A universal coin will be one of the topics discussed by the Pan-Amerigan Congress. Hurry it up please. When coin becomes universal some of it may strike us.

A Philadelphia paper advised the Pan-Americans while in that city to be sure to look at the sowers. Dies Philadelphia expect to build a sewer export trade with the Pan gentlemen?

Ex-Postmaster General, Frank Hatton rises to remark that Harrison's endorsement of civil service reform, gave the Republican party that bad case of cramp colic recently. This is one of Frank's jokes.

Pittsburg experts say that with natural gas as fuel steel rails can be turned out in that town at less cost than they can in England, but yet they want to keep up the protection steal of \$17 a to n on imported rails.

## LUTHERAN SYNOD.

First Day's Proceedings-Addresses of Welcom;-Reports-Liection of Offcers-A Missionary Service, Bic.

The United Synod of the Evangeli cal Lutheran Church convened in St. Paul's Evangelical Lutheran Church, Rev. F. W. E. Peschau, pastor, at

2.30 p. m. The President, Rev. E. T. Horn, D. D. of Charleston, S. C., opened the exercises by announcing hymn 108, of the Book of Worship, followed by the simple but beautiful order

for opening the Synod. The Secretary, Rev. A. L Crouse, of Virginia, then called the roll of delegates elected by the different District Synods entitled to representation in this body-in all over 100 clerical and lay and corresponding

On motion, all Lutheran ministers present were admitted to seats as

advisory members. Mr. August D. Wessell, an Elder and Vice President of the Council, in behalf of St Paul's congregas tion, and His Honor, ex-Mayor Col. E D. Hall, in behalf of the citizens of Wilmington, extended a hearty welcome to the members of the Synod. The former was responded to by the President of the Synod, and the latter by Rev. W. S. Bowman, D. D., both of whom paid eloquent and appreciative tributes to the moral excellence and the prosperity of the city of Wils mington, and gave hearty thanks for

Rev. W. S. Creasy, pastor of Grace M. E. Church, of this city, was intros

duced to the Synod. The President then read his annual report, setting forth his official acts, and making recommendations for the action of this body. Among the former was a letter from Rev. J. F. Ohl, in regard to Sunday school literature; a report of the organization of the South View Orphan Home, near Roanoke, Va.; and correspondence with officials of the Protestant Episcopal Church in reference to the proposed unification of Protestant Churches. Among the recommendations are, that the Synod seek to unify its work; that a general Theo. logical Seminary be established in the South: that a Board of Education be appointed to have eversight of the educational work of the Church, this body having eight colleges and numerous academies and seminaries under its control; and the appointment of a committee to compile the most important acts of this Convention in a circular letter to be read to all the congregations connected with it.

Secretary-Rev. A. L. Crouse. Treasurer-Capt. W. A. Barrier. The rules of order were then read. The minutes of last Synod were referred to a committee without read-

The Treasurer then read his report. This shows a receipt of \$228 for incidental and current expense account. The receipts for missions, comprising some thousands of dollars, will be reported later.

A tender of a free excursion to the seashore, made by the Wilmington Seacoast Railway Company, Mr. E. L. Latimer President, and T. N. Nolan Superintendent, was thankfully accepted by the Synod, on motion of Rev. A. J. Brown, D. D., and the time left to Pastor Peschau.

The Secretary of the Mission Board, Rev. L. K. Probst, of Knoxville, Tenn., rendered his biennial report, This related chiefly to the principal missions in Richmond, Va., Knoxville, Tenn., and Augusta, Ga. Besides these some forty different home missions are supported immediately by the district synods. The work done by the Children's Missionary Societies, the Woman's Home and Foreign Mission Societies, was incorporated in this report. About \$2,500 have been expended in liquidation of the Augusta Mission, under charge of Rev. S. T. Hallman. The debt of \$8,000, resting on the Richmond Mission has been reduced to \$6,500. The work of establishing an English congregation in Knoxville, Tenn., is very promising The Synod of Southwest Virginia is mentioned as having been particularly successful in its missionary work, notably in Richmond Second Church; in Roanoke, Second Church; Pulaski City, Bluefield, Jeffersonville, and other points. The Tennessee Synod has missions in Virginia, North Carolina and Alabama: the North Carolina and South Caro lina Synods in various other places. The sum of \$4,717 was contributed directly in aid of the special work of the Board. A foreign mission will at once be undertaken in the Empire of

