WASHINGTON.

Faller's Nomination for Chief Justice Considered by the Senate-Cotton Bagging Makers and the Tariff-ithe Pisheries Treaty—Democratic Caucus By Telegraph to the Morning Star.

WASHINGTON, June 11.-The Senate Committee on Judiciary to-day further considered the nomination of Melville W. Fuller to be Chief Justice, without result. The meeting continued nearly half an hour after the Senate had assembled, and the case was, on motion of Mr. Vest, postponed for two weeks.

The Senate sub-committee on tariff today heard the views of cotton-bagging ma-kers on the tariff. The committee was told that cotton bagging manufactures had been established with imported machinery, upon which a duty of forty per cent. had been paid, and that the capacity of these estab-lishments was fully 100 per cent. in ad-vance of the demand for bagging. A reduction of the present rates could be endured only in case jute butts were made free. The competition in Indian bagging is so flerce, however, that if it were made free, as proposed by the Mills bill, the fac-tories would suffer speedy ruin. It was further represented that there is no demand from planters for free bagging, masmuch as bagging, as well as the iron hooping on cotton bales, is all weighed and paid for as

cotton, and the planter in this way receives

more for the bagging than he pays for lt. WASHINGTOE, June 11 .- A rather thinly attended caucus of Democratic Representatives talked for three hours to-night upon the tariff bill. The caucus had been called to devise means for expediting action upon the bill, but nothing definite was accomplished. There did not seem to be any clear idea as to how this was to be done, even by the members who drew up the call. Mr. McDonald, of Minnesota, admitted that he had no proposition to offer. Mr. Mills said that he had been requested by Mr. McKinley to cause the conideration of the bill to be suspended during the Republican Convention to accommodate a number of Republican members who wish to attend. In view of the proximity of the next fiscal year and the urgent necessity existing for the speedy passage of the appropriation bills to prevent disastrous suspensions of branches of the government, it was generally believed that this request might be granted, and that appropriation bills might be acted upon during the suspension of the tariff debate. The final disposition of the matter was left

to Democratic members of the Ways and Means Committee. Recurring again to means of restricting debate while the tariff bill is under consideration, it was decided that an effort should be made to carry out more closely the spirit of the rule regulating the five minute debate. One way in which this could be done, it was believed, would be to refuse to permit extension of time to members, "by consent," beyond the five minutes to which they are entitled. As this practice has grown into what the Democrats regard as an abuse, it was resolved to put an end to it. Mr. the Republicans had clearly manifested their intention to prolong the debate by every possible means. In the discussion it was suggested that something corresponding to the "Keifer gag rule" be applied, but the suggestion did not take practical shape. It was developed that a considerable majority of the caucus favored the adoption of such rule, but as it was not the intention to finally decide upon the line of procedure at this time, it is probable that the debate will

before an attempt is made to apply any severe restrictive measures. WASHINGTON, June 11.-The following bulletin was issued at 9.30 o'clock this

WEATHER AND CROPS. Report of Signal Office Bureau for the Past Week.

By Telegraph to the Morning Star. WASHINGTON, June 10 .- The weather for the week has been generally favorable for all growing crops. The reports show an improved condition over the preceding week, although cool weather in the extreme northern sections has probably retarded the growth of corn. In the wheat regions of Minnesota and Dakota the conditions were generally favorable for the rapid growth of all crops. In the corn States of the Mississippi and Missouri Valleys the weather was generally favorable, although more rain is needed in the southern portions of Ohio, Illinois, Indiana

and Missouri. In the cotton region the crops were affected favorably, except in South Carolins, where cool, wet weather retarded the growth of the cotton plant, which is reported as small and backward.

The weather was favorable for harvesting in southern Kansas and Tennessec.

HUNG BY A MOB.

A Negro Outrager Put Out of the Way by Kentuckians. By Telegraph to the Morning Star.

Evansville, Ind., June 11 .- At Henderson, Ky., twelve miles below here, at 1 o'clock this morning, James Foster, a colored man, was taken from jail by a mob and hung. Foster was arrested Thursday morning at the instance of John Howard. charged with a criminal assault upon the latter's little eight-year old daughter, a few miles from Henderson, in the country. Foster, on being arrested, strenuously denied his guilt, but the most conclusive evidence was found. As the quiet little city was asleep, at midnight, two hundred Kentuck. ians, mounted on horseback and armed to the teeth to repel officers' resistance, rode into the city. Pulling up at the jail they made a dash for the barred doors, and before the jailer was fully alarmed they were inside. Breaking down the cell door they dragged the prisoner to the scene of his crime and hung him.

