N. C. S. S. CONVENTION.

THIRD DAY'S PROCEEDINGS.

Reports of Committees--Officers Elected for the Ensuing Year--Resolutions Adopted--Addresses--Final Adjournment.

The Convention was called to order promptly at 9 a. m., by the President, Rev. Dr. Pritchard, and considerable time was taken up in devotional exercises...

The Bible reading exercises were conducted by Rev. J. W. Primrose.

Report of the Committee on the Executive Committee was adopted.

The number of copies of the minutes to be printed was left to the Executive Committee in conjunction with the Publication Committee.

Report of the Auditing Committee was received and accepted.

At this juncture a statement was made by one of the delegates that a misleading paragraph in one of the city papers should be corrected.

The paragraph alluded to stated that one of those announced to speak upon a selected subject was not present, but sent a paper discussing the question...

The gentleman making the statement declined to state in which newspaper the erroneous matter was published, hence it devolves upon the reporter to state that such a report did not appear in the MORNING STAR.

Mr. Wm. Reynolds, being invited, took the stand and answered in a very practical and common-sense way a large number of questions regarding the best and most successful methods of conducting Sunday schools...

"The Art of Questions" was detailed briefly but pointedly and practically by Prof. G. T. Adams.

The Nominating Committee submitted their report of nominations of officers for the ensuing year which was unanimously adopted.

The following are the officers for the ensuing year: President--Prof. W. A. Blair, of Winston.

Vice Presidents--1st District, J. S. Blair; 2nd District, Prof. G. T. Adams, of New Bern; 3d District, Geo. Chadbourn, of Wilmington; 4th District, Rev. L. J. Holden, of Lincolnton; 5th District, S. M. Parrish, of Raleigh; 6th District, J. H. Southgate, of Durham; 7th District, Wm. Black, of Maxton; 8th District, Rev. E. W. Smith, of Greensboro; 9th District, H. C. Dunn, of Clear Creek; 10th District, R. N. Hackett, of Wilkesboro; 11th District, Gen. R. B. Vance, of Asheville; 12th District, Rev. W. H. Smith, of Franklin.

Recording Secretary--Prof. J. W. Gore, Chapel Hill.

Statistical Secretary--H. N. Snow, Durham.

Treasurer--W. H. Sprunt, Wilmington.

Executive Committee--G. W. Watts, chairman, Durham; N. B. Broughton, Raleigh; E. J. Parrish, Durham; J. S. Carr, Durham; W. H. Reiser, Salisbury; S. A. Kerr, Greensboro; J. S. Linebeck, Salem.

Prof. Blair, the newly elected President, then came forward and took the chair, it having been gracefully resigned by the retiring President, Rev. Dr. Pritchard.

Mr. G. W. Watts submitted the following preamble and resolutions: WHEREAS, The North Carolina State S. S. Association has been so fortunate as to secure the services, as Statistical Secretary, of such a man as Horace N. Snow, and

WHEREAS, His work has been quite full and valuable to the welfare of our Association; therefore, be it

Resolved, That we, the North Carolina S. S. Association, in Convention assembled, do tender to Mr. Snow, our warmest praise and thanks for his untiring energy in his labor of love.

Resolved, That we appreciate the fact that he did more than his position demanded of him, and did it all in the most satisfactory manner and with a cheerful Christian spirit.

Resolved, That only as an expression of our appreciation, and in recognition of his valuable services, but not as a compensation for the same (as our treasurer would not allow it), we tender to him the sum of one hundred dollars.

The resolutions were adopted unanimously by a standing vote, and Rev. Dr. Pritchard, in a few feeling and appropriate remarks, presented Mr. Snow with a check for \$100.

Prof. Beardslee, being called upon, then came forward and sang a couple of songs in his own exquisite style, at the conclusion of which the Convention took a recess until 8 p. m.

NIGHT SESSION. This was perhaps the best session of the whole Convention. Mr. Reynolds conducted a promise meeting, calling out a dozen of the preachers and laymen who quoted passages of Scripture which were specially precious and helpful to them, adding comments that were striking and edifying.

