MORNING EDITION OUTLINES.

The Indian appropriation bill was passed in the Senate yesterday; the House passed the legislative appropriation bill, and the tariff bill was considered, but very little progress made. St. Louis is rapidly filling up and big preparations are being made to accommodate the great throng which will attend the Democratic National Convention; no other name but that of Cleveland is mentioned in connection with the Presidential nomination, and the all-absorbing topic is the Vice Presidency. -- An exciting seene occurred yesterday in a Chicago divorce court; the wife of a man who was suing for divorce attacked her husband's counsel with a pistol, firing five shots, two of which took effect, and which it is thought will prove fatal. —Senate bill to revive the rank of General of the Army, for the benefit of Gen. PUBLIC SCHOOLS.

Committee Meetings-Prof. Noble's Annual Report-Election of Teach

The two committees for the city of Wilmington met in joint session yesterday. On motion of Mr. Donald MacRae, Mr. James H. Chadbourn was called to the chair and Walker Meares, Esq., was requested to act as secretary.

Prof. Noble made his report for the year ending last Tuesday, showing an enrollment, of 971 males, and 1.048 females—a total of 2,019. This is an increase of more than one hundred over last year's enrollment.

Marked improvement has been made in the methods of teaching, especially as to reading, geography, and arithmetic. In reading special attention has been paid to teaching the power of the letter first rather than the name. The improvement in geography refers to map drawing mainly. In arithmetic constant effort was made to teach that which was decidedly practical.

Teachers' meetings continued to be held, at which there was given instruction, not only in the branches taught, but in the methods of teaching. These meetings enter largely into the success of the schools.

There was organized during the year a teachers' training class, in which were more than thirty ladies who wished to prepare themselves to teach. This class met twice a week and was a decided success.

The pupils in the schools during the past year made a decided record for good behaviour, there having been very few cases of bad conduct. A child who behaves well at home

will do so at school, as a rule; all children though, at times, commit The Civil Service Reform League | tice that badges must be procured by | penalty-but every one who does not treat his teacher in a gentlemanly manner should be removed from school at once. All the schools need good libraries

and are making efforts to secure them. The Union School has a very fine library of over 500 volumes of books by the best authors. Fully 75 per cent. of the pupils take out books

The teachers have worked well and deserve credit for the faithful manner in which they followed the methods and plans as developed at the teachers' meetings. Many of the teachers rank among the best, and some have been called to teach in the Normal Schools which are an honor to the State and the public-spirited citizens who worked for the establishment of these distinctively North Carolina institutions for the better preparation of teachers.

The report closed with a tribute to the memory of Capt. W. M. Parker, who for years had been a faithful member of the committee in Distric

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A Benefactness, Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syeur relieves the child from pain, and curies dysentery and diarrhesa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. THE FLORENCE NIGHTINGALE OF THE
