TWO PROBLEMS-CIVIL SERVICE IGNORED.

The Northern papers have but tw topics now-what will Harrison do with the Southern question, and what will he and his Cabinet do about the Civil Service law. The first remains the perplexing problem for daily discussion. The second is being more or less solved every day. One of the Cabinet, Secretary Noble, has given notice that all Democrats in his Department will be kicked out as soon as possible. This only disturbs the friends of the great humbug-a Brit ish importation-and the officials themselves. Noble says that "in reorganizing the pension office and the entire Interior Department, Republicans are to be preferred just as far as possible." Let the slaughtering begin and continue. The STAR prophesied this all through Cleveland's Administration. No good Democrat should object to any violation of the law on the part of the Republicans. That party is conspicuously corrupt hypocritical and disregardful of all law, when law stands in the way of its success. "Turn in the rascals," and in 1892, the Democrats will "turn out" the whole gang from Benny Harrison down to the smallest

fellow that toots for him. Mr. Cleveland did exactly right in observing the Civil Service law. It was his imperative and solemn duty to enforce it. But he did wrong in retaining in office so many Republican partisans who were spies upon his own Administration and were doing all they could to defeat his own re-election. The complaint was and is that thousands of Republicans were allowed to continue in office who did not come under the purview of the law at all. This fact is giving Harrison much trouble. To his astonishment he finds that thousands of Republicans are holding over in good, fat places that he wants for his own personal henchmen. This perplexes him no little. He hates to turn out his own party friends, and yet he needs the places for others that stand nearer to him. Harrison and his Cabinet are not much troubled, we may suppose, with any very conscientious scruples about the law. All Democrate must get out as soon and as fast as possible.

We copied the other day a statement from the Raleigh News Observer that Democratic postal clerks were being turned out in that part of the State and their places filled with negroes. We have information that shows that the Republican Administration is active in turning out whites to put in negroes. In the Second District a negro named Cheatham 18 elected to the Federal House. He appears to have influence with the Harrison gang, and especially with to the wall in the North.

Boodler Wanamaker. In ten days the following white Democrats have been bounced and negroes substituted: Galloway, on Wilson and Fayetteville Road; Willis, on Goldsboro and Morehead City Road; Lumsden. on Goldsboro and Greensboro Road Smith, on Norfolk and Raleigh, and lastly G. W. Sumrell, one of the most efficient clerks on the Washington and Wilmington route, whose examination equals that of any man's on the road. He was removed last week and a Wilson darkey substi-

Now the STAR does not complain when Democrats are turned out and honest, honorable, intelligent, efficient, trastworthy white men substituted from the other party. But it does denounce this putting in negroes to handle the private correspondence of the business of the country as well as of the white men and women of the land. It is a most responsible place, this handling of confidential correspondence and tens of thousands of letters containing money.

Harrison and Wanamaker are great Civil Service Reformers and this is a specimen. Let it be remembered that a bill passed the Congress extending the Civil Service to the Rail Mail Service, but you can see from what has occurred that it is the purpose of the Radical set to utterly disregard the law and every Democrat is to go, law or no law. Shame!

The President would like to break up the Southern Democratic wing by bribes well placed. That he can find men who have been training with the Democrats who will very willingly take office under him there is no doubt, we may believe. But that this will disintegrate the party or hand the South over to the Radicals is not certain or even probable. Remember that this system of bribery and purchasing cannot work without giving up the purpose to run the South in the interest of the negro. If the latter is attempted no amount of bribery can effect anything, as the whites will be compelled to hold together for self-protection and to save the South from the horrors of San Domingo and Hayti. On the other hand, if the negro is thrown overboard, as the Jonah on the ship, then the negroes may divide and give the South to the Democrats by a great

SHORT STOPS.

The attacks upon the liberty of the press in Germany will make the present Emperor very obnoxious to a majority of the people if peristed in. In this age not even in a despotism like Russia can the right to print be interfered with unless rendering the Czar still more offensive. The young German Kaiser takes the position that to criticise his grandfather is to attack himself-that the living monarch can be insulted and defamed by assaults upon the memory of a dead Emperor. So in England, if this law held good, Queen Victoria would be constantly outraged by any criticism upon the Four Georges, and Thackeray's lectures would be burnt and his memory denounced.

