A Vessel Wrecked.

The Signal Service observer at Southport reports the total loss of the Dutch barque Pauline, last Saturday on the coast about 35 miles below Southport. The master of the vessel came up to Southport Sunday. He reports that the Pauline was on a voyage from Apalachicola, Fla., to a port in Holland, with a cargo of square timber. She sprung a leak last Saturday, became unmanageable and went ashore in Long Bay, S. C., two miles south of Cherry Grove. She went ashore at high water, under part sail, and is hard and fast. She had five feet of water when she struck and is now full. The vessel will prove a total loss, but some of the cargo may be saved, only at great cost, however. The Pauline is a vessel of about 575 tons.

The Blackfish Excursion.

Owing to a misunderstanding, the report having gained currency that the Sylvan Grove would make no trip yesterday, the Monday excursion to the Blackfish Grounds was not so well attended as usual. Those who did go, however, had rare sport, catching a very large number of fish, many of them unusually fine. Those who went to "The Rocks" also had good luck. Although the crowd was small Capt. Harper was just as attentive and accommodating as he would have been had the boat been filled with fishermen. There will be another of these popular excursions next Monday. One of the incidents of the trip yesterday was a magnificent waterspout at sea, which was seen from the Grove at a distance of about four miles.

Pender Democratic Convention.

The Democrats of Pender met in convention at Burgaw, July 4, for the purpose of sending delegates to the State, Judicial and Congressional Conventions. The Convention was called to order by J. T. Bland, Esq., Chairman of the County Executive Committee, and duly organized by electing Mr. W. M. Hand, of Burgaw, permanent Chairman, and R. J. Durham, Secretary.

The following resolution was adopted: Resolved. That we, the people of his

county, his lifetime associates and friends, have watched the career of Chas. W. McClammy with delight and pride that his able opposition to the taxing of agricultural products at the behest of millionaire manufacturers, as set forth in the minority report upon the pure leaf lard bill; his stern resistance to the newly attempted demonetization of silver by despot Reed and his followers, both by vote and speech; his satirical speech upon the McKinley tariff bill, with which a continent rang; his tribute to the gifted Cox, in which he showed himself to be the peer of the most eloquent orators who laid upon that immortal grave their wreaths of immortelles: his bill to loan money to our toiling people at the lowest rate of interest, and thus admit them to the exclusive privileges so long enjoyed by the banks and moneyed classes, at the same time providing a fund for the education of the rising generation and furnishing a volume of legal tender currency sufficient for our business needs, thus giving higher values for products so long below the cost of production, enabling us to pay our indebtedness in money of a value like that in which it was created, a mea-

McClammy as our only choice for Congressman from the Third North Carolina District. The delegates to the Judicial Convention were instructed to cast their votes

as a unit for Hon. E. T. Boykin, of Sampson county. The number of delegates to which the county is entitled were appointed to the State, Congressional and Judicial Conventions.

The following are the delegates to the State Convention: T. J. Armstrong, G. H. Bryant, J. F. Moore, L. C. Powers, T. J. Lee, J. C. Broadhurst, J. D. Lewis,
