-- The minimum temperature for the twenty-four hours ending at 6 p. m. yesterday at stations in the Wilmington district were as follows: Wilmington 50, Lumberton 44, Florence 49. Cheraw 45, Wadesboro 45, Charlotte 44, Raleigh 39, Weldon 33.

Charles Bryan Gives Himself Cp Charles Bryan, who shot Missouri Bowden about a week since, and who has been at large from that time, went to the City Hall Tuesday night and gave himself up to the authorities. He was brought before the Mayor yesterday, but his case was continued until Friday, and in the meantime he was lodged in jail to

await his trial.

A STAR reporter, through the kindness of Deputy Sheriff Elder, was shown into the jail, and Charlie Bryan was permitted to be interviewed. Bryan is a negro about 22 years old, weighs 144 pounds, and seems somewhat pulled down by his recent wanderings.

He says he went to see Missouri Bowden about some washing, and while talking with her the pistol, a self-cocker, was accidentally discharged three times, one shot striking the woman.

After this he said he became frightened and ran into the woods, staying in the day time near the City Hospital and sometimes at night coming into the city, sleeping wherever he thought it was most safe.

He says he became tired of this kind of life, and was also afraid that he would be killed by those looking for him, therefore he gave himself up to his uncle Louis Bryan, who carried him immediately to the City Hall.

Missouri Bowden, the girl who was shot, is doing well and does not seem to think that Bryan shot her intentionally, at least this is what is said.

Election Bets.

A STAR reporter, who has been looking into the question, can hear of only one bet (\$50.00) made in Wilmington on the Presidential election. It is ascertained, however, that there are Democrats ready to risk their human eash on Cleveland whenever they can find takers.

In this connection it may be of interest to state that Adam Forepaugh, the well known circus man, has wagered about \$18,000 on the "Man of Destiny." He says he has been travelling all through the North during the past six months, and has had a better opportunity to study the political situation than people who are settled in one place. He says, further, that he would not risk \$18,000 if he did not have pretty good reasons for believing that he

In New York a good many large bets have been made, the Cleveland men generally giving odds. At the Hoffman House, Monday night, howeyer, an even bet of \$10,000 was made between Michael Dwyer, the famous turiman, and John N. Hill, of Philadelphia, the Cleveland end of the bet being taken by Dwyer. It is the general belief among New York Demowagered there on Harrison comes from the campaign fund in the hands of the Republican National Commit-

Cross Seeks Revenge. . The Raleigh Visitor of yesterday announces that Charles E. Cross, late president of the State National Bank, had sworn out a warrant against Messrs. E. R. Stamps and W. S. Primrose, the former at one time president and the latter a director in the above named bank. The warrant charges Mr. Stamps with making false entries upon the back of sundry discounted paper, and making false statements of the condition of said bank, knowing them to be false. The warrant charges Mr. Primrose with making false statements of the condition of the bank during the years 1885, '85, '86, '87, '88, he knowing said statements to be false.

Cross prints a card in which he disclaims any purpose of getting Messrs. Stamps and Primrosc into trouble and says: "I simply wish to prove to the good people of this city and the State of North Carolina, beyond even a question of a doubt that which I have said as to the condition of the State National Bank at the time I. took the presidency of the same, also the manner in which I was induced. to take charge of said bank is true."

The new truck for Wilmington Hook and Ladder Company No. 1 loas been accepted and paid for by the city. The amount paid was \$2,600. The Company sold their old truck to

the agent of the La France Company, menufacturers of the new truck, for \$400, and he, in turn, sold it to a "syndicate" of Wilmington boys at a price that has not transpired. A good deal of dissatisfaction exists concerning the purchase of the new

tion and loyalty to her church. The | cause of the deep sand; but these objections should have been urged before the truck was ordered. The Hook and Ladder boys are very proud of it, and they will adopt some plan by which they can reach a fire in any part of the city with all the attachments of the truck that are really necessary. Does any one suppose, if their truck should have to stop within three or four blocks of a fire, that they would sit down quietly to a game of "freezeout" or "mumble the peg?"

> The Great Evangelist. The thousands of admirers of Rev. R. G. Pearson, now in Goldsboro, will read with interest and pleasure the following from the Argus:

It is difficult for us to formulate a sons." God and man, heaven and hell, and "after death the judgment," is are those of "soberness and truth" and under the unction of God's nity in every way and the greater glory of God eternal in the heavens.

We urge all people, regardless of creed or Christian persuasion, to attend these meetings regularly. Life, after all, "is but a means unto an end;" go and let Mr. Pearson explain to you what that end is-heaven and hell—and then say for yourselves which you shall serve, God or mam-

quite a business look and steamers are coming in to be loaded with cotton. Four are now loading at the com presses and both the Champion and Wilmington compresses are working day and night. Every engine on the Carolina Central is now being used on account of the increased volume of freight, and two more coal burners have been added on the Atlantic Coast Line for the same reason.

Cotton has commenced coming in rapidly and every train on the Carolina Central and Atlantic Coast Line comes well laden with this production, which is so important to our farming community. Trade generally is picking up though it is not yet as brisk as it will be in a week or two. Our farming population, especially in this section, are in much better spirits than they were a lew weeks since, and the prospects for a good trade this winter are most excellent.

Try Your Luck. The Detroit Journal offered a prize of \$500 to the person who would name, before the first day of June, the three hottest days of the past summer, and a goodly number of Wilmington people forwarded their degree. The Journal now offers a crats that nearly all the money being ber 1, 1888, and March 15, 1889, on

report of Mr. Pearson's first sermon, or give our readers who have not seen him an idea of the man himself. Like the Eternal Judge in whose cause he labors, he is "no respecter of perthe creed he expounds; and "thoughts that breathe and words that burn" is the common staple of his discourse. No man can sit under the sound of his voice and not feel that his words and as "faith comes by hearing" love the hearts of sinners are softened to repentance and those of Christian people are made strong and glad in the service of Christ, we look indeed for great results from this meeting in our midst unto the betterment of our commu-

The paintings are attractively grouped so as to enchain the interest and attention of the audience, who were highly pleased with the exhibitheir approval during the entertain-

tertained with selections on the piano, by Miss Bagwell, a charming little lady of about twelve summers. Mr. Butt was present and explained and pleasantly introduced each painting as it was displayed to the gaze of the audience.

Cotton Prices Again. The Maxton Union says "there is something radically wrong in the price of cotton in Wilmington," as compared with Norfolk. The difference in price is about one-sixteenth of a cent in favor of Norfolk, but when the difference in freight is considered, the two markets are about on a par. So, the planter or mer--chant who sells his cotton and buys his supplies in Wilmington, has the advantage of lower freights both ways, and consequently it is to his interest to give Wilmington the prefer ence over Norfolk. The cause of the difference in Wilmington and No rfolk prices for cotton recently
