WILMINGTON, N. C.

SUNDAY MORNING, JAN. 19 1890

A COLORED CONVENTION. The National Convention of Afro American League was held in Chicago Wednesday last and was attended by about two hundred delegates from different sections of the country The object of the convention was to discuss the condition of the negroor Afro-American as some of them prefer to be called-in this country T. T Fortune, who is editor of a paper in New York, and a man of fair intelligence, was elected chair man and made a speech which is worthy of notice as indicating a disposition on the part of the mem bers of those Leagues to do a little of their own thinking hereafter, and to exercise some independent judgment in shaping their political action. He complained that the negro had been "outraged by his enemies and deserted by his friends,' and said that the time had come ble that the first organized opposi-

were able to take care of themselves. The speaker is, we take it, of a State and be inspired by no less a somewhat ardent temperament, for he indulged in some extravagance of speech, inspired partly by excitement and stimulated by the applause which greeted his utterances; but, making due allowance for this, there was some good sense in his speech when he advised that the local Leagues be left free to shape their political action as they might think ling of a navy recommends the most conducive to the best interests of their race, and that in national affairs the League should not com-

when they must show that they

mit itself to any political party. This means practically and substantially, if not so expressed in so many words, that the League should not commit itself to the Republican or 140 vessels, (and no ordinary vesparty, (and when he said League he ment the negroes of the country) to building that kind now,) with which which they have been committing | Columbia ought to be able to scoop themselves ever since their enfranchisement. Such advice as far as the Democratic party is concerned, was entirely unnecessary as they have ship-building, can't exactly see the never directly or indirectly done that.

What all this will amount to or whether it will amount to anything the iron men and ship-builders probno one knows because it is not known whether the colored men who are engineering this League have gumption and influence enough to break the many Congressmen who live in the power of the white bosses who have interior where ships don't float much, been manipulating the colored voters of the country and marching them up at every election to vote the Republican ticket, but if they have, they are in a position to command a little more substantial recognition from these bosses, especially in the close States of the North, than they have ever received.

In New York, Ohio, Indiana and Illinois they hold the balance of power. When the Republicans carry New York it is always this vote that | day, that there are now twenty-two enables them to do it, and without thousand negroes in Oklahoma, and it Illinois, Ohio and Indiana would that there will be fifty thousand by

matter of fact it is this vote which elected Harrison President, as it was this vote which has elected all the Republican Presidents who have been elected since Gen. Grant. It is this which has kept life in the Republican party as a national organization, and which keeps life in it to-day. And yet when it comes to substantial recognition of services rendered, the basis upon which party rewards are supposed to be distributed, the negro receives practically no more recognition than the Chinaman, and it is regarded as an impertinence for him to aspire to any thing higher or more remunerative than waiting boy, fire maker or something of that sort, while the white ward hustlers and strikers receive rewards in proportion to their presumed importance or services rendered. This is not only inconsistency but it is ingratitude, for the Republican party leaders claim that politically, socially and otherwise, the negro is a citizen in the full sense of the term, and the equal of the white man. They appeal to him for his support on this ground, and after having gotten his vote they turn the cold shoulder to him as i they were under no obligation, and as if a favor was really conferred upon him in being permitted to vote

the Republican ticket. Here is where

the ingratitude comes in. It is about

time that the colored supporters of

the Republican party, up in those

States at least, if they don't do it in

all the States, should begin to assert

some independence and let the ma-

chine managers see that they can't be

used all the time to pull the chestnuts

out of the fire for the benefit of white

politicians. But wiff they do it?

That's another question which time

The rivalry between the Harrison

and Hovey factions in Indiana is be-

coming intense, and each is putting

forth its strongest efforts for supre-

chance for this is to snow Har-

of the Republican State committee

is a Harrison man, and he is now

flooding the State with appeals to

the county Republican organizations

to endorse the administration and sit

STATE TOPICS. The Lenoir Topic says that 100,000 acres of land in Caldwell county are now owned by Northern capitalists, and the Morganton Herald, referring to this, says that in Burke county Northern and English capitalists are the owners of at least 50,000 acres. What these large purchases of land have been made for, whether for speculation, or for mining, agricultural or industrial purposes is not stated, but whatever the impelling motive may be it gives evidence that the men who so invested their money is this." think North Carolina a good State for investment of capital and have confidence in her future. thrifty. It is said that by the late

decision by the Supreme Court on the

tariff duty on silk ribbons for trim-

ming hats, bonnets, etc., he makes a

clean half million, minus what he had

to chip in for lawyers fees. This was

a clear profit because Mr. Wanam-

aker, as the other importers did who

have refunded to them by this decis-

ion a total of \$6,000,000, added

the customs duties paid to the price

of the silk when sold, thus making

the purchasers pay the excess of duty

collected, which now goes back into

the wallets of Wanamaker and the

other importers. In the language of

the printer it was a "fat take" for

new surroundings.

The Concord Times states that Mr. Blackwelder, of Cabarrus, has on his place a patch of lucerne which is now twenty-two inches high, from which he has been cutting for his milch cow for the past ten days. We mention this fact because it is remarkable for this season of the year, and also to call attention to lucerne, which many who have tried it pronounce the very best grass, especially upon poor soil, that can be sown in this State. We don't mean by this that it likes poor soil, but that it thrives better in it than any other kind of grass does, and holds its own better.

