The Sackville-West Letter to be Considered in a Cabinet Meeting-A Manof-War Ordered to Hayti-A-Watch Presented to Mrs. Cleveland by Workingwomen of Philadelphis.

By Telegraph to the Morning Star. .

WASHINGTON, October 30.-U. S. Minater Phelps has returned to London from latfield House, where he has been in conultation with Lord Salisbury, presumably especting the letters of Minister Sackville-Vest. The Department of State has resived cablegrams from him fully explainig the situation, which will be laid beore the Cabinet meeting to-day. For the linister Phelps' communication is witheld.

WASHINGTON, October 30.-At the ritish Legation this evening access was enied to all newspaper men, and they thing to say. An Associated Press reorter managed, however, to have a copy the raport of Secretary Bayard to the resident sent to the Minister. After a ait of half an hour Lord Sackville in rson returned the copy to the waiting porter and cordially expressed his thanks r having had an opportunity to read the port, which he said he had not seen bere. He declined to express any opinion a regard to it, saying "I have nothing to """ "Then you will say nothing about to-night?" "Nothing, nothing!" an-ered Lord Sackville. "I am absolutely quiet." Lord Sackville's face, as he d this, wore a pleasant smile, and he i not seem in the least disturbed at the n affairs had taken.

Secretary Bayard, when seen to-night, d that there was nothing he could say addition to what was stated in his report the President. The Government's aca, he said, constituted a complete severance of our relations with Minister West. e Secretary did not care to enter into 7 speculation as to what Great Britain uld do in the matter, or as to when a v minister would be sent here; but Lord sackville, he said, would no longer be recognized in any event, Secretary Bayard declined absolutely to give out anything in gard to the spirit in which the communiillons of the United States were received by the British Government. The matter, said, was the subject of letters or messig is between the two parties, and neither, said, had the right to give out the conis of these communications without the sent of the other. What had taken se between the President and himself he given to the press, but other corresdence he did not feel at liberty to make VASHINGTON' October 30.-Mrs. Chas. Thorpe, wife of the President of the stone Watch Case Company, of Philahis, called by appointment on Mrs. reland at Oak View to-day, and on beof three hundred and fifty women loyed by the Company, presented to a watch, the case of which was made hem. In presenting the watch Mrs. rpesaid: "The women and girls emed in the Keystone Watch Case Fac-, in l'hiladelphia, have made the case is watch, and beg to present it to Mrs. ver Cleveland as a specimen of their licraft. As they thus honor themes, they would also indicate their apiation of the advanced position the of the President has taken toward the kingwomen of America, and express gratitude that she has so unfailingly her influence in their behalf. That may ever live as an example to her itry women is the prayer of those whose es are here appended." ie Navy Department has been requested he Secretary of State to send a man-of-... to Hayti to look after American interthere, which appear to have been ardized by the seizure of the American ner Haytien Republic, at St. Marc, other disturbing events at Port-auce. At present all of the vessels on North Atlantic station are laid up in is vy yards for repairs, except the Boswhich is now at some Central Ameripoint beyond reach of the telegraph. ts will be made to communicate with and it is expected that the vessel will ble to reach Hayti in a few days.

the Morning Star. The Build WEST. The British Minister Requested to Withdraw-Secretary Bayard's Lotter.

By Telegraph to the Morning Star. WASHINGTON, October 30.-By direction of the President the Secretary of State to-day informed Lord Sackville that for

causes heretofore made known to Her Majesty's government, his continuance in his present official position in the United States is no longer acceptable to this government, and would consequently be detrimental to the relations between the two countries. The grounds for this action on the part of the U.S. are stated in the report of the Secretary of State to the President, dated 29th inst, which is as

follows: Department of State, Washington, Oct. 29th, 1858:-To THE PRESIDENT:-The undersigned has the honor to submit for your consideration the following statement with a view to receive your direction thereon: On the 4th of September last a letter purporting to be written by one Charles F. Menchison, dated at Pomons, Californis, was sent from that place to the British Minister at this capital, in which the writer solicited an expression of his views in regard to certain unsettled diplomatic questions between the U.S. and Great Britain, stating at the same time that such an expression was sought by him for the purresent information touching the nature of pose of determining his vote at the approaching Presidential election. He stated that he was a naturalized citizen of the U. S, of English birth, but that he still considered England his motherland, and that this fact left him to seek advice from the British representative in this country. He further stated that the information he sought was not for himself alone, but to enable him to give certain assurances to many other persons in the same situation as himself, for the purpose of influencing and determining their political action as citizens of the United States of English birth, but who still regarded their original obligations of allegiance as paramount. The letter also contained gross reflections upon the conduct of this government in respect to questions now in controversy and unsettled between the United States and Great Britain, and both directly and indirectly imputed insincerity in such conduct.

