THE LATEST NEWS.

FROM ALL PARTS OF THE WORLD

WASHINGTON.

A Question Between the Treasury Department and the Express Companies.

WASHINGTON, Oct. 17.—The refusal of the U. S. Express Company to ship small denominations from Washington to banks throughout the country at less than regular rates, has practically stopped the issue of small notes. Hereafter these shipments were made at the rate agreed upon by the Express Company in its contract for transportation of government money. These rates are very much less than regular rates, and permitted the distribution of small notes to points in all parts of the country where they were in great demand at comparatively slight cost. The company now holds, however, that these small notes having been distributed from the government by private firms, are no longer government money. Shipments are made by the United States Treasury upon receipt of the regular certificate of deposit at the regular rate of the Express Company. An issue has now been raised between Treasury officials and the Express Company as to whether the latter is not compelled to carry these notes under the prescribed rates in their contract for transportation of government funds. The former hold that the notes are government money within the meaning of the contract and that they have actually been purchased from the bank for which they are intended. The Express Company holds that these notes cease to be government money from the time the equivalent deposit is made with the Assistant Treasurer. In order to settle the question Secretary Windom has called upon the Secretary of the Treasury for an opinion as to the rights of the government in the matter. The impression prevails that the Secretary will decide in favor of the Express Company, but that the government will be bound to treat these shipments as government property.

MARITIME CONFERENCE.

Proceedings of the International Conference at Washington.

WASHINGTON, October 17.—The members of the International Maritime Conference assembled for the second day, and were found at the usual hour in the conference hall. The members of the U. S. delegation, and Mr. Hill of the British, both are leading admiralty lawyers, and fully informed on the subject at hand. The delegates from Norway and Sweden promise to become important members of the conference. Today they labored under the disadvantage of having no interpreter, but that will be remedied tomorrow. It is expected that the discussion today was more upon the "revised international rules and regulations for preventing collisions at sea," contained in the circular issued by the United States Treasury Department in September, 1897. This was adopted as a basis for action, because it was in a convenient shape, and afforded a good starting point. It is the opinion of the delegates that the conference will not be able to consider all the questions proposed in the programme in the time to which its existence is limited by the act of signing it.

THE CRONIN CASE.

Further Developments—One of the Witnesses Summoned.

CHICAGO, Oct. 17.—The Tribune of this morning says: "Ex-Senator John P. Begg has weakened. He has threatened that unless the conditions are completely met, he will complete a statement of his knowledge of the plot which ended in the murder of the State's attorney. He told the grand jury in fact, that at any time since the jury bribery plot was first laid bare in all its miserable details. Early in the morning it became known that the arrest of Henry L. Stattenberg, Alexander Sullivan's private secretary, was to be followed by the grand jury investigation into the matter. One of the first witnesses summoned was Stattenberg. He told the grand jury the story he gave to the State's attorney last night, and which caused so great a sensation in the circles of the prosecution. When he came to the witness stand, he was asked if it were true that he had gone before the grand jury willingly to tell all he knew. 'Not by a long shot,' he replied. He refused to say anything about what had happened in the jury room. After Stattenberg had been examined by Henry J. McArdie, also clerk in Windes & Sullivan's office, was taken before the grand jury. His examination was brief, and when he came out of the grand jury room he said that he had made no revelations to that body because he had nothing to reveal. This morning, Mr. Windes of Windes & Sullivan, to the State's attorney's office, bearing a note from the State's attorney, directing that Windes be permitted to see his clerk Stattenberg. The latter was not there, having been taken before the grand jury. Windes was so informed, but he would not credit the statement, and began calling Stattenberg's name in the evident belief that his clerk was concealed here, and when he came out of the grand jury room he said that he had made no revelations to that body because he had nothing to reveal. This morning, Mr. Windes of Windes & Sullivan, to the State's attorney's office, bearing a note from the State's attorney, directing that Windes be permitted to see his clerk Stattenberg. The latter was not there, having been taken before the grand jury. Windes was so informed, but he would not credit the statement, and began calling Stattenberg's name in the evident belief that his clerk was concealed here, and when he came out of the grand jury room he said that he had made no revelations to that body because he had nothing to reveal.

GEORGIA.

Gov. Hill and Party at Atlanta.

