CHARLESTON.

Unattended Statement Relative to Dr. McDow—His Trial Begun.

(By Telegram to the Morning Star.)

CHARLESTON, June 23.—The statement that Dr. McDow was recently elected company surgeon of the Lafayette Artillery, and that this action was regarded as significant of the drift of public opinion in regard to the case against McDow, charged with the murder of Capt. Dawson, is incorrect.

CHARLESTON, June 24.—This is just such a day as the day on which Capt. Dawson was buried over three months ago. It has been raining and blowing for forty-eight hours, but neither the cold east wind nor the rain have kept people within doors.

Dr. S. B. McDow is on trial for his life, charged with the murder of Capt. Dawson. The court house is packed to overflowing.

When McDow entered the court room this morning he was somewhat nervous, but quickly recovered his self-possession, and is looking on with as much indifference as any of the spectators.

The jury was formed without much delay. It is composed as follows: A. McCobb, Del. Butler, Arthur McLendon, P. G. McInnes and A. V. Frisco, white; and P. H. Alston, A. McKim, M. B. Alexander, Alexander Sims, R. Escalante, J. A. Burgess and C. C. Leslie, colored—five white and seven colored men. McDow is represented by ex-Gov. Magrath and Asher D. Cohen. The prosecution will be conducted by Solicitor Jervey and A. H. M. Smith. McDow objected to all the white men called except the two who selected the seven negroes on the panel.

The first witness called by the State was policeman Gordon, to whom McDow surrendered himself three hours after the shooting. Gordon's statement was substantially the same as that given before the coroner's jury. The case will probably not be concluded before Thursday.

John F. Fickler and August Fickler, two well known citizens, who rode in the street car the day of the murder with Dawson, testified that they conversed with him pleasantly and cheerfully, and saw no signs of irritation. He got out of the car near his usual stopping place.

S. G. Gordon, policeman, testified that he was near the scene of the murder, and that some one took a pistol from him and fired. He went to McDow's house and saw his wife and child hurrying out on the street. Then he went to McDow's office and knocked at the door. The door was slightly open, and witness saw a man's eye peeping at him. The door was then closed and fastened. A few moments later witness heard a noise in the office as if a man was hauling a box or trunk out of the floor. Later on he saw McDow come out of his office and go to a grocery on the corner. McDow's hat was indented and bore marks of whitewash. His coat was also indented. McDow soon afterwards returned to his office. Witness then went to another part of the city, and returning about three hours later saw McDow drive out of the yard. McDow called to him and asked him if he had killed Capt. Dawson.

Dr. Michael, who made the post mortem examination, explained the nature of the wound. He stated that from the course of the ball the shot must have been fired from behind. He also testified that when he saw the body the dead man had on his gloves and had evidently been regularly laid out. The coroner and deputy coroner testified to the investigation which led to the discovery of an attempt to conceal the body in a closet in the rear of the office.

All the effects of clothing of the deceased were put in evidence and identified; also a spade which the murderer had used to dig a grave, a half-burned candle he used to light up the cellar and a blood-stained towel found in his office.

Policeman Furdham, colored, identified McDow's hat, showing a dent and the whitewash stain that it had received while he was digging the grave for Dawson's body.

This closed the testimony for the day and the court adjourned till morning.

SOUTH CAROLINA.

Excitement in Edgefield County.

(By Telegram to the Morning Star.)

COLUMBIA, June 24.—A special to the Daily Register from Edgefield, S. C., says: Edgefield is in a high state of excitement. It is known that a party is organized to lynch Whitfield Murrell and Tom Carpenter, who, on Saturday, the 19th inst., while under the influence of liquor, fired five shots from their revolvers into a young man by the name of Preston Younce, who was peaceably going about the highway near Trenton, in Edgefield county. Younce died early last Friday morning from the effects of the wounds he received. The evidence obtained by the coroner's jury was so convincing that the friends of Younce had determined to lynch Murrell and Carpenter last night, that the Edgefield Rifle Company, which is composed of about a hundred men, all of whom are well known to the community, had gathered at the jail all night. Ben Booth, who figured conspicuously in the Booth and Toney murder case a few years since, was present with his family, heavily armed with shot-guns and pistols, to protect Murrell and Carpenter. The two prisoners were escorted by the sheriff in the woods, near the village, Saturday night. It is reported that the Younce party ascertained last night that the jail was impregnable and that an attack upon it would result in a terrible butchery, and therefore their project was abandoned. Murrell and Carpenter and the sheriff being convinced that serious trouble could be averted only by transferring the prisoners to Columbia, left for the capital with them this morning. The excitement has slightly abated since their departure.

