A Patent Office Official Refuses to Resign-Naval Affairs-Capt. Wm. A Winder's Petition-Court Martial to Try Capt. Armes,

[By Telegraph to the Morning Star. Washington. April 11.-Jerome B. Burke. Chief of the Gazette Division in the Patent Office, has been notified by the Commissioner of Patents that if tendered his resignation will be accepted. Burke, however, declines to resign, and deciares his intention to allow the Commissioner to dismiss him, if he so desires. Burke is a Grand Army man, and was at one time Commander of the Department of the Potomac G. A. R.

WASHINGTON, April 11.-Secretary Tracy has ordered the Board of Inspection and Survey, of which Admiral Jouett is president, to be officicially present at the celebration in New York on the 80th instant, and has instructed the commandant of the New York Navy Yard to send all of the vessels in commission to an anchorage

in North River. Lieut. Parker of the Navy will accom-pany the Samoan commission, which sails from New York Saturday, in the capacity of secretary. He has been attached to the Adams for three years, and it is expected that his knowledge of Samoan affairs, acquired during the stay of the Adams at Apia, will be of assistance, to the commis-

Lieut, Buckingham, now naval attache at the United States Legation at London, but lately attached to the Berlin Mission in a similar capacity, will join the commission at Berlin, and also act in the capacity of secretary.

Col. Julian Allen, of North Carolina, has made application for re-lief to the President, in behalf of Capt. Wm. A. Winder, late of the United States army. From the papers presented it appears that the applicant served eighteen years in the army, beginning with the war with Mexico. During the civil war he was desirous of going to the front, but he fell under suspicion of disloyalty because his father, Gen. Winder, was an officer in the Confederate army. Although President Lincoln was satisfied upon the assurance of Capt. (then Lieut.) Winder, as to his loyalty, Secretary Stanton insisted upon his being sent to California. This was done, and in California the charge of disloyalty was renewed, finally resulting in a trial, by which he was honorably acquitted. While on this duty he secured the formal thanks of the Maryland Legislature for gallant services in connection with the war Capt. Winder resigned, and now, as his papers recite, broken down in health and fortune, he seeks to be reinstated in the army and placed upon the retired list.

WASHINGTON, April 11 .- The court martial, appointed to tryi Capt. Armes for conduct unbecoming an officer and a gentleman, met at the War Department this morning, and the members of the court qualified. In response to a question as to whether he had any objection to the composition of the court Capt. Armes replied in the negative, but suggested that in this case the cart had been placed before the horse, and that not he, but Capt, Bourke and Col. Gibson, who had made the charges against him, should be standing

The defendant announced that he had selected Capt. Knox, of the First Cavalry, as his counsel. Insemuch as Capt. Knox was a member of the court martial it was necessary that he should first be relieved. The Judge Advocate therefore seeured the consent of the Secretary of War to the arrangement, and Capt. Knox was relieved by special order. He stated that he was not prepared immediately to proceed in the case, and the court adjourned

Specifications of charge against Armes are pulling the nose of Gov. Beaver, of Pennsylvania, and bringing false and frivolous charges in the police courts against Bourke and Gibson, and failing to prove

The Border Thronged with an Impatient Crowd of Boomers. By Telegraph to the Morning Star.

KANSAS CITY, Mo., April 11.-The populaton of this city has increased one-third during the past week: two thousand eager boomers are here, and at least one thousand are along the line south of here. Six hardware stores have sold out their entire stock, and the demand is not half supplied. The boomers are forming into small colonies of twenty-five to fifty persons, and are devisa ing schemes to outwit their neighbors and get into the heart of Oklahoma by the appointed time. There is a feeling all along the border that there will be a general forward movement into the territory on the night of April 20th. Boomers who have been here all the winter have picked out their land and are suspicious of newcomers. They do not propose to have land they fought for jumped by recent arrivals. They have pickets in hiding in the Oklahoma woods, who are keeping them posted Word was received here to-day that boomers on the Texas border were becoming very impatient and were liable to march in before the 22d and seize their claims before daylight on that day. A panicky feeling prevails all around. Old boomers claim they developed the agitation that led to the opening of the territory, and thatnow land sharks are trying to get posses-

sion of their property. The State line for hundreds of miles is dotted with "prairie schooners," all preparing for flight into the promised land. Many settlers whose geography is faulty are already from ten to fifteen miles in the territory and still claim they are in Kansas.

CAR DRIVERS STRIKE In Minneapolis Against Reduction of

Wages. By Telegraph to the Morning Star. MINNRAPOLIS, MINN., April 11.—Last night President Lowry, of the Minneapolis & St. Paul Street Car Co., issued an order reducing the wages of all employes. The order goes into effect Monday on all horse, cable and motor lines, and is confidently general strike. The company claims it is losing money, and that it must retrench in order to float bonds with which to build cable lines. The men are sullen and uncommunicative, but no serious trouble is feared. The company is pepared for any outbreak. Conductors and engineers on the motor line went on strike at noon to-day, and at 1:45 all the conductors and drivers on the Fourth Avenue and Lindale Avenue street lines struck. All the rest of the drivers and conductors in the city are expected to follow suit.

HARRISON'S POLICY

Relative to Southern Appointments. By Telegraph to the Morning Star.

WASHINGTON, April 11.-The Star this vening prints the following: The President's policy with relation to Southern appointments has been made clear to Southern office seekers here, and there is not a little unavailing discontent. He has declared his intention to select none but men who have the respect of their neighbors, and who are intelligent and capable. He wants to recognize young men, and progressive men, who can do the party good, and will not act merely as leeches for the party because of what they can get out of it. Any distinguished man, who is Republican in principles, whether so by avowal or not, may be selected for ap-pointment. The idea is to get rid of selfconstituted leaders who bring the party into disrepute, and to let down all barriers that keep white protectionists out.