The first regular address of the evening was by Dr. E. A. Yates, of the Bible authority for Sunday Schools. This address was read, and as was to be expected was clear, vigorous, compact, sensible and convincing. The style was that of a close reasoner, and was classic in its elegance.

But the special interest of the hour attached to the address of that remarkable Sunday School worker Mr. Wm. Reynolds, which was on going forward. It was a lay-sermon of great power, and coming from a successful business man, addressed to business, was clothed with a moral force that we have rarely heard equalled.

He was followed by Mr. Watts of Durham, outlining what the executive committee proposed to do during the next year, looking to larger work and more effective organization, after which the usual resolutions of thanks were passed.

The hour was now late, but the "feast of reason and flow of soul" was not over, for brief and spirited addresses were called out from Rev. Messrs. Peschau, Cressy, Pritchard, Beaman and others, which seemed to thrill the large audience and kept it intact to the last.

With a parting hymn and many cordial handshakings this interesting and profitable meeting of Sunday school workers adjourned, to meet next year in the good old town of Fayetteville.

LOCAL DOTS.

Items of Interest Gathered Here and Thore and Briefly Noted.

The British steamship Merjulio, hence January 31st, arrived at Ghent, February 25th.

Chris. Anderson was fined \$10 in the Mayor's Court yesterday for disorderly conduct.

The new organ for the First Baptist Church has arrived and will be placed in the church next week.

Joint services of the several Episcopal Churches at St. Paul's to-night at 8 o'clock. Rev. Robert Strange will preach.

Messrs. Paterson, Downing & Co. cleared the German barque Paqueta yesterday for Stettin, with 4,700 barrels rosin, valued at \$6,125.

The Goldsboro Argus says that the ice factory at that place has been leased for a term of years to D. G. Worth, Esq., and other gentlemen of Wilmington.

British schooner A. T. cleared yesterday for Huamacoa, P. R., with cargo shipped by Edward Kidder's Son, consisting of 94,600 feet lumber, valued at \$1,229.80.

The Wilmington Light Infantry have been furnished with swords, and will turn out to-night with these weapons, instead of rifles, for practice in the Knight Templar drill.

The city authorities intend to enforce the ordinance prohibiting persons throwing trash into the streets, and will require storekeepers and others to put such refuse in boxes or barrels and placed so as to be readily accessible to the drivers of the city carts.

OPERA HOUSE.

Opening of the Adele Frost Company's Engagement.

A very large audience of intelligent theatre goers gave Miss Frost a most hearty welcome at the Opera House last night. She played Parthenia, in "Ingomar." She invested the play with a grace and sweetness that was indescribable; but it had the quality of magnetism that always attracts admiration.

Her principal support, Mr. Edmund Collier, was a splendid Ingomar. His transition from the rude barbarian to the gentle civilized citizen was a masterpiece of theatrical art.

Mr. Clement St. Martin played Polydore most effectively.

Every other character was played more than well by this excellent organization.

To-night "Pygmalion and Galatea" will be played, Saturday matinee, "Virginius," and Saturday night, "The Marble Heart."

This engagement bids fair to be certainly a most brilliant and artistic success in every particular.

A Missing Man.

Mrs. H. S. Spivey, Clinton, N. C., writes the STAR, that her brother, Duncan M. T. Autry, a man of unsound mind, not capable of traveling alone, left his home during the absence of the family on Sunday, the 9th instant, for North Carolina, Ga., where he has a sister living, and it is feared that he perished on the way. He was without money and had but a few clothes in a tow sack. His brother-in-law came to Wilmington in search of him, but could find no trace of him here. He was traced to within four miles of the city, and was heard of at Currie's, where he was advised to leave the C. F. & Y. V. railroad track and go through the country. The unfortunate man's family are in deep distress and will be thankful for any information concerning him. He is described as a short stout man with light hair and blue eyes, and had bad teeth.

"Around the World."

