THE MORNING STAR.

VOL. XLV.—NO. 146.

WILMINGTON, N. C., SUNDAY, MARCH 2, 1890.

WHOLE NO. 7,308

RATES OF ADVERTISING. One Square One Day, 100 words, 10 cents; Two Days, 18 cents; Three Days, 25 cents; Four Days, 32 cents; Five Days, 40 cents; One Week, 60 cents; Two Weeks, 1.00; Three Weeks, 1.25; One Month, 4.00; Two Months, 7.00; Three Months, 10.00; Six Months, 18.00; One Year, 30.00.

OUTLINES.

There was no session of the Senate yesterday; in the House the Senate bill providing for an Assistant Secretary of War was passed; the contested election case from the first district of Arkansas was considered, but no vote was reached. The condition of Representative Taubee, of Kentucky, who was shot in the Capitol at Washington, on Friday, is regarded as serious, and a consultation of physicians over the case was held yesterday afternoon. Dr. Norvin Green, President of the Western Union Telegraph Company, made a very lengthy statement yesterday before the House Committee, in opposition to the pending Postal Telegraph bill, and was subjected to very rigid questioning by several of the members, a statement in favor of the Postmaster General's plan was read, after which the committee adjourned. The French Minister of the Interior has resigned in consequence of a disagreement with the Prime Minister. An English mail steamer from Queensland, bound for London, has been last at sea, and it is feared that a large number of persons perished. There has been no change in the condition of Mr. Lincoln's son, but hopes of his recovery are still maintained. The floods in the Western rivers are still rising, and large numbers of people have been driven from their homes; thousands of bushels of corn have been ruined. The dam of the Roberdell mills, in Richmond county, in this State, has been washed away by freshets; a month's time is necessary to repair, and 200 operatives are thrown out of employment. New York markets: Money easy at 4 1/2 per cent; cotton steady; middling uplands 11 3/16 cents; middling Orleans 11 9/16 cents; southern middling 11 1/2 cents; No. 2 red 8 1/2 cents; No. 3 red 8 1/4 cents; No. 4 red 8 1/4 cents; No. 5 red 8 1/4 cents; No. 6 red 8 1/4 cents; No. 7 red 8 1/4 cents; No. 8 red 8 1/4 cents; No. 9 red 8 1/4 cents; No. 10 red 8 1/4 cents; No. 11 red 8 1/4 cents; No. 12 red 8 1/4 cents; No. 13 red 8 1/4 cents; No. 14 red 8 1/4 cents; No. 15 red 8 1/4 cents; No. 16 red 8 1/4 cents; No. 17 red 8 1/4 cents; No. 18 red 8 1/4 cents; No. 19 red 8 1/4 cents; No. 20 red 8 1/4 cents.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted. Spirits turpentine sold yesterday afternoon at 38 cents per gallon. The March term of the Criminal Court will be convened on Monday, the 17th inst. Two new locomotives have been added to the equipment of the C. F. & Y. V. Railroad. U. S. Marshal J. B. Hill has appointed Deputy Sheriff James Elder a deputy marshal. Laura Taylor, colored, was fined ten dollars in the Mayor's Court yesterday for disorderly conduct. The Register of Deeds for New Hanover county issued six licenses to marry the past week—all to colored persons. Wilmington Hook and Ladder Company No. 1 will hold their regular monthly meeting to-morrow evening at 8 o'clock. Interments in the city cemeteries the past week were as follows: One adult and one child in Bellevue, and an adult and child in Pine Forest. The Clyde steamship Fanita has been added to the Wilmington and New York line, and will sail from New York for this port next Tuesday, the 4th inst. A meeting of the visitors of the Ladies' Benevolent Society will be held Tuesday at 4 o'clock p. m., at the residence of Mr. A. A. Willard, on Orange street. A subscriber at Clayton, N. C., remitting his subscription to the STAR, says: "Send it on; it gives me more news than any other paper. I can't do without it." The photographs, lecture, and oxy-hydrogen lights to be used at the Opera House next Tuesday night, have been brought from New York especially for this occasion. Vice President Morton will leave Washington for Florida on the 10th inst., via the Atlantic Coast Line. The Mayor and City Council of Charleston, S. C., have invited him to stop in that city. The Harbor Master's books show the arrival of only 28 vessels during the month of February, with an aggregate tonnage of 11,795. Of the arrivals, four were steamers, nine bargues, two brigs, two barquentines, and eleven schooners. Tourist travel to Florida this season has been a failure; notwithstanding the phosphate boom. But it is said that if the travel increases for the next two or three weeks as it has for the last week or two, the season will have been a pretty fair one. The Synodical Evangelist, Rev. W. D. Morton, will meet the two Presbyterian Churches of this city in St. Andrew's Church to-night at 7:30 o'clock. An interesting account of his labors and of the field is expected. The public is cordially invited. Mr. C. B. Lashlie, night yard master of the A. C. L., who was knocked over from a freight car while passing under Front street bridge last Friday evening, received a severe cut in the head, but was not seriously injured, and will probably be all right in a few days.

