## OUTLINES.

Most of the day in the Senate yesterday was consumed in further consideration of the resolution of censure offered by Mr. Chandler relative to remarks made by Mr. Call. of Florida, in refercuce to him; it was finally referred to the Committee on Privileges and Elections; Mr. Coke addressed the Senate in opposition to the Blair Educational bill, and Mr. Stanford in advocacy of it: no business of special interest was transacted in the House; a bill discontinuing the coinage of one dollar and three dollar gold pieces and three cent nickel pieces was passed. - The Nashua mills operatives refused the ultimatum of the companies, and the mills yesterday shut down indefinitely; the operatives are leaving in large numbers by every train. - The Duke of Orleans has been placed in the prison at Clairvan.c. and will be treated as a political prisoner; the list of persons who were permitted to visit him has been curtailed. -The Swiss government has abandoned the Labor Conference, which was proposed to be held in Berne. -The Maryland Legislature has passed a bill redistricting the Congressional districts, by which five of six of them will be solidly Democratic. - Revenue officers made a raid on moonshiners, near Hillsboro, in this State, vesterday, when A. Kilpatrick, who was in charge of the raiding party, was shot in the face by a negro and dangerously wounded; the negro was then shot and killed. - Three physicians and several negro assistants were surprised near New Albany, Indiana, Monday night, while descrating graves; the negr ses ran when called upon to hold up their hands, when one of them was shot and killed; the rest of the party were captured. -A train which left Louis ille early yesterday morning went into | tor is a philosopher as well as a great a creek by the washing away of a bridge: the engineer and fireman were killed and several persons injured; no one in the sleeper was hurt. -The Nativ Department yesterday paid \$57,-800 to the Richmond Locomotivé Machase Works for work done on the battic-ship Texas, which is being built at Norfolk; this is the first large payment that the Navy Department has made in tin South since the war. -- The Chica . lo ks are working like beavers to the last the bill for the holding of the While's Fair in that city, and it is given out that there is no fear of further opas sition to the bill in the House or the Senate. --- Violent and destructive storms are reported from Southern Kentucky and Ohio, and further particulars of the disastrous flood in Arizona show great desstruction of property and the loss of many lives. -York markets: Money easy at 41, to 7 per cent.; cotton quiet; rates 137 pales: middling uplands 11 5-16 cents; middling Orleans 11 9-16 cents; southern flour quiet and steady; wheat active, 1/2@ 4c up and strong: No 2 red 86@8614 cents at elevator; corn firmer and fairly active: No. 2,

Senator Ingalls has an antipathy to barbers and says every man should shave himself. He never could train the barbers to parting his hair in the middle, and it riled him so that he has conceived a violent dislike for the whole striped-pole fraternity.

There are some Iowa women who can enjoy a joke. Mrs. Marshall, of Dubuque, laughed so hard that she set her jaws at such a rigid right angle the doctors had to break a jawbone to get them back into statu quo. She should at once have a set screw inserted, that she may enjoy her hilarity without putting the doctors to so much trouble.

The petition figures conspicuously in this Congress. Old man Blair presented a petition said to contain 4,000,000 names to boost his educational bore, and a couple days ago Sherman introduced a hatful, asking government aid to help Southern negroes who want to go West to settle. Of all the things easy to manufacture these days it is | beginning April 1st, 1890. the petition. All it requires is a nimble pen and a good stock of names to draw from, and the thing

It is said that the immense number of small watermelons left by the farmers of Georgia to rot in the fields last year on account of the low price, have brought in swarms of rats to between Seventh and Eighth streets, feed on the seeds. They have burrowed by the thousand in the fields and the question with the farmers is how to get rid of them before planting again. Import some Chinese laborers.

The public building business is starting out pretty brisk in this Congress. The Senate got through about \$5,000,000 worth of them last week. Up to date Iowa has secured four, which is a little Senatorial "courtesy" to make Allison solid with his constituents and help his re-election. Senatorial "courtesy" is a nice thing to have about in such emergencies.