The descriptive part of the st-reopticon lecture to be given next Tuesday at the Opera House is from the pen of Rev. C. R. Treat and is concisely and interestingly written. The views are each about eighteen feet square, showing the cities of London, Paris, Venice, Brussels, Vienna, Berlin, Copenhagen, St. Petersburg, Moscow, Rome, Alexandria, Peking, Cawnpore, Yeddo, San Francisco, New York, St. Louis, and many other places in various parts of the world.

Good Prices.

The sale of real estate made Wednesday last by Messrs. Cronly & Morris, auctioneers, is considered by real estate dealers as the best made for many days. There were twenty-four lots, each 32x78 feet, fronting on Front and Second streets, with lot No. 1 upon Queen street, and the lots sold for an average of \$238, the total amounting to \$5,710.

Bright Jewels.

A missionary entertainment will be given at Grace M. E. Church this evening by the "Bright Jewels," the juvenile missionary society of that Church. No admission fee will be charged. The exercises, consisting of recitations, musical selections, and an address by the Secretary, Miss Mamie Alderman, will begin at 8 o'clock.

Mr. Martin Garrick, of Birmingham, Alabama, who is an importation from Elmira, New York, is not happy.

In an idle hour he wrote "not for publication" a most slanderous letter on the people of that section, which was published in the Elmira Star, and now the people of Birmingham have gently intimated to him that there is danger of his being contaminated by remaining among such people and the best thing he can do will be to seek more congenial associations elsewhere.

The Philadelphia American, Republican, thinks that the white people of the South are quite as much in need of Christian influences as the negroes. Well perhaps some of them are, and may need them almost as much as they do up in the protected regions of Pennsylvania where they keep Pinkerton detectives and armed men to prevent the good people from clubbing and shooting each other to death.

The Philadelphia American, Republican, objects to the close grip that Boss Quay has on the State of Pennsylvania, and asks if there is no relief. If the American is really anxious to get out of the grip of the bosses it should labor to make Pennsylvania a Democratic State.

A good many Kansas farmers, who are now burning corn for fuel say that between grasshoppers and protection they will choose the grasshoppers. Grasshoppers come only once a year but protection comes, gets hold with all its claws and chaws away all the time.

The grip proved a bonanza to Dr. Knorr, the German physician who discovered antipyrine. He made over \$1,000,000, the demand being so great, the price running up from \$1.40 an ounce to \$5 an ounce, on which he got a royalty of nearly one half.

Some of the papers which are mad because Chicago got away with the site for the World's Fair, jeeringly remark that Columbus did not discover Chicago. The general impression is, however, about this time, that Chicago discovered Columbus.

Edison made a speech in Indiana the other day while he was in Charlotte. Before leaving home he talked his speech into a phonograph, and the speech was ground out at a convention of electricians, and heard distinctly all over the house.

The U. S. steamer Enterprise, from the European station, arrived yesterday at New York, bringing the body of George H. Pendleton, late Minister to Berlin.

The inauguration of Gov. Boies, of Iowa, was carried out with great enthusiasm yesterday by the Democrats. Visitors were present at Des Moines from all parts of the State.

Austria, Italy, Holland, Switzerland, Denmark and Sweden have accepted the invitation to the Berlin Labor Conference. Neither Prince Bismarck nor Count Herbert Bismarck will attend.

Aby Edited and Always Readable.

Oxford Day.

The Wilmington STAR has donned a new dress, and is pretty as a picture. It is a newspaper which reflects credit upon the city by the sea and the State. It is ably edited and always readable. The new editor has won for it a reputation for wit, with his bright, fresh and delightful paragraph work.

NEW ADVERTISEMENTS.

LIBRARY ASS'N--Lecture. BROWN & RODDICK--Shirts. OPERA HOUSE--Adele Frost. STAR OFFICE--Babbitt metal.

S. H. FISHBLATE--Dunlap hats. MASONIC--Meeting Concord Chapter. THE SANITARIAN--Brooklyn, N. Y. SCHLOSS & CO.--Whips, type writer. OPERA HOUSE--Little Lord Fauntleroy. MRS. H. S. SPIVEY--Inform'n wanted. CRONLY & MORRIS--Bananas at auct'n

The S. S. Excursion to the Sound.