ATLANTA, October 17.—This was a day of festivity and reception with Gov. Hill and his party. The Governor was early and was entertained by Gov. Gordon at breakfast. At one o'clock the Legislature was driven to the Capitol where a special session of the Legislature had been convened. Gov. Hill was introduced by Gov. Gordon. Gov. Hill spoke briefly about the draft to which he had been subjected in the Southern States. Russell P. Flower had a good word for New York as the place for the World's Fair. Chancellor Pierce, ex-Associate Postmaster General Stevenson and Adjutant General Porter made short speeches, after which there was a general bad shaking. At 3 o'clock the Capital City Club treated the party a reception. At 5 o'clock the Irish Americans gave Gov. Hill a banquet. Gov. Hill, Gov. Gordon and all the visitors were there. The feature of the banquet was the frequent allusion to Gov. Hill as the right man for the Democratic nomination for President.

SOUTH DAKOTA.

The Legislature's Vote for U. S. Senators.

PERRIS, S. D., Oct. 17.—The Legislature meets in both branches yesterday and today. The House has elected U. S. Senators in the House the vote stood: For R. T. Pettigrew, 108; Bartlett, 104; Moody, 107. Mr. H. Day is in the Senate. Pettigrew got 21 to Tripp's 4, and Moody 41 to 4 for Day. The Legislature today commenced an active campaign for his appointment to the U. S. judgeship.

FOREIGN.

General Boulanger—His Probable Plans.

PARIS, Oct. 17.—The address of the National Committee, taken to General Boulanger by M. Naquet, assures the General of the fidelity of the party to his cause and of their confidence in his ultimate success. It is stated that General Boulanger will go to Brussels or Geneva, and suddenly enter France and demand a new trial. This step will be taken when the Committee considers it opportune.

EPISCOPALIANS.

General Conference—Adoption of Changes Proposed in the Prayer Book—Reports of Committees.

General Conference—Adoption of Changes Proposed in the Prayer Book—Reports of Committees. By Telegram to the Morning Star. New York, Oct. 17.—Shortly after the opening of the Protestant Episcopal Convention of New York, Rev. Dr. Huntington, of New York, spoke in favor of his resolution placed on the agenda last week for a joint committee to prepare the standard Prayer Book of 1892. The resolution was adopted. Rev. Dan R. Goodwin, of Pennsylvania, presented the report of the Committee on Canon, recommending the creation of dioceses and giving details of their management. Only woman over 25, of devout character, and proved fitness should be appointed. These characteristics to be testified by twelve persons—six males and six females. The resolution was placed on the agenda. Dr. Goodwin then recommended the adoption of reports numbers 6, 7 and 8, 9, 10 and 11, providing for minor changes in the phraseology of Canon. The reports were adopted. At 11:15 the House went into Committee of the Whole on Liturgical Revision, with Chancellor Woolworth, of Nebraska, in the chair. A number of delegates discussed changes proposed in the Thanksgiving service by the House of Bishops. Considerable opposition was developed against the proposed change to restrict repetition of prayer to the minister alone. Rev. Morgan Dix spoke against the repetition of prayers by the congregation. When he sat down loud cries of "question" were heard, but it was not until after a number of other speeches had been made that a vote was reached. The two amendments were lost. The original motion of the standing committee was then put before the House and adopted by a vote of 112 yeas, 175 nays. The motion provided that after the words, general thanksgiving, in the morning and evening prayer, following the Rubric, be inserted: "To be said by the minister alone with the minister and congregation together." Dr. Hart then read the next change in the Prayer Book, already sanctioned by the Bishops. That there be inserted in the Book of Common Prayer after prayer and thanksgiving upon several occasions, the penitential office for Ash Wednesday. Dr. Hart then read from the Prayer Book the office proposed to be inserted in the Book of Common Prayer, and discussed the same when the action of the Bishops was concurred in by a vote of 210 yeas to 37 nays. Dr. Hart then moved that the action of the Bishops be concurred in, in passing amendments in Collects, Epistles and Gospels, and page 17 of the book of Liturgical Revision. The motion was carried almost unanimously.

THE STATE FAIR.

Raleigh Day—16,000 Persons on the Grounds—Interesting Programme.

