OUTLINES.

Vice President Morton occupied the chair in the Senate yesterday, after a two week, absence; a large number of petitions were presented and referred; a a soldiers of the war of 1812. ninetyeight years old, from \$8 to \$50 per month: Mr. Voorhees made a lengthy speech in favot of the resolution offered by him on Monday, relative to relief for the farming interests and laboring men of the country, and presented a formidable array of legislative evils from which these classes are suffering, and predicted that the hand of the farmer would not hold the Republican ticket at the next Presidential election: he was cheered on the floor and in the galleries; Mr. Pierce. of North Dakota, made a speech in opposition to the Educational bill, and Mr. Evartsone in favor of it, in the House a remonstrance was presented from the business men of Philadelphia against an increase of duty on lemons and oranges; the Maryland contested election case was discussed, and pending a vote an adjournment took place. - Prince Bismarck, in tendering his resignation to the Emperor, alleged that old age and failing health were his reasons for desiring to withdraw from public life; it is said that Count Von Capreyi, of the Eighth Army Corps, has been appointed to succeed Prince Bismarck, has been placed in the hands of a receiver; it has paid no interest on its indebtedness since July 1st, 1888, which now amounts to nearly \$350,000; the road runs through a sparsely settled country, and has been unable to earn revenue sufficient to meet its interest accounts. - Secretary Tracy made a thorough inspection of the Norfolk navy yard yesretary Proctor for the protection of the Mississippi river levees, making the total

allotment \$170,000. -The Presideat has gone on another duck shooting excursion on Chesapeake bay. --Cied. Von Caprevi, the new German Chancellor, has also been appointed President of the Prussian Ministry. -Count Herbert Bismarck persists in resigning his post of Imperial Foreign Minister. -- The strike of dock laborers in Liverpool is practically ended. - The strike of English coal miners is causing a great stagnation in many branches of industry; many mills have been compelled to close; some of the mine owners have acceded to the demands made by the strikers. ---

New York markets: Money easy at 314 was per cent; cotton easy: middling uplands 113 cents; middling Orleans 115 cents; southern flour dull; wheat firmer but quiet: No. 2 red 8814 @881/2 cents at elevator, corn weaker and dull: No. 2, 361, @364 cents at elevator; rosin steady; spirits turpentine steady.

The French Cabinet has resigned, and from the easy, matter-of-fact way in which the French people take it, it would seem that they are resigned, too.

Dr. Talmage is said to make \$50, 000 a year and let Mrs. T. run the cash drawer. This is very clever in him and shows that he has confidence in her ability to drive a bargain.

Charles Howald of Buffalo, N. Y. committed suicide because he said his wife preferred the company of her neighbors to his. He should have become one of her neighbors.

A New York doctor says that everybody ought to live to be a hundred years old. Well, not everybody. Think of Ingalls, Blair and Chandler living to be a hundred years old.

About the only evidence so far developed that Republicanism is making any progress in the South, is the fact that a half-dozen Southern State treasurers have defaulted within the past few years.

Paul Schmit, who committed suicide in Ohio a few days ago, was a baron in disguise. He wore the Schmit as a disguise. There is one less of the barons, but the Schmit tribe remains undiminished.

The Senate passed public building bills, Tuesday, calling for \$1,285,000. The Senate seems to be going into the building business pretty extensively. It had better organize itself into a Building & Loan Association.

The Mobile News refuses to support Mr. Kolb for Governor because he holds railroad passes and says he pays his fare A man who holds railroad passes and pays his fare, it doubtless concludes, hasn't got gumption enough to be a Governor.

THE MORNING STAR.

VOL. XLV.--NO. 155.

Congressman Lawler, of Chicago,

WILMINGTON, N. C., THURSDAY, MARCH 20, 1890.

WHOLE NO. 7,323

wants the spelling of the English language changed so that a fellow won't have to be lugging in so many

superfluous letters. He thinks the word photograph, for instance, noon. should be spelled "fotograf." This bill was passed increasing the pension of | change would doubtless be convenient for many Congressmen, but there is nothing in the world to prevent Congressmen from spelling any way they want to.

