WILMINGTON LIBRARY ASSOCIATION

A New Feature that will Enlarge it Sphere of Usefulness.

Through the request of the Library Association Directors and the personal application of our Congressman, Col. Rowland, the Library has been placed upon the special list of governmental depositories of public documents. This means that the Wilmington Library will regularly receive in future all the specially valuable Smithsonian, geological, ethnological, agricultural, educational and coast survey reports of the government, in addition to many other books of less importance. This is only one out of many late improvements in our Library

A representative of Lovell's New York publishing house, visiting the rooms last week, remarked that, except in size, the Library rooms were as attractive and as well equipped as any library in Baltimore. The ladies-married and single-and young men should visit the Library rooms and see what is offered them.