It is reported that the President spoke very plainly to a Southern leader who called with a delegation lately to see about the apportionment of the patronage of his State. The same leader had been there many times before, and was assuming to control the patronage of his State. "Now," the President is reported as saying, after listening to him for a moment, 'you have been here several times and I have heard you. I know you, Mr. ---, and know of you very well. I do not think you are the sort of man to distribute the patronage of that State."

Fluctuations in Prices on the Chicago Exchange.

By Telegraph to the Morning Star CHICAGO, April 11.-Trading in wheat was quite active to-day, principally for July, which at present is attracting most attention. The feeling was much weaker and prices ruled lower. May closed to and June to lower than yesterday's closing. July opened i@ic lower, sold off ic more, advanced ic, then declined lic, advanced ic and closed ic lower than yesterday. The weakness resulted from renewed desire to sell, influenced by the favorable showing made by the government crop report, and cloudy weather and rain in some sections. Surface speculative trading on behalf of local operators developed rather heavy selling, especially by some two or three floor traders, with good buying by others. Only moderate business was transacted in corn, fluctuations being confined within

limits and trading chiefly of a local character. The feeling was comparatively steady.

The feature of the trading in oats was increased business and a decline of ‡c on June and &c on July, due to free selling and lack of demand. At the decline sellers tried to buy back part of their early sales, and in so doing caused a reaction of 1@1c. Weakness in more deferred futures had its effect on May, which receded ic from outside figures.

Mess pork was quite active and irregu-Opening was 10@121c lower, and further reduction of 10c was quickly submitted to. Later demand improved 71@ 10c, but settled back again 21@5c, and market closed steady. Lard was easier, fluctuating within narrow range and closing at medium figures. Short ribs were fairly active and closed at medium prices, with small fluctuations.

CARPENTERS' STRIKE. The Men Still Out in St. Louis and

Buffalo. (By Telegraph to the Morning Star. BUFFALO, April 11.-The strike of journeymen carpenters for a nine-hour day, is not progressing as favorably or as rapidly as the men could wish, although they report that fifty-five master builders have signed the agreement. In order to force obdurate masters to terms speedily, it is proposed to call out all hands in the planing mills in the city. A big meeting of strikers and mill hands is called for tonight to decide on future action.

St. Louis, April 11.-The carpenters' strike is still on, with no evidences of weakening on either side. Both the Master Builders' Association and the Carpenters' Brotherhood, hold regular meetings—the latter daily, but cannot come together on the one point of recognition of the Brotherhood. On hours and remuneration both agree. This morning, the strikers to the number of about 1.500. paraded the streets, attracting a large but undemonstrative crowd.

Boston, April 11.-Edgar Swan, of Lynn, ex-Cashier of the National City Bank of Lynn, appeared before Judge Nelson, in the United States District Court, to-day, for sentence. He pleaded guilty to two sindictments; one for embezzlement and one for misapplication of funds belonging to the bank. A number of persons addressed the Court on belalf of Swan, asking for a light sentence. This seemed to have some influence on the Judge, for the prisoner was given five years in Lawrence jail, the lightest sentence possible Swan's defalcation amounted to \$67,000 but he surrendered securities and property to the amount of \$34,000, leaving a net deficiency of \$33,000.

The New York Sun's Report of the Market Yesterday.

By Telegraph to the Morning Star. NEW YORK, April 11 .- The Sun's review of the cotton market to-day says: Futures opened with an uncertain appearance, but quickly rallied on later reports from Liverpool, whence private advices were much stronger than published accounts. August options touched 10.60c. soon after the last call, but at this price there was active selling for that month, which weakened the whole position. The close, however was quite steady.

OTTERBURN LITHIA AND MAGNESIA

WATER.

IT NOT ONLY CURES "BRIGHT'S DISEASE,"

BUT ALSO DIABETES. MANNBORO, VA., April 7, 1888. For a year I have been suffering with a form of Kidney Disease which my physician. Dr. J. A. Hillman, thought was Diabetes, and advised the use of Otterburn Lithia and Magnesia Water. The quantity of urine passed was greatly in excess of the natural secretion, and I lost forty pounds of flesh in a few months. The use of the Otterburn Water corrected this excessive flow entirely in six weeks, and I am again a well man I tried many medicines without avail, and I attribute my cure of this troublesome and dangerous disease entirely to the use of the Otterburn Water.

PERSONS OFTEN ASK "WILL IT KEEP?" AMELIA COUNTY, VA., Feb. 24, 1888. I hereby certify that two years ago I obtained one of the Water of the Otterburn Lithia and some of the Water of the Otterburn Lithia and Magnesia Spring for my wife in a demijohn, and recently, whilst moving to another home. I found that some of the Water had been left in the demijohn. I poured it out and drank some of it, and found it to be as pure and nice as when first taken from the Spring.

E. E. JEFFERSON.

MANNBORO, VA., March 17, 1888. When I commenced the use of the Otterburn Lithia and Magnesia Water, on the 28th of January last, I had no faith in any mineral water. I had been suffering for over three years with a disease that was pronounced by a promineni physician of Richmond to be an affection of the Kidneys, after making a scientific test.

I had only used the Water one week when I was entirely relieved of pain, which before had been constant and at times acute, and I have gained nineteen pounds in fiesh, with a restoration of strength and energy. I gave the Water a; fair test, using no other water and taking no medicine.

RICHMOND, VA., April 8, 1887. I have been suffering for years with a complication of Liver and Kidney trouble, suffering great pain in the region of the kidneys; and having my attention called to the Otterburn Lithia and Magnesia Water. My appetite has been restored, ann I feel that I cannot commend the Water too highly.