HAYTI.

Great Excitement at Port-au-Prince—Fears of an Insurrection.

(By Telegram to the Morning Star.)

New York, June 24.—Capt. Shaw, of the steamer Delta, De Paz, states that General Hippolyte had arrived at Cape Hayti with his staff, and was about to rejoin his army just before Port-au-Prince. Private letters received at Cape Hayti from Port-au-Prince state that the city was in a very excited condition, and that there was a possibility of an insurrection in the city.

At Montgomery, Ala., yesterday, C. P. Brown, traveling representative of the Wheeler & Wilson sewing machine company, with headquarters at Atlanta, Ga., committed suicide by jumping off the train into the Alabama river. He had been on a spree for two weeks.

JOHNSTOWN.

A Terrible Fire Raging in the Domes of City.

(By Telegram to the Morning Star.)

JOHNSTOWN, Pa., June 24.—Affairs here are shaping themselves more systematically, and to all appearances work is going on more satisfactorily to-day than at any time since the disaster. All contractors reduced their forces this morning, which enables them to be handled and managed with some degree of satisfaction. The workmen's camp, condemned by the Surgeon General yesterday, is being renovated, and all debris about the place is being burned. A sweeping fire broke out in the first ward at 12.30 this afternoon. The flames spread rapidly, and at one o'clock twenty houses were burning. Among them is the first ward school house. All the engines in the place have been called out, and the most intense excitement prevails. Nearly all the houses burning were more or less damaged by the fire. The wind is high and the fire is spreading rapidly toward Kernville. It has gotten beyond the control of the fire department, and now covers five acres.

LATER.—The fire which broke out shortly after noon to-day in the first ward consumed all but three of the buildings in the district bounded by Market and Walnut streets, and by Main street and Broadway. About five houses were totally destroyed, including a large brick school house. Many of the buildings had been washed from their foundations, though many of them contained household goods which had been saved from the flood. But a small amount of these goods were saved. The fire is supposed to have originated from sparks flying from the burning debris in its path. The loss has not yet been fixed.

Notwithstanding that the force of workmen employed in the ruins here was reduced nearly one-half to-day, a remarkable showing was made in the face of the wreckage. One heavy blast followed another in the debris above the railroad bridge, and Manager Phillips, who has charge of the work, says he will have the place cleared up by Thursday.

This afternoon between 3 and 3 o'clock, a charge of dynamite exploded near the second arch from the east end of the bridge, causing the great body of wreckage tossed in the air pieces of human bodies flew in all directions, and the remnants afterward gathered together indicated that at least six corpses had been blown up. They were doubtless close together, and where the dynamite was discharged. Much of the drift which has been dislodged from the stone bridge has lodged in various places extending as far as the water is perceptible. In some places the channel of the Conemaugh river is narrowed to a few feet and turned from its channel. A force of men was put to work this morning at removing the obstructions, which, if not removed, rendered useless a great part of the work at the bridge. It is thought the stream below this drift will hereafter be kept open, so that the debris once started down the river will pass down without interruption.

A TRIPLE TRAGEDY.

Swift Vengeance on the Murderers of Gov. Norwood, of Alabama.

(By Telegram to the Morning Star.)

LOUISVILLE, Ky., June 24.—The Evening Times gives the following particulars of a triple tragedy in Knox county, Ky.: Gov. Norwood, of Birmingham, Ala., contractor on the Cumberland and his son, was murdered at his camp near Cumberland Gap, Saturday night, by an Italian known as Tony Cravasso. Cravasso and his brother were bakers at the south end of the Cumberland Gap, and had agreed to some of Gov. Norwood's men, and had requested him to hold the men's pay till they could collect their bills. Mr. Norwood told them he could not do this, and that he would not have any money for them, and walked out of the commissary store and entered a cabin adjoining. Just as he stepped in the door Tony, who had followed him, shot him in the back, killing him almost instantly. The Italians escaped to the woods, but they were captured Saturday night in Tennessee and brought back to Kentucky yesterday and were being conducted to Pineville jail, when Judge Lynch took charge of them and gave them a trial, resulting in the hanging of the elder—Tony—and the sending of his brother to jail. Officers Wright and Powell with four bloodhounds went to arrest Bennett. They found him in Oliver's house. He refused to surrender and opened fire, killing three dogs and severely wounding deputy Wagoner and Monroe Miller. He then made his escape, although fired upon. A strong posse is in pursuit, and at last accounts Bennett was hemmed in a thicket. It is probable that he will be lynched if caught.

