FIFTY - FIRST CONGRESS.

FIRST SESSION.

Bill Passed in the Senate for Refunding Direct Tax of 1861-Long Debate on Alleged Outrages in Mississippi-Refusal of the House to Reconsider the Bill for the Election of Three Peniten-

> By Telegraph to the Morning Star. SENATE.

WASHINGTON, Jan. 28 .- Among the memorials presented and referred was one (presented by Mr. Chandler), for the establishment of a republican form of government in the State of Mississippi.

Mr. Morrill, in introducing the bill authorizing the issue of treasury notes on deposits of silver bullion, and having it referred to the committee on Finance, said that that committee had addressed a communication to the Secretary of the Treasury, asking him to formulate a bill in accordance with his recommendation in relation to silver. That bill had been received, and without committing himself or any member of the committee to it, he asked to have it printed and re-

The Senate bill to relieve the Treasurer of the United States from the amount now charged to him and deposited with the several States, was taken from the calendar and passed. It authorizes the proper accounting officers of the Treasury to credit the account of the Treasurer of the United States with the amount of money standing to his credit upon the books of the Treasury Department and now unavailable by reason of deposits of three instalments of surplus revenue with the States, authorized by sections 13 and 14 of the act of June 23, 1836, chapter 15; amounts to be charged to an appropriation hereby created for that purpose amounting in all to \$28,101,644.

The bill to credit and pay to the several States and territories and the District of Columbia all moneys collected under the direct tax act of 1861, was taken from the calendar

After a short debate Mr. Vance offered as an amendment a proposition to refund the cotton tax. Rejected-yeas 15, nays 52. The bill was then passed-44 to 7. Senators voting in the negative were Messrs. Perry, Blair, Call, Coke, Plumb, Vance and Vest.

The Senate then, at 20'clock, resumed the consideration of Mr. Chandler's resolution in relation to the maltreatment at Aberdeen, Miss., of Henry J. Fauz, and Mr. George made an argument against it, declaring his belief that the adoption of the resolution would be a serious infraction of the Constitution and a very serious encroachment on the rights of the people of Mississippi. He took up the clause of the Constitution, section 2, article 4. (which Mr. Wilson, of Iowa, and other Republican Senators referred to vesterday as authorizing the resolution.) and argued that no decision of the Supreme Court and no act of Congress had ever given such a construction to it. He quoted a decision of the Supreme Court which, he said, settled the point that the only jurisdiction that Congress had under the second section of the fourth article of the Constitution was to provide that State laws and State action under State authority should not be used for the purpose of depriving any citizen of his equal rights and privileges in any other State. He quoted another decision of the Supreme Court, to the effect that that provision in the Constitution was not a guarantee against the commission of individual offences, and did not extend to the settlement of laws for the suppression of crimes within a State. There could be no doubt, Mr. George said, if the decisions of the Supreme Court were to be relied on, that the Senate, as a part of the law-making power, has no jurisdiction to pass a law to punish the men who had committed the Aberdeen outrage; if that were so, then (he asked), what right and what power had the Senate, and under what construction of the Constitution, to make an inquiry into the transaction

and for what purpose? In the course of a long political speech in reply to Mr. George, Mr. Spooner said he did not know what the resolution would accomplish in the way of legislation or of constitutional amendment, but it would subserve one purpose, if nothing else. It would turn the light on that transaction at Aberdeen; it would prove the existence of a spirit of bitterness and brutality there. It would show that there was a community, claiming to be intelligent and law abiding, where the love of Jefferson Davis' memory is stronger than the respect for law, stronger than the love of liberty, stronger than the impulses of humanity-the law of God written in every human heart. If the resolution would accomplish nothing else, it would subserve that one good

Mr. Gray referred to the fact that quite recently President Harrison had been burnt in effigy in the State of Indiana. He moved to amend the resolution by adding the words, "and also the letter of instruction to said marshal to which the report of said marshal was a response." And, also, to add to it the following, and that he be requested to inform the Senate whether in the alleged assault on Fauz, the right secured to him by the Constitution or laws of the United States, was invaded or violated.

