims to reduce the tariff on necessaries, in favor of the laborer and farmer. It retains the tax on whiskey for the reason that whickey is a proper object of taxation, s tax which no man needs to pay, if he does not choose to do so, a tax that does not bear heavily on any interest. No farmer who studies his interest will favor repeal of the internal revenue, or oppose the Tariff bill now before Congress.-Concord Times.

POLITICAL POINTS.

- Down South they think Judge Kelley's tariff speech a splendid argument. for the tariff millionaires.—Phil. Times, Ind. Dem.

- The fact that the different sections of our country, with their different wages rates, get along prosperously without any trade barriers between them is a fact worth thinking about.-Providence Jour-

didate for Supreme Judge and selecting four delegates at large to the National Convention, and two electors at large. The attendance is the largest for many years.

A State Convention of colored men met at Jackson, Michigan, yesterday, for considering matters relative to the coming political campaign. About fifty delegates were present. Resolutions were adopted lamenting the death of Roscoe Conkling, endorsing the Blair Educational bill, en-dorsing the candidacy of Gen. Russell A. Alger, and unequivocally endorsing the Republican party.