John Paulsuk, a Hungarian in Pennsylvania, got tired of this country and pined to return to his native heath, but was short of the wherewithal to buy a ticket. A happy idea struck him. He had a cow and a wife. He struck a brother Hun who wanted a cow and a wife and clinched a bargain at \$82 for both. The purchaser the wife and the cow were satisfied and he went on his way rejoicing.

An enterprising citizen of a cold water town in New York advertised a beverage of his own decoction as "hop soda," and had a big run on it. It was found that this "hop soda" would make the man who imbibed it too freely hopping drunk. Analysis showed that it was nothing more nor less than beer, and now the en-The Florida Southern Raffroad terprising citizen is in the clutches of the Internal Revenue officers.

A contribution of sixteen dollars went into the conscience fund at Washington a few days ago, sent from Charlotte, in this State, by some one who signed "My Conscience." The question is, who could it have been? for there are not more than terday. -An additional expenditure one or two Republicans anywhere of \$50,000 has been authorized by Sec- about the Hornet's Nest who were ever suspected of having a con-

> The St. Louis Globe-Democrat, Republican, after interviewing 1,626 farmers in Missouri, Illinois and Kansas, has come to the conclusion that what the farmers out there are suffering most from is a want of capital. When we come to think that Kansas farmers are burning corn because they can't afford to buy coal it does look that way.

Corn is cheap in Minnesota, but they don't allow a colored citizen up there the privilege of stealing it. When they suspect him of doing that they don't wait till he acknowledges the corn, but just gather around some night and make a bonfire of his house. They seem to think that hints like this discourage undue familiarity with corn cribs.

An Ohio Legislator who has got tired sitting up of nights with a double-barrel shot gun keeping guard over his hen roosts has introduced a bill in the Legislature making robbing a hen house burglary. If he will now supplement this with another bill making burglary a capital crime maybe his pullets won't have to roost so high.

A Stone-Crusher Wanted. Mayor Fowler has been making inquiry with regard to the cost of a steam stone-crusher to be used for permanent street improvements. It was learned from him yesterday that a suitable machine with boiler and engine complete

will cost \$3,200. It is probable that the matter will be considered by the Board of Aldermen at their next meeting. Stone in quantities is readily available, and its utilization by the mode proposed would be comparatively inexpensive and would give good permanent roadways wherever applied.

Weather Forecasts.

The following are the forecasts for to-

For Virginia, fair weather, westerly winds, warmer. For North Carolina and South Carolina, fair weather, stationary temperature except on coast, warmer. westerly

For Georgia and Florida, fair weather, variable winds, stationary temperature.

Mayor's Court. David Moore, colored, driver of a hose reel, charged with fast driving, was fined \$10 in the Mayor's Court yester-

Wm. Mitchell, colored, disorderly. Judgment suspended.

LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted.

- New moon at 3.47 this after-

- Spring commences to-day, so the almanacs say.

- Repairs are being made to the wharf at Messrs. Robinson & King's naval stores yard, front of Orange street.

- Col. A. M. Waddell is announc-

ed as one of the speakers at the Sub-Tropical Exposition at Jacksonville, Fla., on Carolina Day. - A meeting of the Carolina Yacht Club will be held this evening at

8.30 o'clock at the City Hall, for election of officers, etc. - There will be a meeting of committees having in charge arrangements for the merchants' excursion, this even-

ing at 7.30 o'clock, at Col. F. W. Kerch-

ner's residence. - Rev. W. S. Creasy will preach at the Methodist Mission, corner of Princess and Eighth streets, this evening at 8 o'clock. The public is cordially invited to attend.

- A grand masquerade ball was given last night at Concordia Hall, by our Jewish fellow citizens. It was largely attended and the dancing was kept up until a late hour.

- Mr. P. C. Enniss, of Raleigh, N. C., representing Edwards & Broughton, printers and blank-book manufacturers of that city, was a visitor at the STAR office yesterday.