LITTLE LORD FAUNTLEROY.

A Charming Play to be Given at the Opera House To-morrow Night. "Little Lord Fauntleroy," who will make his bow to a Wilmington audience at the Opera House to-morrow night, has already acquired a world-wide fame. Almost everybody has read Mrs. Burnett's story, and has heard of the success of the drama. Of the play itself it is difficult to say anything that is new. Mrs. Frances Hodgson Burnett's book is so well known, has been so well liked, and has grown so popular, that it is now a table volume along with Shakespeare, Webster and the Bible. In the dramatization of her own story Mrs. Burnett has not detracted one iota from its interest. She introduces all her people. All the characters step from the pages of Mrs. Burnett's book to the stage and tell her story for her. It is a beautiful story of love and tenderness, a lesson for every child in the land. Mr. Jas. Brady, the manager, says of the company, "Our 'Little Lord Fauntleroy,' for we have two of them who alternate in the title role, are two winsome little Misses. Flossy Ethel is 9 years old, a Canadian child, and as pretty a girl as has ever been pictured on canvass. She bears the true patrician imprint on her features, and her head is crowned with gold. Georgia Cooper, who plays at the matinee, is the youngest of all the Fauntleroys. She is, as she says in her lines, 'I'm just 7 you know,' and she stands about knee-high to a pony. As for the company, I will only say that I have yet to read a sentence or hear a word that was not written or spoken in its entirety. I do not think that, taken in its entirety, there is a better one travelling. It is, and I say it with-out hesitation, up to the standard of a well organized metropolitan stock company."

OPERA HOUSE.

The Adele Frost Company's Engagement. Miss Adele Frost closed her engagement here last night, and on the whole it was a most satisfactory one. At the matinee, "Virginius" was presented in a manner which was most enjoyable and entertaining. Last night the "Marble Heart" was played, and in this the company had ample opportunity to show that notwithstanding the Lenten season cheap rates and their undoubted merit were appreciated, for they had a most respectable audience. The company is a good one, and fully deserved all the kind words that were spoken of them. COLD WEATHER EXPECTED. Predictions of Snow—A Cold Wave Steadily Advancing. The cantionary northwest storm signals were displayed here yesterday at 11:15 a. m. Snow was predicted with much colder northwest winds. There was no snow up to midnight, however, though the temperature was much lower than during the day. A special bulletin issued by the Signal Office and received last night said: Temperature reports this morning show that the opening day of spring temperatures are the lowest ever known from New Orleans to Brownsville, Texas, where freezing temperatures prevail, and northward to Keokuk and Des Moines, where a temperature of minus eight degrees was reported. The temperatures over Louisiana, Arkansas and eastern Texas range from four degrees to thirteen degrees lower than ever before. The line of lowest temperature ever known for this period of the year has moved eastward about fifty miles, and severe frosts have already occurred in Georgia. It is remarkable that the first day of spring shows along the Gulf Coast, from Western Florida to Southern Texas, colder weather than has been known for the winter, and similar conditions will doubtless obtain for to-night and Sunday from the northern half of Florida to Maryland, and possibly to the North. Temperatures of reasonable warmth cannot be looked for in the Atlantic States before Tuesday. An Early Morning Fire. The fire yesterday morning about half-past one o'clock, for which an alarm was sent in from box No. 41, was in a frame dwelling owned and occupied by H. A. Walker, colored, on Nun between Sixth and Seventh streets. The fire originated in the kitchen attached to the dwelling, and the damage will not exceed \$75. There was insurance on the house for \$100 and on the furniture for \$40, with Mr. M. S. Willard's agency. An Outrage. One of the street-car drivers reported last night that a pistol shot was fired at the car on Campbell street, between Fifth and Sixth, about 9 p. m. No one was hit but the ball whistled in close proximity to persons standing on the rear platform. Two policemen gave chase to the man who fired the shot, but he escaped. There are no lights in the vicinity with the exception of an oil lamp at Fifth and Campbell streets. Building Permits. Forty-four building permits were issued by the city authorities during the month of February. A fact which shows that "houses are going up in all parts of the city." Most of the structures are small frame houses, and many of them are in the southern section of the city. Weather Forecasts. The following are the forecasts for today: For Virginia, light snow, colder, northwesterly winds. For North Carolina and South Carolina light snow, colder, northwesterly winds.