Mr. Butler offered an amendment instructing the Attorney General to furnish all papers in the office of the District Attorney of Indiana, or on file in to charges against W. W. Dudley, for corruption or offering to bribe Indiana voters in the last Presidential election.

The debate was further continued by Messrs. Gray, Chandler, Platt and Hoar. The first part of Mr. Gray's amendment was agreed to. The second part was not voted on.

Mr. Call offered an amendment calling on the Attorney General for a report as to the hanging in effigy of President Harrison in Indiana, and of the then President Cleveland in Kansas. Without action on any of the pending

amendmenta, the resolution went over till to-morrow. An executive session was held and the Senate adjourned.

HOUSE OF REPRESENTATIVES. Mr. Taylor, of Ohio, called up a moto reconsider the vote by which the The motion to table was agreed toyeas 162, nays 112.

Mr. Dorsey, of New York, from the Committee on Banking and Currency, reported a bill to provide for the issue of circulating notes to National Banking Associations.

Mr. Bland raised the question of consideration against the bill, and the House determined-yeas 143, nays 110-to consider the bill

Mr. Dorsey explained that the object of the bill was to permit banks to issue notes to the extent of 100 per cent, of the par value of bonds deposited, instead of 90 per cent. as now provided. If the bill became a law, a bank depositing bonds to the amount of \$100,000 could issue notes to the same amount, less 5 per cent. left as reserve fund.

The discussion of the bill occupied the remainder of the day's session. It went over without action.

Committee on Privileges and Elections to-day took up the Montana Senatorial election contest, and did nothing more than set it down for a hearing on Saturday, February 15. WASHINTON, January 28.-Arrange-

ments have been made with all railroad companies for the transportation of delegates to the National Convention of colored people to assemble here Monday, February 3d, at the following rates: One full fare going and one-third fare returning. Delegates are requested to obtain certificates from ticket agents on purchasing tickets to Washington, to be countersigned at the Convention, in order to secure the benefit of the re-

Mr. Gorman yesterday introduced in the Senate a bill making appropriations for continuing the improvements of the harbors of Norfolk, Charleston and Savannah. The bill makes the following appropriations: For improving the harbor at Norfolk, \$457,000; Charleston, \$750,000; Savannah, \$500,000.

WORLD'S FAIR.

Features of the Bill to be Reported to the House of Representatives.

By Telegraph to the Morning Star. ALBANY, N. Y., January 28.-In the Assembly to-day the World's Fair bill passed without debate or amendment; only one negative vote was cast.

WASHINGTON, Jan. 28,-The World's Fair committee of the House held a long session to-day and completed the draft of the World's Fair bill, which it will report to-morrow to the full com-

The first section adopted to-day is founded on section 4 of the Chicago bill, with slight amendment, and provides for the raising of the capital stock by subscription. Another section added to-day is section five of the Chicago bill, and fixes the amount of paid-up subscriptions, which must be in hand before the Commission begins work, at not less than five million dollars.

As it was evident that the bill as prepared would leave Washington out of the race through requirements as to subscriptions and the general financial scheme, Wilson and Bowden gave notice that they would present to the full committee to-morrow a section or sections as a substitute for the financial sections of the sub-committee's bill, which will extend government aid to the Fair, and thereby make Washington eligible for competition as the site.

A BIG STRIKE.

The Employes of the Birmingham Mill Quit Work on Refusal of the Company to Enter into the Amalgamated Associa-By Telegraph to the Morning Star.

NASHVILLE, Jan. 28.-The employes of Birmingham rolling mill, one thousand in number, went out on a strike yesterday, and the fight between the men and company promises to be a long and bitter one. An effort to force the mill the Amalgamated Association caused the strike. For five years this mill has been non-Union. The Union scale has been paid, but both Union and non-Union men have been employed. Saturday night the men held a meeting and decided to organize and force the mill into the Association when the new scale is signed in July. At noon yesterday manager Ward told the men they could not organize for the purpose of forcing the mill into the Association. The day men quit last evening; the night men will follow at the end of the night turn, and over one thousand men will be involved. The weekly pay roll of the mill is about \$28,000.

MONTANA'S LEGISLATURE.

The Supreme Court Gives it to the Republicans.

