REPUBLICAN TRICKS AND CORRUPTION FUND.

A Republican League has sent a circular to manufacturers. Of course it is a secret affair, but all secrets will not keep, and so it has come to pass that the public is informed of what the League is trying to suppress.

Now why should this secret circular tell the truth when Republican politicians so often think a lie will answer better? It is to induce the sole recipients of benefit from the monstrous War Tariff to put up largely of their profits in order to continue the great oppression, that only benefits manufacturers, and to that end to elect the Republican ticket.

We copied from the Chronicle on yesterday what it said of the Justices of the Peace. That the office is not well filled often and that abuses attend it is too plain for denial.

The meaning of the Democratic plank of 1888 is as easy to get at as the meaning of the platform of 1876, when Mr. Tilden was elected and when the Democracy swept the country.

to put Randall and the President on the same platform as to Protection. They evidently suppose their readers to be stupid and ignorant of all that is passing.

THE PERIODICALS. Belford's Magazine is out. The initial number (for June) gives good promise of a live, entertaining and able monthly.

The Free Trade part is all blather-skit. Democrats are fighting for a Protective Tariff of some 40 per cent. They endorse the Mills bill that simply reduces a 47 per cent. Radical War Tariff to about 40 per cent. Only that and nothing more.

The Republicans are preparing to make the great Pension grab scheme an issue in the campaign. It is plain why this is hit upon. By it they hope to carry doubtful Northern States by the votes of Democratic soldiers.

The Democrats desire to put salt on the free list. Salt is the most common and useful of all necessities, perhaps. Yet the Monopolists are even opposed to the people getting free salt with which to season food and preserve meats, &c.

It would be a blessed day for North Carolina if its Legislature could agree to diminish the number of Justices of the Peace, clothe them with greater powers and dignity, and award them larger emoluments so that the best men of the State could be induced to accept the office.

One remarkable feature of the tariff debate in Congress is that Republicans who in former Congresses advocated the abolition of the duty, on salt, for example, are now steadfastly opposing it, and are thus plainly stultifying themselves and their party.

You can find an illustration anywhere. There are plenty within reach. Take Andrew Carnegie—his name happens to occur to us—as an example. Your tariff has made him many times a millionaire.

It is positively amusing to see so-called Democratic papers assaying to put Randall and the President on the same platform as to Protection. They evidently suppose their readers to be stupid and ignorant of all that is passing.

Court-to-day. The prisoner appeared as if he had not slept for several nights. Mrs. Potter did not appear, but Artist Rigby, the complainant, was on hand. Justice White remanded the prisoner until to-morrow morning.

THE INTER-STATE FARMERS' ASSOCIATION. This body was organized by the Inter-State Convention of Farmers which met in Atlanta, Ga., in August, 1887. The Association was born of necessity.

As to the second place on the ticket," said Senator Voorhees, who is at his home in Terre Haute, Ind., "while the Democracy of Indiana worked hard for the nomination of Governor Gray, yet the name of A'len G. Thurman is dear to us all, and he will receive the earnest and affectionate support of every Democrat in the State.

It is not proposed to extend the relief of the country of this taxation. It must be extensively continued as the source of the Government's income; and in a readjustment of our tariff the interests of American labor engaged in manufacture should be carefully considered as well as the preservation of our manufacturers.