Dr. Talmage is a wise man. He don't read the disagreeable things which some wicked editors say about him, but only the pleasant things and thus he manages to keep in a happy frame of mind and to retain a good opinion of himself. The Docpreacher. Dr. Harrison should follow his example and be happy.

Gov. elect Boise, of Iowa, who has been kept out of his seat by the dead-lock in the Iowa Legislature, will be inaugurated to-morrow. As he is the first Governor the Democrats of that State have had a chance to inaugurate in thirty-five years, DesMoines will be for several days the most brilliantly and artistically three nickle-plated fire extinguishers, painted town in America.

The Kansas farmers who are burning corn because it don't pay to haul it to market, are cheered by the Springfield, Mass., Union with the information that "they will have to content themselves with smaller profits than they have enjoyed heretofore." They will doubtless enjoy this cheery declaration.

Storm and Cold Wave.

Signals were displayed at the station here vesterday evening on advices from the chief signal officer at Washington, directing the observer to hoist the cautionary southwest warning for a storm prevailing at 5 p. m. from the Lakes to Louisiana, and which it was predicted will be followed by a cold wave. Warning signals were also ordered at Morehead City.

High winds prevailed here yesterday throughout the greater part of the day, coming from the southwest, but they died away soon after nightfall.

A NEW TRUCK

For Wilmington Hook and Ladder Company No. 1.

The new hook and ladder truck which arrived yesterday is named the "Jack Griffith," in honor of the first foreman of Wilmington Hook and Ladder Company No. 1. It was carried from the railroad depot to the City Hall, where it will be kept for the present until arrangements are made for it at the truck house of Hook and Ladder Company No. 1. The truck weighs about 3,-500 pounds, and cost \$1,000. It was built by Rumsey & Company, of Seneca Falls, New York, and is as "pretty as a picture." It was ordered by the city on recommendation of the Board of Audit and Finance and was built on specifications as regards equipment, dimensions, etc., submitted by Chief Martin Newman of the Fire Department. It will be examined and tested to-day, by the Committee on Fire Department of the Board of Aldermen, and if found satisfactory will be accepted and turned over to the Company at once.

The truck is an elegant affair and was very much admired. It is painted green with the name "Jack Griffith' in black enamelled letters on a silver plate on each side; is equipped with ladders made of Oregon pine, oiled and varnished, with gold stripes, and lettered with the initials of the company; has and in all other respects is well and completely appointed with everything necessary to to make it a perfect machine of its class. One point in its construction is that rear and front wheels are made to turn under the machine, and that it can be run without a tillerman, if necessary.

N. C. S. S. CONVENTION.

THIRD ANNUAL MEETING IN WIL-MINGTON.

Enrollment of Delegates-Committees Appointed-Address by Dr. F. H. Pritchard-Report of the Statistical Secretary-Discuscussion on Sunday School Work.

The third annual meeting of the North Carolina State Sunday School Convention assembled at the First Presbyterian Church in this city at 9 o'clock vesterday morning, and soon after that hour was called to order by the President. Rev. Dr. Pritchard, of the First Baptist Church.

The Convention was announced to be held in the First Baptist Church, but on account of important improvements in progress for the accommodation of the organ which is about to be placed in that edifice, the change was made.

There was not a large number of delegates present at the first session, many of them not having arrived in time to participate in the initial proceedings. In consequence of this fact considerable businsss of importance was deferred until later, so that as large a number as possible might have the benefit of hearing and taking part in that which was of interest to them. The most of this deferred business was hearing the reports of the secretary, statistical secretary and

The meeting opened with singing by the congregation, Miss Annie Sprunt presiding at the organ. Rev. E. A. Yates then invoked the Divine blessing on the deliberations of the Convention, at the conclusion of which, Rev. W. S. Creasy led the Bible reading service, taking for his subject a portion of the 119th Psalm, upon which he made some interesting and instructive comments.