There is trouble about the Centennial to be held in New York on 30th inst. A French cook has been employed to prepare the \$55,000 big dinner. This is bad, for the cooking will be French instead of American. Big hominy, rice, sweet potatoes, corn bread, ham and cabbage, pork and beans, &c., should be the prevailing dishes. Then to make the complaint touder and more reasonable the bill of fare is to be printed in French instead of in plain United States. A menu in French instead of a plain bill of Fare in English or United States lingo. The American polyglott language should be equal to all demands of a genuine American dinner. The New York Commercial Advertiser treats the matter seriously and says that "it ought not to have been forgotten on an occasion like this, that the events to be celebrated are peculiarly American. It was the American government that was set in operation a hundred years ago. It was an American, and one who had never been 'abroad,' who was inaugurated as the first President of the United States, and the celebration of the event ought to have been made, from beginning to end, conspicuously American."

Money in New York is worth 31 per cent. on an average for 90 days or 44 per cent. for six or seven months. For the first week in April 49 railroads gained 9,53 per cent. on the first week in April, 1888. For the last week in March the gains on 83 roads were 5.85 per cent.

THE PERIODICALS.

The N. C. Teacher for March was filled with a variety of original and selected mataer, some of which was interesting and of a certain value. Price \$1 a year. Alfred Williams & Co., publishers, Raleigh, N. C.

Littell's Living Age for the four weeks ending the 30th of March contained several papers of marked excellence and entertainment. We cite the following:

"Hopes and Fears for Literature, Forteightly; American and English Girls, National; Lawrence Oliphant, by Mrs. Oli-phant, Blackwood; Three Notable Englishwomen, Temple Bar; The Memoirs of Agrippa d'Aubigne, Macmillan; Personal Recollections of the Duke of Wellington, Murray's; Elizabeth Barrett Browning, Leisure Hour; Tennyson's Undertones, Spectator; Gordon's Last Hour, Central News; Lord Godolphin, Quarterly; A Poet's Corner, National; Tennyson as Prophet Nineteenth Century; Some Quaker Biogra-phles, Macmillan; The Finding of 'Cru oe,' The Man Who Swallowed the East Wind, Chambers's; Brussels, June, 1815, Argosy; The Giant Earthworm of Gippsland, Nature; with instalments of A Chronicle of Two Months, 'Jack's Niece,' and poetry. For fifty-two numbers of sixtyfour pages each (or more than 3,800 pages year) the subscription price (\$8) is low. Littell & Co., Boston, are the publishers. We repeat what we have often said, that this is the best literary publication in all the periodical field.

CURRENT COMMENT.

- It will be remembered that some of General Robert E. Lee's own family hitched their horses to the plow and did as honest daily work as the hardest handed laborer, and that over a period of years. The number of Colonels and Generals who did the same thing, and the number of men of rank who did other sorts of manuel work, gives an example of the courageous character of the Southern people. Now, we do not want to be patronized. - Richmond Times.

- The people are not bought at all, and know nothing of the venality of their Legislators. In the case of members of the House of Representatives they buy votes only in the nominating convention, and of these only enough to convert a minority into a majority. "The people" leave all these matters to the "workers"the "offensive partisans." It seems to be true everywhere that a majority of the very best men in the community refuse to take any part in nominating candidates .- Richmond

-- During the next three years his party to range themeselves on the one side or the other. There is no middle course. And what in Alabama as the "anti-negro" policy can not be adopted without producing a profound impression in the North as well as in the South, and possibly much more tmportant in the North than in the South. It will, if attended with any fair degree of success, inevitably break up the Solid South. It will do that if only two or even one of the Southern States should be "rallied" to the Republican cause. But it will also as inevitably break up the solid or nearly solid North. which has been kept solid solely to oppose the South .- N. Y. Times,

Ind. Dem. - The Saxton bill has passed the lower house of the New York Legislature by a sufficiently emphatic majority, but in a way which is far from encouraging of the final success of the reform for which it provides. The vote upon the measure stood 74 in favor to 44 opposing; and of the favorable votes every one was Republican, while every vote against the bill was Democratic. l'his strict party division upon a question which is entirely removed from party politics is discouraging, and it is also peculiarly unfortunate for the party which has so stupidly arrayed itself in opposition to the reform. It will be difficult to convince the public that the hostility of the New York Democrats to a measure of this character is inspired by anything more honorable than a desire to perpetuate the abuses which it is designed to remove .-- Boston Post,

The President's "Southern Policy. Richmond Times

A movement is now on foot to call national conference of negroes at Washington, with the view of drivng President Harrison from the position which he has assumed as regards the matter of recognition of the negroes of the South in the distribution of Federal patronage.-Atlanta Constitution.

