A Washington correspondent says the new Congressmen have great perils to encounter in Washington, not the least of which are the wiles of the female blackmailers who lay in wait for the unsuspecting innocents. He figures the number of these blackmailers at just 2,000. The Washington Star objects to this, as it says it allows to the 125 new Congressmen sixteen blackmailers apiece, which is more than their share and more than they are entitled to.

- The old custom of watching the old year out and the new year in will be observed by several of the churches of this city with appropriate services to-night.

- New Year's Day being a holiday, the Postoffice will be closed as on Sundays, except that the carriers will make one delivery early in the morning. The Carriers' and General Delivery windows will be open from 9 to 10 a, m.

- In a collsion on the Northeastern railroad tear Charleston Saturday, the News and Courier says, "two phos phate hands were injured. One of them-John Davis, colored, of Wilmington, N. C.—had both of his legs broken, and is supposed to be internally injured. His condition is considered critical."

-The Raleigh News Observer says The death of a woman like Mrs. C G. Kennedy, of Wilmington, should be marked by an expression of sorrow all over the State. For many years she has been at the head of all the good works in Wilmington, and that community entertained for her a respect seldom accorded to a woman. She was born in the year 1800. Her father, Dr. DeRossett, who died in 1853, was either 9d or 96 years of age, if our memory is correct."

- The authorities of the First Presbyterian Church complain that a crowd of young men and boys collect on the steps leading into the church yard every Sunday afternoon about the hour for Sunday school, refusing all invitations to come inside; and last Sunday they left the steps so filthy with tobacco juice and eigar stumps that they were not decent for ladies to pass over. The STAR is requested to state that the nuisance will be tolerated no longer, and that a policeman will be on hand next Sunday to prevent its continuance.

Penany for Creating a Disturbance a

Sam Reese, a colored stevedore, was brought before the City Court yesterday morning on charges of resisting police officers and disorderly conduct in interfering with the firemen last Saturday night at the fire on Tenth between Market and Dock streets. It was shown on the trial that Reese attempted to take the pipe from the hands of pipemen of the "Atlantic" engine company, and used abusive and threatening language to Mr. J. M. Cazaux, assistant Chief of the Fire Department who ordered him to desist. Reese was violent and insulting, resisting arrest, but was finally taken into custody by two police officers after considerable scuffling. The Mayor found Reese guilty of both charges; fined him fifty dollars for resisting, and suspended judgment for the present in the case for disorderly conduct. In default of payment of the fine Reese was locked up. Later in the day representatives from the Laborers' Union, of which Reese is a member, offered to pay the fine on condition that the prisoner should not be punished on the disorderly conduct charge. Reese was not re-

Robt. Hill, colored, who is charged with aiding and abetting Reese in resisting arrest, was also arraigned but the case against him was continued until this morning.

The Oride Musin Concert to Night. From the Washington, (D. C.) Post, we take the following notice of the Musin Concert Company.

The first concert of the season was given by the Musin Concert Company at the Congregational Church last evening. It called forth a large and highly appreciative audience of over 000 people, and if the genial and artistic performers are satisfied with their reception, which was at once genuine and enthusiastic, those whose pleasure it was to hear them assuredly were. M. Musin is a violinist of international reputation, and he more than sustained what has requently been said of him heretofore by his renditions last evening. Mr. Musin is ably supported by Miss Annie Louise Tanner, who is considered by authorities to be the leading soprano in this country; Miss Tanner's force was in the high notes, taking G without effort; but what was more appreciated and decidedly more difficult for a soprano was the clearness and sweetness of the middle tones. The accompanist, Mr. Edward Scharf, is possessed of excellent power and technique, the feature of the Leipsic Conservatory teaching. Mme. Montegriffo and M. Miana gave a superb rendition of La ci Darem of Don Juan," and in fact the whole company was all in all an ensemble of

artists seldom heard. .The company give their concert here at the Opera House to-night and reserved seats are for sale at Yate's OPERA HOUSE.

The Opera House last night was crowded to see the Princeton College Glee and Banjo Clubs, and it was an occasion which should long be remembered with pleasure by the Princeton, men for the audience that assembled was a most representative one in every respect.

The stlections last night were most appropriate and the applause received was most genuine and hearty. The programme presented was varied and excellent, and all left the Opera House with feelings of regret, for it was a most pleasantly spent evening, Mr. C. Tedford Blair, the manager

of the clubs, deserves particular mention, as his hard work and intelligent direction of the affair contributed especially to the success of the entertainment. One of the pleasant features of the

evening was the wearing of Princeton colors by several of our girls which was not only gratifying to the Prince tonians, but al-o in the utmost good

The cold wave signal was displayed here yesterday over the Signal office and The Orton, warning having been received by the observer that a fall of the mercury to 32 degrees might be expected by 8 a. m. to day. The weather throughout the day was pleasant with the temperature about 76 degrees, but after nightfall the wind shifted to the northwest and the mercury fell rapidly, while the sky was overcast and the air filled with moisture by ten o'clock. Telegraphic advices report the mercury as 20 degrees below zero in several places northwest of the lakes, and a very high barometic pressure advancing across the continent, preceded by rain and snow, and accompanied by very low temperature. A service of great interest will be held to-night at the First Presbyterian Church. At the beginning of the year, while

their building was in great need of repairs, the members of this Church resolved to do nothing for their own comfort until they had carried out certain important benevolent and missionary eplans. The close of the year finds them with their church beautifully renewed, while they have increased rather than remitted their benevolent operations. For this they wish to return thanks in a service of praise on the closing night of the year. For the past two months the ladies and children of the congregation have been preparing to make a thank offering at this time, which it is expected will entirely make up the deficiency on the improvement-fund, and the gentlemen will contribute at the same time for making up the deficiency in the current expenses of the Church They do not seek outside aid in this, but will be very glad for their friends from other churches to enjoy the services with them. The exercises will consist almost entirely of music, of which the programme is published below. The solos will be sung by Misses Schwarz and Kenan; the quartette is composed of Misses Schwarz and Wood, and Messrs. C. H. Robinson and J. H. Chadbourn, Jr.; The male chorus consists of J. D. Smith, first tenor; C. H. Robinson, second tenor; W. E. Worth and W. H. Carr, first bass, and Wel. Robinson and J. H. Chadbourn, Jr., second bass. The services will begin promptly at 8 p. m. Wednesday, Thursday and Friday were the gayest nights, made so by the Sigma Alpha Epsilen. Fraternity, who held their National Convention here. This fraternity is one of the largest in the United States, and had sixty delegates at the Convention. Twenty-five States were represented by young men ranging from eighteen to twenty years. They opened their nights of festivities with a German, Wednesday, in the dining room of the Central Hotel, with fortyfive couples. The favors were beauti ful, and every young lady was given a neat gold ring as a souvenir of the S. A. E. of 1889. On the next night a splendid ball was held at the same place, and the young folks whiled away the moments in the maze of the dance until "the wee sma' hours." Friday night ended the programme with a superb banquet for one hundred and seventy-five people. The toasts were interesting and merry. Mr. Russell Bellamy, of your city, responded in a happy manner to Theta Chapter, and Mr. J. D Bellamy, Jr., made a few remarks appropriate to

the occasion. Charlotte is now on a boom; build. ings are going up all over the city and the year of 1890 bids fair to be the most prosperous of all Charlotte's

MRS. WINSLOW'S SOOTHING SYRUP.—REV SYLVANUS COBB thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbreken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
