Local Dots the average legislator dreads more - "What's the matter with the firemen! They're all right."

- Rev. Dr. Yates arrived in the city yesterday to remain several days.

- The roadway falongside the dock at the foot of Princess street needs repair,

-- Mr. J. C. Stout, contractor and builder, recently of Fayetteville, has located in Wilmington.

- A grand military ball will be given to-night at The Orton, complimentary to Governor Fowle. - The roster of the Maxton

Guards is published in the list of "Soldiers in Camp" on the third page of the STAR. - The latest: The Governor of

South Carolina wired the Governor of Virginia, "It's a long distance between drinks." - Wm. Moseley, colored, was

fined twenty dollars in the Mayor's Court yesterday for violating the sanitary ordinance. - The steamer D. Murchison,

from Fayetteville yesterday, had thirty-seven passenger. Nearly all of them remained in the city, and will "take in" the Encampment and the seaside resorts. - The Evangelist, Rev. John A.

Cargile, will arrive in the city on Thursday, and begin a series of meetings at the Second Advent Church, on Sixth street between Church and Castle, next Friday night. The meetings will continue one week.

- When it was reported that visit Wilmington and the Encampment, Mr. Bryan telegraphed him tendering the hospitalities of The Orton to himself and staff. It was arranged, in case he came, to give him an enthusiastic reception, both civic and military.

- There will be a moonlight excursion to Carolina Beach to-night. Mr. Lindsay Russell is manager and gives the excursion complimentary to Messrs Frank Rollins, Josh Tayloe, George Morton and James Hoyt of the Wilmington Light Infantry, and W. E. Lunsford of the Durham company. Special arrangements have been made to give the ladies a nice

be Hickory Band.

The "Hickory Military Opera Band," which paraded with the fire men yesterday afternoon, attracted as much attention as a whole regi ment of soldiers. With the gorgeously arrayed drum major, they number twenty-five, and present a striking appearance in their handsome gray uniforms. Their evolutions are something marvellous, being performed without a word of com H. R. Upchurch, white, charged mand-simply a note or two from the ng fifty dollars in money, submitted tin whistle of the majestic drum major, and the way the latter twirled his baton took the breath away from everybody that saw him. The band is a leading feature at the Encamp ment and their music is worth going a long distance to hear. After the to twelve months in the County parade of the firemen the band marched down Princess street to the Orton, where they went through various wonderful evolutions, and then played several pieces, winding up with the soul-stirring mu ic of "Dixie," which brought forth round after round of cheers from the firemen and the large crowd of spectators After the music, calls were made for Gov. Fowle, and His Excellency appeared on the balcony of the hotel and made a few remarksrecessarily brief, for the members of the band were under engagement to play at the Opera House and their supper was waiting. The firemen gave three cheers and a tiger for the band, which was responded to by the latter with "What's the matter with the firemen? They're all right!"

The Hickory Band is a good one, beyond the shadow of a doubt, and

its drum major is immense. Colored Hoy Drowned. A ten year old boy named Enoch Sullivan, colored, living on Tenth between Castle and Queen streets, was drowned yesterday afternoon in the river near the foot of Orange street. The boy was wading in the dock with two other boys, and stepped into a place where the water was over his head. He rose to the surface twice, but there was no one near enough to reach him. As soon as the accident was made known. several persons went out to try and recover the body, and about an hour afterwards it was found. The Coroner was notified and viewed the bod, y but an inquest was not held, and the remains of the unfortunate boy were taken to the home of his parents.

The Troops Will Not Parade. Mayor Fowler yesterday had an interview with Capt. Divine to see if arrangements could be made for cars to bring the troops to the city for a parade to-day, but it was found impossible to arrange the matter, and so all idea of having the parade had

to be abandoned.

CAMP LATIMER.

Governor's I ay - Great Enthusiasm - Immense Throng of Visitors-The Review by Gov. Daniel G. Fowle, Commander-in-Chief.