ALABAMA.

Two Officers Wounded in an Encounter with a Desperado.

(By Telegram to the Morning Star.)

BIRMINGHAM, June 24.—A special from Gadsden, Ala., says Frank Bennett, a good character, who has been stopping at Cove Creek, six miles across the river with his cousin, Jim Oliver, wanted to marry a 15-year old daughter of John Sims, a neighbor, but the judge refused to issue a license until the highway near Trenton, in Edgefield county. Younce died early last Friday morning from the effects of the wounds he received. The evidence obtained by the coroner's jury was so convincing that the friends of Younce had determined to lynch Murrell and Carpenter last night, that the Edgefield Rifle Company, which is composed of about a hundred men, all of whom are well known to the community, had gathered at the jail all night. Ben Booth, who figured conspicuously in the Booth and Toney murder case a few years since, was present with his family, heavily armed with shot-guns and pistols, to protect Murrell and Carpenter. The two prisoners were escorted by the sheriff in the woods, near the village, Saturday night. It is reported that the Younce party ascertained last night that the jail was impregnable and that an attack upon it would result in a terrible butchery, and therefore their project was abandoned. Murrell and Carpenter and the sheriff being convinced that serious trouble could be averted only by transferring the prisoners to Columbia, left for the capital with them this morning. The excitement has slightly abated since their departure.

FOREIGN.

Emperor Francis Joseph Defies Austria's Foreign Policy.

(By Cable to the Morning Star.)

VIENNA, June 23.—Emperor Francis Joseph, in receiving the delegations yesterday, said that Austria's foreign relations and general foreign policy were unchanged, and that she was in full agreement with her allies. The government, he said, was doing its utmost to insure peaceful development of the European situation, which was still unsafe. He hoped peace would be maintained, notwithstanding that armaments were everywhere being increased. The Emperor said the government had received from the regent of Serbia a formal assurance that the friendly relations with Austria would be maintained. He continued: "I wish the same, and hope that the wisdom and patriotism of the Serbians will protect Serbia from serious danger. I rejoice that order and peace reign in Bulgaria, and am pleased to see continued progress in spite of the difficult situation."

The Emperor closed by saying that the special credits asked would be devoted to strengthening the army.

BASE BALL.

Summary of Games Played Yesterday.

(By Telegram to the Morning Star.)

WASHINGTON, June 24.—The following games were played to-day: Chicago—Chicago 6; New York 0. Indianapolis—Indianapolis 6; Boston 5. Cleveland—Cleveland 6; Philadelphia 4. Philadelphia—Pittsburg 7; Washington 4. New York—Brooklyn 7; Columbus 13. Philadelphia—Athletic 8; Baltimore 10. Chattanooga—Chattanooga 9; Mobile 3.

GRAIN AND PROVISIONS.

Fluctuations in Prices on the Chicago Exchange.

(By Telegram to the Morning Star.)

CHICAGO, June 24.—There was very little doing in wheat. Outside orders were scarce, and local operators were content with watching the market. Fluctuations were slight, and the market ruled steady. There was nothing in the outside news to speculate on. The early market closed off for 1c for July, and then advanced 1c, closing about the same as Saturday. The weather was an improvement over that of the past six weeks, and a warmer and hazier, and a crop of wheat is expected to be a fair one to the market and the weather fine.

Corn was active, but the bulk of trading was in covering shorts in July and in changing trades from July to September, the former being bought and the latter sold. Differences also narrowed slightly, being 40c. Fine weather, fair arrivals and quietness in domestic markets made operators rather bearish at the opening, but the decrease in the visible supply rather changed the sentiment, and as the offerings were small a strong feeling developed, and a decline of 1/2c at the opening, a rally of 1/2c followed. Numerous small receipts from outside prices followed the rally, but the last sales were a trifle above Saturday.

Data were quiet and easier, and the trading was chiefly local.

Very light business was transacted in hog products. The receipts of hogs were considerably larger than generally anticipated, and this had a weakening influence on the course of the market.

CRUSHED IN THE BUD.

Two Inventive Boys Killed by a Terrible Explosion.

(By Telegram to the Morning Star.)

PHILADELPHIA, June 23.—Harry and Wm. Jesse, aged fifteen and seventeen years, were killed yesterday, and were victims of the explosion in the face of the wreckage. They were inventive lads, and employed much of their time running a small engine. They have been generating steam in an old range boiler, and conveying it to an engine by means of a gas pipe. They conceived the idea of attaching the engine to the family ice cream freezer, and thereby do away with hand-turning. They were getting into the boiler, and were in a small brick furnace under the boiler, when a terrific explosion took place, killing both boys and injuring Mrs. Maria Kucisz, and little Henry Kucisz, who were near by.

