## OUTLINES.

In the Senate yesterday the bill to provide a temporary government for the Territory of Oklahoma was discussed, after which Mr. Blair made a two hours' speech on his Educational bill, and will conclude his talk on the 10th inst. In the House the Democrats carried out their policy of silent protest against the ruling of the Speaker by declining to vote upon the question of approving the Journal; it was approved, however by the usual mode of the Speaker counting the vote; a number of bills were introduced and referred and several passed. — The New York Senate yesterday passed the World's Fair bill by a vote of eighteen to five. — The Democratic Senators of the Montana Legislature have become incensed at the ruling of the Lieutenant Governor in counting them present, and have determined to leave the State, out of the reach of the sergeant-at-arms, and thus block all legislation. — The Colored Convention in session in Washington, has issued a long manifesto in which they recite the grievances of their race in certain portions of the country, and ask that they be invested with the rights and privileges of the most favored citizens of the land—in fact it seems that nothing but the whole world will satisfy them. — The Senate yesterday confirmed the nomination of Blanche K. Bruce, for Recorder of Deeds of the District of Columbia; it is one of the best offices in the Government. — The House Committee on Rules held a meeting yesterday morning, when the code was amended so as to correspond to the action of the Republican caucus Wednesday afternoon. — An oyster war prevails at Ocracoke Island, and the people have appealed to Gov. Fowle for protection for the depredators. — A fearful nine disaster is reported from England; in which it is estimated that about one hundred and twenty lives have been lost. — The officials who have been investigating the matter have come to the conclusion that the Tracy tragedy was the result of an explosion of a kerosene lamp. — N. Y. markets: Money easy, at 3½ to 5 percent; cotton firm, sales 104 bales; middling Orleans 11 cents; middling Orleans 11½ cents; southern low weak; wheat dull and heavy; No. 2 red 74½ cents; corn quiet and weaker; No. 2, 36½ cents; corn quiet and weaker; No. 2, 36½ cents; rosin quiet common to good \$1 12½ to 16; spirits turpentine dull and lower at 42 to 42½ cents.

It is said the London Times has spent \$1,000,000 in the Parnell case. That would break two ordinary newspapers in North Carolina. — The Democrats of Peoria, Ills., propose to ring down the Republican candidate for Congress in that district next time by nominating editor A. J. Bell of the Peoria Herald. — Mr. Harrison probably thought he would get even with Russia for sending the gripe over here by sending Charles Emory Smith, of the Philadelphia Press, over there as minister. — Sam Jones says he found only one man in Omaha who dared say that he had never spoken cross words to his wife, and he was a bachelor and dumb. The women of Omaha must be very bad. — An Oakland, California, prophet predicts that Chicago will be destroyed within eighty days, and yet these heedless Chicagoans are hustling around, calculating on the World's Fair as if nothing was to happen. — As matters now stand under the decision of the U. S. Supreme Court the Mormons out in the Territories will have to get along with less wife or fewer votes. This is rough on the elect, but this is a rough world we are living in. — Dr. Strickler, in Washington, examining a negro, on the question of sanity, said that very few people are thoroughly sane. This was just at the time when Reed and his pals were performing their loftiest antics in the House.

The immigrants arriving in this country last year, exclusive of those from Mexico and Canada, numbered 430,000. During the past ten years the immigration, exclusive of the two countries above named, footed up a total of 5,272,959.

In New York, when a man puts up his wife as a target for knives, pie-plates, lighted lamps, and other missiles laying around loose, it is considered pretty fair grounds for a limited divorce. In Chicago that would be ground for a half dozen unlimited divorces.

## THE MORNING STAR.

VOL. XLV.—NO. 126.

WILMINGTON, N. C., FRIDAY, FEBRUARY 7, 1890.

WHOLE NO. 7,288

## LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

— The German barques *Lydia Peschaw* and *H. A. Walter* arrived at Southport quarantine yesterday.

— Buck shad were selling yesterday for 60 cents per pair, while \$1.20 per pair was the price asked for roe shad.

