Storm Warning.

- Mr. E. P. Boatwright has been appointed assistant marshal for the State Fair at Raleigh, in October

killed by gunners on the Sound yesterday. The tides were again very

- Friday is the last day upon which suits can be entered for the approaching term of the Superior Court.

- Many rare and beautiful shells have been thrown up on the beach at Ocean View by the high tides of the past three or four days.

- The Spanish steamship which arrived at Southport several days ago came up the river late yesterday afternoon and anchored off the foot of Church street.

- The Seacoast and Ocean View railroads have issued five hundred tickets for an excursion to be given the aged and infirm colored people of the city. The date of the excursion has not yet been appointed.

- There will be a marsh hen supper and a german at the Island Beach hotel this evening. The german will be in the parlor of the hotel. The last train will leave the Hammocks

- The Clyde steamship Gulf Streem, Capt. Tribou, arrived yesters day from New York, with passengers and merchandise to H. G. Smallbones. The Gulf Stream encountered rough weather and high seas on the voyage.

portant and at the same time most interesting ever held on this Continent. It is the highest legislative body of the Order. The questions to be considered will bring out the ablest talent, as the Order contains in its ranks some of the most distinguished statesmen in the country. The attendance will be very large, and it is expected that there will be at least from 40,000 to 50,000 Knights formed in line on Pennsylvania avenue on that grand occasion.

Mayor Fowler, Aldermen Post and Morton, the Committee on Fire Department of the Board of Aldermen, Chief Newman and Assistant Chief A. D. Cazaux met yesterday af. ternoon in the Mayor's office, to arrange for procuring horses for the Department Chief Newman was au. thorized to purchase two horses for the Cape Fear engine, two horses for Wilmington Hook & Ladder Truck No. 1, two horses for the "Atlanta" engine, and one horse for the hose reel of the same company. After making these purchases, with the serviceable horses now on hand, the department will again be thoroughly equipped in this particular. The horses have al ready been contracted for and will be delivered in Wilmington in the next thirty days. They are to weigh between 1,850 and 1,400 pounds each, and be between six and eight years

Asphait Pavements. upon street pavements, in an article in the School of Mines quarterly says: "The result of the experience of the last ten years has clearly shown that the pavement made with Trinidad asphalt is equal to any in the world, if not superior to any other pavement in use. Its excellence, cleanliness, silence and salubrity are so apparent that no argument is now needed to enforce them, and to these may be added, and placed first in the list, economy, for it costs as little and lasts as long as any other good pavemen', and is much less trying to horses, vehicles and human nerves. It not too much to say that it is the pavement of the future, and is destined in most instances to supersede all other kinds." The essayist cites as an illustration of the durability of asphalt the pavement made of that material in Cheapside, London, where the traffic is exceptionally heavy.

A telegram from the Chief Signal

officer at Washington, D. C., received at the Signal office here at 10:50 a. m. yesterday ordered the northwest signal to be displayed for a severe storm, and reported violent northeast gales off the coast. Signals were also

ordered up at Morehead City. The day passed without further indications of a disturbance in this section, however, and the night was beautifully clear and still, with no sign of storm on land or sea.

As announced in the STAR's dispatches of yesterday the cyclone struck in towards the New Jersey coast, and the Signal Service reported it as central off the Middle Atlantic coast yesterday. High winds were reported from most of the coast stations north of here, and a special report from Cape Henry said the wind was blowing sixty miles an hour from the northwest at that station at 8 o'clock yesterday morning. It was for this reason, and to warn vessels leaving this port that they might run into violent gales off, the coast, that the northwest storm signal was ordered displayed here.

At 5:30 p. m. a telegram was sent from Washington, D. C., to the obser ver at Southport, saying that vessels could safely go South from this port Press dispatches last night report the storm as very severe at New York

city and along the New Jersey coast-

THE FLORENCE NIGHTINGALE OF THE THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTHESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colloking, and teething siege. Mrs. Winslow's Soothing Sysur relieves the child from pain, and cures dysentery and diarrhoes. It softens the gums, reduces infiammation, cures wind collc, and carries the infant safely through the teething period. It performs precisely what it eoile, and carries the infant safety turough the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.

The wires last night brought the sad intelligence of the death of Hon. S. S. Cox, of New York, after a brief illness. He was one of the most brilliant men in this country, and as an orator, writer, scholar and wit, had a national reputation. He was born at Zanesville, Ohio, in 1824. He early entered the political arens and was elected four Congress. In 1866 moved to New York city, and in 1868 was elected to Congress from one of the districts in that city, and with the exception of a few years spent abroad has been in Congress ever since. He was one of the most useful members and best parliamentarians in that body, and from his genial manners popular with his fellow members of both parties. In his long career he never

ples he was an able champion. The United States Senators have a very nice little arrangement by which they have lots of fun without costing them anything. This is the appointment of committees to travel over the country to investigate and report on certain subjects. These committees are generally big frolice at government expense, in which the Senators and their boon companions have a pleasant and a jolly time but from which the public derives very little

There seems to be an indication of reform in the pension allowing business.
