Methodists do not believe in dancing, and it is natural and consistent for them not to favor an inauguration shin-dig. President Harrison is a Ruling Elder in the Presbyterian Church, and should put his foot down on such performances in his honor. Leastwise that is the way it looks to this writer.

Of the Georgian Hanson, upon whose foolish talk the STAR has commented, the Baltimore Sun says:

"So unpatriotic a speech by a Southern man has not been made, we believe, since the reconstruction era, when the prospect of Federal office stimulated the eloquence of a number of self-seeking politiciars of the smaller calibre."

Two West Pointers had a big fisticuff fight and all about a negro student. It was between George D. Langhorne, a native of Virginia, and Barroll, a Marylander. Langhorne stood by the negro. Both were badly punished in the set-to.

England is stirred. News from London is that she will send war ships into the Samoan waters and will cooperate with the United States in notifying Germany that it must behave itself and observe all treaty

An enterprising daily published at St. Joseph's, Mo., and called the Herald, has just announced that President Cleveland is to marry Mary C. Folsom. At that rate it will be 1891 before it finds out that Harrison was elected in 1888.

The Rade are a great party. The surplus is large, the people are beavily burdened, the cry is down with a War Tariff. The tinkers and agents of Monoply in the Senate met all this by increasing the taxes.

The Rice Crop Outlook. Rice planters in Georgia and South Carolina say that there will not be as large an acreage of rice planted this year. Two years of successive losses to crops and wide-spread damage to banks and gates have discouraged the planters. The greater part of the lands so situated, it is not believed, will be put in as good condition as last year, or cultivated on as systematic a plan.

Planters say that the rice industry is materially retarded by the menaces from time to time in Congress by the efforts to remove or materially lower the tariff which alone enables them to profitably cultivate a crop, hazardous at most; that the removal of the tariff would mean the absolute abandonment of the tide water lands of the Southern Coast States, and the loss of the capital investment for their purchase and improvement.

The Tug Ethel. The vessel which struck on a ree while attempting to enter Wrightsville Sound through Moore's Inlet, Tuesday afternoon (as reported in yesterday's STAR) proves to be the tug Ethel, P. T. Dicksey master, bound from Beaufort to Wilmington. At last accounts she was in a bad position, and it is feared will prove a total loss. The crew came up to the city yesterday, leaving Capt. Dicksey in charge. Capt. Geo. Lord agent for the owners of the boat, is making every effort to get the tug afloat. He went down to her yesterday evening with a lot of pullies, cables and an anchor or two, with the use of which it was hoped to get the vessel off the reef. The stranded tug belongs to the Alabama Dredging Company, and has been used on the river improvements here.

Deep Sea Dredging.

Capt. Platt, of the U. S. steamer Fishhawk, in the service of the Fish Commission, recently at Southport, reports a remarkable discovery made while dredging off Cape Fear in seven fathoms of water, which will be of great interest to scientists, but cannot be turned to any practical value, commercially, on account of the roughness of the waters in that locality. He discovered handsome specimens of sponges, finger and brain coral, and some sea urchins and other crustaceans, rarely, if ever before found so far to the Northward.

The Fishhawk has arrived at Charleston, S. C., on her way South to Florida waters.

The following cases were disposed of yesterday:

Julia Hart vs. Godfrey Hart. A uror withdrawn and mistrial ordered. First National Bank vs. N. F. Nixon et al. Transferred on docket matil the 25th of January.

B. F. Penny vs. The Brunswick Bridge and Ferry Company, J. D. Bellamy, Jr., counsel for plaintiff, and Russell & Ricaud for defendant. J. M. Falmestock & Bros., vs. Adrian & Vollers. Thos. W. Strange counsel for plaintiffs, and E. S. Mlarin for defendants.

Funeral of Mr. Geo. H. Keltey. The funeral services of the late Geo. H. Kelley took place at his r esidence yesterday morning and were conducted by the Rev. W. S. Crea sy, assisted by Rev. F. D. Swinde II. Messrs. B. G. Worth, R. J. Jones, Ge o. Chadbourn, J. T. McIver, J. H. Ta ylor, H, M. Bowden, W. M. Poisso n and Col. Roger Moore were the pall bearers. The services at Oakdal cemetery were concluded with the ritual of the Odd Fellows' fraternity ', of which order Mr. Kelley had been a

a member for many years.

Several score of men, boys, dogs and guns took to the woods bright and early yesterday morning in search of the bears reported to have been seen in the neighborhood of Jumping Run, a mile or two from town. The Wilmington Fox Club decided, after careful consideration of the matter, not to take part in the hunt with their pack of hounds, being apprehensive that some of their valuable dogs might be killed, either by the bears or the 'excited hunters. Early in the morning the colored man living on Mr. He witt's place who claimed that the bears had killed one of his hogs, again made application to Capt. Phil. Thomas to come to the rescue with the pack, saying that the bears had made another raid the the night before, and people living in the neighborhood were very much alarmed. The two bears by this time had grown to three-an old one and two cubs-as was shown by their

The various parties of hunters who went out in the morning, returned during the day more or less disgusted with their failure to find any game. Row in Brooklyn. People living in the neighborhood of Sixth and Swann streets were alarmed last night by the cries of a woman in distress. THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BRIMEROTHESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colloking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhosa. It softens the gums, reduces inflammation, cures wind collo, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists, 25 cents a bottle.

The following are the indications for to-day:

For Virginia and North Carolina, threatening weather with rain, warmer, northeasterly winds, becoming brisk to high on coast.

For South Carolina, Georgia, Florida, general rains, slightly warmer, easterly winds.