We view this difficult question as we propose to view all others, and that is with the frankness and boldness that bolong to truth. If President Harrison continues to stand by what has been attributed to him as a "Southern policy" to ignore the political power of ignorance, of course the party lines will be changed, but we have the declaration of Fred Douglass the other day that his race goes for "unification," and that the Southern question can'only be settled by amalgamation of the races. Now, if the proposed conference of the colored politicians in Washington shakes President Harrison's present determination and moves him to recognize the negro element as the majority of the party in the South, the whole thing will remain where it has been, and Sherman will try his Congressional election machine on the South, and organize his party on the census, and not on the voting at elections.

A King's Fear of Assassination.

Boston Post. The fear of assassination, it is said, attended ex-King Milan in every act of his life. It is told that he slept in a room with double doors, iron-cased which he locked himself, and bolted from the inside. A powerful mastiff slept at the foot of his bed, and he

down it; and no coal was burned in any room which he occupied, because he once saw a murderous Nihilist engine which looked outwardly like a lump of coal. He was so afraid of poison that he always had the wine had reached a good old age.—Atlanta that he drank uncorked before him. His coffee was always made in his presence with a spirit of wine apparatus, and he would never, when eating alone, touch a made dish, but only plain toast or a boiled egg-for there is no putting poison into an

New York Commercial Chronicle FRIDAY, April 12 .- The movement of the crop, as indicated by Strained. our telegrams from the South tonight, is given below. For the week ending this evening (April 12), the total receipts have reached 40,407 bales, against 46,500 bales last week, 51,578 bales the previous week: mak ing the total receipts since the 1st of September, 1888, 5,313,744 bales, against 5,162,104 bales for the same period of 1887-8, showing a increase since September 1, 1888, of 151,640 bales.

The exports for the week ending this evening reach a total of 93,078 bales, of which 54,725 were to Great Britain 12,978 to France and 25,375 to the rest of the Continent.

To day a buoyant opening on a much better report from Liverpool was followed by some decline as that market reacted, and the selling movement continued, until prices returned to about the closing figures, of yesterday. Cotton on the spot advanced 1-16c on Monday and again on Tuesday, with a good business for home consumption. Yesterday there was an advance of to with a pretty full business. To-day there was a good business for export at 10de for middling uplands.

The total sales for forward delivery for the week are 539,500 bales.

But it is not too early to assure the New York Sun that such a ticket and such a platform as are named above could not come within 50,000 votes of carrying Indiana. The Democratic party of Indiana will never be "duped into a campaign" in support of a theory in which they do not believe, and the practical application of which is proving destructive to the best interests of their State.

The strong, earnest man without the power of self-control, seldom accomplishes much, or, if he achieves anything, does it at the expense of much friction, or in spite of opposition; whereas, the wiser enthusiast reaches his end by persistence, conciliation and the use of persussive arts that can be enjoyed only by those who are pa-tient and amiable. - Winston Sentinel

Whether the negro will ever be an intelligent factor in American politics, is very much to be doubted The negro problem in the South, is very much graver than many in the South are willing to admit. The negro shows no aptitude for culture, refinement, or higher civilization; and as far as the writer has observed in North Carolina, there is no promise for improve-

ment. - Charlotte Chronicle. "Woman" is the grandest, truest, noblest name known to human language -a name given to her at her creation, and one which has clung to her through all the changes and vicissitudes of countless ages. It ill becomes the chivalry aid civilization of his nineteenth century to belittle that hononored appellation by lowering it to the ranks of brutes and beasts. To women who deserve the title the term "female" is equaly disrespectful and offensive, and can never fail to call down their frowns upon the wilful or innocent offender .- Oxford Orphan's Friend

As Senator Vance so eloquently says 'tariff reform is obliged to come, and it is only necessary that Democrats should maintain their integrity and stand square up to their principles, and not attempt to stradile, qualify or evade." Now who will take the initial step and call a meeting of our citizens, with the view to organizing a per manent Democratic Club in this city? Our columns are open for a discussion of the feasibility of the project and for a call to be made as well, —Fayetteville Observer,

Most of our cotemporaries agree on one thing, that the negroes are drifting Southwest. We know that they are leaving North Carolina in large numbers. We do not know that serious inconvenience has so far come from their sudden taking off, but should the exodus continue, the inconvenience may become serious. One way especially suggests itself as an offset against their going, and that a the filling of their places by white men. There are doubtless many white men willing to fill these places.