By Telegraph to the Morning Star. HELENA, Mont. Jan. 28.-The Supreme Court to-day decided the Thompson mandamus case by granting a peremptory writ ordering the State Auditor to allow the Thompson bill for mileage and per diem.

Thompson is a Republican member of the Legislature from Silver Bow county, being one of the five elected by the throwing out of the Tunnel precinct.

The court goes into the question of certificates, and sustains the position of the Republicans that the certificates from the State canvassing board are the only prima facie evidence of membership in the United States Court there, relating the Legislature. This decision makes the Republican body a lega Legislature.

THE NEGRO PROBLEM.

Prof. Austin Phelps, of Andover, Mass., Gives his Views on the Question. By Telegraph to the Morning Star.

CHARLESTON, S. C., January 28 .-Prof. Austin Phelps, of Andover, Mass., writes as follows to J. C. Hemphill, editor of the News and Courier: "I wish to thank you for the courtesy

and candor of your criticisms on my remarks upon Mr. Grady's speech at the Vendome at Boston. If I were able I should like to pursue the subject in vour columns. I should admit some things, and it seems to me that I could prove some other things to the satisfaction of such a man as you must be, but I live with more than one foot in the grave. It is set down that I cannot use my pen with any force except when I breathe the ozone of my summer home at Ben Harbor. I have never believed in negro suffrage. Senator Sumner never committed a graver blunder then driving the act which legalized it through Congress. It was not an act of statesmanship; it was a flurry of desperation. The only palliation is the fact that in the struggle for its existence the nation was brought into a supreme exigency in which everybody could tell anybody what to do. Everything which was done struck nature a blow in the face, and for that she always gave a return blow in grand rage. We are sure in such an encounter to get the worst of it. That is what we are suffering to-day, and what the end will be God only knows. I shall not be here to see it; but it would not surprise me if it cost the nation more blood than the civil war did. You thinking men of the South have the sympathy of every thinking man at the North. Fifty years ago Prof. Moses Stuart, of Andover Theological Seminary, a personal friend of Calhoun, foresaw just the present dead-lock of affairs, and told me that he saw no final solution but the surrender of two or three States to the exclusive possession of the colored race. But I have never been able to see that Christianity cannot make two colors, in prolific races, live peacefully together, as

nature adjusts colors in the rainbow." BUSINESS FAILURE.

A Prominent Cotton Factor of New Or leans Forced to Suspend. By Telegraph to the Morning Star.

NEW ORLEANS, Jan. 29.-News of the failure of John B. He did a large country business. and though transactions in the country were generally confined to items of a few thousand dollars, they were numerous. It is believed in commercial circles that had Lallande appealed to his friends, he would have been able to tide over the crisis in safety. In his petition Lollande states that his failure is due to his inability to realize upon his assets. consisting largely of bills receivable. Fluctuations in Prices of Grain and Provi-

By Telegraph to the Morning Star. CHICAGO, January 28.-Fair business was transacted in wheat, and the market ruled steady and showed some firmness. There were pretty fair offerings, but no large quantities apparently pressing on sale, and there was also a little more disposition to buy.

Corn was very quiet the greater part of the session, trading being of a light local character. Fluctuatious were limited to a fractional range. The feeling was comparatively firm on deferred deliveries, while near futures were bare-

Hog products were more active. At the opening of the market the feeling was weak. Local operators were free sellers, and a majority of outside orders were on the selling side of the market. During the latter part of the session a steadier feeling prevailed, and prices were moderately well supported.

COTTON.

The New York Sun's Report of the Market

Yesterday. By Telegraph to the Morning Stat. New York, January 28 .- The Sun's

review of the cotton market to-day says: Futures were 6 to 12 points lower and active at a decline in Liverpool and unexpectedly large receipts at the ports, together with a bull liquidation here and in Liverpool. Southern spot markets were generally unchanged and less active. Receipts at interior towns were larger. Cotton on the spot was dull.

Judge O'Brien, of New York, has decided the suit of the New York Base Ball Club vs. J. M. Ward, in favor of the Brotherhood. The Judge denies the motion for a preliminary injunction restraining Ward from playing with any but the New York Club, and says the case must go to trial on its merits.