At the conclusion of the Bible reading service, Rev. Dr. Hoge, of the First Presbyterian Church, and Rev. F. D. ston. In this the speaker gave a made addresses of welcome to the visiting delegates, both of which were cordial and hearty greetings of welcome to the hospitality of Wilmington; were in excellent taste and were clothed in eloquent and impressive words, which came fervent from earnest and sincere

Mr. J. H. Southgate, of Durham, was to have responded to the words of welcome, but was unavoidably absent, and his place was ably filled by Prof. W. A. Blair, of Winston, in language carnest, eloquent, chaste and rich in pictures of word painting,

The President then announced that he had received a letter from Maj. Robert Bingham, in which the latter regretted his inability to be present to speak last night as had been announced, but hoped to be here a little later dur-

ing the continuance of the Convention. The enrollment of delegates was then taken up and concluded as far as delegates present would permit.

A Committee on Business, consisting of Messrs. H. N. Snow, A. H. Merritt and H. B. Broughton was then ap-

On account of the absence of many delegates, the reading of the reports of the secretary, statistical secretary and treasurer, was deferred until later, to enable as many as possible to listen to and take part in the discussion of those important documents.

The chair then announced that the business of the first session, as laid down in the programme, had been concluded, when it was suggested, and after some discussion it was decided, that the hours for the meeting should be at 9 a. m., 3 p. m. and 8 p. m,

The Convention then adjourned until

The proceedings were made of additional interest from the fact that the President of the International Sunday School Association of the United States and Canada, Mr. Wm. Reynolds of Chicago, was present and gave encouragement and, in some instances, direction to the proceedings by his thoughtful suggestions and wise counsels,

AFTERNOON SESSION. The Convention was called to order at 3 p. m. with Rev. Dr. Yates in the

Praise service was conducted by Rev. F. D. Swindell, with singing from Gospel Hymns, by the congregation, under the direction of Mr. C. H. Robin-

After the reports of counties and towns had been made, Rev. Dr. Pritchard addressed the Convention on the subject of "Sunday School Conventions -Their History and Objects." In this address the speaker first spoke of the

Passing from this, the speaker proceeded to give in impressive language and with graphic descriptive power the great benefits that had been conferred on the Christian world through this beneficent enterprise: the progress that had been made in eductating the people up to a better knowledge of the Bible and its vitally important truths and teachings through the instrumentality of the almost numberless publications concerning the Bible, which had their origin in these

This covered a large area of territory embracing nearly the entire State, and it was pleasantly instructive from the fact that it developed a growing interest everywhere in this great Christian enterprise, besides being cheering news to all who are interested in developing and fostering a work of such vast moment to the civilized world.

It was stated in the re-

port that there are to-day 269.563 persons connected with the Sunday Schools of North Carolina. It was recemmended that organizers should be employed systematic house to house visitation neighborhood conferences; the woman's mission aid for supplying the destitute; home Sunday School classes to reach the 401,110 chaldren not now in Sunday School: The report was very elaborate and

presented a great deal of information collected by the Secretary of the Committtee, Mr. H. N. Snow, of Durham.

On motion of Mr. Reynolds the report was referred to a Committee for the recommendation of such matters as should be brought before the Conven-

Mr. Snow also reported, as statistical secretary, giving the number of officers. teachers and pupils belonging to the different denominations of the State.

The report was adopted. The first address of the evening was delivered by Mr. A. McPheeters, of Raleigh, on the subject, "Spiriturl Preparation Necessary to Success in Sunday School Teaching." The teacher cannot take the place of the parent or the pastor, but can aid them in the spiritual training of the children under their charge. If it is the object of the teacher to teach geography, chronology and the like he needs no spiritual preparation, but if the purpose is to lead immortal souls to Christ, then he does need very much spiritual help. The means toward gaining this need are preparation, diligence and prayer. He must drink deeply from the fountain-God's word. Mr. McPheeters illustrated the necessity and power of boldness for the work by giving an ining Sunday Schools during his travels | cident in his own life while a citizen of Norfolk, Va., when a young man. How structive, and was cheering tidings to all he spoke to a friend about his soul who was an infidel, and who The "Work in other Lands" was then by a word in season was led to in our work.
