In execution A vase was recently found in an Egyptian pyramid filled with ointment which still, after three thousand years, retained its aroms. We venture to remark that if some American oleomargarine were enclosed in one of these pyramids it would retain its aroma for six thousand years .

> Our accomplished associate, Maj. P. F. Duffy, left us yesterday on a short visit to his family at Winston. Pat's as fine a fellow as ever served a term of imprisonment in a daily newspaper office, and we cordially commend him to any of the STAR's friends he may meet in his travels.

Governor Lowry seems to be determined on following up the pugiists, and is making them feel uncom fortable at least. He has sent an offier with a requisition to New York for Charley Mitchell and Mike Donovan, and will follow Sullivan and Kilrain with similar documents.

The Salvation Army has presented a petition three miles long and oon taining 456,500 names to the House of Commons praying for the closing of the saloons on Sunday. But what would the average Briton do without is beer for one day in the week?

The STAR's special reporter, Mr. James Budd, with his aides, did some most excellent newspaper work during the Encampment. Though just Badding into journalism now, Jimmie will be a full blown red-star rose by next summer.

lu the forenoon Edward Artis, colored, submitted to the charge of assault and battery with a deadly weapon, and was sentenced to pay a fine of \$50 and costs or be confined in the county house of correction for six months. Artis was arrested yesterday on a warrant issued from Justice Millis' Court for assaulting Henry McLean, colored, with a knife and cutting a severe gash in the boy's left arm. The assault was committed on the 9th inst., but the officers were unable to find Artis until yesterday.

Resolutions of Respect. Employes of the Carolina Central railroad at Laurinburg held a meeting on the 13th inst., and adopted resolutions expressive of their love and esteem for the late superintendent of the road, Col. L. C. Jones. and extending to his family their heartfelt sympathies. Capt. Jas. Maglenn, S. R. Ethridge, G. W. Goodwin, and S. J. Hunter were the committee appointed to draft resolutions.

Similar action was taken at a meetng of employes of the Company, held on board a train on Sunday, July 14th. and of which Messrs. T. W. Whisnant, J. G. Baskerville, J. G. Maglenn, K. S. Finch and H. P. Johnson were the

COTTON IN RUSSIA. Extracts from a Letter from a Wile

mington Merchant Travelling Abroad. The STAR is in receipt of an inter-

esting letter from Mr. James Sprunt. of this city, now travelling in Europe. The letter is dated Moscow, Russia. June 29, 1889, and from it the following extracts are taken, viz:

"I send you to-day, by mail, a sample of Russian cotton, which may interest you and your friends on the Exchange. It was grown in Central Asia from American seed, and is of the best quality. If the Russian seed is used the quality deteriorates greatly, so that they find it necessary to import fresh American seed every year for the better grades. Some se-lected seed from Mr. Joe Shine, of Faison, has done well. It was planted with two cotton planters from Giles & Murchison, which we sent over last year. The Russian crop this year is estimated at 120,-000 bales of irregular quality as to style and staple. The distance is so great to the mills and market, and the transportation facilities so limited and imperfect, that it is not probable this cotton will come into direct competition with the American product for some years to come. It is clearly the intention of the Russian Government, however, to foster this enterprise, and I am assured that everything will be done to improve the quality and protect the produ-

I also send you a newspaper, from which you will doubtless be able to make some interesting extracts. I have already travelled 9,000 miles alone, and have yet to go 6,000 more. It is of course very lonely and tiresome, especially in Spain and Russia, where one's mother tongue is so sel dom heard. I leave in a day or two on a journey of 725 miles into Finland, and I fear it will be a long time yet before I hear the welcome sound

'Hyars ver Morning STAR!" The sanitary condition of Moscow is bad, the large majority of the inhabitants, who are dirty, make use of contaminated water of the rivers. The mortality is, therefore, very great, being over to the 1,000, and exceeds the birth rate, although the population is yearly increasing, being now estimated at 900,000. I believe the death rate of London and of Wilmington is the same-17 in the 1,000. What a comparison with Moscow, where there are in fact no sanitary laws nor regulations.'

The sample of cotton and the newspaper alluded to above, were received by the same mail that brought the letter. The cotton will be put on exhibition at the Exchange, and will no doubt be examined with considerable curiosity by factors and others interested in the staple.

New York Prices for Truck. Reported for the STAR by C. C. Palmer, wholesale commission merchant in fruits and produce, 166 Reade street, N. Y.

NEW YORK, July 17.- The receipts of both watermelons and pears are very heavy, and prices, therefore, show decline. Fancy melons to-day sold from \$18.00 to \$20.00 per 100 medium \$14.00 to \$16.00. Le Conte pears, \$3.00 to \$3.50 per bbl.; crates, 75 cents to \$1.25. The decline in pears is accounted for from the fact of heavy receipts, together with an unusually large supply of early peaches, which always have a prefer-

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTRESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syaur relieves the child from pain, and cures dysentery and diarrhoes. It softens the gums, reduces infiammation, cureswind colic, and carries the infant safely through the softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Seld by all druggists. 25 cents a bottle.
