Railroad Racket.

In answer to an inquiry as to the longest railway tangent in the United States, it was recently stated in the Railway Age, that the Norfolk and Western railway had a tangent 52 miles in length, and the Savannah Florida and Western one of 60 miles. Superintendent Jones of the Carolina Central railroad says that there: a tangent on that road, commencing near Marlville and ending near Laurel Hill, which is 794 miles in length.

A Sumter (S. C.) special says that while the Seaboard and Roanoke Railroad Company have been desirous of making a through route to Charleston, they have been preyented from running in the direction of Sumter by some understanding with the Atlantic Coast line, by which neither line was to interfere with the other. 'The Atlantic Coast line is now building a road to compete directly with the Seaboard and Roanoke. This the latter corporation considers a release from its obligations. It now contemplates making connection with Charleston, via Sumter, by the Eutawville railroad. This route, if consummated, will give the Seaboard and Roanoke Company a line from Charleston to Norfolk as short, if not shorter, than any existing route, and place them in direct competition with the Atlantic Coast line.

An Escaped Prisoner Captured.

George Thos. Chance, a negro who is wanted in Fayetteville, having escaped from the jail at that place over a year ago, was arrested yester day afternoon by police officer Ben Turlington, and locked up in the county jail for safe keeping. Chance said that he escaped from the jail in Fayetteville in company with four or five others, and that he was charged with having attempted rape on a colored girl. After leaving Fayetteville he went to Waccamaw. and from that place came to Wilmington, getting employment on a gravel train on the W. C. & A. railroad. The police have been on the lookout for him for some time, but Chance has always managed to avoid them when in the city. Yesterday, however, he was not so fortunate. Police officer Turlington was returning from Meares Bluff with two prisoners in custody-deserters from a vessel in port-and when near the railroad depot saw Chance seated on a flat-car. As soon as the latter spied the policeman approaching he attempted to get away but was brought to a halt by the officer presenting his pistol.

Officer Turlington deserves credit for making the capture, and no doubt will receive the reward offered by the authorities of Cumberland county for the arrest of Chance.

October Weather.

The weather chart for October. issued by the U.S. Signal Office here, and which is computed from observations at this place for the pas seventeen years, shows that we usually have quite a cool change between the 14th and 18th, and again about the 25th.

The highest temperature recorded here during October was 92 degrees, in 1874; the lowest, 35 degrees, in 1887. Clear days average one in every four, cloudy, one in four, and it rains one day in four, with an average daily rainfall of 0.13 of an inch. The greatest daily rainfall was 4.51 inches on the 11th, in 1885.

The average velocity of wind is five miles per hour from the northwest, and this direction is 33 per cent. of all others.

Highest wind velocity here during the month is 47 miles from the northeast on the 6th, in 1878.

Col. Waddell in Wilmington-An En- | HELP FOR JACKSONVILLE thusiastic Greeting by the Citizens. Col. A. M. Waddell, one of the electors for the State at large, returned to

The Young Men's Democratic Club. learning of his presence at home, requested him to address the Club and citizens of Wilmington at the Opera House. At 81 o'clock p. m. a large audience greeted our distinguished citizen, who was introduced by Thos W.

Strange, Esq., in quite a neat speech Col. Waddell began by eloquently alluding to the beauty of our western section, and the pride he felt in being

a North Carolinian. He then, for the information of the young men, pictured in the most vivid terms the wrongs and oppressions suffered by our people from the reign of the Republican party in 1868, and contrasted it with great force with the peace and prosperity enjoyed by our people under Demo-

cratic rule since.

He then turned his attention to National politics and clearly presented the rascality of the Republican party, after permitting the five twenty government bonds to be purchased at seventy cents, in packing the Supreme Court of the United States to obtain a decision compelling the government to pay the bonds in coin, and also for its legislation demonitizing silver so as to enable the bondholders to receive payment in gold. He showed how the public lands, acquired by the government under Democratic rule, and which by the Democratic party had never been touched except for homestead settlements, had been squandered upon corporations by the Republican party; stating that the Republican party had given to corporations 149 million acres of

sition on the working men. The speech was an eloquent and instructive one, and his practical illustrations were apt and forceful, and are calculated to do much good.

Before closing his speech Col. Waddell gracefully thanked the ladies for their presence and paid them a just and glowing tribute, and after thanking the citizens generally, he concluded amidst great applause.

Wilmington Library Association.

A meeting of the Wilmington Library Association was held at the Library Rooms last night to consider a proposition made by the Young Men's Christian Association.

This proposition, briefly stated, was: The Y. M. C. A. to pay the present debt of the Association (not to exceed \$350) upon condition that the library and furniture be transferred to it, and to give the life members of the Association, and such of the other members as shall keep up a membership in the Y. M. C. A., by paying the annual dues of \$2, the privilege of the books. In the event of failure of the Y. M. C. A. to keep up its organization, the books to revert to the As-

The meeting was called to order by Dr. Thomas F. Wood, President, and Mr. Iredell Meares was requested to

act as secretary. The proposition from the Young Men's Christian Association was submitted, and was strongly advocated by Mr. B. G. Worth and Mr. W. M. Cumming, and was opposed by Col. B. R. Moore, Mr. Junius Davis, Dr. W. G. Thomas and Capt. W. H. Bixby. Finally, on motion of Dr. Thomas, the proposition was rejected by a vote of 19 to 5.

Dr. Thomas then appealed to the members to come forward and relieve the Association from debt, and in response the following amounts were pledged for this purpose: Dr. W. G. Thomas, \$10: Capt. W. H. Bixby, \$10; Dr. G. G. Thomas, \$10; Dr. Thos. F. Wood, \$10; Dr. W. H. Green, \$10; Junius Davis, \$10; J. C. Chase, \$10; H. G. Smallbones, \$10; Jno. W. Bolles, \$10; B. G. Worth, \$10; B. Solomon, \$5; W. M. Cumming, \$5; Col. B. R. Moore, \$5; C. C. Chadbourn, \$5; C. B. Mallett' \$5; W. H. Bradley, \$5.

The following resolution was then submitted and adopted:

Resolved, That Col. B. R. Moore and Junius Davis, Esq., be empowered and requested to secure from the municipal authorities of the city of Wilmington, a suitable room for the accommodation of the Library of this Association, if practicable.

A committee was, on motion, appointed to solicit new subscriptions to pay the debt and also solicit members. The Chairman appointed as the committee Dr. W. G. Thomas, Gabriel Holmes, J. W. Bolles and Capt. W. H. Bixby.

There being no other business the meeting adjourned.

- A few frame houses are going up in different parts of the city, but building operations have been generally suspended by the city ordinance prohibiting digging or disturbing the ground before the 1st of October.

Hurt on the Rail.

A colored woman from the country, apparently aged about twentyfive years, and said to be deaf, while walking on the track of the W. & W. railroad near the old Union depot yesterday morning, was struck by a locomotive and severely injured.

She was walking near the track as the shifting engine was moving down and just before it reached her she stepped towards the track. The engineer saw her and reversed his engine and blew the whistle, but she was struck on the left leg just below the knee as she put her foot on the rail. The leg was broken below the knee and she received a severe contusion on the head. A physician was summoned and she was sent to the City Hospital for treatment.