— Lucky Lockey will receive one thousand dollars for his services as Census Supervisor of this district. This beats running for Congress all to smash.

— The STAR said in yesterday's issue that rain was needed, and it came, sure enough; which shows that this particular MORNING STAR has its share of influence among the stellar luminaries.

— Paterson, Downing & Co. cleared yesterday the Norwegian barque *Ofir*, for London, Eng., with 3,412 barrels rosin, 500 casks spirits turpentine and 50 barrels gum thus, valued at \$14,170.

— The New Hanover County Sunday School Convention will be held at St. Paul's Lutheran Church in this city on the 13th and 14th inst. The exercises on both days will be in the evening, beginning at 8 o'clock.

— Mr. J. G. Barrentine, of the firm of Chesnut & Barrentine, will leave today on the steamer *Benefactor*, for a trip to New York, Boston and other Northern cities. His wife will accompany him, and they expect to be absent about a month.

— Kite-flying is now the great amusement of the small boy, and already the trees and telegraph wires are ornamented with fragments of kite-tails, to the annoyance of the aforesaid small boy, and leading him, we fear, to indulge in broken but forcible remarks.

— Mr. W. P. Oldham had slaughtered last Wednesday evening a hog two years old, that weighed 525 pounds after it was killed and dressed. The liver weighed 20 pounds. The hog was of the Poland China breed, and was raised at Poverty Hill, south of the city.

— Some of the merchants complain that this weather prevents the sale of spring goods, while it gives them the consolation afforded by a possible chance of disposing of more of their winter stock, so that they will have less to carry over to another season. With all its drawbacks it has its compensating virtues.

## THE ROAD COMPLETED.

Through Trains From Wilmington to Mt. Airy on the 17th inst.

The following circular from the officers of the C. F. & Y. V. R. R., makes official announcement of the completion of the road to Fayetteville.

C. F. & Y. V. RAILWAY COMPANY, FREIGHT & PASSENGER DEPARTMENT, FAYETTEVILLE, N. C., Feb. 6th.

It gives us pleasure to announce that the Wilmington extension of this road has been completed from Wilmington to Fayetteville, and will be open for business February 17th. Distance from Wilmington to Fayetteville 83 miles. By the completion of this extension a short line is opened to Fayetteville, Greensboro, Winston, N. C., and Lynchburg, Va., and all points west of Lynchburg. This line is prepared to give quick dispatch to all business entrusted to its care, and a liberal patronage is respectfully solicited.

W. E. KYLE, Gen'l Frt and Pass. Ag't.  
J. W. FRY, Gen'l Sup't.

Seven car loads of rails were sent up the road yesterday, from Wilmington. The greater part of these will be used for "turnouts," etc., along the main line of the road.

## The Epidemic at La Grange.

A correspondent of the STAR, writing in regard to the closing of Davis' military school at La Grange, Lenoir county, on account of meningitis, says that three deaths from the disease have occurred among the cadets—one in December, one in January, and the third last Monday—Cadet Ward, a son of Dr. E. W. Ward, of Onslow county.

The physicians of La Grange held a consultation, and their conclusion was that the disease is epidemic, but not contagious. There was a case of an old man in the village, who died in three days after being taken. All the cases when taken are of short duration—from two to three days.

## A Drop in the Mercury.

A cold wave that was not down on the bills at the Signal office put in an appearance yesterday, and the mercury tumbled thirty degrees—from 80 to 50—by 4 p. m. With the break in temperature the spirits of wood and coal dealers rose correspondingly, but towards the "shank of the evening" the wind shifted to the southward, the mercury began to rise, and the prospective advance in the price of fuel was chilled—instead of the consumer of wood and coal.

## A Big Crowd Expected.

The State Sunday School Convention will be held at the First Baptist Church in this city on the 25th, 26th, and 27th inst., at which time a great many strangers—delegates and others—may be expected and it is hoped that ample provision will be made for their accommodation while here.

## WILMINGTON &amp; WELDON RAILROAD.

Warren G. Elliott, Esq., the Newly Elected President of the Company.