NEW ADVERTISEMENTS.

We Have Often Heard IT SAID THAT SOUTHERN PEOPLE ARE too slow to catch on to a good thing—Wilmingtonians are certainly an exception. Both observation and experience have taught us that they are quick to avail themselves of an advantage offered, which fact is proven by the hearty response given to the Advertisements of BROWN & RODDICK. Each week we tell the people what we have in the way of Bargains. They always grasp the opportunity and have become so accustomed to it that now they are always ready, waiting and expecting our announcements in prices, consequently all we have to do in this issue is simply to suggest to them the fact that Domestic, Sheetings, Bleachings, &c., Can now be had of us at alarmingly low prices, and we will be sure to have a rush. A few of the well known brands we carry in stock are the Forest Mills, Sunflower, Bound to Win, Fearless of Competition, Androscooggin, Hill, Masonville, Fruit of the Loom, Wamasutta, Lonsdale, Pride of the West, New York Mills. Our entire WHITE GOODS department is now complete with the very best grades and at a most special attention. Come and see us. BROWN & RODDICK, No. 9 NORTH FRONT ST. LITTLE LORD FAUNTLEROY. JUST RECEIVED—ANOTHER LOT OF MIL-linery, New Gowns, Hats, Ribbons and Feathers at MRS. E. M. STOCKS, feb 25 2w. No. 10 Front street.

Well diggers in Wisconsin at a depth of thirty feet have struck a buried forest. If they keep on digging perhaps they will find the man who first nominated Harrison for the Presidency. Citizen George Francis Train is going to start from Tacoma, on the 17th inst., on his race around the world. George will get around in good time if he don't stop to make too many speeches, or break into jail somewhere. Emin Pasha says he is resolved to go back into Africa and recover the equatorial provinces in the interest of Germany. Emin should be careful. If he gets back there again Stanley might not be around to lead him out. Some Congressman has introduced a bill to appropriate \$25,000 to erect a monument over the remains of General William Henry Harrison, at North Bend, Ohio. This Congressman has something in his eye and wants to make himself solid with the grandson of his grandfather. The Hendersonville Times, Republican organ, pathetically exclaims: "We must have discipline in our ranks." There is entirely too much kicking and scratching and gouging around the trough. There should be more discipline, by all means, for decency's sake if nothing else. A New Jersey legislator who had a bill to prohibit the sale of liquor to minors, argued that their sons should be protected from being debauched until they grew up and were sent to the Legislature, and then the Legislature, to show that it appreciated his humor, turned round and killed his bill. A short while ago a Kansas town had a pitch battle about a railroad election, and now two towns, one of them called Ingalls, are shooting each other all full of holes about the location of a sugar mill. This is a sweet business. If Mr. Ingalls don't hurry home and have the rot act read Kansas will exterminate herself. It has been discovered by government officials that Chicago wholesale liquor dealers are in the habit of watering and doctoring their whiskey. Large quantities of this stuff have been seized, and the sellers say it is necessary on account of the great competition in that business. If this had been discovered before the site of the World's Fair had been settled that brilliant Kentucky Congressman would not have been so enthusiastic in his advocacy of Chicago.

The Brightest and Best. Goldsboro Dispatch. THE MORNING STAR, of Wilmington improves with each issue. It is the best daily, but the brightest and best in the State. NEW ADVERTISEMENTS. GEO. A. PECK—Lanterns. STAR OFFICE—Babbitt metal. MEETING—Hook and Ladder Co. SMITH & BOATWRIGHT—Insurance. J. J. HEDRICK—Regardless of cost. MEETING—Wil. Sav. and Trust Co. H. L. FENNEL—Harness, saddlery. BROWN & RODDICK—More bargains. SAM'L BEAR, SR.—Real estate for sale. J. H. HARDIN—Handkerchief extracts. I. SHRIEK—Little Lord Fauntleroy suits. C. S. & MURCHISON—Cotton planter. C. M. HARRIS—Newspapers and cigars. Safe Guard for Car-Trucks. A very pretty model of an "air-brake safe guard" for railroad car-trucks, designed and patented by Capt. Edward Evers, was shown a reporter of the STAR yesterday. It is an appliance intended to be placed on the bottom of car-trucks to prevent the train from being derailed should the wheels from any cause leave the track, the air-brake acting automatically in such an emergency through pressure of the safety-guard on the rails. It seems to be an excellent device, simple in construction, and we learn is regarded with much favor by railroad men. Police Court Records. The total number of arrests made by the police during the month of February is 109—twenty-two white males, twenty-two colored males, one white female and twenty colored females. The court fines for the same period amount to \$245.48 and the pound fees to \$5.28. Six applications were made for lodgings at the City Hall; seven places of business were found left open, and eleven alarms of fire were reported by railroad men. Local Cotton Movement. The receipts of cotton at this port the past month, amount to 5,524 bales; receipts the same month last year were 5,948. For the crop year, to March 1st, the receipts are 180,657 bales, as against 145,491 to the same date last year, showing a decrease of 15,139 bales. The stock at this port is 11,189 bales; at same date last season, 5,238 bales.