Raleigh Day—16,000 Persons on the Grounds—Interesting Programme. (Special to the Morning Star.) RALEIGH, N. C., Oct. 17.—The weather today is most delightful. At least sixteen thousand persons attended the Fair grounds. All agree that there is no precedent for the great success that has attended the exhibition. Today was generally regarded as "Raleigh day," and at 11 a. m. all the public buildings, banks, stores and workshops were closed, and thousands went out. The programme was an interesting as well as exciting one, consisting of a meeting of the Farmers' State Institute, trial tests of machinery, parade of horses and cattle, and Oxford Orphan Asylum concert. No awards of premiums so far have been made. Several trotting matches took place, some of which exhibited unusual good speed. No accident occurred and the utmost good order was preserved. All the side-aisles were crowded during the day, especially the performances of the Cherokee Indians, who seem to be the great sensation of the exhibition. The Secretary of the Agricultural Society says the receipts so far are not only satisfactory, but beyond expectation. The hotels, boarding houses and streets tonight are crowded to their utmost capacity, presenting a scene never before witnessed in Raleigh. Should the weather continue fair a very large attendance is anticipated on the grounds to-morrow. The sale of articles, such as fruit, etc., will be on Saturday. Much praise is bestowed on Messrs. Patrick, Wilson, Packard, and others, for their management of affairs. A suggestion is made that the prices of admission be reduced Saturday, so as to give all a chance, but no definite decision has been made.

GRAIN AND PROVISIONS.

Fluctuations in Prices on the Chicago Exchange.

CHICAGO, October 17.—Early trading was rather quiet in wheat to-day, and the market ruled quiet and barely steady for awhile, then became weak, with prices declining 1/2 cent in the small, and 1/4 cent in the large, ruling rather sharply, prices gaining 1/2 cent, ruled easy and closed about the same as yesterday. Corn was dull and easier, though at times the market ruled comparatively steady on purchases of the year. November and May, by a prominent local speculator. There was no new outside news brought to bear on the market. The market opened a shade below the closing quotations of yesterday, changed but little, and closed 1/4 cent lower than yesterday. Oats were weaker and lower, due to receipts exceeding estimates, also to the fact that shorts have covered of late, and longs wanted to unload and found few buyers. Offerings were free, and prices receded 1/4 cent, may be weaker, owing to the bulk of trading being for that month. Pork was fairly active. Prices were irregular in the market, closing at about the same as yesterday. A little more interest was manifested in lard trading being light. Prices were advanced 1/4 cent, but settled back again, closing quiet. The market for ribs attracted little attention. Prices ruled 5/16 higher for October delivery, while other deliveries were without material change.

SMALL-POX.

A Lake Erie Island a Regular Post Office—All Points are Quarantined.

A Lake Erie Island a Regular Post Office—All Points are Quarantined. By Telegram to the Morning Star. CHICAGO, October 17.—A dispatch from Columbus, Ohio, says: Mayor Hunt of Sandusky, Ohio, telegraphed the State Board of Health in regard to the small-pox ravages at Pelee Island, the famous fishing resort in Lake Erie. The dispatch says the wildest excitement exists, over one hundred cases of small-pox having developed there within the last four days. The island has about one thousand population, every one of whom it is feared will contract the disease. All avenues of escape from the island have been closed by the American and Canadian authorities. Every one of the entire group of Lake Erie islands, including Put-in-Bay, North Bass, Middle Bass, Kelleys and others have quarantined against the disease. Police authorities have quarantined the main land against the island, which has become a vast isolated post house. Dr. Probot, secretary of the State Board, has sent instructions and has taken the necessary steps to prevent the disease from spreading.

HAYTI.

Tempestuous Voyage of a Steamer—Hypolyte Expected to be the Unanimous Choice for President.

TEMPESTUOUS VOYAGE OF A STEAMER—Hypolyte Expected to be the Unanimous Choice for President. By Telegram to the Morning Star. NEW YORK, Oct. 19.—The Atlas Line steamer Athos arrived here to-day from Haytian ports. The voyage was a tempestuous one. On September 15 and 16 a northeast gale was encountered with a heavy sea running. This state of things lasted for forty hours, during which everything movable was swept from the decks. The vessel, however, sustained no serious damage. The Athos was at Port-au-Prince September 21st, and brings intelligence that Hypolyte is at that time being intelligently engaged in arranging for the Presidential election. Hypolyte expects that he will be the unanimous choice of the people. The election takes place this month.

