CURRENT COMMENT.

---- It is a matter of very little moment what Gen. Roger A. Pryor may think of the statesmanlike qualties of the men who have come to the front in politics in the South since he left his native State to seek his fortune elsewhere. Many of them may not have measured up to his standard of "statesmanship," but that they have met the expectations of their constituents in the continuous struggle which has been waged for

years against the aggressive acts of the Republican party, has doubtless compensated them for any lack of appreciation on the part of a gentleman who thus far has witnessed the struggle from a distance .- Nerfolk Landmark, Dem.

----The worst nomination made by the present administration is, of course, that of Mr. Wanamaker, because circumstances give to that gentleman's appointment the appearance of a species of purchase, and strongy tend to lower the standard of political ethics. But the most grotesque of all the appointments made is that of young Blaine to be the legal adviser of the State Department. The post is one requiring the highest order, both of ability and learning, and young Blaine's predecessor in office was no less eminent a lawyer, scholar

and publicist than Mr. Francis Whartop, while the young man who suc-

them pass the Washington Tariff tion, involving no new consideration, leaving the parties in the same posibill or one graded at 8 per cent. FRIDAY, March 22 .-- The move ment of the crop, as indicated by our telegrams from the South tonight, is given below. For the week ending this evening (March 22), the total receipts have reached 84,273 bales, against 80,026 bales last week, 81,638 bales the previous week: making the total receipts since the 1st of September, 1888, 5,175,264 bales, against 5,060,641 bales for the same period of 1887-8, showing a increase since September 1, 1888, of 114,603 bales.

The exports for the week ending this evening reach a total of 133,203 bales, of which 82,207 were to Great Britain 6,767 to France and 44,229 to the rest of the Continent.

To-day the market was unsettled, Cotton.... closing without important change, Spirits Turpentine..... the very full crop movement not having much effect as against a stronger Liverpool report, and the rapid reduction of our stocks. The strike of the weavers in the cotton mills at Fall River drags along, but seems likely to come to an early end against the strikers. Cotton on the spot was quoted 1-16c lower on Saturday, and again on Monday, although the demand for home consumption continued moderate, and stocks in this market are comparatively small. To-day a line of 700 bales strict middling was taken for the Continent, and prices were firm on the basis of 10to for middling uplands.

Something Worth Reading. "A Tin Roof," is the title of a little book ust issued by Messrs. Merchant & Co., 517 Arch Street, Philadelphia. The purpose of the publication is to supply to builders, architects and the general public some exact information as to the best methods of con structing a tin roof and as to the right materials to be used to secure satisfactory and permanent results. We especially recommend the book, which is intended for gratuitious distribution, to mill owners. They are very apt to trust the matter of roofing wholly to builders, and they usually know really very little about the character of the tin used or the excellence or the defectiveness of the job. This pamphlet will help them to protect their interests. It is very explicit, perfectly comprehensible, and we think wholly trustworthy. It is quite profusely illustrated and the cuts indicate processes of applying tin-roofing which insure

State vs. Smith.

### TUESDAY MOBNING, MARCH 26, 1889.

#### THE MEANING AND RESULTS OF THE EXODUS OF NEGROES.

The negro exodus promises to reach very large proportions in North Carolina. The STAR has expressed its opinion that the negroes are free to go and no obstacles should be put in the way of their departure. Where they have entered into contracts for a given time if possible they should be prevented from breaking them. But after all, is it not safer to let even this class go? Will not those negroes who have no sense of obligation prove a dangerous class if interfered with in their purposes to emigrate? You cannot reason with such creatures for not many of them are open to the appeals that are intended for the understanding and not for superstition and prejudice. It is perhaps a good riddance to let the disturbed element have an escape. Operated upon by designing men and allured by promises that are absurd and baseless they move away and nothing in the way of candid statement or argument will reach them So let all go who will.

There is one great mistake that white men make just here. They are wrong in thinking that the white race can ever be dependent upon the colored race for anything. There are millions of white laborers awaiting to be asked to come and work our fields and in our factories. Do not think that North Carolina will become a waste howling wilderness if Sambo and Mose and Cuffy should go away forever. The highest and most cultivated intellect in the State is in no sense a necessity to the progress and happiness of the State. As soon as the grave closes the world moves on, business continues, other toilers and factors come to the front, and you are feign to think that no man is important in this world, whether Kaiser or peasant, President or postmaster.