SUNDAY SERVICES.

Services at St. Paul's Episcopal Church to-day at 11 a. m. and 7:30 p. m. Sunday school at 3 p. m. Seats free at all services. The services in St. Paul's Evangelical Lutheran Church, corner Market and Sixth streets, Rev. F. W. E. Peschau pastor, to-day, will be in English at 11 a. m. and at 7:30 p. m. in German. All are welcome at the services. Services to-day at the Second Advent Church, on Sixth street between Church and Castle, at 11 a. m. and 8 p. m. Sunday school at 3 p. m. Services in St. John's Church to-day at 7:45 and 11 a. m. and 7:45 p. m. Sunday school at 3:30 p. m. Brooklyn Baptist Church, Rev. R. E. Peelle, pastor. Preaching to-day at 11 a. m. and 7:30 p. m. Sunday school at 3:30. The public is cordially invited to attend all the services. NAVAL STORES. Comparative Statement of Receipts and Stocks at this Port. Receipts of naval stores at this port for the crop year—from April 1st to March 1st—as compared with receipts for the same time last year, are as follows: Spirits turpentine, 64,827 casks; last year, 61,322. Rosin, 257,548 barrels; last year, 246,731. Tar, 65,826 barrels; last year, 54,358. Crude turpentine, 18,992 barrels; last year, 20,241. Stocks at this port March 1st, as compared with stocks at same date last year, are as follows: Spirits turpentine, 3,806 casks; last year 1,125. Rosin, 23,663 barrels; last year, 90,050. Tar, 5,224 barrels; last year, 6,888. Crude turpentine, 1,724 barrels; last year, 436.

BUILDING LIGHTHOUSES.

The Work to be Accomplished on Hatteras Shoals—Feasibility of the Project. Building a lighthouse on Hatteras shoals does not seem such a mighty task after all, in view of what has been accomplished in other parts of the world. Mr. Eduard Peschau, German Imperial Consul at this port, showed a reporter a day or two ago a descriptive pamphlet, photographs and drawings of the Rother sand Lighthouse, off the mouth of the river Weser, in the North Sea, some sixty miles from land, where the conditions as regards difficulties to be encountered were much the same as will be met at Hatteras. The Rother sand light house stands in water, thirty feet deep at low tide. It was built at a cost of \$53,000 marks, (something over \$200,000)—its construction was begun in 1852 and the work was completed in 1855. The details of its building are interesting, the engineers having encountered many difficulties, which were, however, happily surmounted. An immense iron caisson was sunk in the sand to the depth of thirty feet to form the foundation, and this was filled with solid masonry built up to low water mark. The total cost of the lighthouse which it is proposed to erect on the Diamond shoals at Hatteras, is limited by Congress to \$500,000. The locality is one of the most exposed on the coast. At low tide the reef is covered by about 24 feet of water, the rise and fall of the tide at the site being about one and a half feet, and the current velocity is estimated to be about four knots per hour after rough weather. The surface of the shoal in the vicinity of the proposed site is composed of fine gray sand and broken shells. The specifications require the lighthouse tower to be an enclosed structure which must stand vertically and be 150 feet high from the low water mark to the focal plane of the lantern. The foundations are required to be solid and massive to withstand the impact of the waves. The first floor of the structure must be thirty feet above high water mark and large enough to contain thirty tons of coal, six cords of wood, eight thousand gallons of fresh water and three lifeboats. The whole structure must be fireproof and the stairways so arranged that should fire break out on one floor it could not be communicated by them to any other floor. After the lighthouse shall have been completed the contractor will be required to maintain the station in strict accordance with the regulations of the service for one year. At the expiration of that period, if all the agreements between the contractor and the government have been carried out satisfactorily, the light station will be accepted and paid for. Street Obstructions. The hose reel of the Atlantic engine was overturned at the fire yesterday morning on Nun street between Fifth and Sixth, by running against a large stump standing near the centre of the roadway. The driver of the reel—Mr. Jas. Hewett—was thrown off but not hurt. The horse, "Dick Jones," and the reel were both injured, however, and Chief Newman's horse "Dennis" was used to pull the hose-reel back to the engine house.