- Schooner Eva A. Danenhower arrived at Providence, R. I., from this port, reports that on March 9 experienced a heavy gale off Hatteras which strained the vessel, causing a leak. Part of the cargo was thrown overboard, and pumps had to be kept going day and

New York Prices for Truck and Other

G. S. Palmer, commission merchant 166 Reade street, New York, reports: The severe frost in Florida and the South is having serious effects in the receipts of new vegetables, and prices are generally ruling high, except on cabbage, which has now been so much damaged; Florida \$3.00 to \$4.00, and North Carolina and South Carolina, \$2.00 to \$2.50, and a few fancy marks up to \$3.00, and the outlook is favorable for choice stock, but I would advise hurrying it forward. A few South Carolina peas arrived yesterday and sold from \$5.00 to \$6.00 a crate; lettuce \$2.50 to \$4.00 per bbl; radishes 50 cents to \$1.25 per 100. Receipts of eggs have largely ncreased, and aggregating for the week 27,705 bbls, and selling at 14 cents; duck 27 cents. Poultry of all kinds in good demand, selling at remunerative prices. Export demand for evaporated apples nd other dried fruits has caused a general advance in all lines; sun-dried apples 31/4 to 5 cents; peaches 8 to 11 cents; cherries 9 to 12 cents; blackberries 31 to 5 cents; huckleberries 10 to 11 cents.

The Rice Crop.

Advices from various parts of the rice belt in the Carolinas indicate that the planters are further ahead with their crops than ever before. The fair weather which has prevailed during almost the entire winter has given them ample opportunity for getting the crop planted, and they have taken advantage of it everywhere.

The Charleston News and Courin says there is a large demand there for seed rice, and it is a significant fact that the farmers are asking for a much better quality of seed this year than usual. They do not seem to desire to plant any inferior qualities, although all grades are in great demand.

So far the prospect for the crop of 1890 is very encouraging, and the indications are that it will be one of the largest made in many years.

Yachting Gossip.

The Charleston News and Courier speaking of the yachting season as promising to be of more than ordinary interest there this year, says: "It appears to be quite impossible to get Wilmington into the race. This city, it seems, builds only cat boats for yachting purposes, and such crafts are not admitted into the contests here. A very enthusiastic Wilmington yachtman called upon the vice commodore of the Charleston Yacht Club yesterday and talked over matters marine and otherwise. It is hardly likely that the Wilmington people can build new ships before the 1st of May. They will, therefore, as the politicians say, be practically out of the race. In due time, however, a Wilmington fleet may be expected in Charles-

Information Wanted. Archie Brinkley died at Auburn, California, in September, 1889. He left a sister who is supposed to be living in either North Carolina, Virginia or Georgia. There is about \$1,000 of the estate which is due her, and the administrator, W. B. Lardner, would like to be put into possession of information concerning her. Brinkley was a Confederate soldier, and had lived in California about CRIMINAL COURT.

A Summary of Cases Disposed of Yesterday-A Case of Great Interest to Fire-In the Criminal Court yesterday the

following cases were disposed of: The grand jury having returned not a true bill in the case of Wm. Myers, colored, charged with arson, the defendant was discharged from custody.

Thos. Holden and Son Loftin, colored, assault and battery. Guilty; judgment three months in House of Correc-

Richard Thomas, colored, convicted of assault and battery on his wife, was sentenced to six months in the House of Correction. Wesley Watson, colored, convicted of

assault and battery with a deadly weapon, six months in the House of Correction.

Owen Bizzell, colored, convicted of the larceny of a cow, four years in the State penitentiary.

Tim Davis, a colored boy, convicted of the larceny of a small sum of money, fined one dollar and the costs, and the County Commissioners empowered to hire out the prisoner for the amount of fine and costs.

