## OUTLINES.

The German war ship Olga, which was stranded during the recent hurricane at Samoa, has arrived at Sydney, and brings much interesting information concerning the wrecked vessels and their crews; the German crews are en route home, and a vessel has been sent for the American crews, which will be landed at San Francisco; the Nipic is seriously damaged, and it is doubtful if she will ever return to the United States. — No further intelligence has been received concerning the wreck of the Danish steamer Danmark, but much confidence is felt that the passengers and crew were rescued by some passing vessel; the captain of the steamer which sighted the wrecked vessel, says there were indications that she had been in tow of another vessel. — Sir Julian Pauncefote, the new British Minister to the United States, left London yesterday for New York, en route to Washington. — A Paris paper says Gen. Boulanger is in bad health, and that his friends are anxious concerning his condition. — The United States commissioners to the Samoan Conference in Berlin sailed from New York yesterday. — John W. Fisher has been appointed collector of customs at Richmond, Va.; he held the position of deputy collector during the last administration, notwithstanding his earnest support of the Republican party. — Thousands of applications are being made for appointments of fourth-class and Presidential postmasters. — Wm. H. Smith has received the contract for constructing the tower to the public building in this city. — Twelve thousand emigrants left Liverpool during the past week for America. — Thirty-six wounded seamen and ten naval cadets were landed at San Francisco, yesterday, from the wrecked American vessels at Samoa. — A fight occurred at a hotel in Spokane Falls, Oregon, Friday night, in which five men were stabbed, three of them fatally. — N. Y. markets: Money easy at 2 per cent; cotton firm; middling uplands 10 1/2 cents; middling Orleans 10 1/2 cents; southern four quiet and steady; wheat: No. 2 red 85 1/2 cents; corn: No. 2, 42 1/2 cents; elevator; rosin steady and quiet; spirits turpentine quiet.

**Mayor's Court.**  
Ed. Fisher and Wm. Fisher, colored boys who have repeatedly appeared before the Mayor charged with petty larcenies, were again arraigned yesterday. They have hitherto escaped punishment on account of being minors, but it was decided to hold them this time for the Criminal Court.  
Benj. Brown, colored, was found guilty of disorderly conduct, but judgment was suspended.  
Jesse Smith, colored, was also arraigned for disorderly conduct. He was given the alternative of paying \$20 or serving thirty days in the chain gang.  
Silas McGuire was up for violating the sanitary ordinance of the city. He was found guilty but judgment was suspended on condition that he have his premises cleaned.  
**Carolina Beach.**  
The New Hanover Transit Company are making things hum just now. Work on the new pier is progressing rapidly, the new iron for the railroad is on the spot and will soon be in place, and the speedy *Sylvan Grove*, the pride of the ladies last season, will put on her new dress this week. It is expected that everything will be in readiness in three weeks, and then the fun will begin. The management are making every necessary preparation for the accommodation of the pleasure-seekers, and promise facilities much ahead of those of last season.  
**Dr. Carmichael Hurt.**  
Rev. Dr. Carmichael, the popular rector of St. John's church, met with a painful accident Friday afternoon. While descending a stairway at the residence of Bishop Watson, he made a misstep and fell, the result being a painful injury to one of his knees. Though still suffering, he announced his intention, yesterday, of holding services, as usual, to-day. The hurt is not at all serious, but it's only a fellow who has had a sprained knee who "knows how it is himself."

## The Diseased Horses.

Dr. Thos. F. Wood, Secretary of the Board of Health, received a telegram yesterday from Dr. Salmon, chief of the Bureau of Animal Industry, Washington, D. C., stating that an expert would be sent to Wilmington at once to determine the nature of the disease—supposed to be glanders—with which two or three horses and mules from Messrs. Boney & Harper's stables are affected.  
Under the direction of the city authorities a hospital has been established near Mount Tirzah, south of the city, where the diseased animals are kept under guard of an officer.  
So far as can be ascertained no other cases have occurred besides those already mentioned in the STAR. The mayor requests that if any suspicious cases are known that they be immediately reported to the Chief of Police.