SAVANNAH.

Cotton Fire on the Steamship Carlton.

SAVANNAH, October 17.—The fire which broke out this morning in the British steamship Carlton, loading cotton for Liverpool, has been extinguished. It is believed that the vessel is undamaged. The fire was confined to the forward compartment, in which were eight hundred to one thousand bales. The work of removing the cotton was begun, but the extent of the damage has not yet been ascertained.

ALABAMA.

A Confessed Murderer Swung to a Limb and Shot.

A Confessed Murderer Swung to a Limb and Shot. By Telegram to the Morning Star. BIRMINGHAM, October 17.—Jas. Hickey was arrested on some minor charge down in lower Chilton county yesterday. His captors subsequently found that he was concerned in some brutal murders near Montevallo, some weeks ago. In fact he confessed, and then he was swung to a limb and shot.

COTTON.

The New York Sun's Report of the Market Yesterday.

THE NEW YORK SUN'S REPORT OF THE MARKET YESTERDAY. By Telegram to the Morning Star. NEW YORK, Oct. 17.—The Sun's review of the cotton market to-day says: Future opened a little depressed by a material decline in Liverpool, but quickly rallied, and afterwards advanced a few points. There were more predictions of frost from the Signal Service and private letters from the South said that damages by the frosts of last week were proving more serious than had been expected, ordering at the same time covering of contracts. Still, in the face of all this, some of the Southern markets were 1-16 to 1/8 lower. This, however, may be accounted for by the fact that they are really depressed, the 1/8 at the distribution points. Cotton on the spot was dull, but firm.

RECORDED NAMES.

RECORDED NAMES. Gen. John F. Hartnett, ex-Governor of Pennsylvania, died at his residence at Norristown, Pa., yesterday. The international ex-cyclists reached Detroit early yesterday morning, when they were placed on board several yachts which steamed up Detroit river. A Norfolk, Va., dispatch says the steamer Amy Dora, ashore at Watchaugue inlet, is breaking up. Her cargo of cotton is being saved as rapidly as possible. Intelligence received about the fire on the steamer Carlton, at Savannah, states that the bales of cotton were damaged by fire and water.

OTTERBURN LITHIA AND MAGNESIA WATER.

OTTERBURN LITHIA AND MAGNESIA WATER. IT NOT ONLY CURES "BRIGHT'S DISEASE" BUT ALSO DIABETES. For a year I have been suffering with a form of Kidney Disease which my physician, Dr. J. H. Hillman, has diagnosed as Lithia and Magnesia Water. The quantity of urine passed was greatly in excess of the natural secretion, and I lost forty pounds of flesh in a few months. The use of the Otterburn Water corrected this excessive entirely in six weeks, and I am again well man. I tried many medicines without avail, and attributed my cure to this water, which is a dangerous disease entirely to the use of the Otterburn Water. H. N. BLANTON, MANKROB, Va., April 7, 1888. PERSONS OFTEN ASK "WILL IT KEEP?" AMELIA COURTNEY, Va., Feb. 24, 1888. I hereby certify that two years ago I obtained some of the Water of the Otterburn, and it cured my Lithia and Magnesia Water, and I am again well man. I tried many medicines without avail, and attributed my cure to this water, which is a dangerous disease entirely to the use of the Otterburn Water. H. N. BLANTON, MANKROB, Va., March 17, 1888. I have been suffering for years with a complication of Liver and Kidney trouble, suffering great pain in the region of the kidneys, and having been unable to get any relief from any medicine or any other remedy at all, and finally, in the spring of 1887, I obtained some of the Otterburn Water, and I have been entirely relieved and need no more Water; her general health also being greatly improved. H. C. GREGORY, RICHMOND, Va., April 8, 1887. I have been suffering for years with a complication of Liver and Kidney trouble, suffering great pain in the region of the kidneys, and having been unable to get any relief from any medicine or any other remedy at all, and finally, in the spring of 1887, I obtained some of the Otterburn Water, and I have been entirely relieved and need no more Water; her general health also being greatly improved. H. C. GREGORY, RICHMOND, Va., April 8, 1887.