The Treasurer of the Mission Boards then presented his report, which was referred, without reading to a special committee, consisting of one member of each District Synod. Rev. J. W. Primrose, pastor of St. Andrews Presbyterian Church, was

Japan, and \$2,000 per annum are

introduced to the body. The Synod established the hours for the sesst one of the body to be from 9.30 a. m. to 12 30 p. m., and from 2.30

p. m. to 5.80, and that they be held in the Luther Memorial Building. After various announcements, the Synod a journed to meet this morn-

#### ing at 9.30, Rev. Prof. J.S. Koiner make EVENING EXERCISES.

After a voluntary, beautifully rendered by the choir of St. Paul's, Rev. R. C. Holland, of Charleston, read

the scripture lesson and led in prayer. Rev. H. S Wingard then gave out hymn 98, and Dr. Horn, after stating that the evening was to be devoted to a Missionary Service, introduced Rev. L. K. Probst, the Secretary of Missions. He spoke enthusiastically of the work to which he is devoting his time and splendid talents. No one could but listen to the recital of facts relating to the work under his special care. In all of our growing cities there is a grand and glorious work to be done. After personal investigation of this subject, he realized that, although he had heard much of the great opportunities offered in them, the half had not been told him. The Lutheran Church South has a vast labor to perform, a great responsibility devolving upon it. With her thirty thousand members and a spirit of increasing liberality, she can do a good work. What she has done with limited means, she can do much more efficiently with her increasing means

and more splendid opportunities. Lutherans are settling in nearly all these cities and the Lutheran Church must follow them with the means of grace. She would be recreant to her God-given trust if she would not.

She can, and she will do her duty. After singing hymn 128, "Glorious things of Thee are Spoken, Zion, City of our God," Hon. H. A. Meetze, of South Carolina, was introduced. He is a valuable member of the Missionary Board, and alive to this important branch of Church work. He bes gan by saying: "If you could listen to the petitions of Lutherans scattered here and there where there are no Lutheran churches, begging us to send some one to break to them the bread of life, you could not fail to comprehend the importance of this Home Mission work. He spoke of the many embarassments and hindrances to Lutheran progress in the past, the chief among which was the opposition of the Germans to

pily for us, the day of hindrances has past. He spoke of what this people at Wilmington have done, which being well known need not be reported here. "The good people of this congregation are to be envied. I ask you to open your hearts and your purses to do for the people at Knoxville and other mission points, who are in the condition this congregation was only a few years ago. Open your hearts and your purses, and may God assist'you in this good deed. As a Mission Board we can do nothing worthy of the name unless you hold

up our hands."

Rev. Dr. Barnitz, who was announced to speak, not having arrived, Rev. Dr. Bowman, the great orator of Savannah, Ga., kindly consented to take his place. He spoke of Christ as the first missionary. He sent forth His disciples, and they called and ordained others to the missionary labor, and to day we are the result of their glorious and successful work. He eloquently depicted the grand success of mission work, upon which the sun never sets. He then gave a graphic description of the arrival here of the Rev. Mr. Mengert, in company with Mr. H. B. Eilers, whose labors laid the foundation of St. Paul's congregation, and made possible what we see here now. This success should incite us all to still greater efforts. This sketch is utterly inadequate to give an idea of the eloquence of his glowing thoughts, clothed in the most ornate language.

The exercises closed with singing hymn 124, after an offering to be devoted to missions. Benediction was pronounced by Rev. H, S. Wingard.

Sudden Death on Shipboard.

John Smallwood, third assistant engineer of the British steamship Haygreen, died suddenly in his berth on board that vessel last Wednesday night. The Haygreen is lying at the wharves of the Wilmington Compress Co., and Mr. Smallwood in his usual health came aboard early in the evening and retired to his berth. During the night some of his companions were aroused, and found him speechless and struggling.

Dr. Schonwald was summoned to attend the man, but death ensued in a very short time. Yesterday morning Coroner Jacobs was notified and viewed the body and gave a certificate for burial, the physician stating that death had resulted from natural causes. Mr. Smallwood was about 23 years of age, a sober, steady young man and addicted to no bad habits. His father and mother reside at his

home in England? Yesterday afternoon the funeral of the unfortunate young man took place from the Seaman's Bethel. It was attended by a number of officers

and seamen from vessels in port, Mr. Jas. Sprunt, the British Consul, and During the day flags on shipping in port and at the British Consulate

were displayed at half-mast.
