THE MORNING STAR.

VOL. XLV.--NO. 52.

WILMINGTON, N. C., FRIDAY, NOVEMBER 22, 1889.

The idea of Republican government is spreading in the world. Since Brazil overturned the monarchy, reports come from Portugal that the establishment of a Republic is favored by many of the people there. Ausa tralia is also tending in that direction, and Canada will probably fol low, while England herself will become a Republic at no distant day. As intelligence in the world increases respect for the monarchy decreases The King of to-day is a very small thing compared with the King of even one generation ago.

Chauncey M. Depew who recently made a trip through some of the Southern States, says he found the Southern men sensible, soter, clever fellows, willing to talk with reason on anything but the negro, but he never could get them to listen to argument on that. Chauncey reminds us of that juryman who informed the judge that the jury could not agree because he had eleven of the most obstinate men to deal with that be ever saw in his life.

Mr. Parnell says the first intimation that he had that his mother was in embarrassed circumstances came from the American papers, and he at once telegraphed his agent in New York to furnish her all the money she needed. He says he has repeatedly tried to get her to go to Ireland and live with him, where he could give her better attention, but she will not live anywhere but in Ameri-

The Chicago Tribune head lines the announcement of the illness of ex President Jefferson Davis thus: "In the Last Ditch - The Arch Rebel at the Point of Death." When the fellow that wrote that passes in his chips and crosses the Styx and the devil sees him coming, he will slam the door and tell the porter to chuck him-into the ditch, as too mean to associate with his people down there.

Mark Twain's wife, who writes under the nom de plume of "Olive Langford," is said to be about contest the laurels of her husband in the humorous line. She is said to be full of fun, as a writer, but she couldn't help being funny associating with a fellow like Mark.

November's Showers of Stars. The month of November has come to be known a mong students of th phenomena of the heavens as the meteor month. Toward the middle, and, again, toward the end of this month, showers of meteors have been annually observed. It is held by astronomers that these meteors compose a vast shoal revolving in a ring around the sun, and that the earth in its annual orbit passes through this stream each November. Showers of meteors are also observed regularly in some other months, as, for example, about

day at 4.30 p. m. - The old government tug Craighill, purchased by Mr. Jas. Sprunt some time ago, has been partly rebuilt, thoroughly renovated, repainted and christened the Laurence, and yesterday made her appearance on the river with gay colors flying fore and aft.

Yesterday's Storm.

Cautionary southwest signals were displayed here yesterday at 9.35 a. m. for a storm central in Tennessee and moving northeast. Before noon it had passed this section, and from all accounts was very severe north of Wilmington. There was a gale here of about 26 miles an hour, and for a short time rain fell in torrents, but it was of brief duration, and altogether but 66 100 of an inch fell. At Southport there was a steady blow all day, the maximum velocity of the wind being 36 miles an hour. Rain was general along the coast from Savannah to Block Island, and extended far into

At Burgaw the storm did considerable damage to buildings, and trees and fences and telegraph wires were prostrated. Press dispatches last night report that it strnck Newbern about 1 p. m., blowing down S. H. Gray's plate and pulp factory, and doing other damage. One of the employes in the factory was killed and nine others were injured.

The Cotton Region bulletin reports the rainfall at Florence, S. C., as 1.57 inches; Cheraw, 1.42; Wadesboro, 1.25; Charlotte, 1.00; Raleigh, 1.08; Newbern, 0.65; and Weldon, 0.81.

At the City Hall.

Police Sergeant Dallis Orrell, who as ranking officer was in command of the city's forces yesterday, reported good order and "great quietness" prevailing all along the line. Only one arrest was made-a man found drunk and down-and in the absence of the Mayor this rum-soaked sinner was locked up in a cold cell to consider the error of his ways.

Alderman Hicks, as Mayor protem. was ready to preside at the City Court yesterday morning, but there was nothing and nobody to try, and the Court was not even opened.

The City Clerk and Treasurer's office was closed, the janitor was absent from his customary post near the telephone box, and altogether there was an air of "goneness" about the place that was truly depressing.