CURRENT COMMENT.

--- Congressmen do not like to go on the record. In the House yesterday the appropriation bill making good the Silcott steal passed with a whirl on a rising vote, but when some disagreeable statistical member demanded a roll call on the question the bill was defeated.—Wash. Post,

- The late Judge Kelley was proud of having been a mechanic, and for fifty years took an active interest in schools, institutes, etc., intended to promote the education and advancement of workers. He had had, in his early life, a hard struggle to obtain sufficient education to enable him to enter a profession, and he was always ready to help ambitious young men to escape some of the hardships he had endured .-

JOE BLACKBURN.

He Thought He had a First-class Case of Nightmare.

New York Sun. Joe Blackburn has just been reelected to the United States Senate. When he was out in Kentucky visiting the legislators he arrived one evening at a small village with only one hotel. It was a railroad town, and most of the rooms in the hotel were occupied by railroad men: There was only one vacant apartment, and that was to be occupied by an engineer who might come at any time. Blackburn was tired and sleep and said he would occupy the room and take the chances.

Some time in the night the Senator was awakened by the thrusting cost of \$1,25 per week, of a bright lantern into his face. Somebody seized him by the shoulders and gave him a tremendous shake, and a coarse, gruff voice exclaimed:

"Get up, Lankey, you've got to go out on No. 9. Skinny's already gone on No. 7 and the order is for you to follow. Shorty's goin' to make the power for you and Sandy lim is goin' to do the figuring' in the

As such language was strange to the Senator he concluded it must be a nightmare, turned over and was dropping off to sleep again, when he was shakened two or three times, dragged out of bed and dropped on

the floor. "No you don't!" exclaimed the intruder, "that won,t wash, Lanky. I'm not going to lose my job for you. If I leave you here you'll go back to bed, thinking you'll only snooze a minute and, of course, you'll get left. Then they'll fire me for not calling you. No, there ain't no use to kick. Put on your clothes and come on. I hear old No. 6 growling now. Hurry up!"

"What in --- do-you suppose know or care about No. 9?"exclaimed

the Senator. "What are ye given me?" answered the intruder. "I've had 'em tell me that before when they were sleepy and didn't want to go.

Then the night watchman, for it was he, and he had taken the Senator for the engineer, whom he was to awake, thrust the lantern into Mr. Blackburn's face. He recognized his mistake and knew the Senator and was for a moment aghast. He quickly recovered himself and said: "The only apology I have to offer

As he spoke he pulled out a small pocket flask and handed it to the Senator. The latter took a draught, smiled affably, said the apology was sufficient and went back to slumber.

POLITICAL POINTS.

-Gov ernor Campbell's inaugural shows him to be a practical man,familiar with the affairs of the Commonwelth over which he has been called to preside, quick to note defects and able to suggest improvements.-Cleveland Plain

- Senator Blair is sure that his appropriation of \$70,000,000 to turn the schools over to Federal control would pass if it were not for the Jesuits. This s the first good thing that has been said for the Jesuits this year.-Alta Galifor-

- The Providence Journal says the negro is nobody's ward; but therein the Journal is mistaken. The negro is the ward of the Republican party, whose leaders after the order of Sherman and Chandler are his special guardians. They want as many negroes killed in the South as possible, to the end that the Northern heart may be fired, the bloody shirt flaunted, the country drenched in crocodile tears. As long as it is to the interest of certain politicians to have outrages at the South, the outrage mills will grind .- Louisville Post, Dem.

-If the South wasdisorderly it would not prosper. That it prospers as a whole and in all its parts is conclusive evidence that good order reigns in the section. Of course there are wrongs, mistakes, crimes; but where is the country that is free from these? The main fact is that the whole people of the South are getting ahead in all desirable ways, materially, morally and in education, and this could not be if there were general oppression of labor, general disorder, or general denial of civil rights to any class of the people.-Chattanooga Times.

Who is Mrs. Winslow? As this question is frequently asked, we will simply say that she is a lady who for upwards of forty years has untiringly devoted her time and talents as a female physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic -giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits and unite in calling her ship, "C. \$ Brice." This is sup- blessed. No MOTHER has discharged her duty to her suffering little one, in somehow it seems to lack sting. NOTHING SUCCEEDS

LIKE SUCCESS.

The reason RADAM'S nost wonderful medicine ecause it has never failed in any instance, no matter what the disease, from LEPRONY to the simplest disease known to the human system.

CAUSED BY MICROBES,

Exterminates the Microbes and graves them out of the system, and when that is done you cannot have an ache or pain. No matter what the disease, whether a simple case of Malaria Fever or a combination of dia cases, we cure them all at the same time, as we treat a diseases constitutionally.

Asthma, Consumption, Catarrh, Bronchitis, Rheumatism, Kidney and Liver Disease, Chills and Fever, Female Troubles, in all its forms, and, in fact, every Disease known to the Human System.

Beware of Fraudulent Imitations!

See that our Trade-Mark (same as above) appears n each jug.
