general custom. Held, That if plaintiff looked to the principal for the agent's debt he

should have so notified him. Held, That the lien of the innkeeper for board does not attach to property which he knew was not the property of the guest.

Held, That by allowing the guest to depart and extending the credit from time to time the inn keeper discharged any lien that might have existed, and the fact of the replevin can not make the defendant liable. Held, Where the evidence is not sufficient to go to the jury, the court should direct the verdict against the party upon whom the burden of proof rests.

Shaw vs. Williams.

In 1881 Williams agreed to buy a lot of land from plaintiff and other tenants in common, and in 1883 received his deed, which recited the payment of the purchase money and a release of the same, and went into possession. Plaintiff did not receive her share of the purchase money, and in May, 1884, brought this action to recover it.

Plaintiff had executed the deed, but had not authorized any one to receive her share of the purchase money.

Held, Unless one has exercised the authority of a general agent, so as to reasonably induce dealings with him on that basis, a payment to him for another will not be binding on the person for whom he assumes to act. Held, Where payment is acknowledged in a deed, although in fact not made, a recovery of the money cannot be had at law.

But where the recital results from inadvertance, or was inserted under a mistake of its legal effect and without an intention that it should bar a recovery, it may be recovered in equity. Equity does not sustain short-hand bars such as releases unless they be fair and true and proper to be equitably enforced.

From all we can gather this was done. --- It is understood here that track laying on the Dur-ham & Oxford Railroad will begin at this end on the 5th or 7th of May. The entire line is now under contract and the work of completion is being pushed with vigor. The iron rails will soon link Oxford and Durham in the strongest ties. — We are pleased to learn that Emmie, the little five-year-old daughter of Mr and Mre.
