Life was prolonged several hours; but the effects of the poison could not be overcome.

The New Bagging Deal.

The latest in regard to the new deal of the cotton bagging combination is that it will control the supply of bagging for the coming crop quite as effectively as did the combination of last year, though not at such high prices.

The coming cotton crop is likely to demand from 45,000,000 to 50,000,000 yards of bagging as covering. As the old combination has 15,000,000 yards on hand, it is obviously necessary that some artificial restraint should be placed upon production to prevent the market from being swamped with bagging. The Boston Commercial Bulletin, which gave the first information in regard to the new combination, says:

At present the agents of the deal are working upon the Southern dealers urging them to purchase at the present price, 94c free on board in New York, using as a lever the threatened advance in prices. It is likely that when the 15,000,000 yards have been marketed, possibly before, that the price may be marked up to ten cents a yard for two pound bagging. The price is not likely to be above this figure, as twelve cents, last year's Da Ru ler price, led to so general a use of subtin stitutes.

World's Week of Prayer for the Sabbatb.

Rev. Peyton H. Hoge, Vice President of the American Sabbath Union for North Carolina, has issued the following notice:

By appointment of numerous Sabbath Associations on both sides of the sea, the week beginning April 7th (including also April 14th), is set apart as the "World's Week of Prayer for the Sabbath." It is hoped that it will be observed by prayer and con-ference on the relations of the Chris-tian Sabbath or Lord's day to the church, to the nation and to the indi-vidual, in Sabbath Schools, preachers' meetings, prayer meetings, pul-pits, and also by articles in the press.