Those who did not visit Camp Latimer yesterday missed a rare treat. It was decidedly the most interesting day of the Encampment, aside from the ordinary every-day routine. The different companies went to work early in the morning and straightened everything up about their quarters in order to be in readiness when their Commander-in-Chief should make his inspection. And it was astonishing to the uninitiated how quickly the camp was rehabili. tated. It is certainly extraordinary haw ranid the average soldier can move when it is announced that his superior officer is coming to inspect his quarters. Every little piece paper, or stick, or even a hole in the ground in front of his tent which may have an unsightly appearancef is set to rights. The paper or stick is picked up and spirited away, and the hole is smoothed over. He goes into his tent and makes one or two spasmodic scrambling movements which forcibly reminds one of an industrious rooster trying to feed eight or ten hens by scratching among a pile of cobble stones, and lo! behold! the quarters change, a transformation takes place, and for the life of you, you can't tell how it was done. Only the soldiers can accomplish the feat. Yet, when Gov. Fowle and his staff went the rounds they were compelled to compliment the troops on the appearance of cleanliness that prevailed. Every company had their guns stacked, and stacked right, too; none of your care less, don't-care-how-I get-'em up business. Not a speck of dirt or rust showed its awkward ugiiness. The Governor was more than proud of his gallant brigade, and well he may be. And not only the Governor, but

the entire State should be glad to lay

claim to such a body of trustworthy

defenders. They are a mighty power

in the cause of right and justice.

Immense crowds packed every east bound train and poured into the camp in squads, companies, battal ions and brigades. When the time for the grand review rolled around. there were at least four thousand spectators on the parade ground. Every size, color, condition, and al most every nationality were to be seen Infantile representatives cooed their approbation, the omnipresent small boy with his double system of electrical, high tension nerves, scrambled about in a fruitless endeavor to be everywhere at one and the same time. Even Italy was represented by "peanut candy." The lowly as well as the highly favored, gathered to do honor to the N. C. S. G., by their presence. About 4 o'clock the companies began to march to the rendezvous to the inspiring sound of drum and band. When all were in the field the Governor and his staff and the Brig. General and staff. stationed themselves, with the colors of the State and the Union, in front of the Surgeon General's headquarters, the spot se lected for them to review the brigade and the signal was then given the State Guard to move, by placing a small blue flag, with the dear old name of North Carolina inscribed on its silky folds, in front of the reviewers. The brigade moved to the sound of soul-stirring music. Every man stepped as if he were filled with double-distilled patriotism, and he was. The marching was superb. and everybody must have left the camp with a hearty God-speed for every member composing the State Guard. Every man was there of his own will, free to go or free to stay; no despots' haughty command had assembled them; not a man among them was compelled to lift the hat or bend the suppliant knee to a living creature; duty, their country and their God were all in all; every man was a king, every king a soldier. every soldier a citizen of a common country, and a member of the Guard

of North Carolina. During the review the following official document was read:

Adjutant General. After the parade was over, the ladies, or at least large numbers of them, went on a tour of inspection through the camp, just to see how the boys 'kept house." The Governor and his staff were also photographed in front of Gen. Anthony's headquarters. The ladies wandered about the camp under the escort of gay soldiers, until the witching hour of twilight was heralded by the cheering katydid. The day was one that will be remembered. One that will never fade from the memory of the participants, The State Guard did well, and the people are proud of them in every respect. When they meet next year it will be under dfferent circum-

- It is to be hoped that the Wilmington Light Infantry and the Fayetteville Independent Light Infantry will treat the boys to another exhibition drill. When they combine and drill as one company, as they did Sunday evening last, it can't be beat. That drill is a camp topic.