Referring to the appointment of Mr. Warren G. Elliott, as President of the Wilmington and Weldon Railroad Company, the Norfolk Landmark says:

"There is but one regret connected with the universal gratification felt over the selection of our distinguished fellow-citizen, Warren G. Elliott, Esq., as President of the Wilmington and Weldon railroad, and that comes from the thought that he must change his place of residence from Norfolk to Wilmington, N. C. A native of North Carolina, he has held almost equal allegiance to her and to Virginia, and his triumphs in life have come to him from his interest and pride in both. From the young and talented law student in the old office of Goodrich & Hinton of this city, Mr. Elliott has steadily ascended the incline of professional success as safe counsel and sensible man of business. His practice fell in the line of railroad organization and conduct; he naturally became an adviser of great enterprises in this locality and with the expanding business of his professional life, came a larger acquaintance, and a fuller appreciation of the abilities which belong to him and which always command attention where opportunity is offered.

There is nothing surprising to us in Mr. Elliott's elevation. On the contrary, we regard his selection to the high and responsible office of President of the controlling branch of the great Atlantic Coast Line as another evidence of the clear-headed sagacity of the owners of that fine property. They are men of great fortune, and wish to be relieved of the business of managing the details of their line. Mr. Elliott has, in his relation with these gentlemen as counsel for themselves and others, impressed them as a man of strong natural and professional ability, supplemented by large experience in railroad matters. No corporation can pay Warren Elliott more than he is worth. We congratulate those who have tendered him this fine position, and we congratulate Mr. Elliott upon the high compliment paid him.

## Sunday School Work.

The friends of Sunday School work in Bladen county met in the Court House at Elizabethtown, on Monday, the 3d inst., and organized the Bladen County Sabbath School Association, and elected the following officers to serve for the current year:

President—Rev. A. McFadyen.  
Vice President—W. J. Register.  
Secretary—W. J. McKay.  
Treasurer—S. N. Ferguson.  
Executive Committee—Dr. J. S. Devane, J. D. Currie, D. G. Robeson, J. F. Parker, C. W. Lyon, J. N. Singletary, S. H. Hilburn, W. A. Savage.

The following were appointed delegates to the State Sunday School Convention which is to be held in this city on the 25th, 26th and 27th inst.:

Rev. A. McFadyen, Rev. Wm. Brunt, C. W. Lyon, J. F. Parker and W. J. Register.

The meeting was entirely harmonious and was characterized by an earnest desire to do everything possible to advance the cause of this important work.

## Weather Forecasts.

The following are the forecasts for today:

For Virginia, fair weather, except local rains on southeast coast, easterly winds and warmer.

For North Carolina, warmer, northeasterly winds, with occasional rains.

For South Carolina, cloudy and rain, warmer in northern portion, colder in southern portion and easterly winds.

A special bulletin, issued last night, says: A storm has developed in Southwest Texas, and another in Northern Dakota; both are moving eastward. Rains are reported in the Southern States, Kansas and Colorado, with snow in Minnesota. Colder weather has prevailed, with the cold wave in the Atlantic and Gulf States.

## Mr. M. M. Katz.

Mr. M. M. Katz, who was stricken with paralysis of the left side on Wednesday evening, rested comfortably during the night, and his condition was very much improved yesterday afternoon. It is hoped that the stroke may yield readily to medical treatment, and that he may speedily recover and be again at his place of business.

At a late hour last evening Mr. Katz's condition was not considered so favorable, but still he was not regarded as in immediate danger.

## The Industrial Manufacturing Company.

The work of getting the boilers and engine of the Industrial Manufacturing Company into position was commenced yesterday, under the direction of Mr. E. E. Titus, of Petersburg, Va., who has been engaged to erect the plant of the Company. The wood-working machinery will be shipped Saturday and will probably arrive by the time the engine and boilers are ready for use. The Company expect to be fully equipped and ready for work by the first of March.

