Foul Weather-A Cyclone. The weather yesterday was very bad. Of course everybody has heard that it was foul weather. We don't make the assertion but simply reiterate with increased vehemence. The rain which began in the afternoon of Wednesday fell incessantly all day. But there was not much falling at any one time, for during the twentyfour hours ending at 8 p. m. there was only 1.60 inches measured by the observer at the Signal Office here. At 8 a. m. yesterday, there was quite a storm developing on the South Atlantic coast, working north, for which cautionary northeast signals were ordered up at various points along the coast by Signal Service headquarters at Washington City. About noon the wind began blowing rather "fresh," and at 2.30 p. m. reached a verifying velocity of 28 miles per hour. Wind signals at this point have different verifying velocities for different signals, and under different circumstances, fixed by the Chief Signal officer 0 the Army, who has charge of the Weather Bureau. This is done in order to determine the percentages of "hits and misses" of the various wind predictions of the bureau. For all easterly winds with temperature above freezing, 23 miles verifies cautionary signal prediction, and 29 miles per hour a storm. The same winds, with freezing temperature, 21 miles per hour, render cautionary signal display verified, and 26 miles a storm. For westerly winds, with temperature below the freezing point, the same velocities as with easterly winds and temperature above freezing, verifies both signals, but with temperature above 32 degrees, 25 miles are necessary for the verificatian of a cautionary wind signal and 33 miles for a storm.

We are reminded of this by the following we find in the Goldsboro Arous:

"A single page in the Contury Magazine, taken for advertising purposes, costs \$590; in Harper's Magazine \$460; in other maga-zines from \$350 down to \$100. A yearly advertisement of one column in the Chicago Tribune is \$35.000; in the New York Tribune is \$36,544 for the lowest and \$148,-000 for its highest price column."

Think of \$148,000 for one column of such a paper as the N. Y. Tribune for one year, and only a very smal fraction of that for one whole column for one whole year of the STAR.

Cape Fear and Yadkin Valley.

A dispatch to the STAR from Greensboro says that at a meeting of the directors of the Cape Fear & Yadkin Valley Railroad, and the North State Improvement companies, held in that place yesterday, resolutions expressive of sense of loss in the death of Eugene Morehead were adopted. Mr. Geo. W. Williams was elected a director in place of Mr. Morehead. There were present at the meeting, Messrs. Col. T. W. Strange then introduced Major Chas. M. Stedman, saying that he would present a deed granting sufficient ground on Wrightsville Sound for the permanent encampment.

Major Stedman arose and present ed the deed to Governor Fowle, saying :

GOVERNOR FOWLE:-By the request and in accordance with the wishes of the citizens of Wilmington, I present to you a deed for the site of the permanent encampment of the State Guard. I should utterly fail to reflect their views, did I not express to you the appreciation of the people of the lower Cape Fear section of your conduct in connection with the selection of this site. They thank you cordially for the earnest support you have given to the State Guard. They are gratified that as Governor of our State you have fully realized the

necessity for its organization and have appreciated its wants. They are rejoiced that you have seconded the wishes of the Guard and made it possible for them to annually come to us by the sea side. For verily it may be said that the people of Wilmington and our State Guard have a mutual love, each for the other. We know that they are glad to be with us, and assuredly nowhere else will they find a more cordial or sincere welcome You have most generously aided them and by your personal and official influence made their continued organization a certainty. Aside from any benefit which may occur to our city, aside from any prominence the location of this site may give to Wrightsville Sound, it would have afforded the people of Wilmington the same heartfelt pleas ure to have greeted the gallant boys each summer. Every breeze from the ocean, which kisses our shore, shall bear upon its breath the sentiments of our hearts—a glad welcome to them all. To you, Sir, whose duty it will be as Commander-in-Chief to visit the Encampment, will always be rendered an honest and loyal friendship. And this site will remain a testimo-

nial of your good will to our people which shall not be forgotten by them or their children. For years to come, I trust, they shall visit the spot you have chosen, that they may extend their hospitality and congratulations to a Guard whose efficiency, morality and manhood will be typical of the honor and fair name of North Carolina, whether amid the tumult of war or the happier scenes of peace.

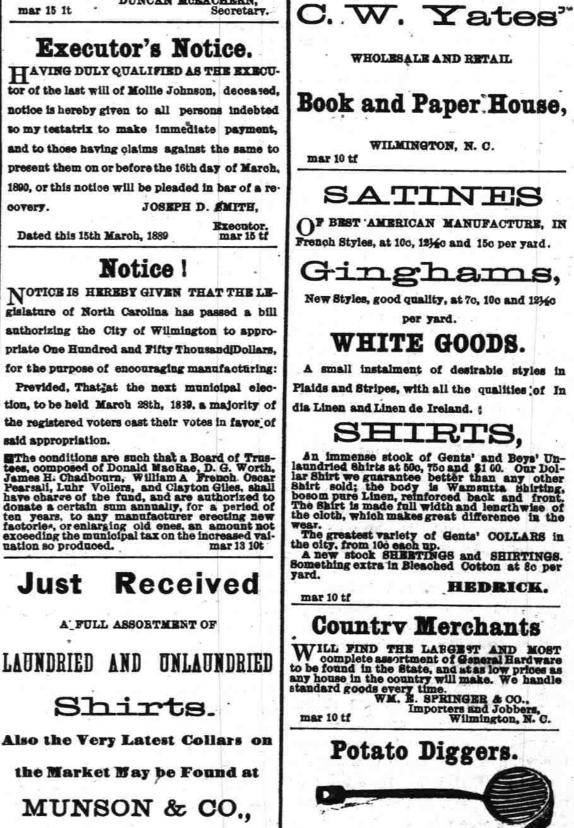

After the applause which greeted Maj. Stedman's remarks had subsided, Governor Fowle accepted the deed in behalf of the State and in a short extemporaneous speech spoke most eloquently and feelingly. He alluded to the State Guard in terms which fired every soldier's heart and his tribute to Wilmington and the hospitality of its citizens was most unique and touch-