- The Edgecombe Guards had a regular old fashioned Edgecombe barbecue yesterday and invited the captains of the First Regiment to dine with them. The STAR reporter had a ticket to the succulent and delightful feast, which he pronounced just "awfully nice." In fact, every time he

- Mr. W. P. Baugham, an honorary member of the Warren Guards, and who is in camp with that company, some time ago put up a gold medal for the best drilled man in the company, the medal to become the property of the man who wins it three times in succession, and yesterday morning a competitive drill was held to decide who was the best drilled man in the company and entitled to the medal. The udges were Lieutenant Griffin, of the Pasquotank Rifles, Lieutenant Bain, of the Goldsboro Rifles, and Lieutant Glenn, of the U. S. Army. The prize was awarded to Corporal P. Arrington. This is the second time that Mr. Arrington has won it.

The Little Tycoon.

The largest audience ever assem bled at the Opera House was seen last night, and the smoothness and regularity with which everything passed off was most marked. Governor Fowle occupied a box at the invition of the W. L I., with Colonels T W. Strange, Benehan Cameron and Williams of his staff, and many called to pay their respects during the performance

The costumes of the members of the Little Tycoon Company were much admired, and received many compliments.

The Hickory Military Band kindly offered their services, and the sweet music which they rendered before and after the performance was much enjoyed. One of the pleasant occasions of the evening was the cornet solo by Prof. R. J. Herndon, and the loud and enthusiastic applause with which he was greeted could not fail to be most gratifying.

The Little Tycoon Opera Company are to be congratulated upon the ad mirable manner in which they presented their play, and deserve the thanks of all for furnishing a most entertaining play.

The proceeds of the performance last night were undoubtedly large and quite a snug sum must have been realized.

The Visiting Firemen.

The Newbern firemen arrived on time yesterday evening and were met by the boys of the "Atlantic" engine company, who, preceded by the Hickory Military Band, marched from their engine house to the Front street depot, accompanied by the Chief of the Fire Department, Mr. Martin Newman, and a large concourse of citizens. At the depot the firemen formed in line, and greeted the visitors with cheers. A procession was formed, with the Hickory band in the lead, the visitors were escorted through the city to the engine house of Wilmington Steam Fire Engine Company No. 1, the line of march being down Front to Market, up Market to Fourth, and thence to the engine house. Here the visiting firemen were formally welcomed in a short speech by Mr. T. C. Craft, and after a short stay at the engine house they were escorted to The Orton for supper, and thence to the Opera House to attend the performance of the "Little Tycoon."

The visiting firemen will be the guests of Wilmington Steam Fire Engine Co. No. 1. They will make their headquarters at the engine house of the company at night, and during the day will be busily engaged in "taking in" all the attractions that the city and its seaside resorts can afford. The programme for to-day is e visit to the Encampment.

The following is a list of the visitine firemen, viz: Foreman, James W Moore; assistant foreman, M H Sultan, privates N B Agostini, John Manly, W 8 H Turner, A B Carroll, A E Hibbard, Floyd M Chadwick, Jonas Jones, Thos Bowden, John Dinkins, Joe Swert, W R Watters, Chas Hall, Ernest Green, accompanied by Mr. Wm S Ellis, Chief of the Newbern Fire Department, and E M Parie, Assistant Chief. Band: A. W. Cook, leader; S. B. Cook, W. S. Phillips, H. P. Willis, Charlie Kehoe, Ed. N. Case, C. R. F. Edwards, Henry Albertson, John Whitford, A. E. Parsons, Edgar Harrison, W. P. Jones. The band by the way is an excellent one, and makes fine music. It played on the march from the depot to the engine house, and was heartily cheered by the spectators along the route.

After the Fakirs. Col. E. D. Hall, a magistrate of New Hanover county, made a raid yesterday on an alleged gambling establishment on Wrightsville Sound. The magistrate was accompanied by special detectives Woebse, White, Howland and others. Two men were arrested, who gave their names as W. E. Miller and E. C. Greshaber. They were brought to the city and depos ited \$150 for their appearance at 11 o'clock this morning before Justice