Fire at Florence, & U. A correspondent writes that Florence, S. C., had a \$20,000 fire Wednesday. It broke out at 4:40 a. m., in the store of D Sternberger, who was the chief sufferer, and who had insurance to the amount of \$15,625 in the following companies: Hartford, \$1,000; Rochester German, \$1,500; Sun Mutual, \$1,000; Merchants' \$1,550; German American, \$2,200; Springfield, \$1,500; St. Paul, \$2,000; Georgia Home, \$1,000; Norwich Union, \$1,000; Home

of New York, \$875. Conductor W. J. Edwards.

A telegram from Macon, Ga., (without signature) to the STAR, says: "Conductor W. J. Edwards on the Central Railroad, only lost his finger Friday night, instead of his life, as reported. Please insert this message for the benefit of his friends in North Carolina."

Notes on the Lutheran Convention. We have heard only kind and complimentary words regarding the excellent earnest preaching by the Lutheran divines in the various churches last Sunday. A conductor remarked that he had handled 75,000 passengers this year, and that he had never had on board his train a finer and more intelligent looking set of men than the clerical and lay

members of the Lutheran Synod.

The grand address of Rev. S. B. Barnitz on Monday night on the growth of the Lutheran Church and her mighty Home Mission work, made not only a most favorable, but also deep and lasting impression on all who heard it. There are published in this country 14! Lutheran papers and magazines in eight languages. One district synod in Wisconsin numbers 65,000 members. In Penn sylvania there are 9 district synods, one of these numbers 102,000 mem bers. The largest district synod in the United States, is one in Missouri, which is largely German, and is perhaps the largest district body of any Church in America. It numbers 172,-000. This great body was begun only fifty years ago, by a single, small German settlement in Missouri in 1838, which numbered about seven hundred souls, under their pastor, Rev. Martin Stephan. The Synod was not organized until 1847, or only forty-two years ago. It has had a marvellous growth and is a power in the West. Rev. F. W E. Peschau was pastor in Nebraska City, Neb., until 1876. At that time the Nebraska Synod numbered fourteen ministers; now it numbers eighty-four, so that in 13 years this synod, too, has grown six times as strong as it then was.

The lecture of Rev. Dr. Conrad, so scholarly, so instructive so grand, so eloquent, and so valuable, not only pleased the vast audience that heard it, but has awakened a general desire among the members of the Synod to see it in print, and the "old man eloquent," Dr. Conrad, has been urged to publish it. Its subject is not only wonderful but the treatment of it; and it has made an impression on all who heard it that will not soon be forgotten. That wonderful man of history, Luther, can only be fully appreciated in the majesty of his power, the wonders of his talents and the matchlessness of his work when one has him held up, described and pictured as this lecturer did. When we see the difference in his translation of the Bible into German, which the scholars of Germany, men of the most profound learning in the world, revised and only found about \$50 places needing changes or improvement. whilst Dr. Conrad says in King James' English version of the

Bible 37,000 changes were made. The Augsburg Confession, from which directly or indirectly nearly all the leading Protestant churches have derived their confessional basis, has not only stood the test of 372 years, but has ever been and ever remained the central confession of the Pro testant Church, receiving at the great "Kirchentag," in the city of Berlin in 1858, the approval of 1,400 professors, theologians and scholars of Europe, of divergent views, as being the most central and most conservative of all confessions. Such tributes to the work of a man are beyond all eulogies and orations, and place Luther as the central figure of modern history, to whom, as Dr. Conrad, justly and grandly said, we owe in a great measure, our civil and religious freedom, and the increasing intelligence of modern centuries.

To give an outline or sketch of this lecture is almost impossible. The quotations that grace its lofty diction, as jewels grace a crown; the flights of eloquence that gave it adornment, as a majestic tower adorns a church, and the array of facts and figures that alternate, as a charming choir with organ interludes, and the lofty ideas that constituted the mas terly peroration, that carried thought as high above the earth as Mt. Blanc does human vision, all combined to make it not only thrilling but sub-

Rev. T. S. Koiner, of Waynesboro, Va., preached in the Seamen's Bethel on Sunday afternoon at half-past four o'clock.

All the delegates to the Convention expressed themselves as highly pleased with Wilmington, with the kind treatment received and hospitality shown, and also with the handsome church property of the Lutherans of our city.

MRS. WINSLOW'S SOOTHING SYRUP .- REV SYLVANUS COBB thus writes in the Boston Christian Freeman: - We would by no means recomtian Freeman: — We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbreken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teethas a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