## Where Did He Get His Information.

The Raleigh correspondent of the Richmond (Va.) Dispatch says: "It is reported by physicians that three-fourths of the people of Wilmington are sick with the la grippe."

It would be an exaggeration to say that one-fourth of the people are sick with the complaint.

## FAYETTEVILLE NOTES.

Paraphrased Pictures of the Old Town by a Star Reporter on the Spot.

FAYETTEVILLE, February 6.—People here are in good spirits. Manufactories of different kinds are springing up, and everything points to the prosperity of Fayetteville. The town is growing steadily and the number of new houses which have been recently built and are being built is very large. It has now about 8,000 inhabitants and the population is constantly increasing. While there is no "boom," everything is in a healthy condition and the prospects for Fayetteville's future are bright.

The Gas Company's plant has been doubled in capacity and coal from Egypt is now used instead of rosin.

The Fayetteville Cotton Mills have a double set of hands and are running day and night.

The Bueket Company is largely increasing its business and find it absolutely necessary to largely increase its plant. These works are also running day and night, and are unable to fill orders as fast as given.

There was a large crowd of farmers in town yesterday; the occasion being an address to the Farmers' Alliance by Capt. W. A. Darden, a strong speaker and most eloquent in his cause.

The Order of the Knights of Pythias is growing rapidly in this good old town, and has for its members many of the representative men here. Tuesday night a number of new members was taken in, and next Tuesday about fifteen more members will be initiated.

The last spike in the C. F. & Y. V. R. R. was driven to-day, (Thursday), and Mr. D. M. O'Hanlon, who laid the first rail on this road will drive it.

The people of Fayetteville are anxiously awaiting the completion of the C. F. & Y. V. R. R. to Wilmington, and it is thought that there will be a large excursion to Wilmington on the 17th, at which time the first train will be run through from Mount Airy.

## Mayor's Court.

In the Mayor's Court yesterday, E. L. Grant was arraigned, charged with assault and battery on James Jarman, colored. The testimony of witnesses showed that Jarman was driving an ox cart and accidentally ran into Grant's buggy, damaging one of the wheels of the latter's vehicle. Grant seized the negro, shook him violently and insisted that he should pay two dollars for the damage, and the darkey gave Grant one dollar; all the money he had. The Mayor reserved his decision in the case.

Dan Shine, colored, was fined ten dollars and costs for violation of the sanitary ordinance.

Ellen Porter, colored, charged with the larceny of a dress and other articles of clothing from Sarah Birgman, colored, was committed to jail in default of \$100 bond for her appearance at the Criminal Court.

## A Growing Evil.

Complaint is made, and justly too, that thoughtless or evil-disposed boys frequently start the cry of fire, causing much annoyance and, frequently, alarm to our people. This is done in the night time, and heretofore those who have perpetrated the outrage have escaped detection. We hear of frequent instances of the disturbance and have ourselves heard the cry when there was no cause for giving the alarm. It is wrong, and we hope the city officials will take active and effective measures to abate the nuisance.

## New Time Locks.

The First National Bank has had new time-locks placed upon their safes, which is one of the best arrangements to defeat burglarious efforts we have yet seen. By the operation of these locks when set to open at a certain hour, there can be no entrance to the safe by a burglar or even by any of the officials until that time arrives.

## Wilmington District—First Round Quarterly Meetings in Part.

**Liverpool & London & Globe Insurance Co.**

STANDS FORTH AMONG ITS CONGENERS.

As do the pyramids among buildings, as the Himalayas among mountains.

Forty-two years ago the United States Branch of the Company was established. To paraphrase a well known quotation, the worthy offspring of a noble race, existing in all the good qualities so conspicuous in the parent company of which it forms an indispensable part, and whose imperial resources back it with impregnable strength to face the direst contingency.

The Shares of this Company are \$2 each, and are now selling for \$4.10 per share. The Company, instead of paying out its surplus to stockholders, has carried it to surplus reserve, until its fire assets now amount to about \$100,000,000, and its surplus to policy holders to over \$10,000,000.