A Young Man and Woman Drowned iu Coosa River.

By Telegraph to the Morning Star. COLUMBUS, GA., June 11,—A special to the Enquirer-Sun from Childesburgh, Ala., says: On Sunday afternoon a young man named Elliott and Miss Maggie Stewart, both of Shelby county, went out buggy riding. Late in the afternoon the horse and buggy used by the young couple was discovered floating down the Coosa river. The river was dragged and the bodies of Elliott and Miss Stewart were recovered. It is supposed that the horse ran away and dashed into the river with

BERLIN, June 10 .- An official bulletin concerning the Emperor's condition says that during the last few days the Emperor has had slight difficulty in swallowing which, however, has not affected his general health. The Emperor's disquieting Bymptoms have almost entirely disappeared.
Porsdam, June 11.—Emperor Frederick passed a good night. The difficulty in swallowing, which has troubled him for a few days past, has not quite entirely disap-

peared. His appetite is better. LONDON, June 11.-The Berlin correspondent of the St. James Gazette telegraphs that the Emperor is distinctly worse and has lately suffered severe pains. The correspondent also says that a hole has been discovered between the windpipe and the gullet, and the taking of food is thereby made dangerous.

LONDON, June 11 .- The Mark Lane Express in its weekly review, says: Native wheats continue in free delivery in London, and values are six pence against sellers. Crop prospects are greatly improving under fine weather. Foreign wheat is slow; Russians and Indian are one shilling cheaper. Flour in London is six pence cheaper. In the provincial markets lower kinds of American flour are quoted nine pence cheaper. Corn is rather scarce and values are irregular. Oats are six pence lower. There were twenty arrivals of wheat cargoes. Three cargoes were withdrawn, five remain and thirteen are on sale At to-day's market there was no demand for wheat. The finest English was six pence lower. Flour was dull. Corn values were in favor of buyere.

force, he said, was on the assumption that it would be equal to three army corps, comprising cavalry and artillery. Mr. Childers asked, seeing the interest which the subject was exciting, that a detailed and authoritative statement be pre-

rapid movement. The estimate that ships

required for transporting the invading

sented to Parliament. Mr. Hanbury asked whether the naval and military departments had consulted on

the subject? Lord George Hamilton replied that data had been obtained thirteen years ago, as the result of a joint conference, and promised to produce those of the transport department which satisfied him that the tonnage referred to did not overestimate the preparations necessary for landing such a force. Such an invasive force from the continent, he continued, implied the distribution of the invaders in ports hundreds of miles apart, with a successful voyage of not less than a week, instead of a few hours, and made without opposition from a hos: lle fleet

W. H. Smith, First Lord of the Treas ury, announced that Government would proceed with the licensing clauses in the local government bill.

Mr. Balfour, in replying to Gladsione, declined to put on the table evidence on which convictions for boycotting had been obtained, and said that the ends of justice were amply secured through the Superior Courts, while the evils of boycotting would be seriously aggravated by publicity. GRAIN AND PROVISIONS. A Nervous Feeling in Wheat and Corn

-Provisions Unsettled and Dult. · By Telegraph to the Morning Star. CHICAGO, June 11.-The unusual action of the market for cereals on Saturday caused some nervousness and activity in the pits this morning. The opening prices were lower all around than the closing

sales of last week. Wheat started 1c under at 851c for July, and after a little show of strength touched 861@861c This was followed by extreme weakness at once on the belief that the decrease in visible supply would be small, and July went down to 85c before noon. Then the visible supply figures showed a decrease of 670,000 bushels-not as bad as expected-and prices rallied just a little. Trading for the first hour was nervous and

fair in volume, but after 12 o'clock the pit was dull. Corn was was subjected to the same very depressing influences. There was an increase in local stocks for the week of 994. 335 bushels, and at Buffalo of 583,000 bushels, while the total visible supply increased 1,885,864. In addition, there were estimates for to-morrow of 885 cars. The latter was the weakest feature of all. July started &c lower, at 52c, and after a rally to 52fc, broke to 51fc; but there seemed to be

a fair demand at this figure. Oats opened quiet and dull; July sold at 32 to 321c, and closed at 32@321c. Provisions, owing to the receipts of 33,000 hogs, were somewhat unsettled and prices fluctuated considerably within narrow range. Offerings were firm but the demand was only moderate and the market

closed rather quiet at medium figures. DISASTROUS FLOODS.