Some two hundred and fifty of the delegates and their friends in the city went down at 3 p. m. yesterday to view the grand old ocean, gather shells along the pebbly beach, participate in an oyster roast and inhale the invigorating sea-air. They cracked jokes, told yarns, sang songs, made love, and everybody seemed to regard the passing hour as replete with peculiar pleasure.

Weather Forecasts.

The following are the forecasts for today: For Virginia, cloudy weather and rain, southeasterly winds, slightly warmer, except stationary temperature in south-eastern portion.

For North Carolina, cloudy weather and rain, cooler, variable winds.

For South Carolina, cloudy weather and rain, southeasterly winds.

OUTLINES.

A number of bills were passed by the Senate yesterday making appropriations for public buildings; the bill declaring trusts and combinations unlawful was debated by Mr. George, who declared it unconstitutional, and that Congress had no power to enact it; in the House the contested election case from the first district of West Virginia was further considered, and a vote being taken Atkinson, Republican, was seated; the Democrats refrained from voting, so that the question of the right of the Speaker to count a quorum may be taken before the courts. The Liquor Committee of the Massachusetts Legislature has reported unanimously against enacting a straight prohibitory law, but in favor of the high license fee. Chicago's World's Fair committee met with a grand reception on their return home yesterday; the streets were lined with people, and a speech was made congratulating them on the success of their mission. A man was executed at Lexington, Ky., yesterday, for murder, who died protesting his innocence. Boston capitalists have bought a large quantity of land in Lexington county, S. C., which is said to be one great body of kaoline, and large pottery works will be erected for making white table ware. A Cincinnati dispatch reports a still greater rise in the rivers, and fears are entertained that railroad communication will be greatly interrupted. A committee of the Senate is endeavoring to find out how the press obtains information of business done in executive session, but so far has made little progress, a number of newspaper men have been brought up, but they have all declined to give information on the ground that it would be a gross betrayal of confidence; the utmost efforts are now being made to keep secret the proceedings. The son of Minister Lincoln, who was thought to be dying Wednesday night, has rallied, after the lancing of an abscess from which he was suffering; his vitality is described as wonderful. The Judiciary Committee of the House has become convinced that irregular practices prevail to a great extent in the circuit courts of the country, especially in the South, and a resolution will be introduced providing for an investigation of the charges. New York markets: Money easy, at 3 1/2; per cent; cotton steady; sales 30 bales; middling uplands 11 1/2-16 cents; middling Orleans 11 1/2-16 cents; southern flour steady; wheat higher with options quiet; No. 2 red 80 1/2-81 1/2 cents at elevator; corn fairly active, 40 1/2-41 and firm; No. 2, 35 1/2-36 1/2 cents at elevator; rosin dull, spirits turpentine nominal at 43-43 1/2 cents.

A party of fruit-growers from Ohio are now down in Georgia spying out the land to see how they like it.

If Mr. J. R. Calhoun starts pickling factories in every town he writes to this will be the best pickled country in the world.

During the last twenty-five years one hundred and thirty national banks with a total circulation of \$15,000,000, have failed.

The most aristocratic cigars now made are the Henry Clays, which come from Havana, and retail at \$1.40 each. They are not generally smoked.

The survey of the first section of the Congo railroad is now being pushed, and when the season becomes favorable for work, a thousand men will be put to work.

Mr. John B. Sherrill, of the Concord Times, has purchased the Lexington Dispatch, and will run both papers. Sherrill will give the Davidson people a good paper.

Oliver Wendell Holmes is studying up a plan to teach the half-witted children in an idiot asylum how to write "poems." Good gracious, are there not idiotic poem writers enough?

The Memphis Commercial remarks that Senator Blair has killed his Educational bill by his "persistent gab." No. It was dead before. He only turned it over, stirred it up, and made it smell a little louder.

The Archbishop of Canterbury has received an epistle from an African chief requesting him to send them more gospel and less rum. That epistle was intended for Boston but miscarried.