> To this letter the British Minister at once replied from Beverly, Mass., under date of September 13, last. In this reply he stated that "any political party which openly fawored the mother country at the present moment, would lose popularity, and that the party in power is fully aware of that fact;" and that in respect to "questions with Canada which have been unfortunately reopened since the rejection of the Fisheries treaty by the Republican majority in the Senate, and the President's message to which you allude," "all allowances must therefore be made for the political situation as regards the Presidential election." The Minister thus gave his assent and sanction to the aspersions and imputations above referred to. Thus, under his correspondent's assurance of secrecy, in which the Minister concurred by making his answer "private," he undertook to advise a citizen of the United States how to exercise the franchise of suffrage in an election close at hand for the Presidency of the United States, and through him, as the letter sugested, to influence the votes of many others. Upon this correspondence being made public the Minister received representatives of the public press, and in frequent interviews with them, intended for publication, added to the impugnments which he had already made of the good faith of this government in its publication and international dealings. Although ample time and opportunity have been afforded him for disavows), modification or correction of his statements, to some of which his attention was called personally by the undersigned. yet no such disavowal or modification has been made by him through the channels in which his statements first found publicity. The question is thus presented, whether it is compatible with the dignity, security and independent sovereignty of the United States to permit a representative of a foreign government in this country not only to receive and answer without disapproval, and confirm by his repetition, aspersions upon its political action, but also to interfere in its domestic affairs by advising persons, formerly his countrymen, as to their political course as citizens of the United States. As between this country and Great Britain there can be no controversy as to the complete severance of the ties of original allegiance by naturalization. Disputes on this point were finally put at rest by the treaty of naturalization concluded between the two countries on May 13, 1870. Therefore it will not be contended, nor was such contention ever admitted by the United States, that citizens of the United States of British origin are subject to any claim of the country of their original allegiance. The undersigned also has the honor to call attention to the provisons of section 3335, Revised Statutes of the United States, by which several penalties are visited upon a citizen of the United States who, without authority or permission of this Government, commences or carries on any verbal or written correspondence or intercourse with any foreign government, or auy officer or agent thereof, "either with an intent to influence the action of such government or its agents in relation to any disputes or controversies with the United States, or with an intent to defeat measures of the Government of the United States.' These penalties are made equally applicable to every citizen of the United States, not duiy authorized, who "counsels, advises, or as-sists in any correspondence," with similar

FORMIGN. The Parnell Commission-A Great Fire-Queen Nathalie-Parnell Detence Fund.

[By Cable to the Moraing Star.] LONDON, October 30.-The Parnell Commission reassembled to-day. Attorney General Webster asked the Court to enforce its order giving the Times' counsel permission to inspect the books of the League, in the keeping of the Hibernian, National and Munster banks.

Sir Walter Phillimore, counsel for the Hibernian bank, contended that the Commission had no power to compel the production of the books.

Presiding Justice Hannene said he would not discuss the question if the banks under color of protecting privacy. If their clients obstructed the orders of court the court would be constrained to put its powers into force.

Sir Charles Russell, counsel for the Parnellites, intimated that his clients had not the slightest objection to the production of the books.

The Court then heard, formal evidence proving the correctness of the short-hand notes of speeches from which the Attorney General quoted in his presentation of the Times' case last week.

WASHINGTON, Oct. 30.-The situation of affairs in Hayti, according to reports received at the Department of State, has assumed so serious a phase that it has been decided to send a naval vessel to that coun try for the protection of American interests. It was at first decided to send the Boston, now cruising in the West Indies to Port au Prince, but this plan was abandoned, owing to the difficulty of communicating with that vessel It was finally decided to send the Kearsaage now undergoing repairs at Norfolk, and Commodore Harmony sent instructions to hasten the work on that vessel so that she can be put into commission in a few days. She will proceed direct to Port au Prince.

The Cabinet meeting to-day lasted about wo hours, and was attended by Secretaries Bayard and Endicott, and Attorney General Garland. Assistant Secretary Thompson of the Treasury, and Commodore Harmony, acting Secretary of the Navy, were present during a portion of the session, discussing measures for the relief of whalers ice-bound in the Arctic ocean.

The regular session, however, was devoted mainly to the consideration of the case of the British Minister, and the result is shown in the statement furnished to the press by the Secretary of State this evening After Secretary Bayard had prepared this statement he walked over to the White House and submitted it to the President for his approval The President perused it carefully and suggested a few verbal changes in the introduction, and when these had ocen made, members of the press were furnished with copies of it.

Wheat Dall and Without Much Change-Corn Quiet-Pork Products Steady.

By Telegraph to the Morning Star.

CHICAGO, Oct. 80 .- Trading in wheat was light early, and the market raled dull most of the session, without much change in prices, which ruled both a trifle under and a fraction over the closing figures of yesterday, but towards the close suddenly became very strong, and advanced sharply. The opening was weak, with sales from the same as yesterday's closing to ic lower, de-clined ic more, rallied Sic for May, ruled irregular, and closed 14c higher for December and 21c higher for May than the closing figures yesterday. Operators perhaps were generally bearisbly inclined, but were reluctant about backing up their views, fearing manipulation.

Corn ruled quiet and inactive most of the session, fluctuations being narrow, and trading limited. An easy feeling was developed shortly after the opening, which was about the same as the closing prices of yes-terday, after which the market sold off ic, reacted 1@fc, ruled dull and neglected. closing 1@fc lower than yesterday.

Oats were less animated. There was a good demand for May at about 29c, or 1c under yesterday's closing. At anything above buyers held back. Near futures

were very quiet These were about steady and no essential change worth mentioning occurred. October has become about nominal, being all settled.

Trading was rather light in mess pork, and almost exclusively in contracts for January The market opened rather steady, but offerings were fair and prices receded 71@10c; later more steadiness prevailed and prices rallied again and closed steady. Not much doing in lard. Offers ings were fair early, with comparatively light demand. and prices rallied slightly. November and January met with most favor. Nothing of consequence doing in short ribs and prices exhibited very little change. Offerings were small and the de-mand limited. Trading centred in January.