The case of David Moore, charged with fast driving, (brought on appeal from Mayor Fowler's Court), was called, Solicitor Moore explaining that there was no other jury case for trial, but

Marsden Bellamy, Esq., counsel for the defendant, objected to the case being called and explained that the case had not been in the court twenty minutes, and as counsel, he (Mr. Bellamy) had not had opportunity to look into it. The defendant, Moore, was the driver of a fire engine and the case involved some very important questions-one of which was, whether there is a Chief of the Fire Department in law; next, whether there is an order restraining the driver of an engine or hose reel from driving faster than at a trot on streets east of Fourth street; and further, that this is not an indictment under the city ordinance prohibiting fast driving.

Solicitor Moore read the warrant showing that it was for fast driving, and the Court asked, if the Mayor gave instructions to the drivers of fire engines what difference did it make about the Chief of the Fire Department.

Mr. Bellamy said that whatever the aspects of the case might be the defendant was not ready this evening for trial He (the counsel) had not seen the defendant; he was representing the Howard Relief Fire Engine Co., by whom Moore was employed as driver. Mr. Bellamy urged that there were points involved that the community were deeply interested in and that the trial should be postponed.

The Solicitor said that the State was ready for trial; that the only object was to impress upon drivers of hose reels and engines the necessity of obeying the order, which was issued by the city authorities to save the horses of the Fire Department, several of which had been injured by fast driving.

After further discussion the Court said the case would be continued for defendant until the May term, and the witnesses were called and recognized; defendant being required to give bond for his appearance in the sum of fifty dol-

[As stated, Moore is driver of the hose reel of Howard Relief F. E. Co. No. 1. He was fined ten dollars in the Mayor's Court yesterday for fast driving and appealed. It was in evidence before the Mayor that defendant, turning out in response to the alarm Monday night, drove at a trot from the engine house on Fourth to Campbell street, but when he turned up the latter street, ran his horse to Sixth street.]

RIVER AND MARINE.

- Schooner St. Johns, of Belfast, Maine, from Jacksonville to Baltimore, with a cargo of lumber, is reported ashore four miles above the life saving station at Hatteras Inlet. Seven of the crew were saved, but one, Henry Saunders, was drowned. The vessel is full of water and is a total loss.

Commander Geo. W. Coffin, Naval Secretary of the Lighthouse Board, passed through the city yesterday on his return to Washington from a tour of inspection of the light houses of this district. He is represented as expressing the opinion that Congress will allow the appropriation of the money needed to replace the old lightships and signals at Martin's Industry and Frying Pan Shoals. The new signals will be steam whistles, which will be placed on board of lightships of composite construction and on models which were selected after careful study of the plans of nearly all such ships in use.

Storm Warning. The signals were displayed yesterday afternoon in compliance with the fol-

lowing order from Washington:

WASHINGTON, March 19th. Observer, Wilmington, N. C .: Hoist cautionary northwest signals at 2 p. m., Wilmington section. shifting to colder northwest.

WILMINGTON AND THE WEST. Connection with Hendersonville via the

Carolina Central-The French Broad Valley Road. A correspondent of the Charlotte Chronicle, writing from Hendersonville,

N. C., says the people of that place are rejoicing at the prospects of the completion of the French Broad Valley Railroad, to which the county voted some weeks ago a subscription of \$100,000. Already, the correspondent says, Maj. H. M. Ramseur, the civil engineer of the corporation, has begun work, and that it will be rapidly pushed to completion is shown in the fact that surveys have been already made for the greater portion of the line, and the entire route will be located within the next few weeks. With the completion of this road Henderson will then have quick connection with Charlotte and Wilmington, and other points east, and in the near future will be, and deservedly so, the "Queen City" of Western North Carolina.

That the Carolina Central will connect with the French Broad Valley Railroad at Ready Patch Gap is beyond dispute, for this gap is the lowest point in the Blue Ridge chain of mountains, and when the connection of these two roads shall have been made, we will have the true line from the coal fields to the coast, from Wilmington to Hendersonville, down the French Broad river, passing Asheville on to Bristol-a road with the best grades that can be had.