COTTON.

The New York Sun's Report of the Market Yesterday.

(By Telegram to the Morning Star.)

NEW YORK, June 23.—The Sun's review of the cotton market to-day says: Futures were somewhat depressed by speculation in the face of reports of a stronger Liverpool market. It was said that the room is gunning for the holdings of a big Broad street house; we shall see with what success. English spinners have been buying a little more freely for two months, and it is thought they must now operate more freely. Cotton on the spot declined 1-16c, but was active at the reduction.

ELECTRIC SPARKS.

A telegram from Lancaster, Pa., says Gen. Simon Cameron's condition is unchanged.

The Manhattan Brass Company's factory in New York was burned yesterday morning. Loss \$300,000; insured.

The strike of shoemakers at North Adams, Mass., affects fifteen hundred men. The strike promises to be a long one.

A dispatch from Fremont, Ohio, says Mrs. Hayes' condition is very unfavorable, and her death is regarded as imminent. She is still unconscious.

The libel suit by A. C. Lewis, U.S. Commissioner, against the Danville Daily Register, was decided yesterday in the Circuit Court in favor of the Register.

The application of the Illinois State authorities for the extradition of Burke was presented at the State Department yesterday, and it will be promptly granted.

The Nipic, sole survivor of the American fleet at Samoa after the hurricane, has started for San Francisco under the command of the Alert. She comes direct from Samoa, and will not stop at Auckland, but will touch at Honolulu.

CHARLESTON, June 24.—Spirits turpentine steady at 34c. Rosin steady—good strained 80c.

SAVANNAH, June 24.—Spirits turpentine steady at 34c. Rosin steady—good strained 85c/90c.

ISLAND BEACH HOTEL AT THE HAMMOCKS

THIS HOTEL IS NOW OPEN FOR THE ACCOMMODATION OF THE PUBLIC, and the Proprietor will be pleased to entertain his guests. With several years' experience at one of the leading resorts of the North, "Bay Ridge Hotel," on the Chesapeake, and having had the most complete and up-to-date equipment of the public here.

The outside department of our Hotel is one of the leading features. It is fully equipped with all the latest improvements, and is fully furnished upon special order.

Respectfully soliciting the patronage of the public we remain

OTTERBURN LITHIA AND MAGNESIA WATER.

IT NOT ONLY CURES "BRIGHT'S DISEASE," BUT ALSO DIABETES.

For a year I have been suffering with a form of Kidney Disease which my physician, Dr. J. A. Hillman, has diagnosed as Lithia and Magnesia Water. The quantity of urine passed was greatly in excess of the natural secretion, and I lost forty pounds of flesh in a few months. The use of the Otterburn Water corrected this excessive flow entirely in six weeks, and I am again a well man. I tried many medicines without avail, and I attribute my cure to this troublesome and dangerous disease entirely to the use of the Otterburn Water.

PERSONS OPEN AS "WILL IT KEEP?"

I hereby certify that two years ago I obtained a bottle of the Otterburn Lithia and Magnesia Water for my wife in a demijohn, and recently, whilst moving to another home, I found that some of the Water had been left in the demijohn. I poured it out and drank some of it, and found it to be as pure and nice as when first taken from the Spring.

IT CURES RHEUMATIC GOUT.

E. K. JEFFERSON, of Johnston, South Carolina, writes as follows: "I have been entirely relieved of a severe attack of Rheumatic Gout. I should have found immediate relief had I not taken any medicine or other remedy at all, and while on the sixth bottle stated that she had been entirely relieved of this disease. My wife's general health also has greatly improved."

When I commenced the use of the Otterburn Lithia and Magnesia Water on the 28th of January last, I had no faith in any mineral water, and I had been suffering for some time with a disease that was pronounced by a prominent physician of Richmond to be an affection of the Kidney, after making scientific tests. I had only used the Water one week when I was entirely relieved of my ailment. It has been constant and at times acute, and I have gained nineteen pounds in flesh, with a restoration of strength and energy. I praise the War a fair test, using no other water and taking no medicine.

I have been suffering for years with a complication of Liver and Kidney trouble, suffering great pain in the region of the kidney; and have since my attention called to the Otterburn Lithia and Magnesia Water. I commenced to use it two months ago, and I feel that I can recommend the Water to all who are afflicted with these troubles.
