CHARLOTTE'S CELEBRATION.

Firemen's Contest-The Atlantics of Newbern Victors in the Engine Trial-Greensboro Awarded the State Championship Medal.

Charlotte News. May 22d. To-day's programme, while not so

laborate as yesterday's, was decidedly interesting, consisting of engine contests. The contest took place from the cistern in front of the court house, and was between the Newbern and Monroe engines. Both engines are of the Silsby make, and are beauties as well as superb work. Both were fired up at the same-time, and at three minutes and twenty-seven seconds from the time smoke appeared from the stack of the Atlantic engine, of Newbern, that engine threw a stream fifty feet. An exhibition of water throwing then followed, and it was a pretty sight to witness. Monroe's engine did some fine work and spit just a little bit further than Newbern's. After that there was an exhibition hose reel race by the Rescue company of Raleigh. The distance was 300 vards. The first run was made in 60 seconds and the second run in 56

There was somewhat of a row over the awarding of the State championship medal yesterday afternoon. The judges decided that Greensboro had won it, while Raleigh disputed the decision and held to the medal. It is a gold medal costing \$150 and was offered by Raleigh Last year Raleigh won it. She claimed to have won it yesterday. The rule is that the company that wins it three times is to keep it. This explains Raleigh's anxiety about the matter. In the face of the judges' decision Raleigh's team left this morning and carried the medal with them. To-day the judges met and decided finally that the medal was won by Greensboro and Raleigh was telegraphed to to send the medal to the Greensboro team,
