OUTLINES

Hon. Thomas F. Bayard, ex Secretary of State, and Miss Mary Willing Clymer, were married at 1 o'clock yesterday afternoon, at the residence of the bride, in Washington City; it was introded to be a quiet affair, but there was a large family connection, and many distinguished persons present, the newly married couple have gone on a tour to the Northern cities. - Ou Monday last North Dakota, in the simplest manner, changed itself from a territorial to a State governmout; the old officers stepped down and out without seremony, when the State officers took their places, the Legislature will meet on the 15th instant, when United States Senators will be elected - William W. Bates. of New York has been appointed Commissioner of Navigation. - In Savanuah, early yesterday morning a man out his wife's throat from ear to ear, killing her instantly, jealousy was the cause. - Sixty of the prominent leaders of the Boulangist party hed a conference at the residence of treu Bonianger, in the Isle of Jersey, yesterday. - A disastrous fire ocsurred in Petersburg, Va., yesterday; seven or eight business houses were destroyed, causing a loss of \$5 00 000; a police lieutenant was burnt to death. -The plurality for the Democratic

candidate for Governor in Ohio will be about 11,300, but the Republicans are claiming that the rest of their State ticket is elected; the official count throughout the State will be made to day, and the result definitely determined; the Republicans in lows also make claim that they have elected all of the State officers except Governor, and that they have a majority in the Legislature. - A man who is to be hung in Summerville, tree . to day, attempted to commit suicide yesterday by cutting his throat, he made an ugly gash, but failed in his purpose. - The New York Supreme Court has reversed the decision in the famous Tilden will case, and a new trial has been ordered .- There was some excitement in Danville Va., yesterday over a report that a party from Halifax county would attempt the lynching of the three negroes confined in the Dinville sil, for fir ng from ambush on a number of white men Monday night, the military were ordered out, and the prisoners will be protected at all hazaris. - The strike of dock labor ers in London still continues and has become a very serious mater. Cardinai Manning, the Lord Mayor, and Sidney Buston have sent a joint letter to the masters, advising tiem to surrender. -

This is called an off year in politios. The Republican managers were badly off in their reckoning.

It is not so remarkable after all that Ohio went Democratic, Stephen A. Douglas, Jr., formerly of this State, went down there from his home in Chicago, and made some Republican speeches.

We regret to learn from the Fayetteville Observer that the condition of President Davis' health will prevent him from being present at the centennial celebration. He has written the committee a letter to this effeet, regretting his inability to come. But, however much this is to be regretted, the celebration will be a grand and a memorable one.

By a recent act of Congress allotting land to Indians in severalty such Indians become voters. This will put the ballot in the hands of about 5,000 Stoux, who will have the right to vote in South Dakota next year. It will be interesting to watch the politicians pursuing the Sioux, and coralling him at the ballot-boxes.

The annual meeting of the A. C. L. Athletic Club was held in the General Auditor's office at 6 o'clock p. m., Nov. 7th, with Mr. J. F. Post, Jr., in the chair.

The reports of the Secretary, Treasurer and Captain were made and accepted by the Club.

On motion, Mr J. F. Post, Jr, was unanimously elected President, and Mr. M. W. Divine Vice President, to serve for the ensuing year. Mr. B. J. Jacobs was elected Treasurer, and Mr. A D. Myers Secretary.

The following named members were chosen to serve on the Governing Board, viz. G. S. Legrand, J. T. Primrose, B. H. Marshall, T. R. Post and A. P. Hallet.

The report shows that this has been one of the most successful years that the Club has ever had. The member ship has been very much increased. and the books of the Treasurer show a large surplus on hand, and one of the absorbing questions is, how to dispose of the surplus.

Opera House To-Night,

The MacCollin Opera Co. wil arrive in Wilmington to-day, and will present "Falka" at the Opera House this evening. Of this opera and the company a Richmond, Va., paper says:

The opera, "Falka," is highly amusing, and it was well performed. The MacCollin troupe sustained the reputation it has justly won, as one of the best comic opera companies in the country. The members of it sing and act equally well. Mr. MacCollin makes a grand Governor in the play, and several of the singers were excellent, notably Miss Fannie Hall, Miss Augusta Roche and Messrs. Ford, Apple and Miller. E. P. Smith, as the low comedian, performed his part to perfection. MacCollin has part to perfection. been successful in getting together among the ladies of his company good representatives of the various types of beauty. Ford is the Adonis of the company. Baft is a Vessel and Must Carry Proper Lights.

An important and interesting decision was filed Tuesday last in a court of admiralty at Charleston, S. C., by Judge Simonton, destined to have an important bearing on river navigation, in so far as rafts are concerned. The decision was made in a case where a steam dredge was run into by a raft floating down the stream,

and injured. "The first question discussed in the decision by the Court is 'Will a libel 'in rem' lie against a raft for collision on navigable waters?' The Court decides-that this craft fulfils the definition of the 'subject of maritime lien and the libel will lie.' In the course of the opinion the Court says: "In this Circuit Court Judge Bond held that flats and lighters were vessels. and that the hands employed on them had a lien for wages, and material men a lien for supplies. That a raft is a water craft distinctly appears in section 4,233 of the Revised Statutes, rule 12. Judge Bond held that a raft was a vessel under section 4,283, and must carry lights.

"The true criterion by which to determine whether any water craft or vessel is subject to admiralty jurisdiction is the business or employment for which it is intended, or is susceptible of being used, or in which it is actually engaged, rather than its size, form, capacity, or means of propulsion. The word 'vessel' includes every description of water craft, or other artificial contrivance used or capable of being used as a means of transportation by water. 'Vessel' is a general word, used for any kind of navigation. The first vessels were rafts. The raft is the parent of the modern ship."

Cold Wave Comiag. Extremely cold weather prevails in Nebraska, Colorado and Wyoming, the temperature ranging between zero and ten degrees above, and the freezing line extending into Texas, east of Ohio. The rain storm from Texas, on its way eastward, will probably get here (as the forecasts tell us to-night), to-morrow, and just in rear of this rain, the cold will be felt severely in the Southern States, and promises to reach Florida, following closely the path of the storm.