If every negro in the State should leave in five years you would hardly realize that they were ever here. The whites must learn to do for themselves-learn to labor and to wait. Other labor will quickly come in when the black labor is gone.

dred thousand negroes or even more if the big plans can be carried out? Will they allow their State to be Africanized and then civilization to take wings? Will they stand their ground and fight it out to the bitter end, or pack up and go where the Aryan race lives unspotted from taint of negrodom? What will be the issue?

A last thought. Is this a cunning movement on the part of the Northern Radicals to capture two Southern States? Is this a dodge to remove the negro from North Carolina, divide the whites and turn the State these unions to the last degree tyover to Radicalism and Monopoly? rannical and so indefensible.-Bos-Is this the game? They will be disappointed, for the whites are not prepared to accept the most immoral and unrighteous of all political or economical principles that it is right to tax a thousand men to make rich

one man and to deprive all freemen of the right to sell where they can sell highest and buy where they can buy cheapest.

The Northern Plutocrats may spend their money to try to buy up North Carolina with Boodle but they will fail. They may succeed in capturing Arkansas by Africanizing it. In doing this they may erect a Hayti right at their door.

### THE TARIFF THAT WASHINGTON SIGNED.

The funniest thing yet in politics, s the Republican proposition in the Pennsylvania Legislature to make an appropriation to celebrate what? Guess an hour, or a week, or a year and then you would have to give it up. Why, it is to celebrate the day on which Washington signed the first Tariff bill. This is too good. What sort of a Tariff bill was that Washington approved of think you? Do you suppose for a moment that it bore any, the slightest resemblance to the present Monster War Tariff? You are very, very green, if you do. The Philadelphia Record says :

"If the people of the United States could revive the Tariff act of 1780, imposing a duty averaging 8 per cent. upon a few hun-dred articles, and get rid of the Act of 1888, levying an average duty of 47 per cent. on 4,000 articles, they would, indeed, have reason for celebrating at Lancaster and everywhere else, on the 4th of July and every other day in the year. "We have no idea that our patriotic and

The right of a man to earn his bread in any legitimate way. without dictation, is surely man's first and inalienable right. Whenever any man is deprived of that right, not the laws of the United States alone are trampled upon, but Divine laws also. There are purposes, acknowledged by all men of all parties, for which unions are good and lawful. There are uses made of

Borden, vs. Ward. The general rule is that one cannot claim under and against a written instrument. If it undertakes to dispose of his property which he would not otherwise have, if he takes the latter, he must surrender his own. Where such an election is made and has been acted upon, it cannot be repudiated.

Where in 1790 a conveyance of and was made to A for life and then to return to the male children of said A lawfully begotten of his body. It is not good practice for the court to instruct the jury that if they believe a certain state of facts the plaintiff is not entitled to recover. It is for the jury to pass upon the issue, and for the court to adjudge upon the findings whether the plaintiff can recover or not. The right of stoppage in transitu

## OUR STATE CONTEMPORARIES.

Turning against Messrs. Carlisle and Mills is really deserting the principles upon which we stood last fall and upon which alone we can expect to ever regain the control of the government again. These gentlemen are as true to the principles of the great National Democratic party as any man in the Union.-Durham Plant.

Let nobody attempt to discourage or de feat the plan which seems to have been set on foot to colonize the negroes of North Carolina on the soil of Arkansas, for perhars the scheme will lead to the solution of a problem long since acknowledged to be difficult of management If the hand of Providence is in this scheme, and it be not opposed but fostered by the white people we undertake to say that good will come of it. How this is to be we are not obliged to know (We walk by faith; not by sight.) The race problem has been seeking a solution, and there is no agreement among our leading men as to the plan to attain the end. Now let the problem work itself out. -Greensboro Workman.

Race persecution does exist at the South but it is among the negroes toward certain members of their own race who have seen fit, at one time or another, to vote the Democratic licket.
