"For many years I was afflicted with serofulous running sores, which, at last besame so bad the doctors advised amputating one of my legs to save my life. I began taking Ayer's Sarsaparilla and soon saw an improvement. After using about two dozen bottles the sores were healed. I continue to take a few bottles of this medicine each year, for my blood, and am no longer troubled with sores. I have tried other reputed blood-purifiers, but none does so much good as Ayer's Sarsaparilla." -D. A. Robinson, Neal, Kansas. Don't fail to get

WHAT ARE ORCHIDS.

A Curio of the Vegetable World That is Worth Fabulous Sums. Boston Advertiser.

What are orchids. A plant whose home is in the tropical forests, and yet a plant which is not dependent for its sustenance upon the earth or water in their visible forms. It is a curiosity of the vegetable world, which, perched in the air, sends ont its long, searching roots and draws its nourishment from the atmosphere. Ethereal in its nature, so far as this characteristic is concerned, it is very substantial in the valuation which its owners and raisers place upon plants of rare varieties. The experts in this branch of horticulture say that some fine roots are well worth \$5,000 each, and some have held at even higher figures. Their rarity, the difficulty with which they are propagated, the exquisite delicacy, strange forms and great variety of blossoms are the reasons given for these extraordinary values. Before the window of a Tremont street florist, not far from Park street Church, yesterday a throng was gathered to look upon a cluster of these flowers, which just now occupy so high a place in the popular mind. Strange in form, of a delicate, pearly, waxy whiteness, daintily lined with pink or purple, they presented an unusual sight even to those unacquainted with their rarity and their costliness.

A Gallant Young Chinaman.

A secretary of the Chinese embassy in Washington, says the Post, was introduced to a lady, who, among other questions, asked him: 'What virtue do you most highly prize in your women?" "The virtue of domesticity," was

"Then you do not like your women to move in society much?" she

questioned. "Not at all. Our law even recog-

nizes cause for divorce when a woman-pardon me, madame-is inquisitive and talkative." "Then I would be in danger of be-

ing divorced if I lived in China?" smilingly asked the lady. "The very day that my country

would have the luck to possess a womanly being like you," replied the gallant son of the heavenly realm, "every cause of divorce would be removed from the world."
